Requirements Title: Cyber Security Support Services (C3S)-Operations	
Description: Updated 11/3/2022 - USCIS will require vendors to recertify that they are currently an active 8(a) vendor under the GSA HACS contract vehicle for this requirement with quote submission. Please see the Change Log for other updates made prior to 11/3/2022. USCIS has a requirement for Cyber Security Support Services (C3S)-Operations that will procured utilizing GSA HACS SIN 54151. The C3S-Operations contractor will have a primary responsibility to provide the ability to identify, protect, detect, respond, and recover from cybersecurity threats and incidents. This ability will require highly specialized skill sets with significant experience and the ability to provide ongoing best practices. The limited number of available Government staff with these skill sets make it essential to find commercial sources to supply these services. Commercial sources should also able to provide cutting edge cybersecurity industry best practices. The contracted services will be required for the foreseeable future and a three year period of performance is anticipated.
