AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
S	1 | 79

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO.(If applicable)
0001	07-Jan-2021		

6. ISSUED BY	CODE	7. ADMINISTERED BY (If other than item 6)	CODE
MICC - FORT GORDON 271 HERITAGE PARK LANE BLDG. 35200 FT GORDON GA 30905	W91249	**See Item 6**	

8. NAME AND ADDRESS OF CONTRACTOR (No., Street, County, State and Zip Code)		
	X	9A. AMENDMENT OF SOLICITATION NO. W9124921R0004
	X	9B. DATED (SEE ITEM 11) 09-Dec-2020
		10A. MOD. OF CONTRACT/ORDER NO.
		10B. DATED (SEE ITEM 13)
CODE / FACILITY CODE		

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

[X] The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offer [X] is extended, [ ] is not extended.

Offer must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

[ ] A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: (Specify authority) THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.

[ ] B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(B).

[ ] C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:

[ ] D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor [ ] is not, [ ] is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

The purpose of this amendment is to:
1. Update Addendum 52.212-1, update the PWS, update attachments 2, 3 and 4.
2. Add CLIN 0005 (30 days Phase-In)
3.Extended proposal due date from 1/12/2021 to 1/21/2021 12:00pm EST.
4. All other terms and conditions remain the same.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) TEL: EMAIL:	
15B. CONTRACTOR/OFFEROR _____ (Signature of person authorized to sign)	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA BY _____ (Signature of Contracting Officer)	16C. DATE SIGNED 07-Jan-2021

RESPONSES VENDORS QUESTIONS

VENDOR QUESTIONS:

W91249-21-R-0004 8570 COMPLIANCE: RESIDENT AND MOBILE TRAINING

1. I have a question about the Combined Synopsis/Solicitation posted under solicitation number GORDON11534944.
   I am hoping to find out if there is an incumbent contractor currently performing these services, if similar services have been performed in the past, or if this is a new requirement. If this is a follow-on requirement, could you please provide the previous contract or task order number?
   Government Response: The requirement is currently performed under W9124918C0008

Question#	Document	Section	Page(s)	Question
2.	Solicitation	Instructions to Offerors, C. Proposal Preparation Instructions	101	The instructions state "The Offeror shall provide the names of all personnel performing under this contract and proof of their certifications, security clearances and other qualifications required for their designated positions." and requires resumes and letters of intent for all personnel within 60 days of proposal submission. The 60 day requirement is both unclear and likely noncompliant with federal regulations for competitive bid requirements because no company may submit any new information after the proposal deadline itself. How is this to be accomplished? Does the Government actually intend for offerors to provide this information after contract award? Government Response: 52.212-1 is updated with the following verbiage "The Offeror shall provide letters of intent and resumes for key personnel. Non-key personnel resumes and letters of intent will be submitted before contract award.

3.	Solicitation	Instructions to Offerors, C. Proposal Preparation Instructions	101	The instructions state "The Offeror shall provide the names of all personnel performing under this contract and proof of their certifications, security clearances and other qualifications required for their designated positions." and requires resumes and letters of intent for all personnel. This requirement is detrimental to fair competition as it gives enormous competitive advantage to the incumbent team. No other 8(a) would realistically or legitimately be able to submit resumes as good or better than the incumbent for all 29 positions. This requirement also fails to take into consideration recruiting and retention plans that take place after contract award. We respectfully request that the Government eliminate - or at least significantly reduce - the resume and letter of commitment requirement. In its place, we suggest the Government require a 2 or 4 week transition plan instead. Government Response: Addendum 52.212-1 is updated to reflect resumes and letter of intent for key personnel only to be submitted with proposal. Non-key personnel resumes and letters of intent will be submitted before contract award. IAW PWS 1.6.8 It is the contractor's responsibility to staff and deploy qualified contractor personnel to meet all of the PWS requirements. it is the Contractor's responsibility to propose and deploy the correct labor types, mix, number and hours required to satisfactorily and professionally meet all PWS requirements. The intent is that all personnel be identified with the proposal. The Government want to verify certificates for all personnel who require them as well as security clearance verification. That in itself does not restrict the ability to get fair and competitive proposals. This ensures that a vendor can actually perform the mission adequately at the beginning of the Period of Performance. The PWS is updated with a Phase In 1.6.17.
4.	Solicitation	Instructions to Offerors, C. Proposal Preparation Instructions	97	Given that this opportunity does not contain any classified information, would the Government be open to removing the hard copy and CD-ROM requirements for submission? These burdensome requirements are understandable when necessary, but time and cost prohibitive for many small businesses, especially 8(a) companies.

				Government Response: The Government still require submission of CD ROM and hard copies for submission.
5.	Solicitation	SF 1449 - Continuation Sheet	3-12	Does the Government want offerors to use the Not-to-Exceed amounts for the ODC and Travel CLINs or to propose their own pricing? These costs would presumably be cost reimburseable as applicable given that it is impossible to predict what supplies and materials will be needed and how much travel will cost in the future. Government Response: Yes, Offerors shall use the Government Not-to-Exceed amounts for the ODC and Travel CLINs.
6.	Solicitation	1.6.5	17	Could the Government provide a list of how many staff by LCAT are based at (sit at) each performance location? Government Response: The Government's historical staffing data is provided under Technical Exhibit 3. However, it is the Contractor's responsibility to propose and deploy the correct labor types, mix, number and hours required to satisfactorily and professionally meet all PWS requirements
7.	Attachment 2	Specific Relevant Contract Reference Sheets	N/A	Could the Government provide an editable version of Attachment 2? Alternatively, is it ok for bidders to recreate the template in it's own format so long as the content and requirements remain the same? Government Response: Attachment 2 is editable
8.	Attachment 3	Past Performance Questionnaire	N/A	Could the Government provide an editable version of Attachment 3? Alternatively, is it ok for bidders to recreate the template in it's own format so long as the content and requirements remain the same? Government Response: Attachment 3 is editable

9. Is there an incumbent on the RFP opportunity? If yes, who is it?
Government Response: Please see question one response.
10. What was the term of the prior contract?
Government Response: Please see question one response.
11. How many total courses were actually delivered on the prior contract?
Government Response: 12, but all courses are subject to DODD 8570.

12. Are the course offerings required to be Authorized? i.e. Is the training provider required to be an Authorized Training Partner for CompTIA, ISC2, EC-Council and ISACA?
Government Response: It's not requirement at this time.
13. Do you anticipate remote delivery for a defined period of time until the pandemic takes a turn for the better, or would the bases prefer immediate in person course delivery on base?
Government Response: Currently, the course are being taught by virtual and face to face. Some bases are doing face to face and some are still virtual. All MTT course are currently being are taught through virtual means.
14. What is the NMS course?
Government Response: NMS stand for Network Management System.
15. Is the HBSS course for FY21 the month-long course by Raytheon for the 35T's?
Government Response: No, the Host Based Security System course is software application used to monitor, detect and defend the DOD networks.

DoDD 8570 Compliance Training RFP No. W9124921R0004		
20.	Reference	PWS 1.6.8.2, PWS 4.3, and PWS 1.6.17
	Issue	1.6.8.2 states, "all personnel not properly ITC/CFD-IC qualified will have to successfully complete the course upon award of contract." 4.3 states, "contractor shall provide on day one proof of required training and/or certifications described in Part 1." 1.6.17 indicates there will not be a phase in period.
	Question	Please clarify when proposed personnel who are not certified will be able to obtain TRADOC certification in relation to contract award and contract start.
Government Response: TRADOC required courses will be obtain when classes are available.		
21	Reference	Page 97 of 109, paragraph (c)
	Issue	Instructions are, "Black and white requirement does not apply to graphics, photos, etc., Company stationary and logos, spreadsheets are unacceptable." This sentence is confusing.
	Question	Does the Government intend that the black and white requirement does not apply to company stationary, logos and spreadsheets or that the proposal must not include company stationary, logos and spreadsheets?
Government Response: 52.212-1 is updated to read "All text shall be single spaced and printed black on white paper (Black and white requirement does not apply to graphics, photos, etc.) For tables and graphics shall be Times Roman Font 10-point. Company stationary and logo's are acceptable."		
22.	Reference	PWS 1.6.17
	Issue	PWS indicates there will be no phase-in period. It is our understanding that there is an incumbent service provider and a transition of work in progress and time to on-board personnel (e.g., obtain CAC, acquire network access) will be required to ensure continuity of operations.
	Question	Please verify that there will not be a phase-in period.
Government Response: The PWS is updated to show a phase in period of 30 days.		

DoDD 8570 Compliance Training RFP No. W9124921R0004		
23.	Reference	PWS 1.6.8.6
	Issue	The PWS states personnel must be replaced "within thirty (10) business days."
	Question	Please verify the period for replacing unqualified/unsuitable personnel is thirty (30) business days.
Government Response: The PWS is updated to 15 Calendar days.		
24.	Reference	PWS page 35 of 109, 9th bullet and Technical Exhibit 6
	Issue	PWS requires contractor to maintain Instructor-to-Student (ITS) ratio of 1:20 Technical Exhibit Note 1 indicates the requirement for ITS of 1:18
	Question	Please clarify the required ITS.
Government Response: The Technical Exhibit is updated to show 1:20.		
25.	Reference	Page 99 of 109, Tab D
	Issue	Instruction requires offeror to complete and submit 52.213-3 Alt I. This clause is not included in the solicitation. The FAR available at Acquisition.Gov indicates 52.213-3 is "Notice to Supplier."
	Question	Did the Government intend to reference 52.212-3, Offeror Representations and Certifications—Commercial Items, which is included in the RFP on page 56 of 109? Also, are offerors required to complete and submit 52.212-3 Alternate I which adds paragraph (c)(11) to the clause but is not included in the solicitation?
Government Response: Yes, please see updated Addendum 52.212-1		

	Solicitation Reference	Question
26.	Addendum 52.212-1, Para C.3(a), Proposal Content, Volume I - General	Must offerors submit Representations and Certifications in entirety for Volume I - General Tab D, or may offerors provide a statement certifying this information is accurate and complete within the System for Award Management (SAM)? Government Response: Offerors shall submit Representations and Certifications in entirety for Volume I - General Tab D.
27.	Addendum 52.212-1, Paragraph C.3(b), Proposal Content, Subfactor 1B – Staffing, Recruitment, Retention, and Management Approach PWS 4.3, Contractor Furnished Items and Services, Training / Certification	Addendum 52.212-1, paragraph C.3(b) states, "The Offeror shall provide the names of all personnel performing under this contract and proof of their certifications, security clearances and other qualifications required for their designated positions." Requiring names of all personnel performing under this contract gives an unfair advantage to the incumbent. Allowing offerors to provide a staffing matrix that details minimum required certifications, skills, and abilities of the contractor's proposed staff by labor category rather than

		by named personnel for non-key positions increases competition and value to the Government. The benefit to requiring a staffing matrix with the minimum qualifications and certifications is the Government has a documented and agreed upon threshold for staffing expectations to be met in the performance of this contract. Additionally, per PWS 4.3 "the contractor shall provide on day one proof of required training and/or certifications described in Part 1". Government Response: Please see updated Addendum 52.212-1 and updated PWS section 4.3.
24.	Addendum 52.212-1, Instructions to Offerors, Para C.3(c)2 and C.3(c)3, Factor 2 – Past Performance Addendum 52.212-2, Evaluation Factors for Award, Para C.3(c) and C.3(f), Factor 2 – Past Performance	Addendum 52.212-1, paragraph C.3(c)2 states, "Past performance data shall document a successful history of past contract performance." Addendum 52.212-1, paragraph C.3(c)3 states proposals that do not contain the information requested "risk rejection or a less than acceptable performance rating by the Government." Addendum 52-212-2, paragraph C.3(c) states, "In establishing what is relevant for the acquisition, consideration should be given to what aspects of an offeror's contract history would give the most confidence that the offeror will satisfy the current procurement." However, Addendum 52.212-1 paragraph C.3(c)3 and Addendum 52.212-2 paragraph C.3(f) state "Offerors without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the offeror shall be determined to have unknown past performance. In the context of acceptability/unacceptability, "unknown" shall be considered "acceptable." Does the Government intend rate companies with no past performance the same as companies that have a record of recent, relevant past performance versus assigning offerors with no past performance history a confidence rating of "neutral"? Government response: See updated past performance evaluation criteria

25. Does the government wish the offeror to complete the DD 254 and submit at the time of proposal?
    Government Response: Yes
26. PWS 5.4.6, page 39-40, states "All invoices submitted at the end of the period of performance (each year) shall state "final invoice" and be clearly marked as base period." Would the government please strike "as base period" and replace with "as the appropriate base period or option year"?
    Government Response: PWS 5.4.6 is updated
27. C. Proposal Preparation Instructions, Table 2, page 97-98.
    Due to the ongoing COVID-19 crisis and the difficulty of both sending and receiving physical mail or hand-carried copies, as well as the holiday backup on the mail system, would the government consider waiving the requirement to provide hard copies and a CD-ROM and allow contractors to submit only a digital copy via email?

Government Response: The Government still require submission of mailed or hand carried copies of the proposal.

28. Proposal Submittal and Inquiries, paragraph 1, page 94.
An email address is provided as part of the proposal submittal address. Does the government wish offerors to submit an email copy in addition to five paper copies and one CD-ROM?
Government response: Please refer to the instructions outlined in Addendum to FAR 52.212-1

29. C. Proposal Preparation Instructions, paragraph 2(c), page 97.
Will the government elaborate on what it means by logos not being acceptable? Are offerors to make sure their submission does not contain their company logo?
ANSWER: Please refer to the updated Addendum to FAR 52.212-1

30. C. Proposal Preparation Instructions, Table 2, page 98.
Under "Price," the digital format is given as "1 – MS Excel, 1 – PDF." Does this mean the offeror should provide two copies of the Price proposal on the CD-ROM, one each in Excel and PDF? If so, is one copy sufficient for the hard copies?
Government Response: Please refer to the instructions outlined in Addendum to FAR 52.212-1 volume IV

31. C. Proposal Preparation Instructions, paragraph 2(h), page 98, states, "Each volume shall contain a more detailed table of contents to delineate the subparagraphs within that volume." The instructions for Volumes 2-4 all explicitly require a Table of Contents within their required structure, but Volume 1 does not. Does the government also desire a Table of Contents for Volume 1?

Government Response: Please refer to the instructions outlined in Addendum to FAR 52.212-1

32. C. Proposal Preparation Instructions, paragraph 3(a) (page 99) states that Volume 1 includes a section on Exceptions/Assumptions. C. Proposal Preparation Instructions, paragraph 3(b) subparagraph (2) (page 100) states that Volume 2 includes a section on Exceptions/Assumptions. Does the government wish offerors to repeat this section in both volumes?

Government Response: Please refer to the instructions outlined in Addendum to FAR 52.212-1

33. C. Proposal Preparation Instructions, paragraph 3(b) subparagraph 2a (page 101) states that offerors shall provide an Organizational Chart, and then goes on to say, "Describe and outline the strategy(s) and method(s) that will [be] utilized to locate and actively recruit…necessary to perform and manage contract requirements." Does the government wish the Organizational Chart to cover this information, or will it be sufficient to discuss recruitment and retention in the body of the Staffing, Recruitment, Retention, and Management Approach?

Government Response: Offeror shall discuss recruitment and retention in the body of the Staffing, Recruitment, Retention, and Management Approach

34. C. Proposal Preparation Instructions, paragraph 3(c) (page 102) states, "Past Performance information described herein is required on the offeror and all subcontractors, teaming partners, and/or joint venture partners proposed to perform 51% of the proposed effort based on the total proposed price." We understand this to mean that, given the prime offeror will perform 51% of the proposed effort, past performance from the prime contractor is required (if available), and past performance from major subcontractors is acceptable, but not required. Is this correct?

Government Response: All past performance will be evaluated collectively and in accordance with the solicitation.

35. C. Proposal Preparation Instructions, paragraph 3(d) (page 104) headed "Volume IV – Price" states, "The offeror shall complete the Pricing Worksheet (Attachment 4 and SF1449 – Continuation Sheets – Supplies or

Services and Prices/Costs section of the solicitation." Will the government please confirm that it is sufficient to provide the SF1449 Continuation Sheets in Volume 1 and the offeror should not also include them in Volume 4?

Government Response: Please refer to the instructions outlined in Addendum to FAR 52.212-1

36. Evaluation Factors, paragraph a, Basis for Contract Award (page 105). Would the government consider changing the evaluation criteria from Lowest Price Technically Acceptable to Best Value? This would allow the contractor to retain personnel currently performing on the task who are qualified to perform the work and allow the smooth transition of the work without disruption.

Government Response: No, It will be evaluated based on the LPTA methodology

37. In PWS 1.6.4, on page 17, it states that the "Contractor shall fill vacant position(s) within 10 working days of notification to the Government." In 1.6.8.6, on page 25, it states that personnel shall be replaced "within thirty (10) days." Will the government please confirm that the time requirement to replace personnel during the contract period is 10 days?

Government Response: The PWS has been updated with 15 calendar days.

38. Would the government please provide an editable Microsoft Word document version of Attachment 3 - Past Performance Questionnaire?

Government Response: Attachment 3 is editable

39. Is it required that all vendors submitting responses be able to deliver all of the requested courses?
Government Response: Yes

40. Is the training to be delivered onsite or virtually?
Government Response: Both based on needs, travel restriction, and available instructors.

41. Can you submit courses that provide the same coverage of topics but it might have a different title?
Government Response: Courses are subject to courses listed DODD 8570.

42. DoDD 8570 compliance training covers many different courses. Do you want all of them?
Government Response: No, CIO G6 and local organization conduct their own needs analysis on what to add or take away.

Item #	Section Reference	Question
43.	ADDENDUM 52.212-1 Instructions to Offerors Page 94-95	Due to the current climate of Covid-19 will the government accept electronic copies of the proposal instead of hard copies? Government Response: The Government still require submission of mailed or hand carried copies of the proposal.
44.	1.6.11 Key Personnel Page 26	Key Personnel are currently defined in the RFP as, "All personnel providing support for the following duty areas are considered Key Personnel: Administrative Support, Site Leads, and the Program Manager," how do these positions line up to the four positions listed in the pricing worksheet, Program Manager, Instructor/Writer, Network System Administrator, and Administrative Technician? Government Response: The Site-Lead is an additional duty, selected by the PM, and may be any of the contractors assigned to that location. See 1.6.8.3.

Item #	Section Reference	Question
45.	1.6.11 Key Personnel Page 26 Attachments 7-12	Are any of the positions SCA? ANSWER: Positions are for professional employees, except for Administrative Technician which is cover under wage determination
46.	1.6.11 Key Personnel Page 26 Attachments 7-12	Are all positions located at Fort Gordon with travel to Camp Robinson, Ft. Bragg, Ft. Hood, Ft. McCoy, Joint Base Lewis McChord, and other CONUS and OCONUS areas? ANSWER: No, the contractor's duty location and work location are the same. (Ex.) If duty location is Fort McCoy then work location is Fort McCoy. Only exception is for the Mobile Training Team Members.
47.	1.6.11 Key Personnel Page 26	Please confirm that the 26 estimated Instructor/Writers are not considered Key Personnel. Government Response: The key personnel are identified in the PWS (Administrative Technician, Site Leads and, Program Manager
48.	Technical Exhibit 3 Page 49	Please clarify the estimated number of hours in Technical Exhibit 3. Typical hours for FTEs are either 1880 or 1920. Can the government explain the breakdown for 1871? Also, clarify how the number of hours breaks down for the 26 estimated Instructor/Writers? Government Response: Typically Direct labor hours for a full-time position is 1871 which excludes leave (Holiday – 80hrs; Annual – 80hrs; Sick – 56hrs)
49.	Technical Exhibit 3 Page 49	Should the number of hours in Technical Exhibit 3 be used for cost estimates in the pricing volume? Government Response: IAW PWS 1.6.8 The Government's historical staffing data is provided under Technical Exhibit 3. However, it is the Contractor's responsibility to propose and deploy the correct labor types, mix, number and hours required to satisfactorily and professionally meet all PWS requirements.
50.	Page 86 Wage Determination	Is this contract considered an SCA contract? Can the government confirm that the Wage Determinations are provided for information and reference only? ANSWER: Positions are for professional employees, except for Administrative Technician which is cover under wage determination.

Item #	Section Reference	Question
51.	Resumes Page 101	"The Offeror shall provide letters of intent (signed within 60 days of proposal submission) and resumes for all personnel." Does the offeror have to have resumes for all who will work on the contract prior to award or just key personnel? Does the government expect to see up to 30 resumes? Or can representative resumes be used? Especially in the case of the Instructor/Writers? Government Response: Section L Subfactor 1B is updated to reflect resumes and letter of intent for key personnel only to be submitted with proposal. Non-key personnel resumes and letters of intent will be submitted before contract award.
52.	Resumes Page 101	Is there an incumbent on this contract currently? If so, would the government consider incumbent capture? Will the government supply offerors a list of incumbent personnel we can contact prior to submission? Government Response: The requirement is currently performed under W9124918C0008. With the repeal of Executive Order 13897 there currently is no requirement to include a right of first refusal clause (which required the incumbent to provide the incoming contractor with a list of its employees)

	Solicitation Attachment	Page Number	Paragraph Reference	Solicitation Text	Questions
53.	Technical+Exhibit+4+-+Estimated+Class+Load+Data	1		One week courses typically require about 40 hours of platform instruction. Two week courses typically require between 72 and 80 hours of platform instruction. The four week course typically requires about 144 hours of platform instruction over 18 days.	If we multiply the hours required for each course (40, 72/80, 144) from Exhibit 4 by the number of courses the total is approximately 83,000 instructor hours. However, the Pricing Worksheet (attachment 4) only lists 50,517 hours. Can the government confirm which estimate is correct as the number of instructors required for execution will vary based on these hours. Government Response: The total hours account for duty hours

54.	Technical+Exhibit+4+-+Estimated+Class+Load+Data	1		One week courses typically require about 40 hours of platform instruction. Two week courses typically require between 72 and 80 hours of platform instruction. The four week course typically requires about 144 hours of platform instruction over 18 days.	Related to the above question regarding the required hours, the 83,000 hour estimate only includes instructor time (i.e. classroom time); therefore, time to update courseware, research, analyze, etc. is not included. Will the Government please clarify the total estimated hours to ensure successful execution upon contract start. Government Response: The total hours account for duty hours
55.	RFP	15	1	The contract shall provide program management, network management, administrative and instruction development support in the preparation, review and update of technical documentation for training courses at up-to six locations. This will also include Mobile Training Teams (MTTs) at up-to four locations.	For the purpose of defining "site leads", considered to be key personnel later in the RFP, does the government consider each of the MTTs as a site with a specifically identified site lead (key peronnel) or may we designate one individual as the overall MTT Lead? Government Response: Each site has a site lead which is considered key personnel. There is also a designated PM responsible for the overall contract
56.	RFP	17	1.6.7	The contractor Facility Security Officer (FSO) will ensure there is a procedure for all contractor personnel to in-process and out-process Cyber Center of Excellence (CCoE) G2 (currently at Nelson Hall, Room 222).	Primary places of performance are located in GA and five other states. Can the inprocessing be conducted remotely or is it the government's intention that all contractor personnel physically inprocess at Ft Gordon before reporting to their final duty location?

					Government Response: The place the contractor will be performing their duties will suffice.
57.	W91249-21-R-0004+-+SOLICITATION_FINAL	17	1.6.5	The work to be performed under this contract will be performed at Fort Gordon, GA; Joint Base Lewis McChord (JBLM), WA; Fort Hood, TX; Camp Robinson, AR; Fort McCoy, WI; Fort Bragg, NC; and other CONUS and OCONUS locations as mission dictates.	Does the government expect contractor personnel to work onsite at government locations during COVID-19 restrictions? Government Response: Given the current situation virtual training is required but eventually could require face to face training.
58.	W91249-21-R-0004+-+SOLICITATION_FINAL	24	1.6.8.2	The following are the minimum requirements that all instructors shall have: Possess and maintain a valid passport	Can the government remove the requirement that 100% of instructors have a valid passport when only a few instructors may travel to outside the U.S. Government Response: 1.6.8.2 has been updated to show that ONLY the members of the Mobile Training Team are required to have and maintain a valid passport.
59.	W91249-21-R-0004+-+SOLICITATION_FINAL	25	1.6.8.6	The contractor at its own expense, shall replace, within thirty (10) business days, any contract personnel found to be unqualified or otherwise determined unsuitable by the government. This thirty day timeframe also includes any contract instructors who submit their resignation under the current contract. The government will exercise the right, if deemed necessary, to select an	Can the government clarify if the contractor must replace personnel within 10 business days or 30 business days? This section states "within thirty (10) business days" and Section 1.6.4 states the contractor must fill vacant positions within 10 business days of government notification. Government Response: The PWS has been

				appropriate method (pretest, hands on practical exercise, etc.) to determine if the contractor is qualified/suitable to perform the requirements.	updated to show fifteen (15) calendar days.
60.	W91249-21-R-0004+-+SOLICITATION_FINAL	26	1.6.11	All personnel providing support for the following duty areas are considered Key Personnel: Administrative Support, Site Leads, and the Program Manager.	The pricing response lists four positions, two of which appear to match the key personnel requirements (Program Manager and Administrative Technician). Will the government confirm these are the only two key personnel? If there are Site Leads, is that a new labor category we need to include in the Pricing response? Government Response: No, the Site-Lead is an additional duty, selected by the PM, and may be any of the contractors assigned to that location. See 1.6.8.3.
61.	RFP	38		Contractor Manpower Reporting	Will the Government please provide 24 months of CDRL #A006 to demonstrate historical workloads? Government Response: No
62.	RFP	27	1.6.16	General OCI	Is the government aware of any planned or potential work under this contract that could reasonably be expected to result in OCI concerns? Government Response: No

63.	RFP	33	5.1.2	The contractor shall instruct, prepare, review, author curriculum development products to include the development of new tests and training materials that are virtual, printed, and computer based to support the new curriculum.	Is the contractor responsible for development of the CBT software or only the training information to be incorporated into CBTs? Government Response: Only the training.
64.	W91249-21-R-0004+-+SOLICITATION_FINAL	34	5.1.2	The Contractor shall be proficient in providing virtual training through software modalities	Are there specific software modalities that the government requires the contractor to use when providing virtual training? Government Response: No:
65.	Technical Exhibit 1	44	Table	Receive no more than one (2) written customer complaint per performance period concerning contractor deficiencies relating to the contract requirements.	Please clarify if the standard is one (1) or two (2) complaints per performance period. Government Response: 2 please see updated PWS.
66.	Solicitation Final	49	Technical Exhibit 3	The tables states 50517 hours 26 FTE for the instructor. If the Government is calculating an FTE and 1871 man hours per year, this would equal 27 FTE. Please advise.	Other references in this table equate 1 FTE to 1871 productive hours. Is the estimate for line 2 correct as written? If not, should FTEs be increased to 27 or hours reduced to 48,646? Government Response: PWS Updated
67.	RFP	93	(f)(2)	Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.	Is the government willing to incorporate (FAR) 52.213-1 into this contract? Government Response: Per the FAR fast payment is for supplies

68.	Instructions to offerors	95	2	Electronic submissions via facsimile will not be accepted. Offers shall be mailed through a commercial/Government carrier or hand carried. It is the offeror's responsibility to verify receipt of proposals prior to the closing date/time.	This guidance restricts proposals to hard-copy only. Will the government accept electronic submission to the email address identifed in the previous paragraph (devin.knight.civ@mail.mil)? Note: This question also applies to subsequent paragraphs in this section where delivery by CD-ROM and hard copy is referenced. Government Response: Please refer to the instructions outlined in Addendum to FAR 52.212-1. Offers shall be submitted via electronic email and shall be hand carried or mailed through a commercial/Government carrier.
69.	RFP	100	Subfactor 1B	The Offeror shall provide the names of all personnel performing under this contract and proof of their certifications, security clearances and other qualifications required for their designated positions.D15	Will the government accept submission of this information for key personnel with the initial staffing plan with the remainder (non-key) to be submitted within 30 days after contract award? Government Response: Section L Subfactor 1B is updated to reflect resumes and letter of intent for key personnel only to be submitted with proposal. Non-key personnel resumes and letters of intent will be submitted before contract award.

70.	Solicitation Final	101	Subfactor 1B	The Offeror shall provide letters of intent (signed within 60 days of proposal submission) and resumes for all personnel.	Will the Government accept LOCs for Key Personnel only. Due to this opportunity being responded to over the holiday season, availablility of personnel is somewhat limited. Government Response: Section L Subfactor 1B is updated to reflect resumes and letter of intent for key personnel only to be submitted with proposal. Non-key personnel resumes and letters of intent will be submitted before contract award.
71.	W91249-21-R-0004+-+SOLICITATION_FINAL	101	Subfactor 1B	The Offeror shall provide letters of intent (signed within 60 days of proposal submission) and resumes for all personnel.	Some of the requirements for the resumes do not appear to relate to each position (e.g. "Number and type of personnel supervised"). This seems to apply to the Program Manager, but not the other positions. Can the government confirm that a resume for all positions are required versus just those for key personnel. Government Response: Addendum to FAR 52.212-1 is updated. All positions will be evaluated based on the duties they will be performing.
72.	W91249-21-R-0004+-+SOLICITATION_FINAL	101	Subfactor 1B	The Offeror shall provide letters of intent (signed within 60 days of proposal submission) and resumes for all personnel.	If resumes are required for all positions, will requested attributes in the resume that do not apply to a position be evaluated by the government? Example, the "number and type of personnel supervised" is not a requirement of the Network System Administrator,

					Administrative Technician, and Instructor/Writer. Government Response: All positions will be evaluated based on the duties they will be performing.

73. RFP page 23, Section 1.6.8.1 - "In addition to the minimum criteria noted in 1.6.7.2, the instructors teaching the following
courses shall possess the certifications noted in the chart below with currently approved test version:" CFR and CySA training courses are included in Technical Exhibit 6 but required qualifications for instructors are not included in section 1.6.8.1. of the RFP
Government Response: Section 1.6.8.1 has been updated to list the Cybersecurity Analyst.
74. Please clarify that contractors shall replace personnel within either thirty or ten business days per the below RFP section.
"PWS 1.6.8.6 The contractor at its own expense, shall replace, within thirty (10) business days, any contract personnel found to be unqualified or otherwise determined unsuitable by the government."
Government Response: The contractor shall replace personnel within 15 calendar days.
75. Will the government revise the requirement for hard copy & cd-rom submissions to DoD Safe submission to accommodate the anticipated large file size of proposal submissions?
Government Response: No
76. The current requirement for all resumes and Letters of Intent to be submitted for "all personnel" (Section L Subfactor 1b) is highly restrictive for all offerors other than the incumbent. Will the government consider reducing this requirement to select personnel (i.e. Program Manager, Site Leads)? Reducing the resume require as such results in improved offeror competition to the benefit of the government, while minimizing risk through ensuring a qualified PM & Site Lead are available day 1 of contract.
ANSWER: Section L Subfactor 1B is updated to reflect resumes and letter of intent for key personnel only to be submitted with proposal. Non-key personnel resumes and letters of intent will be submitted before contract award.
77. Will the government please clarify the key personnel requirement for site leads including responsibilities (PWS 1.6.11)?
ANSWER: ANSWER: The Site-Lead is an additional duty, selected by the PM, and may be any of the contractors assigned to that location. See 1.6.8.3.
78. What is the specific requirement for security clearances for all instructors? Since this requirement is mostly for COTS 8570 training, which is not classified, will the government please explain why are clearances required?
Government Response: "The instructors are require to possess and maintain a SECRET Security Clearance per 1.6.7 of the PWS.
79. The government has provided historical workload for MTTs. Can the government please release historical workload for each performance location (i.e. Robinson, JBLM, Hood, McCoy, Bragg, & Gordon)?
ANSWER: See the updated Technical Exhibit 3 "Estimated Workload Data"
80. Would the government be accepting to virtual delivery of courses for performance locations and/or MTTs?
Government Response: Yes, 5.1.2 of the PWS comments on the requirement of virtual training.
81. Based upon the government's timeframe in answering questions and ensuring potential offerors have reasonable time to recruit & secure resumes and LOIs, will the government consider a 2 week extension to the submission deadline?
ANSWER: The proposal due date is extended January 21, 2021 at 12:00 pm EST

82. Can the Government please provide the student throughput for each course at each location per year?

ANSWER: Please see technical exhibit 4 estimated class load data and technical exhibit 5 Historical MTT Data

83. Where are MTT equipment packages stored and maintained?

Government Response: MTT equipment packages are stored and maintained at Fort Gordon, GA

84. On Technical Exhibit 6, a number of "Labs" are identified for each location. Please clarify what "Labs" means.

Government Response: The term “Labs” is used interchangeable with classrooms.

85. Technical Exhibit 4 identifies both a 2-week and 4-week CISSP course. Technical Exhibit 6 only identifies "CISSP" but does not distinguish between the 2-week and 4-week course. Please clarify which courses on Technical Exhibit 6 are 2-week and 4-week courses.

Government Response: Technical Exhibit 6 is now updated.

UPDATED PWS

Performance Work Statement

PART 1
GENERAL INFORMATION

1. General: This is a non-personal services contract to provide DoDD 8140/8570.01-M Compliance: Resident and Mobile Training. The contract shall provide program management, network management, administrative and instruction development support in the preparation, review and update of technical documentation for training courses at up-to six locations. This will also include Mobile Training Teams (MTTs) at up-to ten locations. The Government shall not exercise any supervision or control over the contract service providers performing the services herein. Such contract service providers shall be accountable solely to the Contractor who, in turn is responsible to the Government

1.1 Description of Services/Introduction: The DoDD 8140/8570.01-M Compliance: Resident and Mobile training provides warfighters qualified Cyber Security (CS) personnel. A list of DoD approved IA baseline certifications aligned to each category and level of the IA Workforce can be found at https://public.cyber.mil/cw/cwmp/dod-approved-8570-baseline-certifications/. The contractor shall provide all personnel, equipment, supplies, transportation, tools, materials, supervision, and other items and non-personal services necessary to provide instruction and support services in a classroom environment as defined in this Performance Work Statement except for those items specified as government furnished property and services. The contractor shall perform to the standards in this contract.

1.2 Background: The DoDD 8140/8570.01-M Compliance: Resident and Mobile training contract has provided continual support to the Army Chief Information Officer/G6 (CIO/G6) Cyber Security (CS) workforce training and certification requirements for Information Assurance Technician (IAT), Information Assurance Manager (IAM), Computer Network Defense – Service Provider (CND-SP), and Information Assurances System Architect Engineer (IASAE) levels for IA personnel, per DoD 8570.01-M, Incorporating Change 4, 11/10/2015. The program trains over

4,000 students in classrooms and another 100,000 students via distance learning, annually. https://cs.signal.army.mil/docs/857001m.pdf The DoDD 8140/8570.01-M Compliance: Resident and Mobile training requirements are part of the Information Technology (IT) acquisition development process. It provides guidance and procedures for the training, certification, and management of the DoD workforce conducting Cyber Security (CS) functions in assigned duty positions.

1.3 Objectives: The United States Army Cyber Center of Excellence requires contractor support for DoDD 8140/8570.01-M Compliance: Resident and Mobile Training courseware development, program management, administrative support and instruction for the Signal/Cyber workforce at six fixed locations and a Mobile Transition Team. The training shall ensure that the Army workforce is educated and trained in CS requirements and practices.

1.4 Scope: Contracted Instructor/Writer personnel shall support the Signal School in revision and develop new curriculum by providing a planning timeline, conducting research and development for the DoDD 8140/8570.01-M Compliance: Resident and Mobile training. The effort shall include duties in support of the daily maintenance of labs and classrooms, cyber security instruction, course development, course maintenance, network engineer, administrative and MTT coordination. The services are required to support training and education for the Army's Cyber Security (CS) Workforce. The student population includes personnel performing CS duties and personnel receiving cyber security training during Army career progression courses.

1.5 Period of Performance: The period of performance shall be one 30-day phase-in period, a base period of 11 months, and four one year option periods. The Period of Performance reads as follows:

Phase-In –	1 MAR 2021 – 30 MAR 2021 (1 month)
Base –	31 MAR 2021 – 28 FEB 2022 (11 months)
OY1 –	1 MAR 2022 – 28 FEB 2023 (12 months)
OY2 –	1 MAR 2023 – 29 FEB 2024 (12 months)
OY3 –	1 MAR 2024 – 28 FEB 2025 (12 months)
OY4 –	1 MAR 2025 – 28 FEB 2026 (12 months)

1.6 General Information:

1.6.1 Quality Assurance: The government shall evaluate the contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan. This plan is primarily focused on what the Government must do to ensure that the contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable defect rate(s).

1.6.2 Quality Control: Quality Control is the responsibility of the contractor (see FAR 52.246-1 Contractor Inspection Requirements). The Contractor shall develop, implement and maintain an effective Quality Control System which includes a written Quality Control Plan (QCP). The QCP shall implement standardized procedure/methodology for monitoring and documenting contract performance to ensure all contract requirements are met. The Contractors' QCP shall contain a systematic approach to monitor operations to ensure acceptable services/products are provided to the Government. The QCP as a minimum shall address continuous process improvement; procedures for scheduling, conducting and documentation of inspection; discrepancy identification

and correction; corrective action procedures to include procedures for addressing Government discovered non-conformances; procedures for root cause analysis to identify the root cause and root cause corrective action to prevent re-occurrence of discrepancies; procedures for trend analysis; procedures for collecting and addressing customer feedback/complaints. The initial QCP shall be delivered with the contractor's proposal. After award, the final QCP shall be delivered within 30 days of start date and within 5 working days when changes are made thereafter. After acceptance of the quality control plan the contractor shall receive the contracting officer's acceptance in writing of any proposed change to his QCP.

1.6.3 Federal Government Holidays: The contractor is not expected to work on the Federal holidays listed below:

New Year's Day	1st day of January
Martin Luther King Jr.'s Birthday	3rd Monday of January
Presidents Day	3rd Monday of February
Memorial Day	last Monday of May
Independence Day	4th day of July
Labor Day	1st Monday of September
Columbus Day	2nd Monday of October
Veterans Day	11th day of November
Thanksgiving Day	4th Thursday of November
Christmas Day	25th day of December

1.6.4 Hours of Operation: The contractor is responsible for conducting business, between the hours of 0800 and 1700 Monday thru Friday except Federal holidays or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. However, these operating hours and days may vary based on the requirements of the government. Contract personnel work schedules may be "flexed" to meet manpower requirements while still adhering to the standard five day work week. The contractor is expected to work on training holidays and building access will be provided, as required. For other than firm fixed price contracts, the contractor will not be reimbursed when the government facility is closed for the above reasons. The Contractor shall at all times maintain an adequate workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce are essential. The Contractor shall fill vacant position(s) within fifteen **(15)** calendar days of notification to the Government (COR).

1.6.5 Place of Performance: The work to be performed under this contract will be performed at Fort Gordon, GA; Joint Base Lewis McChord (JBLM), WA; Fort Hood, TX; Camp Robinson, AR; Fort McCoy, WI; Fort Bragg, NC; and other CONUS and OCONUS locations as mission dictates.

1.6.5.1 Alternate Work Location: Contractors are authorized to work from an Alternate duty/remote location during emergency situations within the Fort Gordon area of operations with the approval of the Contracting Officer Representative and Contracting Officer. Contractor shall continue to meet tasks, deliverables, and current level of support in accordance with contract. Government reserves the right to approve, disapprove, or cancel contract personnel working from

an alternate duty/remote location. Working from a remote location will be at no additional expense to the government. The Government does not authorize the use of off-site rates to accomplish alternate duty/remote location work and will not be responsible for any associated costs. Personal or company issued equipment may not be used to access the government network infrastructure unless pre-approved; examples include using VPN or a corporate network. However, inability to access the government network infrastructure using authorized devices does not necessarily prohibit the contractor from performing off-site, whenever the work could be performed without such access.

1.6.6 Type of Contract: The government will award a Firm Fixed Price (FFP) contract.

1.6.7 Security Requirements: Contractor employees performing on this contract must be a U.S. citizen. At work performance start date, all contractor employees performing on this contract shall have a final SECRET security clearance and shall maintain the required security clearance throughout the life of the contract. The contractor is responsible for acquiring the clearances. The contractor shall ensure that all assigned personnel understand applicable security policies and directives found in DOD 5220.22-M, National Industry Security Program Operating Manual (NISPOM); DODM 5200.01 (Vol 4), DOD Information Security Program: Controlled Unclassified Information (CUI); AR 380-5, Information Security Program; and all other applicable policies and regulations.

The contractor shall ensure that classified data is controlled, protected, and safeguarded in accordance with the DOD 5220.22-M, National Industry Security Program Operating Manual (NISPOM); AR 380-5, Information Security Program; and all other applicable DOD and Army policies and regulations. AR 380-5 and current Army and DOD policy. Information classified up to SECRET shall be accessed and stored in government spaces only. The contractor shall agree that any data furnished by the government to the contractor shall be used only for performance under this PWS, and all copies of such data shall be returned to the government upon completion of this effort. The contractor shall comply with all requirements specified in the attached DD Form 254, Department of Defense Contract Security Classification Specification.

The contractor Facility Security Officer (FSO) will ensure there is a procedure for all contractor personnel to in-process and out-process Cyber Center of Excellence (CCoE) G2 (currently at Nelson Hall, Room 222). All contractors shall turn their Common Access Card (CAC) in to the COR on their last day of employment.

1.6.7.1 Handling/Access to Classified Information: The contractor shall comply with FAR 52.204-2, Security Requirements. This clause involves access to information classified "Confidential," "Secret," or "Top Secret" and requires contractors to comply with (1) the Security Agreement (DD Form 441), including the National Industrial Security Program Operating Manual (DoD 5220.22-M), and (2) any revisions to DoD 5220.22-M.

Any adverse action preventing a contractor from retaining access to classified material shall be brought to the attention of the COR, Security Office, and contractor Facility Security Officer (FSO) immediately.

1.6.7.2 Information Assurance (IA)/Information Technology (IT) Training: All contractor employees and associated subcontractors shall complete the DoD Cyber Awareness Challenge Training (https://cs.signal.army.mil/) before issuance of network access and annually thereafter.

All contractor employees will successfully complete all required IA training as specified in AR 25-2 and as directed by the Government.

1.6.7.3 Contractor employees, to include subcontractors, requiring access to information systems to fulfill their duties shall possess the required favorable security investigation. The IASO/IANO from the activity that the contractor employee is assigned to, will submit an electronic DD 2875, System Authorization Access Request (SAAR) to the Cyber CoE G2 and G6 for verification that the contractor employee meets the requirements of AR 25-2 for accessing the Fort Gordon Network. (Ref AR 25-2)

1.6.7.4 Information Assurance (IA)/Information Technology (IT) Certification: Per DoD 8140/8570.01-M, DFARS 252.239.7001, and AR 25-2, the contractor employees' supporting IA/IT functions shall be appropriately certified upon contract award. The baseline certification as stipulated in DoD 8140/8570.01-M shall be completed upon contract award.

1.6.7.5 Information Security Program Training: All contractor employees, including subcontractors, assigned to this contract shall complete the online Information Security Program Training located on the Army Learning Management System (ALMS) site. Log into AKO, "Self Service", "My Training", "ALMS", "Go To Mandatory Training". Training shall be completed within **30 calendar days** of reporting for duty and annually thereafter. The contractor shall submit certificate of completion for each affected contractor employee and subcontractor employee to the COR and unit/activity security manager. (Ref ALARACT 207/2013, DTG 291848Z Aug 13, Subj: Army Wide Rollout and Requirement for Standardized Computer Web-Based Security Training on the Army Learning Management System (ALMS)).

1.6.7.6 Anti-Terrorism (AT) Level I Training: All contractor employees, to include subcontractor employees, requiring access Army installations, facilities and controlled access areas shall complete AT Level I awareness training within **30 calendar days after contract start** date or effective date of incorporation of this requirement into the contract, whichever is applicable. The contractor shall submit certificates of completion for each affected contractor employee and subcontractor employee, to the COR or to the contracting officer, if a COR is not assigned, within 30 calendar days after completion of training by all employees and subcontractor personnel. AT level I awareness training is available at the following website: https://jkodirect.jten.mil/Atlas2/page/login/Login.jsf

Note: Contractor personnel shall receive an AOR briefing when traveling OCONUS on TDY. Briefing shall be provided by a certified ATO Level II Officer within seven (7) working days prior to TDY departure outside the 50 United States, its territories, and possessions. This is separate from the normal annual AT Level I training requirement (Ref AR 525-13).

1.6.7.7 iWATCH: The contractor and all associated sub-contractors shall brief all employees on the local iWATCH program (training standards provided by the requiring activity ATO). This local developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed **within 30 calendar days** of contract award and within **30 calendar days** of new employees commencing performance with the results reported to the COR NLT **30 calendar days** after contract award.

1.6.7.8 Operation Security (OPSEC) Training: All contractor employees, including subcontractors, assigned to this contract shall complete Level I OPSEC training within **30 calendar days** of reporting for duty and then annually thereafter. Initial Level 1 OPSEC training will be conducted monthly by the Garrison OPSEC Officer or a Level II certified OPSEC Officer. Go to AKO: look for "*I am looking for*": drop down to Training: select the ALMS block: go to Mandatory Training and select Army OPSEC Level 1(Newcomers and Refresher). The contractor shall submit certificates of completion for each affected contractor employee and subcontractor employee to the COR and unit/activity security manager. (Ref AR 530-1, Operations Security)

The contractor shall adhere to local OPSEC policies and procedures of the government requiring activity. When in a TDY status in support of this work effort, the contractor shall also adhere to any OPSEC policies and procedures in effect at TDY locations.

1.6.7.9 Threat Awareness and Reporting Program (TARP) Training: All contractor employees, including subcontractors, assigned to this contract shall complete TARP training within 30 calendar days of reporting for duty and then annually thereafter. TARP training will be conducted by a CI agent or other trained as specified in AR 381-12, 2-4b.

1.6.7.10 Installation Access: All contractor employees, including subcontractors, shall comply with applicable installation and facility access security policies and procedures at all work and TDY locations. All contractors and subcontractors will be issued a Common Access Card (CAC) or an Installation Pass issued through the Automated Installation entry (AIE) Security System to access the installation. The Fort Gordon military installation is a limited access post. Unscheduled gate closures by the military police may occur at any time. In accordance with Army Regulation 525-13, paragraph 5-19, all prospective contractors will undergo a verification process by the installation Provost Marshal Office, Director of Emergency Services to determine the trustworthiness and suitability prior to being granted access to federal property. This will be accomplished using the National Crime Information Center (NCIC) Interstate Identification Index (III). This is the minimum baseline background check for entrance onto Army Installations for non-CAC holders to include entrance of visitors (Ref AR 190-13, paragraph 8-2). All personnel entering or exiting the installation may experience a delay due to vehicle inspections, registration checks, verification of seat belt use, etc. All vehicles and personnel are subject to search and seizure. The search and seizure provisions shall apply to contractor personnel while within Fort Gordon's area of jurisdiction. Contractor personnel shall comply with all entry control requirements and security policies/procedures in effect. Security procedures may change without notice.

1.6.7.11 Identification of Contractor Employees: In accordance with FAR 37.114 contractor employees shall identify themselves as a contractor at all times while on the job, e.g., in the workplace, when attending meetings, in email, when answering government telephones, or when making phone calls.

1.6.7.12 ID Badges: The contractor shall provide each contractor employee an identification (ID) badge on contract start date or on employment start date. The ID badge shall be made of nonmetallic material, be easily readable, and shall contain the following minimum information:

Employee's Name, Contract Company Name and Employee's Photograph. Contract employees shall wear proper identification at Government workplaces at all times.

1.6.7.13 Display of ID Badges: Contractor employees shall wear the ID badge at all times when performing work under this contract to include attending government meetings and conferences. Unless otherwise specified in the contract, each contract employee shall wear the ID badge in a conspicuous place on the front of exterior clothing and above the waist except when safety or health reasons prohibit such placement.

1.6.7.14 Answering Telephones: Contractor employees shall identify themselves as a contract employee when answering and making calls on government telephones.

1.6.7.15 Utilizing Electronic Mail:

- When contractor employees send e-mail messages to government personnel while performing on this contract, the contractor employee's e-mail address shall include the company name together with the person's name (ex: John Smith, Contractor, ABC Company).
- When contractor employees require access to a government computer, the contractor employee shall be required to obtain a Common Access Card. To do so, the contractor employee shall request a CAC through the COR.

NOTE: The government issued CAC is the property of the U.S. Government and shall be returned to the COR upon expiration of the contract, replacement or termination of the contract employee. (CAC card shall be turned in to the COR on contractor employee's last day of employment.) Unauthorized possession of the CAC can be prosecuted criminally under section 701, title 18, United States Code.

- All contractor employees shall conduct official communication using Government-owned or provided e-mail, networks, websites, systems, and devices. The use of commercial ISP e-mail accounts or personal e-mail accounts to conduct official communication is prohibited. Remote access / telework technology may be leveraged to ensure compliance with these requirements.
- Contractor employees are prohibited from using Army-assigned, AKO, and other official e-mail addresses for unofficial business affiliations. Personnel shall not provide official e-mail addresses to businesses, affiliated organizations, or online retailers; unless those entities are known by personnel to be legitimately engaging in official business.

1.6.7.16 Eligibility Verification for Employment: E-Verify is an Internet-based system that compares information from an employee's Form I-9, Employment Eligibility Verification, to data from U.S. Department of Homeland Security and Social Security Administration records to confirm employment eligibility. The U.S. Department of Homeland Security is working to stop unauthorized employment. By using E-Verify to determine the employment eligibility of their employees, companies become part of the solution in addressing this problem. All U.S. employers shall complete and retain a Form I-9 for each individual they hire for employment in the United States. This includes citizens and noncitizens. On the form, the employer shall examine the employment eligibility and identity document(s) an employee presents to determine whether the document(s) reasonably appear to be genuine and relate to the individual and record the document

information on the Form I-9. The list of acceptable documents can be found on the last page of the form. E-Verify is mandatory for employers with federal contracts or subcontracts that contain the Federal Acquisition Regulation E-Verify clause.

1.6.7.17 Physical Security: The contractor shall be responsible for safeguarding all government equipment, information and property provided for contractor use. At the close of each work period, government facilities, equipment, and materials shall be secured.

1.6.7.18 Key Control: The Contractor shall establish and implement methods of making sure all keys/key cards issued to the Contractor by the Government are not lost or misplaced and are not used by unauthorized persons. NOTE: All references to keys include key cards. No keys issued to the Contractor by the Government shall be duplicated. The Contractor shall develop procedures covering key control that shall be included in the Quality Control Plan. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The Contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the Contracting Officer.

In the event keys, other than master keys, are lost or duplicated, the Contractor shall, upon direction of the Contracting Officer, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due the Contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payment due the Contractor.

The Contractor shall prohibit the use of Government issued keys/key cards by any persons other than the Contractor's employees. The Contractor shall prohibit the opening of locked areas by Contractor employees to permit entrance of persons other than Contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the Contracting Officer.

1.6.7.19 Lock Combinations: The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having access to the combinations no longer have a need to know such combinations. These procedures shall be included in the Contractor's Quality Control Plan.

1.6.7.20 Common Access Card:

a) When contractor performance is required on Government installation(s)/location(s), contractors shall ensure Common Access Cards (CACs) are obtained by all contract or subcontract employees who meet one or both of the following criteria:
   - Require long-term logical access to Department of Defense computer networks and systems in either:
     - the unclassified environment; or
     - the classified environment where authorized by governing security directives.
   - Perform work on a long-term basis, which requires the use of a CAC for installation entry control or physical access to facilities and buildings.

b) While visiting or performing work on Government installation(s)/location(s), contractor employees shall wear or prominently display the CAC as required by the governing local policy.

c) During the performance period of the contract, the contractor, or contractor employee as appropriate, shall:

- Within seven (7) working days of any changes to the listing of the contract personnel authorized a CAC, provide an updated listing to the contracting officer who will provide the updated listing to the TA (who will create new CAC applications or revoke those for employees no longer performing on the contract as appropriate);
- Contractors must return the government credential to the issuing agency as soon as one of the following occurs, unless otherwise determined by the service or agency:
    - When credential is no longer needed for contract performance
    - Upon completion of employment
    - Upon contract completion or termination
- Report lost or stolen CACs immediately to the TA.

d) The contracting officer may delay final payment under the contract if the Applicant (Contractor) fails to comply with these requirements.

f) Applicants who work overseas (e.g., those who accompany and support military forces) may require Geneva Convention CACs and may need to provide documentation of the appropriate Status-of-Forces Agreement (SOFA) at the RAPIDS Issuing Facility in order to receive a government credential.

1.6.7.20.1 Common Access Card (CAC) Issuance:

a) Prior to the Applicant contacting a Trusted Agent (TA) to request a government credential, the employee must be vetted through the employer using the DoD-approved process outlined in the following documents:
- Federal Information Processing Standards Publication 201-1, "Personal Identity Verification (PIV) of Federal Employees and Contractors"
- DoD Regulation 5200.2-R, "Personnel Security Program"
- Department of Defense Manual (DoDM) 1000.13, Volume 1—"DoD Identification (ID) Cards: ID Card Life-Cycle" Failure, inability, or delay in obtaining the CAC does not relieve the contractor from performing under the terms of the contract.

b) Contractors shall provide a listing of their employees that will require a CAC to the contracting officer. The listing will contain the following information in order for a CAC application to be created in the Trusted Associate Sponsorship System (TASS): last, middle, and first names; Social Security Number; Date of Birth; email address; the contract number; and the contract end date. The contracting officer will provide a copy of the list to the TA who will then create a CAC application in the TASS.

c) Once the application is created, a temporary login/password will be generated in TASS. The TA will securely distribute the login/password to that contractor employee. Contractor employee shall then enter the TASS web site using the temporary login/password and complete the CAC application. Once the Applicant has logged in for the first time, he or she has 30 calendar days to complete the application process.

1.6.8 Special Qualifications: The contractor is responsible for the overall management and oversight of this contract. It is the contractor's responsibility to staff and deploy qualified contractor personnel to meet all of the PWS requirements. The Government's historical staffing data is provided under Technical Exhibit 3. The Government anticipates the requirements within this PWS will require the following labor categories Instructor/Writers, Mobile Instructor/Writers, Administrative Technician/MTT Coordinator, Network Engineer, and Program Manager. However, it is the Contractor's responsibility to propose and deploy the correct labor types, mix, number and hours required to satisfactorily and professionally meet all PWS requirements.

1.6.8.1 In addition to the minimum criteria noted in 1.6.7.2, the instructors teaching the following courses shall possess the certifications noted in the chart below with currently approved test version:

INSTRUCTOR CERTIFICATION CRITERIA	
Course	**REQUIRED CERTIFICATION**
ISC2 Certified Information Systems Security Professional (CISSP) (2wk) (4wk) versions	ISC2 Certified Information Systems Security Professional (CISSP)
CompTIA Advanced Security Practitioner (CASP+)	CompTIA CASP+
CompTIA Cybersecurity Analyst (CySA+)	CompTIA CySA+
CompTIA Security+ (SEC+)	CompTIA Security+
CompTIA Network+ (NET+)	CompTIA Network+
CompTIA A+ (A+)	CompTIA A+
Certified Information Security Manager (CISM)	Certified Information Security Manager (CISM)
Certified Ethical Hacker (CEH)	Computer Network Defense Analyst (CND-A) **OR** Computer Network Defense Infrastructure Support (CND-IS) **OR** Computer Network Defense Incident Responder (CND-IR) **OR** Computer Network Defense Auditor (CND-AU)
Network Management System (NMS)	CompTIA Security+ **AND** CompTIA Network+
Policy Class	3yrs Experience IA Policy Writing
Network Security	CompTIA Security+ **AND** CompTIA Network+
Host Based Security System (HBSS)	HBSS Train the trainer course
Cyber Sec First Responder (CFR)	Cyber Sec First Responder (CFR)

1.6.8.2 <u>Instructor/Writer</u>: The following are the minimum requirements that all instructors shall have:

- Possess and maintain a valid passport. (Mobile Training Team Members Only)
- Possess and maintain a valid driver's license.
- Be Instructor qualified: possess Instructor Training Course (ITC) or Common Faculty Development – Instructor Course (CFD-IC). ITC/ CFD-IC certification shall be less than five (5) years old. All personnel not properly ITC/ CFD-IC qualified will have to successfully complete the course upon award of contract.
- Possess a minimum of four (4) years of experience within the preceding six (6) years' experience instructing IA courses or worked directly in the IA career field during four (4) of the preceding six (6) years.
- Possess skills/knowledge of performing office automation work that includes word processing, electronic mail, spreadsheets, and other personal computer applications; typing a variety of materials from rough draft into final form including narrative and tabular material e.g. correspondence, reports, and forms; maintaining training records, historical records, survey results, reference library of training catalogs, regulations and other miscellaneous publications; establishing and maintaining office functional files and reference files; PC support skills related to installing, configuring and repairing; ability to research and resolve problems using a variety of resources and tools; knowledge management applications e.g. SharePoint, Army training requirements and resources system (ATRRS), and Learning Management Systems (LMS).
- Possess advanced presentation speaking skills (e.g. tailoring content and delivery for different audiences, presenting confidently to large or small groups, and using more creative approaches to presenting).

1.6.8.3 Site-Lead: A Site-Lead shall be at the following location Fort Bragg, NC; Fort Gordon, GA; Fort Hood, TX; Fort McCoy, WI; Joint Base Lewis McChord, WA; and Camp Robinson, AR. The Site-Leads provides "On-Site" supervision, in coordination with the PM, coordinates work schedules, resolves minor issues, and completes the administrative tasks associated with this PWS. The Site-Lead must possess decision authority during the absence of the PM. The Site-Lead is an additional duty, selected by the PM, and may be any of the contractors assigned to that location. The name of Site Leads at each location shall be designated in writing to the affected Government Site Managers and the COR. The PM or contract Site Leads shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract.

1.6.8.4 Administrative Technician:

- Possess skills/knowledge to compute funding requirements, workload data and TDY travel costs.
- Have a working knowledge of Microsoft Office® suite of software products and knowledge management applications e.g., SharePoint, Army training requirements and resources system (ATRRS), and Learning Management System (LMS).
- Possess at a minimum a technical or business certificate in administrative services or related field.

1.6.8.5 Network System Administrator: Contract personnel providing support for Network Administrator duties shall:

- Have a at least 3 years in IA technology or a related area, five (5) years Network Management experience and five (5) years of Information Assurance System Architect and Engineer (IASAE) experience.
- Have a six (6) years of experience working as a network administrator and worked directly in the career field during six (6) of the preceding eight (8) years.
- Must possess a current computing environment certification from Cisco at the Professional level along with corresponding IAT II baseline certification.

1.6.8.6 Program Manager (PM):

- Possess and maintain a current IAM-level III baseline certification
- Possess 5yr experience in project management.

1.6.8.7 The contractor at its own expense, shall replace, within fifteen **(15)** calendar days, any contract personnel found to be unqualified or otherwise determined unsuitable by the government. This fifteen day timeframe also includes any contract instructors who submit their resignation under the current contract. The government will exercise the right, if deemed necessary, to select an appropriate method (pretest, hands on practical exercise, etc.) to determine if the contractor is qualified/suitable to perform the requirements.

1.6.9 Post Award Conference/Periodic Progress Meetings: The Contractor agrees to attend all or as deemed necessary by the government post award conference convened by the contracting activity or contract administration office in accordance with Federal Acquisition Regulation Subpart 42.5. The contracting officer, Contracting Officers Representative (COR), and other

Government personnel, as appropriate, may meet periodically with the contractor to review the contractor's performance. At these meetings the contracting officer will apprise the contractor of how the government views the contractor's performance and the contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the government.

1.6.10 Contracting Officer Representative (COR): The (COR) will be identified by separate letter. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: assure that the Contractor performs the technical requirements of the contract: perform inspections necessary in connection with contract performance: maintain written and oral communications with the Contractor concerning technical aspects of the contract: issue written interpretations of technical requirements, including Government drawings, designs, specifications: monitor Contractor's performance and notifies both the Contracting Officer and Contractor of any deficiencies; coordinate availability of government furnished property, and provide site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

1.6.11 Key Personnel: All personnel providing support for the following duty areas are considered Key Personnel: Administrative Technician and the Program Manager. The above stated positons make up the program management team. The names of the program management team shall be designated in writing to the contracting officer. The program management team shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract. The program management team shall be available between the hours of 0800 to 1700, Monday thru Friday except Federal holidays or when the government facility is closed for administrative reasons.

1.6.12 Supervision of Contractor Employees: The Government will not exercise any supervision or control over Contractor or subcontractor employees while performing work under the contract. Such employees shall be accountable solely to the Contractor, not the Government. The Contractor, in turn, shall be accountable to the Government.

1.6.13 Contractor Travel: Contractor shall be required to travel CONUS and OCONUS during the performance of this contract to conduct resident and mobile training, attend meetings, and conferences, in support of this PWS.

1.6.13.1 The contractor shall provide a cost estimate to the KO and obtain the KO's approval prior to travel. Travel that is not approved by the Contracting Officer will not be reimbursed and will be at the contractor's expense. The contractor shall submit actual travel receipts and will be authorized reimbursement of travel expenses consistent with Federal Acquisition Regulation (FAR) 31.205-46, the substantive provisions of the Joint Travel Regulation (JTR) and any funding limitation specified on this contract. Payment will be made for actual costs only; handling fees, G&A, and profit will not be allowed on Travel costs. Trip reports are due to the COR NLT seven (7) working days after travel. The contractor shall submit invoices for reimbursement, per the

paragraph 5.7.3 citing the appropriate CLIN. All supporting documentation for travel shall be legible, error free and clearly identify the amount of reimbursement being sought.

1.6.13.2 The contractor shall be responsible for briefing government personnel on information and techniques acquired during travel. The contractor shall brief government personnel no later than seven (7) working days after travel.

1.6.14 Other Direct Costs: This category includes text books, print material, industry standard certification vouchers, and courseware products, associated with training activities. The requirement for purchases shall be approved, in writing by the COR prior to purchasing items. The contractor shall provide the required supplies/materials and submit invoices for reimbursement citing the appropriate CLIN. Payment will be made for actual costs only; handling fees, G&A, and profit will not be allowed on ODCs. Purchase reports are to include all purchases for the purpose of this contract during Period of Performance (POP).

1.6.15 Data Rights: The Government has unlimited rights to all documents/material produced under this contract. All documents and materials, to include the source codes of any software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

1.6.16 Organizational Conflict of Interest (OCI): Contractor and subcontractor personnel performing work under this contract may receive, have access to or participate in the development of proprietary or source selection information (e.g., cost or pricing information, budget information or analyses, specifications or work statements, etc.) or perform evaluation services which may create a current or subsequent (OCIs) as defined in FAR Subpart 9.5. The Contractor shall notify the COR immediately whenever it becomes aware that such access or participation may result in any actual or potential OCI and shall promptly submit a plan to the COR to avoid or mitigate any such OCI. The Contractor's mitigation plan will be determined to be acceptable at the discretion of the COR and in the event the COR unilaterally determines that any such OCI cannot be satisfactorily avoided or mitigated, the COR may affect other remedies as he or she deems necessary, including prohibiting the Contractor from participation in subsequent contracted requirements which may be affected by the OCI.

1.6.17 PHASE IN /PHASE OUT PERIOD: not required for this contract effort.

- **Phase-In:** The Contractor shall develop a 30-calendar day phase-in plan. Included in the phase-in plan shall be: the Contractor's staffing plan, qualifications of the proposed transition team, and ability to obtain security clearances. The Contractor shall include timelines to meet staffing requirements, general operating procedures, and staff training policies. The required completion date for the transition is 30 calendar days after the contract award. The Contractor shall fully collaborate to conduct a smooth, orderly, and seamless transition of services from

the incumbent Contractor(s) of all CONUS and OCONUS services in no more than thirty (30) calendar days after contract award.

- **Phase Out:** During the 30 calendar days immediately prior to the end of this contract (if the Contractor is not awarded the subsequent contract for these services), the Contractor shall permit its successor to observe and become familiar with any and all operations under this contract. The Contractor shall provide the Procuring Contracting Officer (PCO) with a Phase-Out Plan NLT 45 calendar days prior to the contract end date. This plan shall detail disposition action for all furnishings, equipment, and documentation with moderate Government input, outlining the Contractor's approach to fulfill this contract requirements and applying all relevant factors and information gathered throughout the contract performance.

PART 2
DEFINITIONS & ACRONYMS

2. DEFINITIONS AND ACRONYMS:

2.1 DEFINITIONS:

2.1.1 CONTRACT ADMINISTRATOR: The official Government representative delegated authority by the Contracting Officer to administer a contract. This individual is normally a member of the appropriate Contracting/Procurement career field and advises on all technical contractual matters.

2.1.2 CONTRACTOR: A supplier or vendor awarded a contract to provide specific supplies or service to the government. The term used in this contract refers to the prime.

2.1.3 CONTRACTING OFFICER (KO): A person with authority to enter into, administer, and or terminate contracts, and make related determinations and findings on behalf of the government. Note: The only individual who can legally bind the government.

2.1.4 CONTRACT SPECILIST (KS): Formulate and administer policies and procedures to ensure achievement of Federal socioeconomic goals, such as those affecting small business, labor surplus areas, and disadvantaged business firms.

2.1.5 CONTRACTING OFFICER REPRESENTATIVE (COR): An employee of the U.S. Government appointed by the contracting officer to administer the contract. Such appointment shall be in writing and shall state the scope of authority and limitations. This individual has authority to provide technical direction to the Contractor as long as that direction is within the scope of the contract, does not constitute a change, and has no funding implications. This individual does NOT have authority to change the terms and conditions of the contract.

2.1.6 DEFECTIVE SERVICE: A service output that does not meet the standard of performance associated with the Performance Work Statement.

2.1.7 DELIVERABLE: Anything that can be physically delivered, but may include non-manufactured things such as meeting minutes or reports.

2.1.8 GOVERNMENT-FURNISHED PROPERTY (GFP) OR GOVERNMENT PROPERTY (GP): Property in the position of, or directly acquired by, the Government and subsequently made available to the Contractor.

2.1.9 KEY PERSONNEL. Contractor personnel that are evaluated in a source selection process and that may be required to be used in the performance of a contract by the Key Personnel listed in the PWS. When key personnel are used as an evaluation factor in best value procurement, an offer can be rejected if it does not have a firm commitment from the persons that are listed in the proposal.

2.1.10 PHYSICAL SECURITY: Actions that prevent the loss or damage of Government property.

2.1.11 QUALITY ASSURANCE: The government procedures to verify that services being performed by the Contractor are acceptable in accordance with established standards and requirements of this contract.

2.1.12 QUALITY ASSURANCE SPECIALIST: An official Government representative concerned with matters pertaining to the contract administration process and quality assurance/quality control. Acts as technical advisor to the Contracting Officer in these areas.

2.1.13 QUALITY ASSURANCE SURVEILLANCE PLAN (QASP): An organized written document specifying the surveillance methodology to be used for surveillance of contractor performance.

2.1.14 QUALITY CONTROL: All necessary measures taken by the Contractor to assure that the quality of an end product or service shall meet contract requirements.

2.1.15 REQUIRING ACTIVITY (RA): A military or other designated supported organization that identifies the need for contracted support during military operations.

2.1.16 RESOURCE MANAGER (RM): An official Government representative that performs analytical, evaluative, and budgetary work related to the development, management and execution of designated operating programs such as resource management, budget, contracting, human capital and mission operations.

2.1.17 SUBCONTRACTOR: One that enters into a contract with a prime contractor. The Government does not have private of contract with the subcontractor.

2.1.18 WORK DAY: The number of hours per day the Contractor provides services in accordance with the contract.

2.1.19 WORK WEEK: Monday through Friday, except for Federal holidays unless specified otherwise.

PART 3
GOVERNMENT FURNISHED PROPERTY, EQUIPMENT, AND SERVICES

3. GOVERNMENT FURNISHED ITEMS AND SERVICES:

3.1 Government-Furnished Resources: All Government-furnished property will be provided in accordance with FAR 52.245-1, and FAR 52.245-9, and may include: property in the possession of, or directly acquired by, the Government and subsequently furnished to the Contractor for performance of a contract. Government property shall be used ONLY in performance of this contract and its deliverables. The contractor shall account for all property provided by the Government, and shall be responsible for the security and condition of said property. Serialized items shall be annotated at the time of issue, with a signature of acknowledgement by the individual contractors. All Government Furnish Property (GFP) is the property of the US Government and shall not be transferred to any individual, or agency, public or private without the express written approval of the Contracting Officer. A GFP inventory shall be organized and compile per **CDRL #A006**.

3.2 Facilities: The Government will provide the necessary workspace for the contractor staff to provide the support outlined in the PWS to include desk space, telephones, computers, and other items necessary to maintain an office environment located at the locations identified in this PWS.

3.3 Utilities: The Government will provide electricity, water, phone service, and network services (NIPRNET, DSN), to building (number). The Contractor shall instruct employees in utilities conservation practices. The contractor shall be responsible for operating under conditions that preclude the waste of utilities, which include turning off the water faucets or valves after using the required amount to accomplish cleaning vehicles and equipment.

3.4 Equipment: The Government will provide contractor personnel computer equipment, other data collection equipment/software, telephones, and monitors. The contractor shall have access to printers, plotters, copy machines, scanners and fax machines. The contractor shall be responsible for any loss or destruction of or damage to items of Government property that are removed from the installation premises by the contractor – with or without Government approval.

PART 4
CONTRACTOR FURNISHED ITEMS AND SERVICES

4. CONTRACTOR FURNISHED ITEMS AND RESPONSIBILITIES:

4.1 General: The Contractor shall furnish all supplies, equipment, facilities and services required to perform work under this contract that are not listed under Section 3 of this PWS.

4.2 Secret Facility Clearance: The contractor shall possess and maintain a SECRET facility clearance from the Defense Security Service. The Contractor employees performing work in support of this contract shall have a final SECRET security clearance at start date. The DD 254 is provided as Attachment.

4.3 Training / Certification: The Contractor shall provide prior to contract award proof of required training and certifications described in Part 1.

4.4 Contract Management: The contractor shall provide all management, administration, security, quality control, and all else required to ensure successful completion of all deliverables.

4.5 Personnel: The contractor shall furnish adequate supervision, including a PM and the labor necessary to perform all services in an orderly, timely, and efficient manner. The PM shall have the authority to act on behalf of the contractor. The contractor shall utilize qualified and experienced employees capable of achieving the goals established in the contract. All personnel will maintain current qualifications and clearances and obtain any and all training required to meet mission requirements. Contractor personnel are employees of the contractor and under its administrative control and supervision. The contractor through its personnel shall perform tasks herein.

4.6 Contractor shall select, supervise, and exercise control and direction over his employees under this contract. The Government will not exercise any supervision or control over the contractor employees in its performance of contractual services under this contract. The contractor shall ensure that no prohibited personal services are performed under this contract.

PART 5
SPECIFIC TASKS

5. SPECIFIC TASKS:

5.1 Daily Responsibilities: The contractor shall work in an environment that will include military, contractor, and/or civilian instructors performing work on other projects. The contractor shall perform the required services at the sites specified in this contract for resident and mobile training sites. The contractor shall perform training, receive training, attend workshops, present at conferences, or assess training events at these various sites. Work with other schools, institutions, or agencies – Government, DoD, USA, Industry, Academia, or Foreign Government – to identify and implement new information applicable to specific courses (or lessons). Contractor shall perform duties as a Pearson Vue and/or Prometric proctor where applicable and required and coordinate all efforts with Army operations and course manager. Contractor shall participate actively in special and scheduled conferences; providing information, ideas and opinions that relate to CS and security training.

5.1.1 Program Management: The contractor shall provide complete program management and administrative tasks to ensure the requirements of the contract are met and to ensure the contractor adequately controls and supervises all personnel who perform services under this contract. The program manager shall be the focal point for all issues and shall keep the Government fully informed, both verbally and in writing. The contractor shall provide all necessary personnel, administrative, financial, and managerial resources required to support this contract. The Contractor shall supervise, coordinate work schedules, resolve minor concerns/issues and complete the administrative tasks associated with this PWS. The Contractor shall be familiar with all duties and qualifications stated in the PWS under all sections. The Program Manger is also responsible for the following:

- Ensure instructor/writer/developers are evaluated, and demonstrate subject matter expertise in various IT Security policies, hardware, software, and communication technologies.
- Have the capability and authority to resolve and respond to issues directly with the COR.
- Monitor trends and upcoming changes within the Army IA/ND community; analyze the CS environment; and develops recommended improvements.
- Provide project coordination and process improvements thru the QCP
- Provide and gather required information to assist with coordination support efforts.
- Shall supervise, coordinate work schedules, resolve minor concerns/issues and complete the administrative tasks associated with this PWS.

5.1.2 Instructor/Writer: The contractor shall be responsible for the following:

- The contractor shall instruct, prepare, review, author curriculum development products to include the development of new tests and training materials that are virtual, printed, and computer based to support the new curriculum. Update program documentation in support of all CyberCoE, Information Assurance/Cyber Security Courses. This task is required to support the Army CIO/G6 requirements for training and certification of IAT and IAM

Level I, II and III, IA personnel per DoD 8570.01-M or current regulation. (https://cs.signal.army.mil/docs/857001m.pdf).

- The Contractor shall be proficient in providing virtual training through software modalities
- Provide approved IA/CS instruction and apply the current program of instruction (POI) in each of the following courses: CISSP, CASP, Sec+, Net+, A+, CEH, CISM, Network Security, and other IA/CS policy and accreditation based courses. The number of courses and their content are subject to change based on DoD and Army requirements.
- Perform classroom instruction and maintain instructor certification (in accordance with Army and Fort Gordon instructor certification & evaluation criteria) to instruct various IA/CS courses and evaluate student performances using TRADOC-approved Instructional methodology to include TRADOC Pam 350-70-3 (Staff and Faculty Development) and TRADOC Pam 350-70-5 (System Approach to Training: Testing). Policies may be included in the Staff and Faculty Development Branch SOP.
- The contractor shall serve as assistant or primary instructors with a combined team of US Military, US government civilian, and defense contractor for related IA/CS courses conducted in-residence at CLC facilities, or as a member of a MTT, or at other locations as identified by the PWS.
- Collaborate with government personnel to establish acceptable instructor practices and student evaluation criteria.
- Stay current with required industry certifications and provide a copy of certifications to the COR.
- Manage and maintain accountability of remote site classroom presentation equipment and classroom furniture as prescribed in TRADOC Pamphlet 350-70-14, FG policies, and/or local SOP e.g. identify furniture or equipment issues and report them to proper personnel. All equipment issues shall be reported to the government representative at remote site location and COR.
- Maintain established classroom security requirements and procedures as prescribed in, applicable security regulation and policies, and/or local SOP. All issues will be reported to the COR or TPOC as soon as identified.
- Install and/or operate classroom control software on classroom IT equipment.
- Stand, bend and stoop for long periods of time, while delivering and assisting students with training materials. Conduct training indoors and outdoors.
- Provide students with evaluation sheets, administer and enforce test control standards, and conduct testing in subjects taught, to include grading of exams, evaluation of results, recording of exam result, and administer student critiques for courses. If the contract instructor is involved with a curriculum development effort, part of that effort shall be to develop new tests associated with the new curriculum. The tests shall be performance-based and/or criterion-based and are controlled and sensitive materials
- Maintain and report student attendance, records, and statistics as prescribed in TRADOC Regulation 350-18, FG policies, and/or local SOP. Evaluate students and report academic concerns to the COR when warranted by classroom performance, e.g. academic test failure, excessive absences, and etc.
- Audit and edit all developed courseware for accuracy, completeness, flow, balance, and clarity of understanding. From the results of the students' critiques, review and modify all

lessons, material, labs, and instruction to ensure it imparts the maximum amount of value in the minimum amount of time.

- Develop, research, provide and maintain new and existing IA courseware. All material shall be stored on government provided shared servers or government provided storage cabinets. Examples of courseware and materials are briefings, handouts, study guides, evaluations and progress checks, exercises, instructor-training materials and lesson plans. The contractor shall provide supervision, planning timelines for development, revision, administration or instruction of various IA/CS related courseware and material within the government specified timeframe. At a minimum the timeline(s) shall include: time to task schedules, milestones to completion, progress reports, limitations or constraints (**CDRL #A001**).
- Review the current POI and Lesson Plans (LP) quarterly (**CDRL #A002**) together with other pertinent documents, e.g. student handouts, slides, practical exercises, in order to revise, create, or update the documentation and curriculum to reflect current or emerging course needs. This is dependent on changes with technology and training requirements to meet mission requirements and/or critical tasks. Any update or addition to training material shall be recommended to the COR and approved by the COR prior to implementation. The COR will provide formats for lessons/training plans.
- All training products (hard or digital) provided will be reviewed and approved by the COR, in coordination with the Fort Gordon Training Development (TD). The COR will review and provide corrections NLT two (2) weeks. Return time may vary based on mission requirements. The contractor shall make all changes and return the documents to the COR for final review.
- Collect, maintain, and analyze student and customer feedback on CS courses, instructors, material, and/or curriculum. Student feedback shall provide information on instructor capabilities, curriculum relevance, and course updates, which address at a minimum: components recommend for sustainment, removal and/or addition to improve capability and functionality. The contractor shall collect, maintain, analyze, and modify critique question and format.
- Attend meetings and conferences. In efforts to maintain currency of the courseware and materials, the instructor/writer shall obtain and record information regarding modification requirements. The COR will identify the meeting location, security requirements, and method of documentation. The contractor shall submit all meeting/conference notes, handouts, and material obtained no later than (NLT) five (5) days after meeting/conference. (**CDRL #A005**).
- Work with Government personnel to develop courseware prerequisites. Provide courseware in a fixed or mobile environment.
- Modify POI or lesson plans and provide a planning timeline for research, technical analysis, development, revision, administration, approved instruction of CS courses and related courseware, and evaluation.
- Identify, evaluate and recommend benefit of new courses, training material and information technology for inclusion in the CS courses and related courseware.
- Ensure that a sufficient number of instructors are present during all class instruction to maintain the Instructor-to-Student (ITS) ratio of 1:20 in the TRADOC-approved POIs. For example, when the student population exceeds 20, a second instructor shall be present. The

Government does not intend to conduct any courses where the student population would require the presence of a third instructor to meet the ITS.

- Maintain daily availability for all labs during normal operating hours.
- MTT instructors perform duties as a Pearson VUE proctor for supporting courses at remote training locations.
- Provide daily access for stand-alone test kits.
- Coordinate with government POCs for lab and classrooms service.

5.1.3 Administrative Technician: The contractor shall be responsible for the following:

- Maintain calendar, scheduling, miscellaneous and administrative reports, memorandums, and attend meetings on a daily basis.
- Use Microsoft Office® suite of software products, perform keyboard typing and knowledge management applications (e.g. SharePoint, Army Training Requirements and Resources System (ATRRS), and Blackboard), calendars, and scheduling.
- Track and secure classified and unclassified data, information and/or systems.
- Provide and track instructor packets, instructor evaluations, scheduling of instructors, logistical functions to coordinate TDY and security clearance status.
- Coordinate the daily IA mobile training requests, staff training, and conferences.
- Report and maintain student attendance and student records and statistics IAW TRADOC Regulation 350-18.
- Input accurate data in Digital Training Management System (DTMS) to support the maintenance of student academic records, and issue diplomas to eligible students or system that replaces it.
- Coordinate class print requirements through government processes or commercial processes as required

5.1.4 Network System Administrator: The contractor shall be responsible for the following:

- Provide daily support for the installation, configuration, and administration in the following network technologies: TCP/IP protocols, Voice-over IP (VOIP), Ethernet Networks, Hyper-Text Transfer Protocols (HTTP), Simple Mail Transfer Protocol (SMTP), Point to Point protocols (PPP), routers, network switches, and hubs.
- Provide network engineering, architecture & administration design services to design communications architectures; encryption strategies; system monitoring; load balancing, enhance network performance with applicable patches, upgrades, etc.
- Provide support for the installation, configuration, administration, and maintenance of Automation Information Systems (AIS) hardware and operating systems software on unclassified but Sensitive Internet Protocol Router Network (NIPRNET) and commercial ISPs.
- Develop and maintain installation procedures, configuration management guides, troubleshooting guides and other documentation.
- Provide analysis, design, implementation support, acquisition support, and accreditation support for the implementation of networks and equipment at Cyber Security Organizations.

- Provide curriculum development support as the POI or lesson plans require modification due to changing technology, requirements or critical tasks as related to network infrastructure.

5.2 Deliverables:

5.2.1 Courseware Development Timeline(s) (CDRL #A001): The contract shall provide courseware timeline(s) as determined by the COR. The Courseware Development Timeline(s) shall identify if course is blended, online or virtual and include, at a minimum:

a) Title (Name)
b) Time to task schedules
c) Milestones to completion
d) Progress reports
e) Limitations or constraints

5.2.2 Lesson Plan/Training Material and Updates (CDRL #A002): The contractor shall author and/or update the curriculum, as determined by the Government:

a) Soft copy of completed course materials to include: references used in accordance with formats defined by the Government. The following are examples (but not all inclusive) of required course materials: lesson plans, syllabi, lecture presentations, scenarios, instructor notes and slides, student guides, instructor guides, evaluations, progress checks, handouts, exercise materials, training guides, student critique forms, schedules, trend analysis, tailored training packets, and classification markings. The contractor shall provide soft copies of the material as required by the government.
b) Hard copies of complete, current, and accurate course materials to include references used with 5.2.2 (a) above shall be maintained in a government provided storage area for review by the contractor and the government. All hard copy course material shall be marked with the appropriate classification. The contractor shall ensure that all updates for hard copy reference material are current before the commencement of a class. The contractor shall provide hard copies of the material as required by the government.

5.2.3 Monthly Progress Reports (CDRL #A003): The contractor shall provide a monthly Contractor's Progress, Status, and Management Report attached to the monthly WAWF invoice containing the following:

a) Brief description of the requirements
b) Brief summary of accomplishments during the reporting period
c) Significant events regarding the Contract
d) Progress on deliverable products
e) Current or anticipated problems
f) Summary of activity planned for the next reporting period

5.2.4 In-Progress Reviews (CDRL #A004): The contractor shall participate in IPRs; the frequency and scope of which shall be determined at the Post Award Meeting chaired by the Contracting Officer Representative (COR).

5.2.5 Meeting/ Conference Reports (CDRL #A005): The contractor shall provide an individual EXSUM of all meetings and conferences directed by the COR NLT five (5) days after event. Reports shall be submitted by each individual participant. Reports shall include, but shall not be limited to:

a) Date and place of event
b) Purpose of event
c) List of attendees
d) List of key personnel contacted
e) Facts and discussion of event
f) Recommendations resulting from event

5.3 CONTRACTOR MANPOWER REPORTING (CMR) (CDRL #A006): The Office of the Assistant Secretary of the Army (Manpower & Reserve Affairs) operates and maintains a secure Army data collection site where the Contractor shall report ALL Contractor manpower (including subcontractor manpower) required for performance of this contract. The Contractor shall completely fill in all the information in the format using the following web address https://cmra.army.mil. Contractor will need to register in the system. It can take a couple of days for your account to be activate so register as early as possible at https://cmra.army.mil/register.aspx. The required information includes:

a) Contracting Office, Contracting Specialist, and Contracting Officer's Technical Representative (COTR) or also known as the Contracting Officer Representative (COR).
b) Contract number, including task and delivery order number
c) Beginning and ending dates covered by reporting period
d) Contractor's name, address, phone number, e-mail address, identity of Contractor employee entering data
e) Estimated direct labor hours (including sub-Contractors)
f) Estimated direct labor dollars paid this reporting period (including sub-Contractors)
g) Total payments (including sub-Contractors)
h) Predominant Federal Service Code (FSC) reflecting services provided by Contractor (and separate predominant FSC for each sub-Contractor if different)
i) Estimated data collection cost
j) Organizational title associated with the Unit Identification Code (UIC) for the Army Requiring Activity (the Army Requiring Activity is responsible for providing the Contractor with its UIC for the purposes of reporting this information)
k) Locations where Contractor and sub-Contractors perform the work (specified by zip code in the United States and nearest city, country, when in an overseas location, using standardized nomenclature provided on website)
l) Presence of deployment or contingency contract language
m) Number of Contractor and sub-Contractor employees deployed in theater this reporting period (by country). As part of its submission, the Contractor shall provide the estimated total cost (if any) incurred to comply with this reporting requirement. Reporting period shall be the period of performance not to exceed 12 months ending September 30 of each government fiscal year and must be reported by 31 October of each calendar year.

Contractors may use a direct XML data transfer to the database server or fill in the fields on the website. The XML direct transfer is a format for transferring files from a Contractor's system to the secure website without the need for separate data entries for each required data element at the website. The specific formats for the XML direct transfer may be downloaded from the website.

5.4 Invoicing/ WAWF :

5.4.1 Wide Area Workflow (WAWF) – Invoicing Receipt, Acceptance, and Property Transfer (iRAPT) shall be implemented in accordance with DFAR 252.232-7003 Electronic Submission of Payment Requests. Manual invoices will not be accepted.

5.4.2 Format. All invoices shall be submitted in WAWF as a 2-in-1 invoice with all applicable monthly documentation attached. Monthly documentation includes Monthly Progress Reports (MPR), In- Progress Reviews (IPR), Trip Reports, and other reports where applicable as stated in the PWS. Monthly documentation may not be submitted via email. Invoices submitted as anything other than a 2-in-1 and/or without attached monthly documentation will be rejected.

5.4.3 Payment for Travel. If the contractor is requesting payment for travel during the month of the submitted invoice, the Trip Report, along with supporting documentation shall accompany that invoice in order to receive payment for travel. Supporting documentation includes lodging, gas, airline, rental car, parking receipts, etc. If the electronic file containing supporting documentation is too large to be attached, please make arrangements with the COR to submit those documents via email.Routing. Invoices shall be routed to the COR as "inspector" as well as the "acceptor". When preparing an invoice, the "inspector" fields shall be completed with the DODAAC "W589GE" and the "acceptor" fields shall be completed with the DODAAC "W589GE".

5.4.4 Also, email notification of invoice submission shall be sent to the COR. This email shall be initiated through the WAWF system by clicking on the "send more email notifications" link. This link is found at the bottom of the "submitted successfully" page after the invoice is submitted into the system. Email notifications, other than those initiated through WAWF, will not meet proper routing requirements and will not be accepted. If email notifications are not properly sent to appropriate individuals through WAWF, the invoice will be rejected.

5.4.5 A contract employee with the authority to bind the company contractually shall certify all invoices. Invoices shall be submitted no later than (NLT) ten days after the end of each month (30-day period), depending on the contract award date. Failure to submit invoices in a timely manner is a direct violation of this contract agreement. The Government will have the right to exercise a penalty cost, due to the contractor being out of compliance of this contract agreement.

5.4.6 All invoices submitted at the end of the period of performance (each year) shall state "final invoice" and be clearly marked as base period. This annotation should be accomplished in Wide Area Workflow Invoice 2-in-1 section, under Tab Misc. Info, and in the area of Initiator Information Comments.

5.5 Insurance Requirements: Required Insurance under FAR 52.228-5 Insurance – Work on a Government Installation

a) General Liability: $500,000 per occurrence limit on the comprehensive form of policy
b) Workman's Compensation: IAW State Requirements. Employer's liability coverage in the minimum amount of $100,000.
c) Automobile Liability: On the comprehensive form of policy, minimum of $200,000 per person and $500,000 per occurrence for bodily injury and $20,000 per occurrence for property damage for all automobiles and trucks used in connection with the performance of the contract.

PART 6
APPLICABLE PUBLICATIONS

6. APPLICABLE PUBLICATIONS (CURRENT EDITIONS)

The Contractor (to include subcontractors) shall abide by all applicable regulations, publications, manuals, and local policies and procedures.

Applicable documentation may include, but not limited to the following:

ATTACHMENT/TECHNICAL EXHIBIT LISTING

7. Attachment/Technical Exhibit List:

Technical Exhibit 1 – Performance Requirements Summary
Technical Exhibit 2 – Deliverables Schedule
Technical Exhibit 3 – Estimated Workload Data
Technical Exhibit 4 – Estimated Class Load Data
Technical Exhibit 5 – Historical MTT Data
Technical Exhibit 6 – Projected Training Dates
Attachment 1 – Consent Form for Release of Past Performance
Attachment 2 – Specific Relevant Contract Reference Sheets
Attachment 3 – Past Performance Questionnaire
Attachment 4 – Pricing Worksheet
Attachment 5 – Contract Data Requirements List
Attachment 6 – DD 254
Attachment 7 – Wage Determination – Camp Robinson
Attachment 8 – Wage Determinations – Ft. Bragg
Attachment 9 – Wage Determinations – Ft. Gordon
Attachment 10 – Wage Determinations – Ft. Hood
Attachment 11 – Wage Determinations – Ft. McCoy
Attachment 12 – Wage Determinations – Joint Base Lewis McChord

Technical Exhibit 1

The contractor service requirements are summarized into performance objectives that relate directly to mission essential items. The performance threshold briefly describes the minimum acceptable levels of service required for each requirement. These thresholds are critical to mission success.

PERFORMANCE REQUIREMENT SUMMARY DOD 8140/8570.01-M COMPLIANCE TRAINING					
Required Service	**Paragraph Number**	**Performance Standard**	**Acceptable Level of Performance (ALP) or Acceptable Quality Level (AQL)**	**Method of Surveillance**	**Deduction from contract (Penalty)**
Contractor performance met specifications of the Contract and PWS.	Identified throughout the Contract	Contractor met requirements in the PWS 95% of the time, for content delivery within two (2) business days of the due date. No more than one (1) grammatical, typographical, or formatting error per page. Final corrected copy within two (2) business days of government comments. Receive no more than two (2) written customer complaint per performance period concerning contractor deficiencies relating to the contract requirements. Identified deficiencies were successfully corrected within ten (10) workdays of notification.	No deviation, unless approved in advance by the Government	100% inspection, random sampling, planned inspection, periodic inspection, & customer surveys	5%
Provide classroom instruction. Qualified and certified in the course of instruction	5.1 1.6.7	Achieve overall SATISFACTORY rating during all Quality Assessment (QA) evaluations.	No Deviation unless approved in advance by the Government.	100% inspection, random sampling, planned inspection, & periodic inspection	5%
Provide Lesson Plan/	5.0	Delivery shall occur within two (2) business	Not more than one (1) instances	100% inspection,	5%

training Material and Updates.		days of the due date. Initial delivery of all training status updates shall be no less than 95% complete for content.	per calendar month	planned inspection, & periodic inspection	
Contractor met required delivery schedule. This element applies to contract performance including timely submission of all deliverables and reports identified in the contract.	5.3	IAW with the CDRL, initial delivery of all documents shall be no less than 95% complete for content and contain no more than one (1) grammatical, typographical or formatting error per page. Final delivery of all documents shall be complete with all errors corrected and resubmitted within two (2) business days after receipt of government comments.	Not more than two (2) instances per calendar month	100% inspection, random sampling, planned inspection, & periodic inspection	5%
Compiled with all security requirements.	1.6.6	Appropriate employee clearance is completed within two (2) weeks of the contract start date to COR. Zero security violations identified during Contract performance.	No deviation unless, approved in advance by the Government	100% inspection, random sampling, planned inspection, & periodic inspection	5%
Contract Management Schedule & Progress Milestone Dates	Identified throughout the Contract	The degree to which the contractor provides effective management to enable the execution and success of the Task (e.g., technical capabilities, reasonable/cooperative behavior.) The degree to which the contractor plans for and adheres to the PWS schedule and milestone dates (i.e., due dates, meetings, conferences, etc.)	Not more than one (1) instances per calendar month, unless approved in advance by the Government	Planned inspection, & customer surveys	5%
Technical Compliance and Product Quality Depth of Analysis	5.0	The degree to which the contractor demonstrates a sound understanding of PWS requirements and	Not more than one (1) instances per calendar month	Planned inspection, random sampling, &	5%

		employs applicable standards/guidelines and uses comprehensive approaches in the formulation of requirements product solution. (i.e., identifying assumptions and risks, problem solving.)		customer surveys	
Staff Effectiveness & Reliability	5.0 1.6.7	The degree to which the contractor ensure that qualified personnel, in sufficient number, are allocated for the completion of the PWS.	No deviation	100% inspection, & customer surveys	5%
Prepare Invoices (WAWF)	5.7	IAW PWS Standards	Not more than one (1) instances per calendar month in NOT meeting the services requirement	100% inspection, & customer surveys	5%
Cost Realism & Control	Identified throughout the Contract	The degree to which the contractor accurately estimate and maintains PWS and Task costs.	Not more than 5% deviation from standard labor categories	100% inspection, & customer surveys	5%

Technical Exhibit 4

Estimated Class Load Data

This exhibit identifies the overall number and type of courses projected to be conducted at each fixed site and by the mobile training teams during Fiscal Year 2020. Similar training requirements are projected for Fiscal Year 2021. This projected schedule is an estimate; the number and types of courses conducted is subject to change based on the need to consolidate or add classes to accommodate actual student enrollments and the need to add, delete or modify courses to meet evolving requirements, among other factors.

Courses	Robinson (2 labs)	JBLM (1 lab)	Hood (1 lab)	McCoy (1 lab)	Bragg (1 lab)	Gordon (7 labs)	MTT	Totals
SEC+ (1 wk.)	20	24	24	24	24	48	24	188
NET+ (1 wk.)	24	24	24	24	24	24	12	156
CISSP (2 wk.)	12	12	12	12	12	12	12	84
CISSP (4wk)	12	12	12	12	12	12	12	84
CNDC (2 wk.)	12	12	12	12	12	12	12	84
A+ (2 wk.)	48	24	24	24	24	48	12	204
CASP (2 wk.)	12	12	12	12	12	12	12	84
CISM (1 wk.)	12	12	12	12	12	12	12	84
CEH (2 wk.)	20	10	10	10	10	20	12	92
NMS (1 wk.)	20	10	10	10	10	20	12	92
Policy classes (1 wk.)	24	10	10	10	10	24	12	100
Network Security (1 wk.)	20	10	10	10	10	20	12	92
Total Classes	236	172	172	172	172	264	156	1344
Total Weeks	376	278	278	278	278	404	252	2500

Note 1: One week courses typically require about 40 hours of platform instruction. Two week courses typically require between 72 and 80 hours of platform instruction. The four week course typically requires about 144 hours of platform instruction over 18 days.

Note 2: All classes require a minimum enrollment of 12 to 15 students in order to be conducted. Each class is projected to accommodate between 20 and 24 students. The projected attendance at a class is typically known two weeks before a class is scheduled to start and will be provided by the Contracting Officer's Representative at that time. Actual attendance may fluctuate up to and including the date when a course begins based on a variety of factors.

Note 3: Courses may be conducted concurrently at fixed sites with multiple labs; by Mobile Training Teams and at fixed and mobile training sites. See Technical Exhibit 6 for additional details.

Technical Exhibit 5
Historical MTT Data

Location and Unit	Course	Students
Albany, NY	Sec +	18
Bethany Beach, DE	Sec +	18
Camp Atterbury, IN	Sec +	18
Vicksburg, MS	Sec +	18
Los Alamitos, CA	Sec +	18
Colchester, VT	Sec +	18
Colorado, Springs, CO	Sec +	18
Fort Shafter, HI	CEH	16
Fort Knox, KY	CASP	16
Tampa, FL	CISSP	20
San Juan, PR	Net +	18
San Juan, PR	CFR	16

Data on this exhibit reflects the courses supported by the MTTs during Fiscal Year 2020. In addition to the listed courses, MTTs will also support CASP and HBSS in FY21. There is no workload data for HBSS as it was not supported by the MTTs in FY20. Additionally, Fort Detrick will be supported by MTTs beginning in FY21 in lieu of a team being maintained there full time.

Technical Exhibit 6
Projected Training Dates

This chart identifies when training is projected to occur and the number of courses scheduled to be conducted.

Note 1: The Army maintains an open schedule that "offers" all classes on a continuous (e.g., weekly) basis throughout the year for mobile training sites. Classes for mobile sites are "scheduled" when requested by a supported organization that meets the minimum enrollment standard (i.e., 12 to 15 students). The projected attendance at a mobile training class is typically known two weeks before a class is scheduled to start and will be provided by the Contracting Officer's Representative at that time. The Government intends to schedule as many mobile training classes as possible that can be supported by five instructors at any given time and that is consistent with the Instructor-to-Student (ITS) ratio of 1:20.

Note 2: Courses may be conducted concurrently at fixed sites with multiple labs; by Mobile Training Teams and at fixed and mobile training sites. Historic information indicates that: about 75% of the courses presented by the Mobile Training Teams are conducted concurrently; about 25% of the courses at Camp Robinson and Fort McCoy are conducted concurrently; and that about 60% of the courses at Fort Gordon are conducted concurrently. This historical information will be affected by the projected training dates in Technical Exhibit 6.

Contract Data Requirement List

CONTRACT DATA REQUIREMENTS LIST

Public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports, 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA. 22202-4302, and to the Office of Management and Budget, Paperwork Reduction Project (0704-0188), Washington, DC 20503. Please DO NOT RETURN your form to either of these addresses. Send completed form to the Government Issuing Contracting Officer for Contract/PR No. listed in Block E.

N/A	N/A	N/A	Government

The following have been modified:

ADDENDUM 52.212-1

ADDENDUM 52.212-1 Instructions to Offerors

Proposal Submittal and Inquiries.

1. Proposals shall be submitted prior to the closing date and time identified on SF 1449, to the following address:

Mission and Installation Contracting Command – Fort Gordon
Attn: Ms. Devin Knight
271 Heritage Park Lane, Bldg. 35200, Room 136
Fort Gordon, GA 30905
devin.knight.civ@mail.mil
sherrilyn.u.rice.civ@mail.mil

2. Electronic submissions via facsimile will not be accepted. Offers shall be submitted via electronic email and shall be hand carried or mailed through a commercial/Government carrier. It is the offeror's responsibility to verify receipt of proposals prior to the closing date/time. Late proposals will not be accepted. The proposal shall be valid for one hundred and twenty (120) calendar days from the date of initial proposal submission.

3. Address all questions or concerns the offeror may have to the Contract Specialist (Ms. Devin Knight) and Contracting Officer (Mr. Jason King). The SUBJECT LINE shall be "W91249-21-R-0004, Question(s) – Company Name. . . ATTN: Ms. Devin Knight & Mr. Jason King." All questions regarding this solicitation shall be submitted in writing via email (email is the preferred method) **NLT 12:00PM** Eastern Standard Time (EST) on **18 December 2020** to the following:

Procuring Contracting Officer Name: Mr. Jason King
Email: jason.l.king1.civ@mail.mil
Contract Specialist Name: Ms. Devin Knight
Email: devin.knight.civ@mail.mil

The Government reserves the right not to respond to any questions received concerning this solicitation after the questions receipt date above. Accordingly, offerors are encouraged to carefully review all solicitation requirements and submit questions to the Government as early as possible.

4. Site Visit. The Government will not hold a site visit for this requirement.

B. General Instructions

1. The selection of a source for award purposes will be conducted utilizing source selection (negotiated) procedures as delineated in FAR Part 15.3. Offers will be evaluated using the criteria under Addendum 52.212-2, Evaluation Factors for Award. Noncompliance with the Request for Proposal (RFP) requirements may hamper the Government's ability to properly evaluate the proposal and may result in elimination of the proposal from further consideration for contract award.

2. The Offer. The submission of the documentation specified below will constitute the offeror's acceptance of the terms and conditions of the RFP, concurrence with the Performance Work Statement, and contract type.

3. It is the Government's intention to award **without** discussions. Offerors are encouraged to present their best technical proposal and prices in their initial proposal submission. However, in accordance with (IAW) FAR Part 15.306, should discussions become necessary, the Government reserves the right to hold them. If this occurs, a competitive range will be determined and offerors notified. The competitive range may be limited for purposes of efficiency IAW FAR Part 15.306 (c) (2).

4. Instructions outlined in paragraph C below, prescribe the format for the proposal and describe the approach for the development and presentation of proposal data. These instructions are designed to ensure the submission of necessary information to provide for the understanding and comprehensive evaluation of proposals.
5. If an offeror believes that the requirements in these instructions contain an error, an ambiguity, omission, or are otherwise deemed unsound, the offeror shall immediately notify the KO in writing with supporting rationale. The offeror is reminded that the Government reserves the right to award this effort based on the initial proposal, as received, without discussion.

6. In accordance with FAR Subpart 4.8 (Government Contract Files), the Government will retain one copy of all unsuccessful proposals. Unless the offeror requests otherwise, the Government will destroy extra copies of such unsuccessful proposals.

7. All referenced documents for this solicitation are available on the beta.SAM.gov website formerly (FedBizOpps) website at https://beta.sam.gov/.

8. Debriefings. The KO will promptly notify offerors of any decision to exclude them from the competitive range, whereupon they may request and receive a debriefing in accordance with FAR 15.505. The KO will notify offerors who were in the competitive range but were not selected for award in accordance with FAR 15.503(b). Upon such notification, unsuccessful offerors may request and receive a debriefing in accordance with the requirements of FAR 15.506.

C. Proposal Preparation Instructions

1. Offerer's proposal shall consist of four (4) volumes: (1) General, (2) Technical, (3) Past Performance and (4) Price.

2. Proposal Format

(a) Offerors shall submit an original and four (4) copies of each volume as noted in Table 2 of paragraph (c) below of their proposal

(b) Exceptions. Offerors are required to meet all solicitation requirements, such as terms and conditions, representations and certifications, and technical requirements, in addition to

those identified as evaluation factors and subfactors. Failure to meet a requirement may result in an offer being ineligible for award. If the offeror finds it necessary to take exception to any of the requirements specified in this solicitation, the offeror shall clearly identify the applicable Volume and exceptions with a complete explanation of why the exception was taken, what benefit accrues to the Government (if any), and its impact, if any, on the performance, schedule, cost, and specific requirements of the solicitation. Each exception shall be specifically related to each paragraph and/or specific part of the solicitation to which the exception is taken. ***Offerors are cautioned that taking an exception may render the offer ineligible for award.*** This information shall be provided in the format below.

Table 1 - Solicitation Exceptions

Solicitation Document	Page/Paragraph	Requirement/Portion	Rationale & Impact
Section B, PWS, Addendum 52.212-1 and FAR 52.212-2 Evaluation--Commercial Items under Addendum - Evaluation Factors for Award etc.	Applicable Page and Paragraph Numbers	Identify the Requirement or Portion to which exception is taken	Describe the Rationale and Impact of the exception

(c) The proposals shall be organized into 4 volumes. Each volume of the proposal should be submitted as a separate attachment. A cover sheet should be included in each volume, clearly marked as to volume number, title, copy number, solicitation identification and the offeror's name. All text shall be single spaced and printed black on white paper (Black and white requirement does not apply to graphics, photos, etc.) For tables and graphics shall be Times Roman Font 10-poin. Company stationary and logo's are acceptable.

Printing shall be easily readable (12-pitch type or 10 point proportional spacing.)

Cross-references should be utilized to preclude unnecessary duplication of data between sections.

Table 2

Volume	Title	No. of Email Copies	NO. HARD COPIES	NO. OF DIGITAL COPIES (CD ROM)	Page Limits	DIGITAL FORMAT
I	General	1	1 Original + 4 copies	1 CD-ROM	No Limitations	MS Word or PDF
II	Technical	1	1 Original + 4 copies	1 CD-ROM	(20)	MS Word or PDF
III	Past Performance	1	1 Original + 4 copies	1 CD-ROM	3 pages per reference	MS Word or PDF
IV	Price	1	1 Original + 4 copies	1 CD-ROM	N/A	1 - MS Excel 1- PDF

(d) Proposal Limitation. The proposal shall not exceed the limits stated above. If the page limits are exceeded, the pages in excess of the limit shall be removed and returned, unread, to the offeror. The Government will not accept any changes to the contractor's proposal after the closing date of the solicitation (See FAR 15.208 for further information regarding late proposals). If discussions become necessary, page limitations may be placed on responses to Evaluation Notices (ENs). The specified page limits for EN responses will be identified in the letters forwarding the ENs to the offerors.

(e) Page Limit Includes: All appendices, charts, graphs, diagrams, tables, photographs, drawings, etc.

(f) Page Limit does not include covers for volumes, tables of contents, glossary of abbreviations and acronyms, indices, title pages, cross reference indices, and section dividers/tables if they are inserted solely to provide ease to the reader in locating parts/sections of the proposal. Pages will be counted if they contain any other information, i.e., diagrams, extraneous data, etc. Pages marked "This page intentionally left blank" will not be counted.

(g) What Counts As A Page? A page shall be an 8 ½ X 11" sheet of paper. When both sides of a sheet display printed material, it shall be counted as two pages. Letter size and spacing requirements for illustrations and tables can be at the discretion of the offeror but must be easily readable. Fold-outs will be counted as the appropriate number of pages based on an 8 ½" X 11" sheet of paper. Margins shall be at least 1 inch on the top and bottom and 3/4 inch on the side. The Contractor shall number each page in order to eliminate any confusion. In the event contractor creates an ambiguity in their numbering of pages, the Government may exercise its own discretion in counting pages. In the event contractor creates an ambiguity in their numbering of pages, the Government may exercise its own discretion in counting pages.

(h) Indexing. Each volume shall contain a more detailed table of contents to delineate the subparagraphs within that volume. Tab indexing shall be used to identify sections.

(i) Glossary of Abbreviations and Acronyms. Each volume shall contain a glossary of all abbreviations and acronyms used, with a definition for each.

3. Proposal Content

(a) **Volume I** – **GENERAL**.

Volume I must be clearly marked "VOLUME I – GENERAL Volume, RFP W91249-21-R-0004.

Offerors are required to submit a completed SF 1449 (Solicitation, Offer and Award**)** (including acknowledgment of Amendments), SF 1449 continuation sheet, Representation and Certifications, and other statements of Offerors. All final monetary extensions shall be in whole dollars only. Failure to follow the below Contract Proposal preparation instructions may cause your proposal to be deemed unacceptable by the Government. The General Volume shall be organized as follows and contain the identified information.
.

TAB A, Exceptions/Assumptions (if required) - Identification and explanation of any exceptions or deviations. Additionally, any assumptions used in the proposal preparation must be identified.

TAB B, Solicitation, Offer and Award - The SF 1449 shall be submitted fully completed. The offeror is cautioned that the SF 1449 must contain an original signature in block 30a of the form. The contractor shall acknowledge any amendments to the RFP in accordance with the SF 1449 and with Addendum 52.212-1, Instruction to Offerors—Competitive Acquisition. The offeror shall provide the name, title and telephone number of the company/division point of contact regarding decisions made with respect to your proposal and who can obligate your company contractually. Also, identify those individuals authorized to negotiate with the Government.

TAB C, SF 1449 – Continuation Sheets -- Supplies or Services and Prices/Costs – This section shall be submitted fully completed and error free. It shall contain the offeror's prices for the established Contract Line Items Numbers (CLINS).

TAB D, (Representation, Certifications, and Other Statements of Offerors) – The offeror shall ensure that this is submitted thoroughly completed with all blocks in each certification/representation completed truthfully and completely.
.

(b) **Volume II** – Technical Experience

Volume II must be clearly marked "VOLUME II – TECHNICAL EXPERIENCE Volume, RFP W91249-21-R-0004.

(1) The Technical Volume shall be clear, concise, and include sufficient detail for effective evaluation and for substantiating the validity of stated claims in the Offeror's proposal. Legibility, clarity and coherence are very important. Responses will be evaluated against the

Technical factors defined in Addendum 52.212-2, Evaluation Factors for Award. The proposal should not simply rephrase or restate the Government's requirements, but rather shall provide convincing rationale to address how the offeror intends to meet these requirements. Statements that the offeror understands, can, or will comply with the PWS (including referenced publications, technical data, etc.); statements paraphrasing the PWS or parts thereof (including applicable publications, technical data, etc.); and phrases such as "standard procedures will be employed" or "well known techniques will be used," etc., will be considered unacceptable**.** Offerors shall assume that the Government has no prior knowledge of their facilities and experience, and will base its evaluation on the information presented in the offeror's proposal. Elaborate brochures or documentation, binding, detailed art work, or other embellishments are unnecessary and are not desired. **Volume II shall not include any pricing information.**

(2) The Technical Volume shall, at a minimum, be prepared in a form consistent with the Performance Work Statement (PWS) and the evaluation criteria for award set forth in Addendum 52.212-2 of this solicitation. The section shall be prepared in an orderly format and in sufficient detail to enable the Government to make a thorough evaluation of the contractor's technical competence and ability to comply with the contract task requirements specified in the PWS. The offeror shall address as specifically as possible the actual methodology you would use for accomplishing the PWS tasks. The volume shall be organized according to the following general:

- Table of Contents
- List of Table and Drawings
- Cross Reference Matrix
- Exceptions/Assumptions (Identification and explanation of any exceptions or deviations). Additionally, identify any assumptions used in preparing the proposal.

Factor 1: Technical Capability consists of two Subfactors:

Sub-factor 1A – Technical Ability
Sub-factor 1B – Staffing, Recruitment, Retention, and Management Approach

Subfactor 1A: Technical Ability
The Offeror's overall technical approach shall demonstrate its knowledge and understanding of the magnitude and complexity of this requirement and its capability to perform all tasks in the Performance Work Statement. The Offeror's technical approach shall also concisely and clearly address the Offeror's approach to plan, organize, control and perform the major performance objectives below:

- Provide classroom instruction with qualified and certified instructors
- Provide lesson plans/training materials development and updates
- Provide Program Management Support with qualified and certified personnel
- Provide Administrative Support for ATRRS and travel coordination
- Provide Network System Administrator Support with qualified and certified personnel

- Provide deliverables in accordance with the PWS

Subfactor 1B: Staffing, Recruitment, Retention, and Management Approach

The Offeror's management approach shall describe the extent to which subcontractors and/or teaming partners (hereafter referred to as "personnel") shall be used to perform this requirement by task and by percentage of the costs of service performed. The Offeror shall also describe procedures for managing subcontractors to include identification of interface points, assignment of management responsibilities to any subcontractors, and procedures for both technical and managerial problem resolution to ensure all requirement are met. The Offeror's management approach shall address its procedures to monitor and manage performance by all personnel, across numerous geographic locations, to ensure timely quality work and to control costs. The Offeror's staffing approach shall identify its proposed staffing (by number of personnel, by labor categories and by location) and any plans to cross-utilize or rely on reach-back, part-time or temporary personnel to perform this requirement. The Offeror's staffing plan shall describe its plans for recruiting and retaining personnel with all of the qualifications necessary to perform this requirement. The Offeror shall provide the names of all personnel performing under this contract and proof of their certifications, security clearances and other qualifications required for their designated positions. The Offeror's staffing, recruitment, retention, and management approach shall describe the methods by which the Offeror shall recruit and retain highly qualified personnel. A sound staffing and management approach to perform program management, address its procedures to plan, organize, control, and perform the major performance objectives, and manage and monitor all personnel to ensure all PWS requirements are met. In addition, the offeror's staffing, recruitment, retention, and management approach shall address the following:

The Offeror shall provide letters of intent and resumes for key personnel at proposal submission. The Offeror shall provide resumes and letter of commitment for all non-key personnel before contract award. Resumes and Letters of Commitment are not included in the page count. Résumés must conform to the following format:

(1) Name
(2) Education (Degree/discipline/year attained, educational institution)
(3) Certifications (certification member ID; expiration date)
(4) Security Clearance (List clearance(s) currently held)
(5) Valid Passport (Y/N)
(6) Proposed Labor Category
(7) Experience
(8) Present Position

a. Company and title of position
b. Dates of employment (month/year to month/year or to "present")
c. Brief description of duties and responsibilities, including supervisory experience
d. Number and type of personnel supervised

a. Provide an Organizational Chart, which shall clearly reflect positions and address lines of communication, decision making authority, and problem resolution. The Offeror shall delineate the organization's chain of command and delegations of authority relating to the execution of the work required in the Performance Work Statement. Describe and outline the strategy(s) and method(s) that will utilized to locate and actively recruit highly qualified and experienced personnel and manage personnel with the required knowledge, skills, education, experience, and applicable position descriptions, certifications, training (to include refresher training), security clearances, and licenses required to support specific positions in accordance with the PWS and necessary to perform and manage contract requirements.

b. Describe and outline the strategy that will be utilized to effectively account for challenges in locating, relocating, and retaining personnel that are qualified to meet all requirements and a recruitment strategy(s) to motivate personnel to relocate to Fort Gordon area and work for the Government.

c. Address how risk will be mitigated and/or eliminated from a technical, staffing, and management perspective.

(c) **Volume III** - Past Performance.

Volume III must be clearly marked "VOLUME III – Past Performance, RFP W91249-21-R-0004.

(1) The Past Performance evaluation will be accomplished by Offeror's submission in identifying recent and relevant performance/experience information from at least three (3) but no more than five (5) Federal, State, or Local Government task orders or contracts that the Offeror has performed. Recent is defined as within the past three (3) calendar years from the closing date of this RFP. Relevant is defined as work performed that is similar to that anticipated by the PWS. Each narrative shall also include contract number and amount: the name, telephone number, and email address of the Government representative who can verify past performance. The Past Performance evaluation will be accomplished by reviewing aspects of an Offeror's recent and relevant Past Performance, focusing on and targeting performance which is relevant to the effort as it directly relates to the work being procured under this solicitation and as defined in Addendum 52.212-2.

Past Performance information described herein is required on the offeror and all subcontractors, teaming partners, and/or joint venture partners proposed to perform 51% of the proposed effort based on the total proposed price. The offeror shall submit, along with the information required in this paragraph, a consent letter, executed by each subcontractor, teaming partner, and/or joint venture partner, authorizing release of adverse past performance information to the offeror so the offeror can respond to such information. For each identified effort for a commercial customer, the offeror shall also submit a client authorization letter, authorizing release to the Government of requested information on the offeror's performance.

1. The offeror is requested to submit the Past Performance by the scheduled due date, to the Contracting Officer at the address specified in Addendum 52.212-1.

2. The offeror shall include documentation regarding their relevant past performance as it directly relates to the work being procured under this solicitation. The offeror SHALL NOT go back any farther than 3 years for services for the submitted data. The past performance data shall document a successful history of past contract performance.

3. In conducting the Past Performance evaluation, the Government reserves the right to use both the information provided in the offeror's Past Performance Volume and information obtained from other sources, such as the Past Performance Information Retrieval System (PPIRS) or similar systems, Defense Contract Management Agency (DCMA) and commercial sources. Offerors are reminded that both independent data and data provided by offerors in their proposals may be used by the Government to evaluate offeror past performance. However, the burden of providing thorough, complete, and current past performance information as requested in this paragraph remains with the offerors. Proposals that do not contain the information requested by this paragraph risk rejection or a less than acceptable performance rating by the Government. All past performance comments received will be taken into account and could affect the overall rating. The overall past performance evaluation is a subjective decision based on the whole of all data received. In the case of an offeror without a record of relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the offeror may not be evaluated favorably or unfavorably on past performance (see FAR 15.305 (a)(2)(iv)). Therefore, the offeror shall be determined to have unknown past performance. Therefore, the offeror shall be determined to have unknown / neutral past performance.

4. Submission Requirements. The offeror shall submit a Past Performance Volume containing the following:

- **Table of Contents**

- **Summary Page** describing the role of the offeror and each subcontractor, teaming partner, and /or joint venture partner that the offeror is required to provide Past Performance Specific Relevant Contract Reference Sheets for the past performance experience in accordance with **Attachment 2.**

- **Consent Letters** executed by each subcontractor, teaming partner, and/or joint venture partner, authorizing the release of past performance information so the offeror can respond to such information. A sample consent letter is attached as **Attachment 1.**

- **Client Authorization Letters** for each identified effort for a commercial customer authorizing release to the Government of requested information on the offeror's performance.

- **Organization Structure Change History**— Organizational Structure Change History. Many companies have acquired, been acquired by, or otherwise merged with other companies, and/or reorganized their divisions, business groups, subsidiary companies, etc. In many cases, these changes have taken place during the time of performance of

relevant present or past efforts or between conclusion of recent past efforts and this source selection. As a result, it is sometimes difficult to determine what past performance is relevant to this acquisition. To facilitate this relevancy determination, include in this proposal volume a "roadmap" describing all such changes in the organization of your company. As part of this explanation, show how these changes impact the relevance of any efforts you identify for past performance evaluation/performance confidence assessment. Since the Government intends to consider present and past performance information provided by other sources as well as that provided by the offeror(s), your "roadmap" should be both specifically applicable to the efforts you identify and general enough to apply to efforts on which the Government receives information from other sources.

- **Specific Relevant Contracts Format - Sheets** in accordance with **Attachment 2** and are limited to 3 pages per reference. The offeror shall provide documentation outlining the offeror's past performance with contracts, as a prime or major subcontractor, which is the same or similar in nature, size, and complexity to the services being procured under this Solicitation. The submittal shall include rationale supporting your assertion of relevance and how it was determined that the work performed previously was the same or similar in nature, size, and complexity to the work specified by this solicitation. Offerors are required to explain what aspects of the contracts are deemed relevant to the proposed effort, and to what aspects of the proposed effort they relate.

Past Performance Questionnaire - Attachment 3, Past Performance Questionnaire. For the contracts identified on each Specific Relevant Contract Reference, the offeror shall forward a copy of the Past Performance Questionnaire to the points of contact responsible for monitoring performance under such contracts. The points of contact shall return the questionnaires directly to Devin Knight at devin.knight.civ@mail.mil prior to the closing of the RFP. Any questionnaires not returned directly to the KO will not be reviewed and evaluated. The information contained in the questionnaires will be used to evaluate the offeror's past performance. New entities that have no past customers shall annotate on the Summary Page that they have had no previous clients and that the minimum number of questionnaires cannot be provided.

(d) Volume IV - Price – The offeror shall complete the Pricing Worksheet (Attachment 4 and SF1449 – Continuation Sheets -- Supplies or Services and Prices/Costs section of the solicitation. Offerors shall use Government provided Not-to-Exceed estimates for ODC CLINs. Offerors shall submit a fully completed price breakdown in the format specified in Attachment 4. A separate breakdown shall be submitted for each year and these shall be rolled up to the contract or summary level, which shall be traceable to the amounts inserted in Schedule B. All labor proposed on the previously discussed breakdown sheets shall be linked to this labor summary. The offerors shall provide compensation packages for all employees. Compensation package will be evaluated to ensure the adequacy of retention and recruitment.

All information relating to the proposed price must be included in both hard copy and electronic format. Electronic versions of the price proposal shall be submitted in Microsoft Excel as further delineated below, and files should not be read only or password protected. All Excel formulas,

lookup tables, and links should be intact, and no links should exist to files not included with the submission. Excel workbooks should not contain hidden spreadsheets. PDF or flat files will not be considered adequate. The electronic version will take precedence for any differences noted between the hard and electronic versions of an offeror's proposal. Failure to comply with these formatting requirements may result in rejection of your proposal. Offerors' submittals shall be free of viruses, Trojans, spyware, and other malicious code for which appropriate detection and removal/quarantine software exists.

Certified cost or pricing data is not anticipated for the award of contracts due to expected competition; however, the Government reserves the right to request such information should it become necessary consistent with FAR Subpart 15.4, Contract Pricing. Data Other Than Certified Cost or Pricing Data is required to determine the proposed price fair and reasonable.

Contractor shall fill out the attached Pricing Worksheet (Attachment 4). The Price proposal for all the CLINs contained in Schedule B, Pricing Schedule shall contain two Sections: the Price Narrative Section and the Price Proposal Section.

Price Narrative portion in MS Word or compatible format, with a Table of Contents. The price narrative shall provide the basis of estimate for all major elements of the price proposed. The Price Narrative Section shall contain all the narrative explanations used in deriving calculated price (including appropriate references to individual spreadsheets as they appertain). These narratives shall clearly explain the methodologies, calculations, exceptions and assumptions used in developing price.

52.222-42 STATEMENT OF EQUIVALENT RATES FOR FEDERAL HIRES (MAY 2014)

In compliance with the Service Contract Labor Standards statute and the regulations of the Secretary of Labor (29 CFR part 4), this clause identifies the classes of service employees expected to be employed under the contract and states the wages and fringe benefits payable to each if they were employed by the contracting agency subject to the provisions of 5 U.S.C. 5341 or 5332.

THIS STATEMENT IS FOR INFORMATION ONLY: IT IS NOT A WAGE DETERMINATION
Employee Class Monetary Wage-Fringe Benefits

PER HR

GS 0340-13	Program Manager	$50.27 (General Schedule Job Grading Standard for Program Manager 0340)
GS 1712-09	Instructor/Writer	$28.56 (General Schedule Job Grading Standard for Instructor/Writer 1712)
GS 2210-12	Network System Administrator	$41.40 (General Schedule Job Grading Standard for Network System Administrator 2210)
01113	Administrative Assistant	$16.21 (Wage Determination General Clerk III)
