Requirements Title: HSIN External Facing Tier I/II and Operations Support	

Description: To establish comprehensive system support services required for the cloud-based Homeland Security Information Network (HSIN) platform including multi-tiered support services utilizing Help Desk International (HD) and Information Technology Infrastructure Library (ITIL) best practices for services associated with HSIN hardware/software, operating system, infrastructure, databases, or SharePoint farm administration. This contract covers the following IT support services: 1. Service Desk Tier 1; 2. Service Desk Tier 2; 3. Operations Support. SPECIFIC REQUIREMENTS/TASKS The contractor shall demonstrate working knowledge of ServiceNow IT Service Management Professional and IT Business Management Professional. The Contractor shall provide a tiered support solution based on current and evolving industry standards and best practices over the course of the period of performance. The Contractor shall provide the best value to Government while at the same time allowing the HSIN program the flexibility to meet current and future requirements. The Contractor shall meet all requirements set forth in this section. a. The Contractor shall establish and operate a dedicated Tiered Service Desk for HSIN and other systems under the support of the HSIN program as identified in the Environment Section. b. The Contractor shall staff a Service Desk that operates with core hours 8:00 AM – 5:00 Monday through Friday PM ET and with an on-call schedule for nights and weekends. c. The Contractor shall present a plan to ensure coverage during the core hours of 8:00 AM -5:00 PM ET Monday through Friday. d. The Contractor shall analyze Service Desk activity, user feedback, and vendor application information on at least a monthly basis and provide recommendations for improvements to the self-help functions, frequently asked questions (FAQs), tutorials, and training. e. The Contractor shall monitor historical trends, identify anomalies that could signify issues, and project activity volumes. f. The contractor shall maintain the HSIN Service Desk Standard Operating Procedures (SOPs). The Service Desk SOPs shall be reviewed, and updated as necessary, to incorporate lessons learned or changes in processes and procedures. The contractor shall ensure effective change management and version control activities are undertaken to plan and execute the roll-out of modified SOPs, and personnel are trained on the changes. g. The Contractor shall ensure adequate training is performed for all service desk personnel, stakeholder communication is well crafted and executed, and feedback is collected and analyzed during the roll-out period. h. The Contractor shall develop and maintain Service Desk operator scripts that shall be stored in a knowledge database and used for problem identification and resolution. The Contractor shall maintain all SOPs, plans, reports, and other documentation in HSIN’s knowledge management repository. The Contractor shall follow the HSIN program records management policies and adhere to standard conventions for file naming and metadata. i. The Contractor shall propose and describe their methods of compliance with these requirements, associated terms and conditions, and enforcement methodology. The Government shall provide the Performance Objectives. At a minimum the Performance Objectives shall meet the following standards:
