CLAUSES INCORPORATED BY FULL TEXT

52.209-1 QUALIFICATION REQUIREMENTS (FEB 1995)

(a) Definition: "Qualification requirement," as used in this clause, means a Government requirement for testing or other quality assurance demonstration that must be completed before award.

(b) One or more qualification requirements apply to the supplies or services covered by this contract. For those supplies or services requiring qualification, whether the covered product or service is an end item under this contract or simply a component of an end item, the product, manufacturer, or source must have demonstrated that it meets the standards prescribed for qualification before award of this contract. The product, manufacturer, or source must be qualified at the time of award whether or not the name of the product, manufacturer, or source is actually included on a qualified products list, qualified manufacturers list, or qualified bidders list. Offerors should contact the agency activity designated below to obtain all requirements that they or their products or services, or their subcontractors or their products or services, must satisfy to become qualified and to arrange for an opportunity to demonstrate their abilities to meet the standards specified for qualification.

Offerors must possess an active Secret Facilities Clearance that is active as outlined on page 59-62 *(of the solicitation)*. If Offerors do not have an active Secret Facilities Clearance, they will not be eligible for further award evaluation.

(*****This statement is a definite disqualifier**********)**

(c) If an offeror, manufacturer, source, product or service covered by a qualification requirement has already met the standards specified, the relevant information noted below should be provided.

Offeror's Name _____
Manufacturer's Name _____
Source's Name _____
Item Name _____
Service Identification _____
Test Number _____ (to the extent known)

(d) Even though a product or service subject to a qualification requirement is not in itself an end item under this contract, the product, manufacturer, or source must nevertheless be qualified at the time of award of this contract. This is necessary whether the Contractor or a subcontractor will ultimately provide the product or service in question. If, after award, the Contracting Officer discovers that an applicable qualification requirement was not in fact met at the time of award, the Contracting Officer may either terminate the contract for default or allow performance to

continue if adequate consideration is offered and the action is determined to be otherwise in the Government's best interests.

(e) If an offeror, manufacturer, source, product, or service has met the qualification requirement but is not yet on a qualified products list, qualified manufacturers list, or qualified bidders list, the offeror must submit evidence of qualification prior to award of this contract. Unless determined to be in the Government's interests, award of this contract shall not be delayed to permit an offeror to submit evidence of qualification.

(f) Any change in location or ownership of the plant where a previously qualified product or service was manufactured or performed requires reevaluation of the qualification. Similarly, any change in location or ownership of a previously qualified manufacturer or source requires reevaluation of the qualification. The reevaluation must be accomplished before the date of award.

(End of clause)

52.212-5 CONTRACT TERMS AND CONDITIONS REQUIRED TO IMPLEMENT STATUTES OR EXECUTIVE ORDERS--COMMERCIAL PRODUCTS AND COMMERCIAL SERVICES (MAY 2022)

(a) The Contractor shall comply with the following Federal Acquisition Regulation (FAR) clauses, which are incorporated in this contract by reference, to implement provisions of law or Executive orders applicable to acquisitions of commercial products and commercial services:

(d) Comptroller General Examination of Record. The Contractor shall comply with the provisions of this paragraph (d) if this contract was awarded using other than sealed bid, is in excess of the simplified acquisition threshold, as defined in FAR 2.101, on the date of award of this contract, and does not contain the clause at 52.215-2, Audit and Records--Negotiation.

(1) The Comptroller General of the United States, or an authorized representative of the Comptroller General, shall have access to and right to examine any of the Contractor's directly pertinent records involving transactions related to this contract.

(2) The Contractor shall make available at its offices at all reasonable times the records, materials, and other evidence for examination, audit, or reproduction, until 3 years after final payment under this contract or for any shorter period specified in FAR Subpart 4.7, Contractor Records Retention, of the other clauses of this contract. If this contract is completely or partially terminated, the records relating to the work terminated shall be made available for 3 years after any resulting final termination settlement. Records relating to appeals under the disputes clause or to litigation or the settlement of claims arising under or relating to this contract shall be made available until such appeals, litigation, or claims are finally resolved.

(3) As used in this clause, records include books, documents, accounting procedures and practices, and other data, regardless of type and regardless of form. This does not require the Contractor to create or maintain any record that the Contractor does not maintain in the ordinary course of business or pursuant to a provision of law.

(e) (1) Notwithstanding the requirements of the clauses in paragraphs (a), (b), (c), and (d) of this clause, the Contractor is not required to flow down any FAR clause, other than those in this paragraph (e)(1)in a subcontract for commercial products or commercial services. Unless otherwise indicated below, the extent of the flow down shall be as required by the clause—

(End of clause)

52.217-8 OPTION TO EXTEND SERVICES (NOV 1999)

The Government may require continued performance of any services within the limits and at the rates specified in the contract. These rates may be adjusted only as a result of revisions to prevailing labor rates provided by the Secretary of Labor. The option provision may be exercised more than once, but the total extension of performance hereunder shall not exceed 6 months. The Contracting Officer may exercise the option by written notice to the Contractor within 60 days of contract expiration.

(End of clause)

52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within **30 days**; provided that the Government gives the Contractor a preliminary written notice of its intent to extend at least **60 days** before the contract expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended contract shall be considered to include this option clause.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed **66 Months.**

(End of clause)

52.219-17 SECTION 8(a) AWARD (OCT 2019)

(a) By execution of a contract, the Small Business Administration (SBA) agrees to the following:

(1) To furnish the supplies or services set forth in the contract according to the specifications and the terms and conditions by subcontracting with the Offeror who has been determined an eligible concern pursuant to the provisions of section 8(a) of the Small Business Act, as amended (15 U.S.C. 637(a)).

(2) Except for novation agreements, delegates to the **Mission and Installation Contracting Command- Fort Benning, Georgia** the responsibility for administering the contract with complete authority to take any action on behalf of the Government under the terms and conditions of the contract; provided, however that the contracting agency shall give advance notice to the SBA before it issues a final notice terminating the right of the subcontractor to proceed with further performance, either in whole or in part, under the contract.

(3) That payments to be made under the contract will be made directly to the subcontractor by the contracting activity.

(4) To notify the **Mission and Installation Contracting Command- Fort Benning, Georgia** Contracting Officer immediately upon notification by the subcontractor that the owner or owners upon whom 8(a) eligibility was based plan to relinquish ownership or control of the concern.

(5) That the subcontractor awarded a subcontract hereunder shall have the right of appeal from decisions of the cognizant Contracting Officer under the "Disputes" clause of the subcontract.

(b) The offeror/subcontractor agrees and acknowledges that it will, for and on behalf of the SBA, fulfill and perform all of the requirements of the contract.

(End of clause)

52.219-18 NOTIFICATION OF COMPETITION LIMITED TO ELIGIBLE 8(A) PARTICIPANTS (MAR 2020)

(a) Offers are solicited only from small business concerns expressly certified by the Small Business Administration (SBA) for participation in the SBA's 8(a) Program and which meet the following criteria at the time of submission of offer--

(1) The Offeror is in conformance with the 8(a) support limitation set forth in its approved

business plan; and

(2) The Offeror is in conformance with the Business Activity Targets set forth in its approved business plan or any remedial action directed by the SBA.

(b) By submission of its offer, the Offeror represents that it meets all of the criteria set forth in paragraph (a) of this clause.

(c) Any award resulting from this solicitation will be made to the Small Business Administration, which will subcontract performance to the successful 8(a) offeror selected through the evaluation criteria set forth in this solicitation.

(d) The insert name of SBA's contractor -TBD shall notify the **Mission and Installation Contracting Command- Fort Beinning, Georgia** Contracting Officer in writing immediately upon entering an agreement (either oral or written) to transfer all or part of its stock.

(End of clause)

52.252-2 CLAUSES INCORPORATED BY REFERENCE (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):

252.232-7006 WIDE AREA WORKFLOW PAYMENT INSTRUCTIONS (DEC 2018)

(a) Definitions. As used in this clause—

"Department of Defense Activity Address Code (DoDAAC)" is a six position code that uniquely identifies a unit, activity, or organization.

"Document type" means the type of payment request or receiving report available for creation in Wide Area WorkFlow (WAWF).

"Local processing office (LPO)" is the office responsible for payment certification when payment certification is done external to the entitlement system.

"Payment request" and "receiving report" are defined in the clause at 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(b) Electronic invoicing. The WAWF system provides the method to electronically process vendor payment requests and receiving reports, as authorized by Defense Federal Acquisition Regulation Supplement (DFARS) 252.232-7003, Electronic Submission of Payment Requests and Receiving Reports.

(c) WAWF access. To access WAWF, the Contractor shall—

(1) Have a designated electronic business point of contact in the System for Award Management at https://www.sam.gov; and

(2) Be registered to use WAWF at https://wawf.eb.mil/ following the step-by-step procedures for self-registration available at this web site.

(d) WAWF training. The Contractor should follow the training instructions of the WAWF Web-Based Training Course and use the Practice Training Site before submitting payment requests through WAWF. Both can be accessed by selecting the "Web Based Training" link on the WAWF home page at https://wawf.eb.mil/.

(e) WAWF methods of document submission. Document submissions may be via web entry, Electronic Data Interchange, or File Transfer Protocol.

(f) WAWF payment instructions. The Contractor shall use the following information when submitting payment requests and receiving reports in WAWF for this contract or task or delivery order:

(1) Document type. The Contractor shall submit payment requests using the following document type(s):

(i) For cost-type line items, including labor-hour or time-and-materials, submit a cost voucher.

(ii) For fixed price line items—

(A) That require shipment of a deliverable, submit the invoice and receiving report specified by the Contracting Officer.

_____

(Contracting Officer: Insert applicable invoice and receiving report document type(s) for fixed price line items that require shipment of a deliverable.)

(B) For services that do not require shipment of a deliverable, submit either the Invoice 2in1, which meets the requirements for the invoice and receiving report, or the applicable invoice and receiving report, as specified by the Contracting Officer.

Submit Invoice 2-in-1

(Contracting Officer: Insert either "Invoice 2in1" or the applicable invoice and receiving report document type(s) for fixed price line items for services.)

(iii) For customary progress payments based on costs incurred, submit a progress payment request.

(iv) For performance based payments, submit a performance based payment request.

(v) For commercial item financing, submit a commercial item financing request.

(2) Fast Pay requests are only permitted when Federal Acquisition Regulation (FAR) 52.213-1 is included in the contract.

[Note: The Contractor may use a WAWF "combo" document type to create some combinations of invoice and receiving report in one step.]

(3) Document routing. The Contractor shall use the information in the Routing Data Table below only to fill in applicable fields in WAWF when creating payment requests and receiving reports in the system.

Routing Data Table*

5152.233-4000 AMC-LEVEL PROTEST PROGRAM (Feb 2014) (LOCAL CLAUSE)

Prior to submitting an agency protest, it is preferable that you first attempt to resolve your concerns with the responsible contracting officer. However, you may also file a protest to the Headquarters (HQ), Army Materiel Command (AMC). The HQ AMC-Level Protest Program is intended to encourage interested parties to seek resolution of their concerns within AMC as an

Alternative Dispute Resolution forum, rather than filing a protest with the Government Accountability Office (GAO) or other external forum. Contract award or performance is suspended during the protest to the same extent, and within the same time periods, as if filed at the GAO. The AMC protest decision goal is to resolve protests within 35 calendar days from filing. To be timely, protests must be filed within the periods specified in FAR 33.103. If you want to file a protest under the HQ AMC-Level Protest Program, the protest must request resolution under that program and be sent to the address below.

CLAUSES INCORPORATED BY FULL TEXT

52.204-24 REPRESENTATION REGARDING CERTAIN TELECOMMUNICATIONS AND VIDEO SURVEILLANCE SERVICES OR EQUIPMENT (NOV 2021)

The Offeror shall not complete the representation at paragraph (d)(1) of this provision if the Offeror has represented that it "does not provide covered telecommunications equipment or services as a part of its offered products or services to the Government in the performance of any contract, subcontract, or other contractual instrument" in paragraph (c)(1) in the provision at 52.204-26, Covered Telecommunications Equipment or Services--Representation, or in paragraph (v)(2)(i) of the provision at 52.212-3, Offeror Representations and Certifications-Commercial Products and Commercial Services. The Offeror shall not complete the representation in paragraph (d)(2) of this provision if the Offeror has represented that it "does not use covered telecommunications equipment or services, or any equipment, system, or service that uses covered telecommunications equipment or services" in paragraph (c)(2) of the provision at 52.204-26, or in paragraph (v)(2)(ii) of the provision at 52.212-3.

(a) Definitions. As used in this provision-

Backhaul, covered telecommunications equipment or services, critical technology, interconnection arrangements, reasonable inquiry, roaming, and substantial or essential component have the meanings provided in the clause 52.204-25, Prohibition on Contracting for Certain Telecommunications and Video Surveillance Services or Equipment.

(b) Prohibition.

(1) Section 889(a)(1)(A) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2019, from procuring or obtaining, or extending or renewing a contract to procure or obtain, any equipment, system, or service that uses covered telecommunications equipment or services as a

substantial or essential component of any system, or as critical technology as part of any system. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(2) Section 889(a)(1)(B) of the John S. McCain National Defense Authorization Act for Fiscal Year 2019 (Pub. L. 115-232) prohibits the head of an executive agency on or after August 13, 2020, from entering into a contract or extending or renewing a contract with an entity that uses any equipment, system, or service that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. This prohibition applies to the use of covered telecommunications equipment or services, regardless of whether that use is in performance of work under a Federal contract. Nothing in the prohibition shall be construed to--

(i) Prohibit the head of an executive agency from procuring with an entity to provide a service that connects to the facilities of a third-party, such as backhaul, roaming, or interconnection arrangements; or

(ii) Cover telecommunications equipment that cannot route or redirect user data traffic or cannot permit visibility into any user data or packets that such equipment transmits or otherwise handles.

(c) Procedures. The Offeror shall review the list of excluded parties in the System for Award Management (SAM) (https://www.sam.gov) for entities excluded from receiving federal awards for "covered telecommunications equipment or services."

(d) Representations. The Offeror represents that--

(1) It [___] will, [___] will not provide covered telecommunications equipment or services to the Government in the performance of any contract, subcontract or other contractual instrument resulting from this solicitation. The Offeror shall provide the additional disclosure information required at paragraph (e)(1) of this section if the Offeror responds "will" in paragraph (d)(1) of this section; and

(2) After conducting a reasonable inquiry, for purposes of this representation, the Offeror represents that--

It [___] does, [___] does not use covered telecommunications equipment or services, or use any equipment, system, or service that uses covered telecommunications equipment or services.

The Offeror shall provide the additional disclosure information required at paragraph (e)(2) of this section if the Offeror responds "does" in paragraph (d)(2) of this section.

(e) Disclosures.

(1) Disclosure for the representation in paragraph (d)(1) of this provision. If the Offeror has responded "will" in the representation in paragraph (d)(1) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment--

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the original equipment manufacturer (OEM) or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(ii) For covered services--

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the Product Service Code (PSC) of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(1) of this provision.

(2) Disclosure for the representation in paragraph (d)(2) of this provision. If the Offeror has responded "does" in the representation in paragraph (d)(2) of this provision, the Offeror shall provide the following information as part of the offer:

(i) For covered equipment--

(A) The entity that produced the covered telecommunications equipment (include entity name, unique entity identifier, CAGE code, and whether the entity was the OEM or a distributor, if known);

(B) A description of all covered telecommunications equipment offered (include brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); and

(C) Explanation of the proposed use of covered telecommunications equipment and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

(ii) For covered services--

(A) If the service is related to item maintenance: A description of all covered telecommunications services offered (include on the item being maintained: Brand; model number, such as OEM number, manufacturer part number, or wholesaler number; and item description, as applicable); or

(B) If not associated with maintenance, the PSC of the service being provided; and explanation of the proposed use of covered telecommunications services and any factors relevant to determining if such use would be permissible under the prohibition in paragraph (b)(2) of this provision.

The following provisions are added to this RFP:

Contractor's additional information:

1. The Contractor shall provide all personnel, management, supervision, equipment, tools, supplies, materials, transportation, and any other items and services necessary to perform the functions of the Performance Work Statement (PWS). The place of performance is Fort Benning Georgia 31905.

2. Inspection and Acceptance. Inspection and acceptance of all work, performance, reports and other deliverables under this contract will be performed at the location specified in this RFP by the Contracting Officer's Representatives (CORs). CORs are responsible for inspection and acceptance of services under the contract. The inspection and acceptance is based on the use of the Quality Assurance Surveillance Plan (QASP). The Government will evaluate the contractor's performance under this contract using the method of surveillance to be identified in the QASP. The Government will record all surveillance observations. When an observation indicates defective performance, the COR will request the contractor's representative to initial the observation.

3. Electronic Submission and Processing of Payment Requests: Electronic invoicing is mandatory in accordance with DFARS 252-232-7003, Electronic Submission of Payment Request. The contractor shall submit invoices via WAWF and the CORs will accept services performed via WAWF. For additional information or if you have questions regarding WAWF, visit the website at https://wawf.eb.mil or contact the Customer Support section at (866) 618-5988.

4. Special Contract Requirements.

a. Contractor Manpower Reporting. The Contractor is required to enter data into the Contractor Manpower Reporting (CMR) system. Request for Proposal (RFP) W911SF-22-R-0029, IT Help-Desk Support Services

Attachment 3 – Performance Work Statement

Performance Work Statement Maneuver Center of Excellence (MCoE) – Fort Benning Student Information Technology (IT) Support Services

C.1 BACKGROUND. Fort Benning supports more than 120,000 active-duty military, family members, reserve component soldiers, retirees, and civilian employees on a daily basis. It is a power projection platform, and possesses the capability to deploy combat-ready forces by air, rail, and highway. Fort Benning is the home of the United States Army Maneuver Center of Excellence, the United States Army Armor School, and the United States Army Infantry School. All figures related to potential workload and customer base, including equipment and system totals, are provided for estimating purposes only. The Government does not represent or guarantee that the figures will remain the same during the period of performance.

C.2 SCOPE. This Performance Work Statement (PWS) provides the Fort Benning IT Services requirements for a contract that is to be awarded against an existing contract. For this effort, the Contractor shall provide technically qualified personnel who understand, speak, read and write the English language; administration; management; parts, supplies, tools and equipment other than GFE Network Operations Centers (NOCs) unclassified communication systems identified in this PWS. There will be a two month phase-in period, to facilitate the on-boarding of personnel to be able to have no lag time in performance of work. This will include personnel obtaining Common Access Cards (CAC), alternate smart card log-on (ASCL) network access tokens, information assurance training needed to access resources required to provide support as specified in the contract. The Contractor shall support the following Information Technology Services (ITS): system administration, help desk assistance; hardware and software installation and troubleshooting. Additional allowances may be flexed to meet manpower or service(s) requirements that can possibly occur at a later date that could include but not limited to: Additional Tech Support for hardware/software installation, troubleshooting and Customer Support; SharePoint Administration; Video Teleconferencing (VTC) scheduling, management, and services; Database design and administration; Wireless Device Management/Services, and procurement of required IT equipment and supplies.

C.2.1 Training. The Contractor shall ensure contractor personnel are properly trained and that they maintain technical proficiency for the operation and maintenance (O&M) of the systems and equipment associated with this PWS. Contractor personnel shall have current training and required certifications before beginning work on this contract. The Contractor shall train personnel at no cost to the Government. The Government will not provide or fund training to obtain certification for any Contractor employees unless the training is a result of a new requirement.

C.2.1.1 If during the term of this contract, the Government installs new equipment that requires training to meet the certification requirements of this contract, the Government will provide one-time training during initial fielding and in support of new site activations for those employees currently working on site. The Contracting Officer's Representative (COR) or Contracting Officer (KO) will approve all training in advance. If the Contractor replaces an employee who has received

Government-provided training as described above for any reason, the Contractor shall provide any needed training at no cost to the Government.

C.2.1.2 Training Records. The Contractor shall ensure required training is documented within records that are available upon request by the KO or COR.

C.2.2 Hours of Operation. The Contractor shall provide services during the hours ranging between 0700 – 1700 (depending on the area of assignment), Monday – Friday, except on federal holidays as designated by the Office of Personnel Management at http://www.opm.gov/policy-data-oversight/snow-dismissal-procedures/federal-holidays/#url=Overview or when the Government facility is closed due to local or national emergencies, administrative closings, or similar Government directed facility closings. The Contractor must maintain an adequate workforce for the uninterrupted performance of all tasks defined within this PWS when the Government facility is not closed for the above reasons. When hiring personnel, the Contractor shall keep in mind that the stability and continuity of the workforce are essential.

C.2.2.1 Overtime. Services to be performed under this contract are generally performed during normal duty hours. Periodically, requirements including emergencies, special projects, supporting deployments, and seasonal requirements, may require work be accomplished at times other than normal duty hours.

C.2.3 Information Technology (IT) Software and Equipment. The Contractor shall request project-related IT software, equipment and tools in support of the contract requirements through the COR. COR will assist with locating the Army approved list with all Information Assurance approvals, Certificate of Networthiness (CoN), Risk Management Framework (RMF) access approval, and Joint Interoperability Test Command (JITC) certifications. This software/equipment shall require Information Assurance Vulnerability Alert (IAVA) scanning and patching and compliance with applicable Defense Information System Agency (DISA) Security Technical Implementation Guides (STIG) to the degree applicable prior to allowing connectivity to the Government production network, by the contractor.

C.2.3.1 The Contractor shall ensure that a Government CoN or RMF access approval is available for all Contractor-purchased software and IT equipment that will be installed or integrated into existing government IT systems and networks. The Contractor shall first check the Network Enterprise Technology Command (NETCOM) SharePoint site at: https://army.deps.mil/NETCOM/sites/7thSignal/IA/AA/Lists/Approved_IT_Products/All_CT.aspx for a list of approved IT products and commercial-off-the shelf (COTS), Government-off-the shelf (GOTS), or other equipment with current valid CoNs if applicable or RMF approval. If a CoN is not available, the Contractor shall fill out and submit the applicable documents for RMF access approval.

C.2.3.2 Purchases. The Contractor shall submit a list of items required and a cost analysis to the COR or KO for approval prior to any purchase. The Contractor shall only purchase materials directly related to the maintenance support and necessary to accomplish and assure acceptable levels of O&M for supported systems. The Contractor shall purchase materiel necessary to complete assigned special projects and for maintenance of bench stock levels, expendable supply levels or requirements for routine O&M maintenance outlined in the contract. All non-

expendable items purchased shall become the property of the Government and added to the listof Government-furnished property (GFP).

C.2.4 Contractor Accountability. The government will provide the facilities, utilities, equipment, materials, and supplies described herein as GFP. GFP consists of government-furnished facilities (GFF), government-furnished equipment (GFE) (to include automated data processing equipment (ADPE) and government-furnished parts, materials, and supplies placed in the contractor's custody. The contractor shall not use GFP or services for any other purpose than execution of work under this contract. The contractor shall loan GFP to government operations and/or other government contractors when directed by the KO.

C.2.5 Security Requirements. Contractor performance includes, but is not limited to, installation, operation, and maintenance of unclassified and classified systems, networks, devices and equipment; work in classified, sensitive, and/or Restricted Areas where exposure to classified information cannot be precluded and/or where security clearances are required. The Contractor shall, at a minimum, have a final Secret facility clearance level (FCL) at time of contract award.

C.2.5.1 All Contractor personnel performing on this contract must be U.S. citizens with required security clearance or suitability investigations. Upon contract start date, all contractor personnel shall possess and maintain the required security clearance over the life of the contract in accordance with Department of Defense (DD)Form 254, Contract Security Classification Specification. After contract award, newly hired personnel who require a security clearance for this work effort shall have submitted for a security clearance within two (2) months of being hired and shall maintain the required security clearance throughout employment on this contract Contractor personnel who require a Secret security clearance and who will be performing IT level I functions will require a Single Scope Background Investigation (SSBI) completed with suitability determination for IT level II access. The Contractor shall contact the supporting Government Security Office/G-2/S-2 for submission of the SSBI (Standard Form (SF) 86) via the Army Investigative Enterprise Solution (AIES). The SF 86 will indicate SECRET access/IT level II. The Contractor shall provide the contract number as authority to request the investigation. Contractor interim privileged level access to Army systems prior to completion and favorable adjudication of the required investigation will be in accordance with Army Regulation (AR) 25-2. If contractor personnel have a current SSBI on record in Joint Personnel Adjudication System (JPAS), the AR 25-2 investigative requirement for IT Level II is satisfied. Contractor personnel who do not require a security clearance but who require an investigation for suitability/trustworthiness purposes shall have SUBMITTED the required investigation documentation within two (2) months after contract award. Contractor personnel shall comply with all applicable security and safety regulations, guidance, and procedures, including local, referenced in the PWS and in effect at the work sites. The Contractor shall coordinate with the supporting Government security office for submission of required suitability investigations.

C.2.5.2 The Contractor shall protect Government information, systems/networks, devices, and other Government-furnished equipment and property, based on the level of access provided to contractor personnel supporting this contract. The Contractor shall comply with and enforce all

security and information assurance requirements and measures, as specified in applicable directives and as stated in the contract.

C.2.6 Information Assurance.

C.2.6.1 Information Assurance (IA) Training. All contractor personnel with access to Government information systems and networks shall successfully complete all required initial and annual IA awareness training as specified in AR 25-2 and as directed by the Government requiring activity. Training is available at https://ia.signal.army.mil.

C.2.6.2 Contractor employees and subcontractor employees performing work under this contract that have access to Government information systems and networks shall create a user account and profile in the Army Training and Certification Tracking System website (ATCTS) at https://atc.us.army.mil, in the unit container managed by the COR. Certificates of successful completion of IA training, Acceptable Use Policies (AUP), applicable baseline and computing environment certifications, and continuing professional education credits required by DoD 8570.01-M, shall be uploaded to the ATCTS and provided to the COR for continuous compliance monitoring and reporting.

C.2.6.3 Global Address Listing (GAL): All contract employees who require access to Government Information Systems shall update their profile and Global Address Listing (GAL) information: https://www.dmdc.osd.mil/milconnect within 10 working days of being granted IT access.

C.2.6.4 The Contractor shall ensure that all contractor employees and subcontractor employees requiring IA awareness training complete the training at start of work performance on this contract and annually thereafter for the duration of this contract. Certificates will be provided to the COR for initial training and annually thereafter

C.2.6.5 Information Assurance Workforce Certification. Defense Federal Acquisition Regulation Supplement (DFARS) clause 252.239-7001 (Information Assurance Contractor Training and Certification) applies to this contract. This contract is subject to the mandates of DoD 8570.01-M, which establishes baseline technical and management IA skills for personnel performing IA functions within DoD. Contractor personnel performing functions at multiple levels or in different categories or specialties shall hold certifications for the highest level appropriate to the functions performed in each category or specialty.

C.2.6.6 The Contractor shall ensure its IA workforce members have the baseline certifications corresponding to their IA functions, as defined in Chapters 3, 4, 5, 10, and 11, and Appendix 3 of DoD 8570.01-M at work performance start date. Contractors will obtain all required Computing Environment (CE) certificates within 6 months of start of work performance on this contract. The Information Assurance Technical (IAT) Level I baseline certification is the minimum requirement for unsupervised privileged access. Contractor certification holders shall ensure that their certificates remain active and are renewed prior to expiration. Contractor IA certification holders shall upload current and/or renewal certificate(s) into their ATCTS profile for ATCTS manager validation.

C.2.6.7 Contractor personnel who do not have proper and current certifications shall be denied access to DoD information systems for the purpose of performing IA functions.

C.2.7 Non-Government-owned computing systems or devices. The Contractor shall comply with AR 25-1 and AR 25-2. The Contractor shall not install or connect non-Government-owned computing systems or devices to Government networks without the COR's coordinating and obtaining proper authorization from the appropriate Information System Security Manager (ISSM), ensuring that all software has a Government CoN/RMF assess. Non-Government-owned computing systems or devices include, but are not limited to, personal or contractor-owned thumb drives (e.g., memory sticks, flash drives, Universal Serial Bus (USB) drives, jump drives, pen drives), removable or external hard drives, Personal Digital Assistants (PDA), PC Cards/Express Cards, MP3 players, cell phones, smartphones, digital media, compact disc (CD)/digital video disk (DVD) burners, optical recordings, photo flash cards, mobile device (laptop or tablet), or any devices that can store data.

C.2.8 Protection of Sensitive Unclassified Data. The Contractor shall ensure any sensitive information, including, but not limited to, Personally Identifiable Information (PII), Controlled Unclassified Information (CUI), and For Official Use Only (FOUO), proprietary, and Law Enforcement Sensitive information residing on Mobile Computing Devices (MCD) or other external media, is protected in accordance with current Data at Rest (DAR) guidelines and requirements. The Contractor shall use an authorized, approved, and prescribed DAR solution. MCDs include, but are not limited to, laptop, netbook, notebook, or tablet computers, and wireless or equivalent devices. External media include optical disk media such as CDs, DVDs, USB drives (also referred to as flash or thumb drives) (when authorization to use them is restored), floppy disks, and other portable digital storage devices. Guidance for protecting DAR information appears in AR 25-2, DA Pamphlet (PAM) 25-2-16, and Department of Defense Instructions (DoDI).

C.2.9 Security Requirements.

C.2.9.1 Antiterrorism Level I Training. The Contractor shall ensure that all contractor employees, including subcontractor employees, requiring access to Army installations, facilities, or controlled access areas complete Antiterrorism (AT) Level I awareness training within 30 calendar days after start of employee performance on this contract. Within 5 calendar days of training, The Contractor shall certify to the COR or KO that all employees performing work under this contract have completed the AT Level I awareness training. AT Level I awareness training, available at https://jkodirect.jten.mil, course #JS-US007, is required to receive credit for the training. The Contractor will maintain all AT Level I training records and provide copies to the COR upon request.

C.2.9.2 iWATCH. The Contractor shall ensure that all employees and subcontractor employees performing work under this contract are trained on the local iWATCH program within 30 calendar days of start of employee performance on this contract. The requiring activity ATO will provide the locally developed iWATCH training. The Contractor will maintain all iWATCH training records and provide copies to the COR upon request.

C.2.9.3 During declared emergencies and/or elevated Force Protection Conditions (FPCONs), Health Protection Conditions (HPCONs) Charlie or Delta, contractor performance under this contract shall be determined by the COR or KO. All contractor employees providing services under this contract are required to report for duty as scheduled and remain on duty during declared emergencies and/or elevated FPCON and/or HPCON levels unless otherwise directed by the KO or COR.

C.2.9.4 Operations Security (OPSEC). In accordance with AR 530-1 all personnel, to include contractor employees and associated sub-contractor employees must complete Level I OPSEC training which is composed of both initial and continual awareness training (annually). All personnel within the first 30 days of arrival in the organization must receive initial training to include a briefing on the organizations critical information and read/sign the OPSEC Individual User Compliance Agreement form. The end state of initial and continual awareness training is that each individual should have the requisite knowledge to safeguard critical information. The Contractor is not required to prepare an OPSEC Plan. The contractor shall adhere to the Government's OPSEC Standard Operating Procedure (SOP)/Plan during the entire period of performance. The Contractor shall comply with DoD Directive 5205.02E, AR 530-1, and the requiring activity OPSEC program. The Contractor will maintain all OPSEC training records and provide copies to the COR upon request.

C.2.9.5 Visit Authorization Letter: In accordance with (IAW) DoD 5220.22-M, the Contractor must provide a valid Visit Authorization Letter (VAL) for every employee on the contract, prior to their visit. This VAL must be originated by the Contractor's Security Office (also called Facility Security Officer or FSO), and shall be sent to the COR or Security Representative. The VAL must include the purpose and date(s) of visit, security clearance information, social security number, and the contract number. This request is valid for up to one year. The request must be reviewed and updated as needed, but at least annually.

C.2.9.6 Statement of Non-Disclosure: All Contractor personnel will comply with the non-disclosure requirements in the clause at Federal Acquisition Regulation (FAR) Part 52.227-14 (or DFAR equivalent). All contract personnel must sign a statement of non-disclosure.

C.2.9.7 Handling or Access to Classified Information: Contractor shall comply with FAR 52.204-2, Security Requirements. This clause involves access to information classified "Confidential," "Secret," or "Top Secret" and requires contractors to comply with— (1) The Security Agreement (DD Form 441-1), including the National Industrial Security Program Operating Manual (DoD 5220.22-M); any revisions to DOD 5220.22-M, notice of which has been furnished to the contractor.

C.2.9.8 Threat Awareness Reporting Program: For all contractors with security clearances. Per AR 381-12 Threat Awareness and Reporting Program (TARP), contractor employees must receive annual TARP training by a CI agent or other trainer.

C.2.9.9 Physical Security: The Contractor shall be responsible for safeguarding all Government equipment, information and property provided for Contractor use. At the close of each work period, government facilities, equipment, and materials shall be secured.

C.2.9.10 Key Control: The Contractor shall establish and implement methods of making sure all keys/key cards issued to the Contractor by the Government are not lost or misplaced and are not used by unauthorized persons. NOTE: All references to keys include key cards. No keys issued to the Contractor by the Government shall be duplicated. The Contractor shall develop procedures covering key control that shall be included in the Quality Control Plan. Such procedures shall include turn-in of any issued keys by personnel who no longer require access to locked areas. The Contractor shall immediately report any occurrences of lost or duplicate keys/key cards to the Contracting Officer.

C.2.9.10.1 In the event keys, other than master keys, are lost or duplicated, the Contractor shall, upon direction of the Contracting Officer, re-key or replace the affected lock or locks; however, the Government, at its option, may replace the affected lock or locks or perform re-keying. When the replacement of locks or re-keying is performed by the Government, the total cost of re-keying or the replacement of the lock or locks shall be deducted from the monthly payment due the Contractor. In the event a master key is lost or duplicated, all locks and keys for that system shall be replaced by the Government and the total cost deducted from the monthly payment due the Contractor.

C.2.9.10.2 The Contractor shall prohibit the use of Government issued keys/key cards by any persons other than the Contractor's employees. The Contractor shall prohibit the opening of locked areas by Contractor employees to permit entrance of persons other than Contractor employees engaged in the performance of assigned work in those areas, or personnel authorized entrance by the Contracting Officer.

C.2.9.10.3 Lock Combinations: The Contractor shall establish and implement methods of ensuring that all lock combinations are not revealed to unauthorized persons. The Contractor shall ensure that lock combinations are changed when personnel having access to the combinations no longer have a need to know such combinations. These procedures shall be included in the Contractor's Quality Control Plan.

C.2.10 Accounting for Contractor Support. The Office of the Assistant Secretary of the Army (Manpower & Reserve Affairs) operates and maintains a secure Army data collection site where The Contractor shall report ALL contractor manpower (including subcontractor manpower) required for performance of this contract. The contractor is required to completely fill in all the information in the format using the following web address: https://www.sam.gov/. The required information includes: (1) Contracting Office, Contracting Officer, Contracting Officer's (Technical) Representative; (2) Contract number, including task or delivery order number; (3) Beginning and ending dates covered by reporting period; (4) Contractor name, address, phone number, e-mail address, identity of contractor employee entering data; (5) Estimated direct labor hours (including subcontractors; (6) Estimated direct labor dollars paid this reporting period (including subcontractors); (7) Total payments (including subcontractors); (8) Predominant

Federal Service Code (FSC) reflecting services provided by contractor (and separate predominant FSC for each subcontractor if different); (9) Estimated data collection cost; (10) Organizational title associated with the Unit Identification Code (UIC) for the Army Requiring Activity (the Army Requiring Activity is responsible for providing the contractor with its UIC

for the purposes of reporting this information); (11) Locations where the contractor and subcontractors perform the work (specified by zip code in the United States and nearest city, country, when in an overseas location, using standardized nomenclature provided on website); (12) Presence of deployment or contingency contract language; and (13) Number of contractor and subcontractor employees deployed in theater this reporting period (by country). As part of its submission, The Contractor shall also provide the estimated total cost (if any) incurred to comply with this reporting requirement. Reporting period will be the period of performance not to exceed 12 months ending September 30 of each Government fiscal year and must be reported by 31 October of each calendar year. Contractors may use a direct XML data transfer to the database server or fill in the fields on the website. The XML direct transfer is a format for transferring files from a contractor's systems to the secure web site without the need for separate data entries for each required data element at the web site. The specific formats for the XML direct transfer may be downloaded from the web site.

Reporting inputs will be for the labor executed during the period of performance during each Government fiscal year (FY), which runs October 1 through September 30. While inputs may be reported any time during the FY, all data shall be reported no later than October 31 of each calendar year. Contractors may direct questions to the help desk at: https://www.sam.gov/.

C.2.11 Contractor Identification Requirements. In accordance with FAR subpart 37.114(c), all Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious are required to identify themselves as such to avoid being mistaken for Government officials. Contractors performing work at Government workplaces shall provide their employees with an easily readable identification (ID) badge indicating the employee's name, the Contractor's name, the functional area of assignment, and a recent color photograph of the employee. Contractors shall require their employees to wear the ID badges visibly when performing work at Government workplaces. Contractor personnel must also ensure that all e-mails, documents, or reports they produce are suitably marked as Contractor products and/or that contractor participation is appropriately disclosed. All signature blocks on e-mails shall indicate that the sender is a Contractor employee and include the Contractor's company name.

C.2.12 Common Access Card (CAC). For contractors requiring a CAC: Before CAC issuance, the contractor employee requires, at a minimum, a favorably adjudicated National Agency Check with Inquiries (NACI) or an equivalent or higher investigation in accordance with Army Directive 2014-05. The contractor employee will be issued a CAC only if duties involve one of the following: (1) Both physical access to a DoD facility and access, via logon, to DoD networks on-site or remotely; (2) Remote access, via logon, to a DoD network using DoD-approved remote access procedures; or (3) Physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. At the discretion of the sponsoring activity, an initial CAC may be issued based on a favorable review of the FBI fingerprint check and a successfully scheduled NACI at the Office of Personnel Management.

For contractors that do not require CAC, but require access to a DoD facility or installation; Contractor and all associated sub-contractors employees shall comply with adjudication

standards and procedures using the National Crime Information Center Interstate Identification Index (NCIC-III) and Terrorist Screening Database (TSDB) (Army Directive 2014-05/AR 190-13), applicable installation, facility and area commander installation/facility access and local security policies and procedures (provided by government representative), or, at Outside the Continental United States (OCONUS) locations, in accordance with status of forces agreements and other theater regulations.

The Government will provide special access badges as necessary. The Prime Contractor Facility Security Officer (FSO) shall ensure that all Contractor personnel acquire and maintain CAC. The approving Government Trusted Agent (TA) may give access to the FSO using the online Trusted Associate Sponsorship System (TASS), https://www.dmdc.osd.mil/tass/index.jsp. Contractor eligibility remains in force during employment under the contract for those employees who have a valid and recurring requirement for access to Army facilities or automation systems (reference DD254 for systems access) to perform those duties stipulated in the contract. The Contractor shall use a valid CAC to access the Government domain. The Contractor shall immediately return the CACs to the COR when the contractor employee's employment is terminated or upon expiration of the contract. The CACs expires when contractor employee's eligibility terminates or three years from the issuance date, whichever occurs first. The contractor is responsible for all CACs and shall report all lost or stolen CACs to the COR immediately.

C.2.13 Quality Control. The Contractor shall develop and maintain an effective quality control plan to ensure services are performed in accordance with this PWS. The Contractor shall develop and implement procedures to identify, prevent, and ensure non-recurrence of defective services. The Contractor's quality control program is the means by which he assures himself that his work complies with the requirement of the contract. The Quality Control Plan (QCP) is to be delivered, within 30 days after contract award, and within 5 working days when changes are made thereafter. The Contractor's QCP must be detailed, containing a systematic approach to monitor daily operations of key and essential functions for providing quality service to the Government, i.e., discrepancy identification procedures, corrective action procedures, prevention procedures for occurrence/re-occurrence of discrepancies, trend analysis usage, and customer feedback utilization. Such QCP requirements will increase the likelihood of successful contract performance. After acceptance of the quality control plan the Contractor shall request the contracting officer's acceptance in writing of any proposed change to his QC system.

C.2.14 Quality Assurance. The Government shall evaluate the Contractor's performance under this contract in accordance with the Quality Assurance Surveillance Plan (QASP). This plan is primarily focused on what the Government must do to ensure that the Contractor has performed in accordance with the performance standards. It defines how the performance standards will be applied, the frequency of surveillance, and the minimum acceptable defect rate(s).

C.2.15 Data Rights. The Government has unlimited rights to all documents/material produced under this contract. All documents and materials, to include the source codes of any software, produced under this contract shall be Government owned and are the property of the Government with all rights and privileges of ownership/copyright belonging exclusively to the Government. These documents and materials may not be used or sold by the Contractor without written permission from the Contracting Officer. All materials supplied to the Government shall be the

sole property of the Government and may not be used for any other purpose. This right does not abrogate any other Government rights.

C.2.15.1 Data Access - FAR 39.201 & Section 508 of the 1973 Rehabilitation Act states when acquiring IT agencies must ensure (1) Federal employees with disabilities have access to and use of information and data that is comparable to the access and use by Federal employees who are not individuals with disabilities; and (2) Members of the public with disabilities seeking information or services from an agency have access to and use of information and data that is comparable to the access to and use of information and data by members of the public who are not individuals with disabilities.

C.2.16 Post Award Conference/Periodic Progress Meetings. The Contractor agrees to attend any post award conference convened by the contracting activity or contract administration office in accordance with Federal Acquisition Regulation Subpart 42.5. The Contracting Officer, COR, and other Government personnel, as appropriate, may meet periodically with the Contractor to review the Contractor's performance. At these meetings the Contracting Officer will apprise the Contractor of how the government views the Contractor's performance and the Contractor will apprise the Government of problems, if any, being experienced. Appropriate action shall be taken to resolve outstanding issues. These meetings shall be at no additional cost to the government.

C.2.17 Contracting Officer Representative (COR). The COR will be identified by separate letter. The COR monitors all technical aspects of the contract and assists in contract administration. The COR is authorized to perform the following functions: assure that the Contractor performs the technical requirements of the contract; perform inspections necessary in connection with contract performance; maintain written and oral communications with the Contractor concerning technical aspects of the contract; issue written interpretations of technical requirements, including Government drawings, designs, specifications; monitor Contractor's performance and notify both the Contracting Officer and Contractor of any deficiencies; coordinate availability of government furnished property; and provide site entry of Contractor personnel. A letter of designation issued to the COR, a copy of which is sent to the Contractor, states the responsibilities and limitations of the COR, especially with regard to changes in cost or price, estimates or changes in delivery dates. The COR is not authorized to change any of the terms and conditions of the resulting order.

C.2.18 Key Personnel.

C.2.18.1 Senior Program Manager. The contractor shall provide a Program Manager who shall be responsible for the performance of the work. The name of this person and an alternate who shall act for the contractor when the manager is absent shall be designated in writing to the contracting officer.

- The Program Manager or alternate shall have full authority to act for the contractor on all contract matters relating to daily operation of this contract.

• The Program Manager or alternate shall be located at Fort Benning and be available between 0800-1700, Monday thru Friday except Federal holidays or when the government facility is closed for administrative reasons.

• The Program Manager shall have a Master's Degree with at least 8 years or Bachelor's Degree with at least 12 years of experience in a technical environment with at least 8 years supervisory experience managing projects or programs of similar scope and size either for the Government or on behalf of a Government client.

• The Program Manager must have an Active SECRET Clearance in good standing on the first day of this contract. Project Management Professional (PMP) certification is required.

C.2.18.2 Senior Help Desk Support for ETS Lead/Alternate PM. The contractor shall provide an Educational Technology Support (ETS) Team Lead responsible for managing the work described in C.4.1 and C.4.2. The name of this person shall be designated in writing to the contracting officer.

• The ETS Team Lead shall provide support for the day-to-day activity of the ETS team, manage the ETS team members, coordinate ETS scheduling and functions, and work closely with the contracted Program Manager and Government customer to facilitate the mission.

• The ETS Team Lead shall be available between 0800-1700, Monday through Friday, except Federal holidays or when the government facility is closed for administrative reasons.

• The ETS Team Lead will have at least 12 years' experience in a technical environment, with at least 8 years of experience supporting student environments of similar scope and size either for the Government or on behalf of a Government client, as well as experience managing day to day activities for a team of at least 12 members.

• The ETS Team Lead will also serve as alternate Program Manager and perform all Program management duties in the absence of the Primary PM.

• The ETS Lead shall possess a Bachelor's degree in an IT related field. Information Technology Infrastructure Library (ITIL) Foundation certification is required.

• The ETS Lead must have an Active SECRET Clearance in good standing on the first day of the contract.

C.2.18.3 Senior Systems Administrator. The contractor shall provide a Systems Administrator who shall be responsible for the performance of the work described in C.4.1. The name of this person shall be designated in writing to the contracting officer.

• The Systems Administrator shall provide support for the servers and services required by the customer, provide scripting support to facilitate the mission and customer needs, and provide technology solution recommendations based on the constraints of the Army environment.

• The Systems Administrator shall be available between 0800-1700, Monday through Friday, except Federal holidays or when the government facility is closed for administrative reasons.

• The Systems Administrator will have a Master's degree with at least 10 years or a Bachelor's degree with at least 12 years of experience in a technical environment, with at least 8 years of experience supporting student environments of similar scope and size either for the Government or on behalf of a Government client.

• The Systems Administrator must possess a Security+ and Microsoft Certification is required.

• The Systems Administrator must have an Active SECRET Clearance in good standing on the first day of the contract.

C.2.18.4 Audio Visual (AV)/Video Teleconference (VTC) Technician. The contractor shall provide a VTC Technician who shall be responsible for the performance of the work described in C.4.4.

• The AV/VTC technician must be experienced with determining requirements for VTC suite upgrades and have extensive knowledge of government enterprise network protocols and function. The AV/VTC technician must determine requirements for VTC suites and provide a Bill of Materials (BOMs) and Statement of Work (SOW's) to customers.

• The AV/VTC technician must coordinate with outside vendors to facilitate VTC suite upgrades or repair for work to be performed in a non-supervisory role to ensure compliance for network connectivity and interface with the Ft. Benning Network Enterprise Center (NEC)for connection of new and existing CODECs.

• The AV/VTC technician must provide secure and non-secure customer support services for the VTC bridge and 100+ suites for the MCoE located across the Fort Benning, GA installation campus, as well as off-site locations to include Camp Merrill, GA; Camp Rudder, FL; Fort Bragg, NC; Fort Drum, NY; and Fort Stewart, GA.

• The AV/VTC technician must have at least 8 years of experience providing support for government networks and a bachelor's degree in a related field.

• The AV/VTC technician must have an Active SECRET Clearance in good standing on the first day of the contract.

C.2.19 Driver License. Required to possess a valid commercial driver's license to drive government vehicles.

C.3 APPLICABLE DOCUMENTS. The following publications form a part of this contract. The publications below with which the Contractor shall comply are "Mandatory." The Contractor shall use current commercial practices and publications whenever possible. A significant number of Army regulations that govern the conduct of the required work are listed below. The PWS may set a higher standard of performance than an applicable Army regulation. The PWS will take precedence over the regulations unless a particular PWS provision is in direct conflict with the applicable provision of the Army regulation. The publications can be accessed from internet site https://armypubs.army.mil. The Government will provide those publications not available on a web site. The Contractor shall comply with changes to publications. The Contractor shall inform the KO of any changes to a publication or documents that impact the cost of the contract.

C.4 SPECIFIC TASKS:

C.4.1 G-6 Educational Technology Support (ETS) System Administrator - Senior: The primary place of performance will be building 4 and outlying NOC locations, Fort Benning, GA. The Contractor shall:

• Manage and perform maintenance and storage allocation in the cloud / servers and provide print server maintenance and management.

• Provide ETS Active Directory Management on user and computer accounts, print objects, and security groups; create and maintain standard computer account naming conventions. Conduct mobile device (laptop or tablet) security briefs, issues and turn-ins.

C.4 SPECIFIC TASKS:

C.4.1 G-6 Educational Technology Support (ETS) System Administrator - Senior: The primary place of performance will be building 4 and outlying NOC locations, Fort Benning, GA. The Contractor shall:

• Manage and perform maintenance and storage allocation in the cloud / servers and provide print server maintenance and management.

• Provide ETS Active Directory Management on user and computer accounts, print objects, and security groups; create and maintain standard computer account naming conventions. Conduct mobile device (laptop or tablet) security briefs, issues and turn-ins.

• Assist student soldiers in registering for the TRADOC Student Account Solution (TSAS) to allow smartcard access to ETS systems.

• Assist the Government in auditing student AUP and IA directories to ensure 100% DoD IA compliance. Conduct quarterly Security Technical Implementation Guide (STIG) analysis and mitigation on ETS systems/servers to ensure DoD IA compliance.

• Develop and enhance business process development for day-to-day maintenance and support requests. Work with the NECt o resolve issues related to user accounts, network outages, remote access and Wi-Fi access. Provide incident response for systems/users with known or suspected Information Assurance (IA) compliance issues.

• Develop and maintain the TRADOC Knowledge Management (TKE) ETS System Administrator SharePoint site to include the collection and organization of data and metrics. Research various methods of collecting and tracking data and reporting in printable formats. Evaluating and improve existing processes and develop new processes where applicable. Translate processes into SharePoint cloud/file share configurations, create and test configurations, folders, documents, calendars, and other SharePoint objects, and scripts.

• Maintain the ETS system registrations in SCCM and AD and work with NEC to register systems in NPS to allow machines to be imaged over the network.

C.4.1.1 A SECRET security clearance is required and BA/BS with at least 10 years of experience.

C.4.2 G-6 Help Desk Support Specialist for Student Computer and Automation Support: Primary place of performance is in up to 4 Network Operations Center (NOC) sites at Fort Benning, GA. The Contractor shall be prepared to support a single maximum class/course of up to 400 students per course rotation. The Contractor shall:

• Provide on-site and remote customer and automation support to students and instructors throughout the duration of their courses. Respond to initial support request

within 15 minutes. Provide students with mobile device (laptop or tablet) if the problem will take longer than 15 minutes to resolve.

• Prepare mobile device (laptop or tablet) with new baseline image, adjust BIOS configuration settings, and initiate post-install process to customize image for each supported course session.

• Issue mobile device (laptop or tablet) and conduct security briefs and course software use to new students. Ensure completion of required equipment issuance and security briefing forms. Ensure all students sign a DA Form 2062 (digital or paper copy), the Acceptable Use Policy (AUP) and are briefed on IA. Ensure all students properly log in with government issued CAC to initiate the TSAS Onboarding process to grant the students temporary permission to the Fort Benning network for the duration of the course. Comply with all IA, information security and licensing requirements

• Train new instructors on the function and capabilities of classroom instructional technology such as computers and associated collaborative tools and software.

• Inform the COR when it is discovered that student computers are damaged beyond warranty repair support or are missing. Provide the ETS Lead with the statement of charges/FLIPL packet for review once it has been completed and signed by the student.

IA

C.4.2.1 A SECRET security clearance is required and Associate of Science (AS) with at least 7 years of experience.

C.4.3 G-6 Senior Help Desk Support for ETS Lead/Alternate PM: Primary place of performance is building 4, Fort Benning, GA. On average, 14,000 students are serviced annually (to include Active Directory object creation, mobile device (laptop or tablet) image & issue, and any associated re-image / re-issue due to hardware failure, image breakage etc.), and 6,500 service requests fielded annually (These are service tickets, not including images which is covered under students being serviced). For every local service support ticket that requires NEC support a separate AESD service ticket number will be documented and tracked to completion. The Contractor shall:

• Coordinate with the Government Hand Receipt Holder to ensure that a 10% equipment inventory is conducted monthly, and a 100% annual inventory is conducted.

• Collaborate with the MCoE Supply Specialist to conduct Lifecycle Replacement (LCR) on ETS Student computers. Thoroughly document all equipment that qualify for

lifecycle replacement for the following fiscal year and provide data to the COR on SharePoint portal.

• Maintain an accurate inventory tracking spreadsheet to display the different laptop model types at each NOC location along with their associated cost. Carefully compare the inventory tracking spreadsheet to the property hand receipt to confirm consistency of the data.

• Provide the MCoE G6 COR & Deputy with detailed data pertaining to future Training Resource Arbitration Panel (TRAP) course schedules and breakdowns to determine what resources are needed to meet mission.

• Interface with MCoE course leaders that ETS supports to disseminate important information that will affect the students' coursework productivity. Also assist with the onboarding process of new prospects seeking to receive ETS support for their school or course

• Provide on-going review of Standard Operating Procedures (SOP) & Tenant Security Plan, suggesting updates by mission changes and recommended efficiencies.

• Provide the following deliverables, each due no later than the fifth day of the following month:

• A monthly ETS metric report by Network Operations Center (NOC) that provides totals for monthly student counts, new students, number of mobile device (laptop or tablet) issuance sessions and number of mobile device (laptop or tablet) issued per session, number of mobile device (laptop or tablet) turn-in sessions and number of mobile device (laptop or tablet) turned in, mobile device (laptop or tablet) imaged, and service requests.

• A monthly ETS NOC report that depicts final student numbers within the month. Totals include daily student counts for every class in session and cumulative totals.

C.4.3.1 A SECRET security clearance is required with a BA/BS and with at least 10 years of experience.

C.4.4 G-6 Audio/Visual (AV)/Video Teleconferencing (VTC) Technician Support: The primary place of performance will be building 4 and outlying locations, Fort Benning, GA. The Contractor shall provide secure and non-secure customer support services for the VTC bridge and 100+ suites for the MCoE located across the Fort Benning, GA installation campus, as well as off-site locations to include Camp Merrill, GA; Camp Rudder, FL; Fort Bragg, NC; Fort Drum, NY; and Fort Stewart, GA. While the Contractor shall primarily provide telephonic or remote support for geographically separated locations, the Contractor may be required to travel to the other locations. If travel to any of these locations is required,

the contractor must submit in writing, a request for approval to the COR at least five days in advance of the requested travel date. At a minimum, the request must include number of personnel traveling, numbers of days, anticipated lodging costs, meals, car rentals or mileage. Costs cannot exceed established Joint Federal Regulations (JFR) for Travel guidelines. Emergencies will be handled on a case-by-case basis and can be initiated with a phone call. However, the contractor is required to follow-up with a written request. The contractor shall:

• Establish and maintain an up-to-date database to track VTC suites to include inventory by unit, IP, location, POC, Site ID, etc. Provide monthly updates to the COR.

• Provide VTC conference bridge space for suites and supported organizations, allowing users to utilize VTC bridge capabilities without unnecessary overhead of Global-Video Services (GVS). Provide system configuration management, circuit validation and all other required functions on the bridge and endpoints.

• Troubleshoot Cisco CMS Bridge or current Bridge, CODEC's and suites to diagnose problems with VTC equipment and recommend actions to be taken to correct the problems, then implement resolution. Respond in 30 minutes or less to requests for on- call telephonic and on-site support to designated VIP/priority as determined by the Government at Fort Benning location.

• Update software and firmware versions on all VTC equipment and similar replacement equipment; test updated equipment to validate proper functionality and operations. Remove, install and test section equipment to accomplish equipment configurations required to maintain 100% operational status of section equipment, to accomplish life-cycle equipment replacements, and to accomplish equipment upgrades and configuration changes.

• Operate VTC equipment including powering up teleconferencing equipment, checking equipment for proper operation, setting audio levels, positioning camera functions, and performing secure or non-secure set-up. Assist Organization facilitators with conducting VTC, which may include conference preparation, monitoring VTC equipment and system performance, reporting equipment and network problems to appropriate parties and performing maintenance and repair. Perform operator level repairs of VTC equipment and repair or replace malfunctioning wiring, cabling and terminations associated with the equipment. Perform periodic maintenance on the VTC as specified by the manufacturer's preventive and periodic maintenance specifications and the Government's periodic maintenance schedule.

• Develop SOPs for VTC scheduling, operation, and maintenance processes and procedures. Coordinate functional tests and scheduled VTCs with local and remote users, NEC, Defense Information Systems Global-Video Services (GVS), Defense Information Systems Network (DISN), and installation bridge operators. Conduct site surveys to validate equipment for all new requirements.

• Assist the MCoE G-6 with Certificates of Networthiness (CON) and Configuration Control Board (CCB) submissions to Information Assurance. Implement configuration updates to the bridge topology as a result of changes to security requirements or the installation's network architecture. Provide implementation status reports to the COR on an as- required basis. Assist the Government with AT&T and Army validations/certifications for VTC systems and provide updates to the GVS-SW database as changes occur.

• Perform VTC and A/V suite installation to include but not all inclusive, televisions, speakers, Codec, Camera's, and cabling. Provide expertise to Units on A/V requirements, sound management, noise conflict resolution etc.

C.4.4.1 A SECRET security clearance is required, Cisco Certified Network Associate (CCNA) certification, a BS and with at least 10 years of experience.

C.4.5 Standard IT Support: The primary place of performance will be building 4 and outlying NOC locations, Fort Benning, GA. The Contractor shall:

• Operate and maintain hardware and software associated with standard IT service delivery; implement and maintain all prescribed configurations (e.g., STIG); and integrate operations with internal and external activities (e.g., Regional Cyber Center (RCC), 7th Signal Command (Theatre) G3 Operations, etc.).

• Provide expert advice by identifying IT service delivery issues and potential shortfalls with proposed technical solutions; engineer/re-engineer technical solutions to address identified solutions design shortfalls; provide life-cycle management consultation and advice.

• Execute system deployments and technical changes on a quarterly basis or as determined by the STIG, Microsoft and other vendor-based product rollout schedules required by Army, Defense Information Systems Agency or other agencies. Recommend, develop and maintain operational processes and automated solutions.

• Provide IT performance metrics/service reporting and documentation, weekly IT Service Delivery reports, monthly contract quality performance. Required 99.9% service availability for required performance of tasks.

C.4.5.1 A SECRET security clearance is required.

C.4.6 Senior Project Management Support: The primary place of performance will be building 4 and outlying NOC locations, Fort Benning, GA. The Contractor shall:

• Provide PM support to the MCoE G-6 office tracking all aspects of the MCoE G-6 IT Services Contract

• Create and maintain all project management plans.

• Service quality meets requirements in the PWS and the QASP.

• Present Quality Control Plan to COR G6 Leadership IAW the deliverables schedule.

C.4.6.1 A SECRET security clearance is required.

C.4.6.2 PMP certification is required and BA/BS with at least 12 years of experience as a project manager in a military school training environment.

C.4.7 Supply Specialist: The primary place of performance will be building 4 and outlying NOC locations, Fort Benning, GA. The Contractor shall:

• Facilitate the management of the MCoE ETS equipment in coordination with (ICW) primary hand receipt holder of W6NFA3. Property not to exceed 8,000 laptops located throughout the MCoE Fort Benning schools footprint and issued to students / government personnel in support of training or other special missions as required.

• Facilitate the issue of MCoE G-6 lifecycle equipment to including but not limited to MCoE yearly lifecycle replacement program (laptops, desktops, Land Mobile Radio (LMR) ICW primary hand receipt holder.

• Track lifecycle, condition of equipment, and facilitate the processing of an electronic financial liability investigation of property loss (eFLIPL) for lost, stolen, or broken equipment by collecting required documentation and submitting to MCoE G6 hand receipt holder.

• Track and manage all equipment.

Attachment 5 – Submission Instructions / Evaluation Criteria

5 –A Instructions

1. The submission instructions are designed to provide general guidance for preparing responses as well as providing specific instructions on response organization, format, and content. Responders shall include all documents and information requested and shall be submitted in accordance with the instructions. The responder is cautioned to follow the instructions carefully, as the Government reserves the right to make an award based on initial responses received without discussion of such response.

2. Responders shall submit a response that is self-sufficient and responds directly to the requirements of the Request for Proposal (RFP). The response shall be clear, concise, and include adequate detail for effective evaluation. The response should not simply rephrase or restate the Government's requirements, but rather provide convincing rationale to address how the responder intends to meet the requirements of the RFP. The responses shall contain sufficient information to enable the Government to fully evaluate and determine the responder's capability to comply with the requirements identified in the RFP. Responses that are overly verbose or include marketing material may distract from the evaluators ability to ascertain compliance with the RFP.

3. Responders shall submit a response that describes the procedures, processes, controls, etc. that are established for this RFP. The responders shall provide any assumptions upon which your approach/solution is based, and the rationale supporting the assumption (i.e., why do you believe the assumptions are valid). Express your best understanding of the ramification inherent in the contract. Discuss alternatives considered, risks involved, impact to the missions (both detriment, as well as efficiency), impacts from external sources, etc. Provide any other explanations or supporting data (matrix, charts, or other graphics) determined necessary for the Government to fully understand the responder's methodology and approach.

4. In the event that travel is authorized in support of this contract, all travel charges shall be authorized in advance. Contractor travel charges will be invoiced in accordance with the current volume of the Government Joint Travel Regulations (JTR). Fee/profit on travel is not allowed.

5. Wage Determination. WD 2015-4527 (Rev. 19), Dated 15-Mar-22 applies to this contract and can be downloaded at www.wdol.gov.

6. The responder shall provide its response with a cover sheet that contains the company's name, address and telephone number, name and title of the person authorized to sign and negotiate the contract, offer validation period of sixty (60) days, RFP number W911SF-22-R-0029, IT Support, and the original date of response. The original date shall be located in the upper right-hand corner of the cover sheet.

7. Response Organization and Format: The responses shall consist of two (2) volumes. The volumes are: Volume I – Technical Submission and Volume II – Price Submission. All

required copies are due by **July 29, 2022**, no later than **10:00 a.m. EDT**. Responses shall be submitted to the following mailbox: usarmy.benning.acc-micc.mbx.micc-proposals@army.mil. Only one copy is required.

5-B Evaluation Plan

PART A: GENERAL INFORMATION

1.0 GENERAL

The Government expects to select one Offeror whose proposal offers the "best value" to the Government, using the trade-off method. "Best value" means the expected outcome of an acquisition that, in the Government's estimation, provides the greatest overall benefit(s) in response to the requirement. The Offeror is advised that the lowest priced proposal meeting the solicitation requirements may not be selected for an award if award to a higher priced Offeror is determined to be more beneficial to the Government. However, the perceived benefits of the higher priced proposal must merit the additional price.

The Government intends to award a contract on the basis of initial offers received without discussions. Therefore, each initial offer should contain the Offeror's best terms from a Management, Technical, Past Performance, and Price/Cost standpoint. However, if considered necessary by the Contracting Officer, discussions will be conducted with only those Offerors within the competitive range.

2.0 EVALUATION PROCESS

Proposals will be evaluated using the factors that are listed in descending order of importance below.

Factor 1: Management Approach
Factor 2: Technical Approach
Factor 3: Past Performance
Factor 4: Price/Cost

For the Management Approach factor, a Management Rating will be assigned. The Management Rating reflects whether the proposal meets or does not meet the minimum requirements along with an assessment of the strengths, weaknesses, and deficiencies of the proposal. For proposals containing no deficiencies, the benefit to the Government associated with assigned strengths will be considered in determining whether the Offeror's proposal rises to a level of being thorough or exceptional. Offerors are advised that during the evaluation process, a management factor with an "Unacceptable" Management Rating will result in the entire proposal being found unacceptable and eliminated from the competition.

For the Technical factor, a Technical Rating and Technical Risk Rating will be assigned. The Technical Rating reflects whether the proposal meets or does not meet the minimum requirements along with an assessment of the strengths, weaknesses, and deficiencies of the proposal. For proposals containing no deficiencies, the benefit to the Government associated with assigned strengths will be considered in determining whether the Offeror's proposal rises to a level of being thorough or exceptional. The Technical Risk Rating considers the risk associated with the technical proposal in meeting the requirement and is evaluated by the identification of weaknesses and/or significant weaknesses. Assessment of technical risk considers potential for disruption of schedule, increase in costs, degradation of performance, the need to increase Government oversight, or the likelihood of unsuccessful contract performance. Offerors are advised that during the evaluation process, a technical factor with an "Unacceptable" Technical Rating or a "High" Technical Risk Rating will result in the entire proposal being found unacceptable and eliminated from the competition.

Under Past Performance, the Government will evaluate recent performance to determine how well an Offeror has performed work similar to the work required by the solicitation. After evaluating the Offeror's past performance information, a Performance Confidence Assessment Rating will be assigned. More relevant past performance will typically be a stronger predictor of future success and have more influence on the Performance Confidence Assessment Rating than past performance of lesser relevance. In the case of an Offeror without a record of relevant past performance, the Offeror will receive a Performance Confidence Assessment Rating of "Unknown Confidence (Neutral)" which is considered a "Neutral" rating.

3.0 EVALUATION FACTORS FOR AWARD

3.1 PASS/FAIL SECURITY CLEARNCE FACTORS

Offerors must possess an active Secret Facilities Clearance that is active as outlined in CAR 1352.215-70(b)(1)(i) on page 59-62 *(of the solicitation).* If Offerors do not have an active Secret Facilities Clearance, they will not be eligible for further award evaluation.
(*****This statement is a definite disqualifier**********)**

Proposals will be evaluated using the factors listed below.

3.2 PROPOSAL EVALUATION FACTORS:

Proposals will be evaluated using the factors listed below.

Factor 1: Management Approach
Factor 2: Technical Approach
Factor 3: Past Performance
Factor 4: Price/Cost

Factors are listed in descending order of importance.

All evaluation factors are significantly more important than price/cost.

PART B: SPECIFIC INFORMATION

1.0 MANAGEMENT APPROACH

The Management Approach shall be evaluated on the feasibility and adequacy of the approach to be taken to achieve the requirements of the SOW and solicitation. The Government will assess the Offeror's Management proposal with respect to its compliance with the solicitation requirements, including Organization, Staffing, Transition Plan, and Subcontract Management, IAW the appropriate paragraph reference.

2.0 TECHNICAL

The Government will evaluate the Offeror's proposal to determine the Offeror's understanding of, approach to, and ability to meet the solicitation requirements. The Government will assess the Offeror's Technical proposal with respect to its compliance with the solicitation requirements, including Workforce/Personnel and Qualifications/Key Personnel, and IAW the appropriate paragraph reference outlined in the PWS in sections C.4 Specific Task through C.4.7. Noncompliance with the technical requirements of this solicitation will be considered a deficiency. The Government will also assess the Offeror's Technical Proposal with respect to the risk associated with the Offeror's approach.

3.0 PAST PERFORMANCE

There are three (3) aspects to the past performance evaluation: recency, relevancy, and quality. The first aspect of the past performance is to evaluate the recency of the Offeror's past performance being evaluated . Past performance will be considered recent if the contract/order has been performed within five (5) years of the solicitation release date. Past Performance that is not recent will not be considered in the evaluation.

The second aspect of the past performance evaluation is to evaluate how relevant the Past Performance being evaluated is to the requirements of this solicitation. Past performance will be considered relevant if the contract/order meets the relevancy ratings as defined in Part C, 4.0. Past Performance Relevancy Ratings.

The third aspect of the past performance evaluation is to evaluate the overall quality of the Offeror's recent relevant past performance. The Government will evaluate the Offeror's performance, and focus its evaluation on the following areas: 1) meeting technical requirements, i.e., the quality of technical performance; 2) meeting schedule requirements, e.g., on time or late delivery; 3) controlling contract cost; 4) managing the contracted effort; 5) regulatory compliance, and 6) the demonstrated systemic improvement actions taken to resolve past problems, and 7) IAW the appropriate paragraph reference outlined in the PWS. A separate quality rating will not be assigned, rather the past performance confidence assessment rating is

based on the Offeror's overall record of past performance taking into account the recency, relevancy, and quality of performance.

4.0 PRICE/COST

Although the price information is not numerically scored and receives no adjectival rating, it is important in determining that the Offeror understands the requirement and the resources required to satisfy it. Price analysis techniques will be applied to the Evaluated Price to ensure that a fair and reasonable price is paid by the Government.

The "Evaluated Prices" will be compared, with the lower "Evaluated Prices" being more favorable than higher "Evaluated Prices." Price evaluation will consist of a review of the price portion of a contractor's quote to determine if the resulting overall cost to the Government proposed is realistic for the work to be performed, if the prices reflect an accurate understanding of the requirements, and if the price is consistent with the Technical Quote.

Except for otherwise unacceptable proposals when awarding on initial proposals, the Government will perform a cost realism analysis to determine the most probable cost (MPC) for each applicable offeror's proposal. Cost realism analysis is the process of independently reviewing and evaluating specific elements of each Offeror's proposed cost to determine whether the proposed cost is realistic for the work to be performed and are consistent with the unique methods of performance and materials described in the Offeror's technical proposal. In conducting its cost realism evaluation, the Government may review the prospective Offeror's proposed labor categories and compare the proposed rate to the average labor rate in industry or other similar rates within the same demographic zone where the work is to be performed. Pertinent cost information, including but not limited to DCAA-recommended rates for such costs as direct labor, overhead, G&A, etc., as necessary and appropriate, will be used to arrive at the Government determination of the MPC for the performance of this contract.

In addition, adjustments to the cost portion of the offer may be made to include Government costs required to accomplish the Offeror's proposed approach (e.g., additional Government-Furnished Property/Government-Furnished Information required by the Offeror to implement its approach).

The MPC is an Offeror's total cost, including fee, and any additional adjustments the Government has determined necessary to make the proposed cost realistic for all periods. The Government will use the results of its cost realism analysis to determine the MPC of performance for each Offeror. The MPC may differ from the proposed cost. The higher of the MPC or proposed cost will be used for purposes of evaluation to determine the best value. Contract awarded value, however, will be based upon the successful Offeror's proposed costs.

In accordance with FAR 15.404-1(b)(2), various price analysis techniques and procedures will be employed to ensure the prices being proposed for this requirement are fair and reasonable.

PART C: EVALUATION RATING AND RISK ASSESSMENT DEFINITIONS

The definitions below will be used by the Government when assessing solicitation compliance and the expected results of the Offeror's proposed approach.

1.0 MANAGEMENT EVALUATION RATINGS

Management Ratings: The management rating assignments reflect the Government's assessment of the quality of the Offeror's management solution for meeting the Government's requirement.

Management Ratings

Rating	Description
Outstanding	Proposal indicates an **exceptional** approach and understanding of the Army Training and Doctrine Command (TRADOC), Maneuver Center of Excellence's (MCoE) requirements, experienced key personnel staff managing TRADOC, MCoE programs, and contains multiples strengths.
Good	Proposal indicates a thorough approach and understanding of the TRADOC, MCoE requirements, and key personnel with similar experience managing similar programs, and contains at least one strength.
Acceptable	Proposal indicates an adequate approach and understanding of the TRADOC, MCoE requirements, and acceptable key personnel.
Marginal	Proposal has not demonstrated an adequate approach and understanding of the requirements and does not provide adequate key personnel.
Unacceptable	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is unawardable.

2.0 TECHNICAL EVALUATION RATINGS

Technical Ratings: The technical rating assignments reflect the Government's assessment of the quality of the Offeror's technical solution for meeting the Government's requirement.

Technical Ratings

Rating	Description
Outstanding	Proposal indicates an **exceptional** approach and understanding of the TRADOC, MCoE requirements and contains multiples strengths.
Good	Proposal indicates a thorough approach and understanding of the TRADOC, MCoE requirements and contains at least one strength.
Acceptable	Proposal indicates an adequate approach and understanding of the TRADOC, MCoE requirements.

Marginal	Proposal has not demonstrated an adequate approach and understanding of the TRADOC, MCoE requirements.
Unacceptable	Proposal does not meet requirements of the solicitation and, thus, contains one or more deficiencies and is unawardable.

3.0 TECHNICAL RISK RATINGS

Technical Risk Ratings: The risk rating assignments reflect the Government's assessment of potential for disruption of schedule, increased cost, degradation of performance, the need for increased Government oversight, or the likelihood of unsuccessful contract performance associated with the Offeror's technical approach.

Rating	Description
Low	Proposal may contain weakness(es) which have little potential to cause disruption of schedule, increased cost, or degradation of performance. Normal contractor effort and normal Government monitoring will likely be able to overcome any difficulties.
Moderate	Proposal contains significant weakness or combination of weaknesses which may potentially cause disruption of schedule, increased cost, or degradation of performance. Special contractor emphasis and close Government monitoring will likely be able to overcome difficulties.
High	Proposal contains a significant weakness or combination of weaknesses which is likely to cause significant disruption of schedule, increased cost, or degradation of performance. Is unlikely to overcome any difficulties, even with special contractor emphasis and close Government monitoring.
Unacceptable	Proposal contains a material failure or a combination of significant weaknesses that increases the risk of unsuccessful performance to an unacceptable level.

4.0 PAST PERFORMANCE RELEVANCY RATINGS

Past Performance Relevancy Ratings: More relevant past performance will typically be a stronger predictor of future success and have more influence on the past performance confidence assessment than past performance of lesser relevance.

Rating	Definition
Very Relevant	Present/past performance effort involved with TRADOC, MCoE experience of essentially the same scope and magnitude of effort and complexities this solicitation requires
Relevant	Present/past performance effort involved with Army Center of Excellence (CoE) experience of similar scope

	and magnitude of effort and complexities this solicitation requires.
Somewhat Relevant	Present/past performance effort involved some Army experience of the scope and magnitude of effort and complexities this solicitation requires.
Not Relevant	Present/past performance effort involved little or none of the scope and magnitude of effort and complexities this solicitation requires (i.e., does not meet the above definitions of Very Relevant, Relevant, and Somewhat Relevant).

5.0 PERFORMANCE CONFIDENCE ASSESSMENT RATINGS

The Government will employ the Performance Confidence Assessments Rating Method described in the table below. In the case of an Offeror without a record of recent relevant past performance or for whom information on past performance is not available or so sparse that no meaningful past performance rating can be reasonably assigned, the Offeror may not be evaluated favorably or unfavorably on past performance. Therefore, the Offeror shall be determined to have unknown or neutral past performance.

Performance Confidence Assessment Rating: Performance Confidence Assessment rating assignments reflect the Government's confidence that the Offeror will successfully perform the solicitation's requirements based on the Offeror's recent and relevant past performance record.

Rating	Description
Substantial Confidence	Based on the Offeror's recent/relevant performance record, the Government has a high expectation that the Offeror will successfully perform the required effort.
Satisfactory Confidence	Based on the Offeror's recent/relevant performance record, the Government has a reasonable expectation that the Offeror will successfully perform the required effort.
Neutral Confidence	No recent/relevant performance record is available or the Offeror's performance record is so sparse that no meaningful confidence assessment rating can be reasonably assigned.
Limited Confidence	Based on the Offeror's recent/relevant performance record, the Government has a low expectation that the Offeror will successfully perform the required effort.
No Confidence	Based on the Offeror's recent/relevant performance record, the Government has no expectation that the Offeror will be able to successfully perform the required effort.

6.0 OTHER DEFINITIONS

Strengths: An aspect of an Offeror's proposal that has merit or exceeds specified performance or capability requirements in a way that will be advantageous to the Government during contract performance.

Weakness: A flaw in the proposal that increases the risk of unsuccessful contract performance. (FAR15.001)

Significant Weakness: A flaw that appreciably increases the risk of unsuccessful contract performance. (FAR 15.001)

Deficiency: a material failure of a proposal to meet a Government requirement or a combination of significant weaknesses in a proposal that increase the risk of unsuccessful contract performance to an unacceptable level. (FAR 15.001)

Recency: as it pertains to past performance information, is a measure of the time that has elapsed since the past performance reference occurred. Recency is generally expressed as a time period during which past performance references are considered relevant.

Relevancy: as it pertains to past performance information, is a measure of the extent of similarity between the service/support effort, complexity, dollar value, contract type, and subcontract/teaming or other comparable attributes of past performance examples and the source solicitation requirements; and a measure of the likelihood that the past performance is an indicator of future performance.

Risk: as it pertains to source selection, is the potential for unsuccessful contract performance. The consideration of risk assesses the degree to which an Offeror's proposed approach to achieving the technical factor or subfactor may involve risk of disruption of schedule or degradation of performance, the need for increased Government oversight, and the likelihood of unsuccessful contract performance.

5-C Basis of Award

FAR 52.217-5: Evaluation of Options

Except when it is determined in accordance with FAR 17.206 (b) not to be in the Government's best interest, the Government will evaluate offers for award purposes by adding the total price for all options to the total price for the basic requirement. Evaluation of options will not obligate the Government to exercise the option(s).
