RFQ #205AE9-26-Q-00060 Questions and Answers

1	Could you share any information regarding the current incumbent contractor supporting AIMS, or point us to where that information may be publicly available being that it is a recompete?	Contract: 47QTCB22D0531 Task Order: 2032H5-24-F-00213 Expired: 01/31/2026
2	The RFQ states an anticipated award date of 'on or about May 29, 2026.' Is the Government committed to issuing award before June 30, 2026? If award slips beyond June 30, what is the Government's plan to ensure continuity of AIMS operations?	N/A.
3	The RFQ specifies one (1) 12-month base period with no option periods. Does the Government anticipate adding option years through a future modification, or is this strictly a 12-month engagement after which the IRS will sustain AIMS internally?	No, the period of performance requested is a 12-month period, no options.
4	Who is the current incumbent contractor performing AIMS support, and what is the current incumbent contract number? This information is needed for offerors to perform meaningful past performance research.	Contract: 47QTCB22D0531 Task Order: 2032H5-24-F-00213 Expired: 01/31/2026
5	How many FTEs does the incumbent currently have on the AIMS engagement, and what are their labor categories?	None.
6	Is the incumbent contract funded to provide knowledge transfer support to the new awardee during the phase-in period? If yes, for what duration?	No.
7	Does the incumbent have COBOL development and operations staff dedicated to AIMS who will be available for knowledge transfer, or is the incumbent staffing model primarily operations-focused?	No.
8	What is the anticipated duration of the phase-in period referenced in the QASP Phase-In Checksheet?	none
9	Is the phase-in period separately funded as its own CLIN, or is phase-in cost expected to be embedded within the base period FFP price?	No.
10	During the phase-in period, who is responsible for AIMS operations and	New Awardee.

	incident response – the incumbent, the new awardee, or both jointly?	
11	Will the Government grant the new awardee access to the AIMS production environment, IDRS, CMplus, DocIT, IRWorks, and related tools prior to the phase-in start date so personnel can complete onboarding without service disruption?	YES
12	Will the IRS provide the new awardee with full system documentation, COBOL source code, ECL scripts, and current Functional Specification Plans (FSPs) as Government-Furnished Information (GFI) before contract start?	NO
13	The RFQ states personnel will undergo a 'minimum background investigation.' Please clarify the specific level required – is this a NACI, Tier 1, Tier 2, Tier 4 (Secret), or higher?	Personnel will have to go thru Minimum Background (MBI) Investigation clearance.
14	May contractor personnel begin work under interim staff-like access pending final suitability determination, in accordance with IRM 10.23.2?	Yes.
15	Are personnel required to be U.S. Citizens, or is Lawful Permanent Resident (LPR) status acceptable?	Yes.
16	Are there facility-specific access requirements, or can all work be performed remotely from contractor facilities with VPN/secure remote access to IRS systems?	Work be performed remotely from contractor facilities with VPN/secure remote access to IRS systems.
17	The PWS states offerors shall propose their own labor solution. Please confirm the Government is not mandating specific labor categories, FTE counts, or skill mix, and that offerors have full flexibility to propose the staffing model they believe best meets the PWS outcomes.	Offerors shall propose their own solution, including labor, to the PWS tasks.
18	The PWS provides Government-estimated hours of 6,431 annually. May offerors propose a different total hour count if their technical approach delivers the same outcomes more efficiently?	The hours listed are based on historical information. Offerors shall propose their own solution, including labor, to the PWS tasks.
19	Must the proposed Project Manager and key personnel be 100% dedicated to this engagement, or may they be shared across other contracts provided all PWS deliverables are met?	Project Manager is not required.

20	Is the Government open to offerors proposing AI-assisted COBOL comprehension and code analysis tools (e.g., LLM-based code understanding) as a productivity multiplier within the existing scope, provided no code modification occurs without IRS review and approval?	Yes.
21	Does the Government have an existing or planned roadmap to migrate AIMS off UNISYS COBOL to a modern technology stack (e.g., Java, Python, cloud-native)? If yes, will any modernization activities fall within the scope of this RFQ or a future contract?	Yes, the Gov't does have a plan to migrate AIMS off UNISYS COBOL. Modernization activities will not fall within the scope of this RFQ.
22	Would the Government consider an optional CLIN for a parallel modernization pilot (e.g., AI-assisted COBOL-to-modern-language migration of selected AIMS modules), priced separately from the base FFP and exercisable at the Government's discretion?	No.
23	Does the IRS have a designated case management or workflow platform for AIMS audit case tracking? If not, would the Government consider a low-code, FedRAMP High-Ready BPMN case management solution as a separately priced CLIN within this acquisition?	No
24	Are both the production and DR/COOP environments hosted on the Eldorado UNISYS mainframe? What is the current approximate capacity utilization of the production environment?	PROD and DR environments are hosted on Eldorado UNISYS mainframe. Capacity is not an issue.
25	Are there blackout windows during tax filing season (e.g., January–April) during which no AIMS system changes or major activities may be performed?	Yes, there are blackout windows on production AIMS system during the filing season. O&M and Development activities will still be performed ion non-prod environment.
26	Does 24x7x365 support require physical on-site presence at any IRS facility, or may it be fulfilled via remote on-call rotation from contractor facilities?	Physical presence at IRS sites is not required.
27	Approximately how many P1, P2, P3, and P4 incidents does AIMS generate per month based on historical data?	P1 – none P2 – none P3 – 1 or 2 per year P4 - none

28	What is the typical annual volume of Unified Work Requests (UWRs), and what percentage are attributable to legislative mandates versus business enhancement requests?	Annually about 15-20 UWRs . All UWRs are for legislative updates or O&M. No enhancements, UWR are allowed.
29	Is the contract fully funded at award, or will it be incrementally funded under a Continuing Resolution? Clause DTAR 1052.232-70 (Limitation of Government's Obligation) is included in Attachment 3, suggesting incremental funding. Please clarify.	Fully Funded.
30	May offerors price Other Direct Costs (ODCs – software, tools, training materials) as a separate not-to-exceed CLIN, or must all ODCs be embedded within the FFP labor CLINs?	No.
31	The RFQ requires a monthly payment schedule. May offerors propose milestone or deliverable-based payment increments instead of equal monthly distributions?	No.
