AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE	OF	PAGES
	1		5

2. AMENDMENT/MODIFICATION NUMBER	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQUISITION NUMBER	5. PROJECT NUMBER *(If applicable)*
0001	05/13/2026		

6. ISSUED BY	CODE	7. ADMINISTERED BY *(If other than Item 6)*	CODE
WAD-NMFS-Boulder 325 BROADWAY, SOU6 BOULDER CO 80305			

8. NAME AND ADDRESS OF CONTRACTOR *(Number, street, county, State and ZIP Code)*

CODE | FACILITY CODE

(X)	
☐	9A. AMENDMENT OF SOLICITATION NUMBER: 1305M326R0007 9B. DATED *(SEE ITEM 11)*
☐	10A. MODIFICATION OF CONTRACT/ORDER NUMBER 10B. DATED *(SEE ITEM 13)*

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☑ is extended. ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.

CHECK ONE	
☐	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation data, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (*Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

See continuation pages.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*	
		Grace Parker	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		*(Signature of Contracting Officer)*	5/13/2026

The purposes of Amendment 0001 to solicitation 1305M326R0007 are to:

(1) Provide an updated solicitation document. The updated version, “1305M326R0007_Amd 0001” supersedes the previously issued version of the solicitation. Specific changes include:

(a) Revising the requirements in section 8.2.3. Teaming Approach to apply to Offerors leveraging teaming partners in their Experience and/or post-award.

(b) Removing reference to experience projects performed "in a Federal or State Government setting" from section 8.2.1 Corporate Experience Narrative.

(c) Extending the proposal submission deadline to 12 PM Eastern Time on May 21, 2026.

(2) Provide an updated Attachment A - Statement of Objectives, “Attachment A – Statement of Objectives_Amd 0001” which supersedes the previously issued version of the SOO. The updated SOO replaces reference to a “QASP” with “Performance Metrics.”

(3) Provide Attachment D – PIMS Reference Documentation.

(4) Provide answers to questions received in response to the solicitation as detailed below. Note that some duplicate questions have been merged.

******Please be sure to acknowledge Amendment 0001 via one of the three methods detailed in Box 11 of the SF30.******

#	Question	NOAA response
1	Is there a defined list of required labor categories for this effort, or are offerors expected to propose their own based on the PWS?	The Government LCATs contained in Attachment B are suggested, not required. Offerors may propose whichever LCATs they deem are appropriate to complete the requirements.
2	Does the Government have a specific estimated level of effort or a minimum number of FTEs required to support these operations?	The estimated overall level of effort for the FFP CLINs is between 3500 and 4000 total hours. The T&M CLINs is not expected to exceed 25% of the overall level of effort for the FFP CLINs.
3	How many resumes are required for submission?	Only one position is designated as key personnel, therefore, only one resume is required for proposal submission.

4	"Reference Section 8.2.1. 13 CFR 125.8(e) expressly provides that, in evaluating an offer from a Mentor-Protégé Joint Venture, ""a procuring activity may not require the protégé firm to individually meet the same evaluation or responsibility criteria as that required of other offerors generally,"" and that ""the partners to the joint venture in the aggregate must demonstrate the past performance, experience, business systems, and certifications necessary to perform the contract."" Recognizing that the intent of the cited requirement is to demonstrate the JV's overall relevant experience and capability, will the Government confirm that an SBA-approved Mentor-Protégé Joint Venture may satisfy the past performance requirement by submitting relevant past performance from the Protégé member of the JV, where the project(s) submitted sufficiently demonstrate the collective technical capability of the JV to perform the requirements , and that the Protégé's past performance will be evaluated on behalf of the JV without the Mentor being required to separately submit a project?"	This understanding is not correct. 13 CFR 125.8(e) states "a procuring activity must consider work done and qualifications held individually by each partner to the joint venture as well as any work done by the joint venture itself previously." Additionally, the solicitation states "For offers submitted by joint ventures, at least one technical project must be provided for each member of the venture." Note that there are not any minimum requirements regarding size, scope or complexity for the Corporate Experience projects, and relevance is assessed qualitatively (i.e., not on a pass/fail basis).
5	How many users? How many issues per month require troubleshooting? How many at each severity level? How many require escalation? How many platform hotfixes per year? How many platform upgrades per year?	Users:10,600 PIMS users, 10,200 are applicants, each with a license. Issues per month: Around 50 average (since version 2.0 was launched), right after launch over 120 came in, but now these are starting to settle. Issues that require escalation: There have not been many (if any) specific user entered issues that needed escalation under the current contract setup, just prioritization. Some of the technical workings of PIMS have had to be escalated like getting foreign keys configured in the database. Each severity level: A monthly average estimate, 15 low, 15 med, 20 high to give 50 total. Hotfixes: As needed, adhoc due to finding an issue. Generally around one hotfix every 3 months from past history. Upgrades per year: 4 - once per quarter. Appian just rolled out the ability to upgrade every month but currently NOAA is staying on the quarterly upgrade schedule. The quarterly upgrade is the last 3 months monthly upgrade but this also allows for any issues within those monthly upgrades to be found and resolved by the time the quarterly upgrade is deployed.
6	Have you started implementing ITSM (if so, how far into it, and which components)?	Yes, aspects exist in these components but need to be further developed in the future. These aspects include Incident Management, Problem Management, Change Management, Knowledge Management, Configuration Management, Service Level Management.
7	Is there a CLIN for license purchases? Is that considered an ODC for the contract?	No, Appian licenses have been purchased under a separate contract.

8	Are the QASP and QCP considered part of the page count in the technical volume?	The "QASP" referenced in the SOO has been updated to a "Performance Metrics" in the revised SOO. The QASP will be a Government-generated internal document which the contractor is not responsible for drafting. The Quality Control Plan (QCP) is included in the applicable page count for the PWS.
9	Will the Government provide a current PIMS architecture diagram, data model summary, or list of integrated systems?	Yes, Attachment D has been included in this amendment containing all available PIMS reference documentation.
10	Will the Government facilitate access to incumbent SMEs during the transition period for knowledge transfer purposes?	Upon task order award, the Government will facilitate transition period activities to the maximum extent possible.
11	What Appian platform version is PIMS currently running, and is there a planned upgrade during the contract period that the incoming contractor should account for?	Current version: 26.3, upgraded once per quarter
12	The solicitation states that only concerns representing that they remain active participants in the 8(a) Business Development Program at the time of proposal submission and task order award will be eligible for award, and that concerns exiting the 8(a) program by Q4 FY26 are discouraged from responding. Please confirm whether an offeror is eligible if it is an active 8(a) participant at the Phase 1 proposal deadline and remains active through the anticipated task order award date. Please also provide the Government's anticipated task order award date for planning purposes.	An offeror is eligible if it is an active 8(a) participant at the Phase 1 proposal deadline and remains active through the task order award date. At this time, the task order award is anticipated to occur on or before August 6, 2026.
13	For the Phase 1 cover letter, will a written statement recertifying the offeror's 8(a) status at the task order level pursuant to 13 CFR § 125.12(c) satisfy the solicitation requirement, or is the Government requiring any additional documentation or system-based recertification with the Phase 1 submission?	A written statement certifying the offeror's 8(a) status at the task order level pursuant to 13 CFR § 125.12(c) satisfies the solicitation requirement.
14	The solicitation states that Phase 1 submissions must not include Phase 2 submission items. Please confirm that offerors may describe prior technical work, tools, methods, outcomes, and results within the Corporate Experience Narrative, provided the offeror does not propose its specific technical approach for the current PIMS requirement.	This understanding is confirmed.
15	For the Corporate Experience Narrative, must all three submitted projects demonstrate Appian experience in a Federal or State Government setting, or may offerors submit a mix of projects as long as the overall submission demonstrates relevant Appian experience in a Federal or State Government environment?	The reference to "in a Federal or State Government setting" was included inadvertently, and has been removed from the amended solicitation. All three projects needn't demonstrate Appian experience within a Federal or State Government environment.

16	Please confirm that an ongoing contract may be submitted as a Corporate Experience project if it has at least one continuous year of completed performance and has been in performance within the past three years prior to the proposal closing date.	This understanding is confirmed.
17	If an offeror proposes subcontractors but does not rely on them to meet the minimum relevant experience requirements, is the three-page Teaming Approach still required, or is it required only when the offeror relies on non-prime technical capabilities to meet Factor 1?	Yes, the solicitation has been revised to clarify that a Teaming Approach shall be submitted if the Offeror is relying on the technical capabilities of non-prime team members (e.g., subcontractors or joint venture partners) in Volume I and/or post-award during performance.
18	The SOO identifies the Lead Appian Developer / Technical Lead as Key Personnel. Please confirm whether Phase 1 requires only one key personnel resume for the Lead Appian Developer / Technical Lead, or whether offerors may submit additional key personnel resumes.	Offerors should only submit one resume for the proposed Key Personnel position.
19	The solicitation states that past performance information must be submitted by the contractor with the proposal and not directly by the reference. Please confirm that completed PPQs should be included in Volume II as part of the offeror’s GSA e-Buy submission and should not be emailed separately by the reference.	This understanding is confirmed.
20	If a finalized CPAR is available for a submitted Corporate Experience project, may an offeror also include a completed PPQ for the same project to provide additional detail and relevance to the PIMS requirement, or should the offeror submit only the CPAR?	The offeror should only submit the CPAR. The Contracting Officer's intent is to minimize Government resources. Accordingly, it is not an efficient use of Government resources to complete a PPQ for a CPAR that's already been completed.
21	For the Phase 1 GSA e-Buy submission, does the Government prefer one consolidated searchable PDF containing the cover letter, Volume I, and Volume II, or separate files for each volume?	Separate files for each volume.
