Section III - Description/Specifications 7
Section IX - Order Clauses.....16
Section X - List of Attachments.....25

Section III - Description/Specifications

1. Anticipated Clause Updates

NOAA anticipates that the FAR clauses included in the resultant award may change between the time of solicitation and the time of award due to ongoing efforts to overhaul the FAR (ref: https://www.acquisition.gov/far-overhaul). Accordingly, NOAA anticipates amendment of the solicitation after the receipt of offers to update these clauses. NOAA does not anticipate such amendment would reopen the competition to allow submission of new proposals, or would allow offerors to materially revise the submitted proposals.

2. Funding Availability

The Government reserves the right to cancel this solicitation, including in the event that funding is not available or approved. The Government will not compensate any respondent for any costs that it incurs in the preparation or submission of its proposal. All proposals shall remain with the Government and will not be returned.

FAR 52.212-1 Instructions to Offerors - Commercial Products and Commercial Services. (SEP 2023)

ADDENDUM TO FAR 52.212-1 Instructions to Contractors – Commercial Products and Commercial Services

PROPOSAL SUBMISSION INSTRUCTIONS

1. General Information & Instructions: This solicitation is for a Task Order issued under the GSA 8(a) STARS III Governmentwide Acquisition Contract (GWAC). The procedures herein are streamlined and conducted in accordance with RFO Subpart 16.507.

Proposals must be prepared in accordance with these instructions and provide all required information in the format specified. Failure of a proposal to comply with these instructions may be grounds for exclusion of the proposal from further consideration. The required format is designed to ensure submission of information essential to the evaluation of the Contractor's proposal. All submissions must be clear, coherent, and prepared in sufficient detail for effective evaluations of the Contractor's proposal against the evaluation criteria.

2. Phased Evaluation: The Government will conduct the evaluation in two (2) Phases utilizing an Advisory Down-Select:

Phase 1 – This phase requires the following written submissions via GSA e-Buy:

- Cover Letter
- Volume I - Experience
- Volume II - Past Performance

*Note to Contractors: Phase 1 and Phase 2 submissions are strictly separate. Contractors shall not include any Phase 2 submission items within their initial Phase 1 proposal. Any Phase 1 submission containing Phase 2 elements will be deemed non-conforming and will not be evaluated.

Phase 2 – Proposals will only be accepted after the Government issues Advisory Down-Select Notifications. This phase requires the following written submissions via email:

- Cover Letter
- Volume III - Technical Approach
- Volume IV - Business Solution

Participation in Phase 1 is a mandatory part of this acquisition. Failure to participate in Phase 1 will preclude further consideration of the Contractor's submission in Phase 2. Any proposal that is non-compliant with any requested submission requirements of this Solicitation may immediately be removed from further consideration.

2.1 Advisory Notices: After the Government completes evaluation of the Phase 1 submission (Factors 1 and 2), Contractors will receive an advisory notification via email or the GSA e-Buy platform from the Contracting Officer. The notification will advise the Contractors of the Government's advisory recommendation to proceed or not to proceed with Phase 2 submission. Contractors who are rated most highly for Factors 1 and 2 will be advised to proceed to Phase 2 of the proposal submission process. Contractors who were not among the most highly rated will be advised that they are unlikely to be viable competitors, along with the general basis for the Government's advisory recommendation.

The intent of this Advisory Notification is to minimize proposal development costs for Contractors with little chance of receiving an award. This will be a recommendation only and discontinuing the pursuit of the requirement following the notification is voluntary.

The specific due date and time for Phase 2 proposals will be formally established within the Advisory Notification; Contractors are responsible for adhering to the timeline specified therein.

Contractors will NOT be permitted to revise their Phase 1 submission during Phase 2. The initial Phase 1 submission in conjunction with the Phase 2 submission will inform the best value determination.

The Advisory Notification is the only notice the Government will provide from Phase 1. The government does not intend to provide debriefings after the completion of the advisory down-select notifications. Although the Advisory notification will include the general basis for the opinion of whether the Contractor is likely to be a viable competitor, this information will not constitute a debriefing in accordance with RFO 16.507-5(c). Debriefings will be provided pursuant to that FAR section as required.

3. Points of Contact: All correspondence in conjunction with this solicitation must be directed to the Government's Procurement Points of Contract (POC) identified below:
monica.cowdrey@noaa.gov grace.parker@noaa.gov

4. Submission: The Contractor shall submit its Phase 1 proposal via GSA eBuy. The Advisory Notifications will include submission instructions for Phase 2 submissions. Phase 2 submissions submitted during Phase 1 will NOT be accepted or evaluated.

5. Delivery of Documents: Proposals must be received in a supported searchable Adobe PDF or Microsoft Office file format. Only Attachment B - Pricing Schedule may be submitted utilizing Microsoft Office Excel. These formats are the only acceptable methods of submitting a proposal electronically. Zip

Files, Cloud storage providers, google docs, web-based drop boxes, OneNote/OneDrive, URLs, web-based format, or any other virtual/web-based memory service are NOT acceptable methods of submitting a proposal electronically.

5.1. Content Requirements: The Government will not consider pages submitted in excess of the stated page limitations, or materials not included in full text within the proposal (no links to external information will be reviewed or considered). Page limitations include all appendices, references, exhibits, etc. Electronic copies shall include all information required for evaluation, excluding any reference to price. Paper size shall be 8 1/2 by 11-inch, using 12 point font. No reduction is permitted except for organizational charts or other graphic illustrations, or in headers/footers. In those instances where reduction is allowable, Offerors shall ensure that the print is easily readable.

6. Questions: Offerors shall submit questions regarding this solicitation using the following Google Form link (please copy and paste this link in your browser):
https://docs.google.com/forms/d/e/1FAIpQLScsTO2qFM-0_dIOJClQAxzvs4IvLJs8SbxgmUeLmmQCAAGFWQ/viewform?usp=header

Questions shall be submitted by 12:00 PM Eastern Time on May 8, 2026. The Government intends to answer all questions received by the stated deadline via a subsequent amendment. Questions submitted past the deadline may not be addressed, at the Government's discretion.

Contractors are encouraged to review the Solicitation in its entirety and submit any relevant questions by the initial questions deadline, regardless of whether they relate to Phase 1 or Phase 2 submissions. However, Contractors participating in Phase 2 will have the opportunity to submit questions related to the Phase 2 submissions after receipt of Advisory Notifications. It is anticipated that the deadline for submission of Phase 2 questions will be approximately one week after issuance of the Advisory Notifications. The Government anticipates issuing answers to the Phase 2 questions, at a minimum, one week prior to the Phase 2 submission deadline.

7. Proposal Submission Deadline(s): Contractors shall submit Phase 1 responses via GSA e-Buy electronically no later than 12:00 PM Eastern Time on May 21, 2026.

The Advisory Notification will include the Phase 2 submission deadline, which is anticipated to be approximately twelve (12) business days from the date of notification. Contractors shall provide Phase 2 submissions in accordance with the deadline established in the Advisory Notification.

7.1 Registration in the System for Award Management (SAM): All Contractors interested in submitting a proposal must have an active registration in SAM at the time of proposal submission.

8. Instructions for Phase 1: This phase requires the following written submissions:

- Cover Letter (no page limit)
- Volume I - Experience
    - Corporate Experience Narrative (5 page limit)
    - Key Personnel Resume (3 page limit)
    - Teaming Approach (if applicable)(3 page limit)
- Volume II - Past Performance (no page limit)

8.1 Cover Letter: The Contractor shall submit a cover letter prepared on the Contractor's letterhead stationery. The Cover Letter shall include recertification of the Contractor's socioeconomic status at the task order level pursuant to 13 CFR § 125.12(c). Note that NOAA also anticipates requiring recertification of socioeconomic status prior to task order award toensure the Agency receives credit toward its small business and socioeconomic goals, given the ongoing IDIQ-level FAR 52.219-28 rerepresentation. Only concerns representing that they remain active participants in the 8(a) business development program at the time of proposal submission and task order award will be eligible for award. Concerns that will have exited the 8(a) business development program by Q4 of FY26 are discouraged from responding to this solicitation, as they will not be eligible for task order award.

Additionally, the cover letter shall identify and explain any exceptions or deviations taken to any part of the solicitation or conditional assumptions made with respect to the requirements of the solicitation. Contractors should note that taking exceptions to the Government's requirements may indicate an unwillingness or inability to perform the contract, and the proposal may be evaluated as such. The cover letter shall identify all enclosures being transmitted and shall be used only to transmit the proposal and address the required elements specified in this section, not to address any other required proposal submission elements. The cover letter shall also acknowledge all solicitation amendments.

8.2 Volume I - Experience: This section shall include a detailed description of relevant experience projects and qualifications demonstrating similarity in nature to the one described in this solicitation. "Similar" is defined as projects comparable in size, scope and complexity. This section shall clearly demonstrate the relevance of the project and experience to the subject requirements in terms of size, scope and complexity. Volume I shall consist of the following submissions:

8.2.1. Corporate Experience Narrative: Contractors shall submit project descriptions for a maximum of three (3) distinct and relevant Corporate Experience projects. The Corporate Experience Narrative shall not exceed five (5) pages. Relevant corporate experience must meet the following criteria:

- Period: Performance under contracts or efforts must have concluded or been in performance within the past three (3) years prior to the proposal closing date.
- Duration: Each example must demonstrate at least one (1) continuous year of completed performance.
- Experience Type: relevant corporate experience projects may be any of the following:
    i. A single funded contract or purchase order, including prime awards, subcontracts, and commercial contracts; or
    ii. A single funded task order awarded under an IDIQ or Blanket Purchase Agreement (BPA) including single or multiple award IDIQs/BPAs; or
    iii. A single-award IDIQ, including all funded task orders issued against it. Note that the same task order cannot be submitted as both a single task order and as part of a single-award IDIQ (i.e., it cannot be double counted); or
    iv. An Other Transaction Authority (OTA) award issued under 10 U.S.C. 4021 or other applicable authority.

- Performing Entity: This experience may be derived from the prime Contractor or any member of a contractor teaming arrangement, including proposed subcontractors or

individual members of a joint venture. For offers submitted by joint ventures, at least one technical project must be provided for each member of the venture, in accordance with 13 CFR 125.8(e). Contractors citing experience performed as part of a previous joint venture or as a subcontractor may only claim evaluation credit for the specific portion of the project actually performed by the team member proposed for this requirement.

- Required Information: Each example should clearly address the following:
    i. Contract Identification: Contract number, Contracting Agency/Office, Contract Type (e.g., FFP, T&M), and total Contract Value.
    ii. Platform & Environment: Explicitly identify experience supporting Appian applications.
    iii. Scope of Work & Results: Clearly describe the size and scope of the work.

8.2.2. Key Personnel Resume: The Contractor shall also submit a key personnel resume demonstrating the relevance of the proposed key personnel's qualifications to the subject requirements. Key personnel resumes are limited to three (3) pages.

8.2.3. Teaming Approach (if applicable): If an Offeror's proposal relies on the technical capabilities of non-prime team members (e.g., subcontractors or joint venture partners) in Volume I and/or post-award during performance, the Offeror must include a Teaming Approach detailing the specific roles, responsibilities, legal relationship, and workshare for each partner. The Teaming Approach shall not exceed three (3) pages. The Teaming Approach will be incorporated into the resultant task order award as a formal condition of performance. If the Offeror is proposing as a standalone entity without subcontractors, this narrative is not required.

8.3 Volume II - Past Performance: The Contractor shall provide project past performance information for the relevant projects referenced in the Corporate Experience Narrative through submission of CPARs and/or Past Performance Questionnaires (PPQs). Past performance information shall be submitted by the contractor with their proposal, and not submitted directly to the Government by the Past Performance reference. Task orders may be consolidated into a single past performance reference if they were performed under a single-award BPA or IDIQ. If the project referenced has a finalized CPAR, the Contractor shall submit the most recent finalized CPAR for that project. "Finalized" means adjudicated by both the Government and contractor; interim CPARs are acceptable (i.e., the CPAR need not be the "final" CPAR for the project if it's not yet available). For projects without a finalized CPAR, Contractors shall submit with their proposal the completed Attachment C - Past Performance Questionnaires (PPQ) signed by the client representative responsible for managing the project.

9. Instructions for Phase 2 [After release of Advisory Notifications]: This Phase requires the following written submissions.

- Cover Letter (no page limit)
- Volume III - Factor 3 - Technical Approach (15 page limit)
- Volume IV - Factor 4 - Price (no page limit)

9.1 Cover Letter: The Contractor shall submit a cover letter prepared on the Contractor's letterhead stationery. The cover letter shall identify and explain any exceptions or deviations taken to any part of the solicitation or conditional assumptions made with respect to the requirements of the solicitation. Contractors should note that taking exceptions to the Government's requirements may indicate an

unwillingness or inability to perform the contract, and the proposal may be evaluated as such. Contractors agree to hold the Phase 2 proposals valid for 120 days from the date of submission, unless the Contractor states otherwise. The cover letter shall identify all enclosures being transmitted and shall be used only to transmit the proposal and address the required elements specified in this section. The cover letter shall also acknowledge all solicitation amendments.

9.2 Volume III - Technical Approach: To ensure an objective evaluation based solely on technical merit, Contractors shall not include any pricing information within Volume III. The Contractor shall provide a Performance Work Statement (PWS) that translates the SOO into specific, measurable tasks and deliverables. Submissions for this section shall not exceed fifteen (15) pages (excluding the NOAA-provided PWS template language).

With the Advisory Notifications, NOAA will provide a PWS template including the standardized PWS language (e.g., period of performance, place of performance, required IT security language, etc.). The NOAA-provided PWS language contained in the template will not count towards any applicable page limitations for Volume III. The PWS must be organized to align with SOO objectives: 5.1 Operations and Maintenance, 5.2 Agile Development and Enhancements, and 5.3 Transition Services. Contractors shall specifically detail their technical process for the enhancement, maintenance, and modernization of existing Appian-hosted applications as identified in the SOO. Innovative techniques, scalability strategies, and component reusability should be integrated directly into the task descriptions rather than provided as separate narratives. The PWS must include a contractor-developed Performance Requirements Summary (PRS) table that defines Performance Standards, Acceptable Quality Levels (AQLs), proposed Methods of Surveillance, and proposed Incentives/Disincentives. The successful awardee and the Government will mutually agree on a finalized PRS which will be incorporated into the contract as a material part of the award. Proposals that fail to provide measurable performance metrics for these sections may be rated less favorably.

9.3 Volume IV - Price: The price proposal shall be submitted separately using the Pricing Template (Attachment B). Note that the Government labor categories are suggested, not required. Offerors may propose whichever labor categories they deem are appropriate to complete the requirements. Labor category hourly rates shall not extend beyond two decimal places (e.g., $0.00). All proposed labor categories must map to the Contractor's underlying GSA STARS III IDIQ contract, and the inclusion of discounts to GSA schedule rates is strongly encouraged.

For the T&M CLINs 0002, 1002, 2002, 3002 and 4002, the Contractors shall propose labor rates to be billed for work performed under those CLINs. However, the ceiling for those CLINs will be automatically calculated at 25% of the total proposed for the corresponding period's FFP CLIN, based on the Government's estimate that the T&M work is not anticipated to exceed 25% of the FFP requirements.

Contractors shall include the Contract Access Fee (CAF) as a separate line item (CLIN 0003, 1003, 2003, 3003, 4003) calculated at 0.75% of the total direct labor cost for each period, as specified in Attachment B.

The Pricing Schedule shall be completed in its entirety and submitted in Excel format without password protection or as read-only. All formulas, lookup tables, and links should be intact, and no links shall exist to files not included with the submission. Spreadsheets shall not contain hidden worksheets.

The Contracting Officer anticipates adequate price competition, but reserves the right to require the Contractor to submit other than certified cost or pricing data to determine pricing to be fair and reasonable. Contractors shall not propose pricing for any labor category that exceeds their GSA STARS III schedule rates for that labor category.

- End of Addendum -

FAR 52.212-2 Evaluation - Commercial Products and Commercial Services. (NOV 2021)

ADDENDUM TO FAR 52.212-2 Evaluation – Commercial Products and Commercial Services

1. Basis for Award: The Government intends to award one (1) task order as a result of this solicitation in accordance with RFO Part 12 and RFO Subpart 16.5 to the responsible Contractor whose proposal, conforming to the solicitation, offers the best value to the Government, price and other factors considered. The evaluation will employ a two (2) phase advisory down selection process. The non-price factors in Phase 1 (Factors 1, and 2) are more important than the factors in Phase 2 (Factors 3, and 4). All non-price evaluation criteria in Phase 1 and Phase 2, when combined, are significantly more important than Factor 4 – Price. The Government reserves the right to make an award without discussions.

As the non-price merits of Contractors' proposals approach equal, Factor 4 will become more important in the best value trade-off decision. Contractors are advised that the award may not necessarily be made to the lowest priced proposal. The Government reserves the right not to award to the highest-rated submission if the perceived benefits do not merit the higher price. Evaluations will be based solely on the information in the proposal. Therefore, the Contractor's initial proposal should contain the Contractor's best terms. After receipt of proposals, the Government will conduct an evaluation. The Government reserves the right not to award a task order depending on the quality of the proposal(s) submitted and the availability of funds.

The Contracting Officer reserves the right to waive minor clerical errors and/or minor formatting discrepancies, provided the information is available in the proposal in a format that enables the Government to proceed with evaluation of the proposal. The determination of whether such clerical errors and/or formatting discrepancies are considered minor enough to enable evaluation is at the sole discretion of the Contracting Officer.

Award will be made to the Contractor whose proposal is most advantageous to the Government under the selection criteria set forth in this solicitation. The Government intends to award without exchanges; however, the Government may conduct exchanges if determined necessary and in the best interest of the Government. The Government intends to use a select best suited then communicate approach. Once the Government determines the contractor that is the best suited (i.e., the apparent successful contractor), the government reserves the right to communicate with only that contractor to address any remaining issues, if necessary, and finalize a task order with that contractor. These issues may include technical and price. If the parties cannot successfully address any remaining issues, as determined pertinent at the sole discretion of the Government, the Government reserves the right to communicate with the next best suited contractor based on the original analysis and address any remaining issues.

2. Two Phase Process: The Government intends to conduct the evaluation and selection process in two (2) phases:

Phase 1: Factor 1 and Factor 2 will be evaluated in this phase. After the Government evaluates Factors 1 and 2 for those proposals that conform to the Solicitation, each Contractor will receive an Advisory Notification. The Advisory Notification will inform the Contractor:

i. Either that the offeror will be invited to participate in Phase 2 or, based on the information submitted, that it is unlikely to be a viable competitor; and
ii. The general basis of the Government advisory notice;

Phase 2: Factors 3 and 4 will be evaluated in this Phase.

3. Evaluation Criteria: Proposals will be evaluated using the criteria stated below. Following evaluation against the stated criteria responses, the Government may perform a comparative analysis (comparing Contractor responses to one another) to select the Contractor that is best suited to fulfill the requirements, based on the Contractor's responses to the factors outlined in this Solicitation and their relative importance.

Phase 1 Evaluation: Factors 1 and 2

- **Factor 1 - Experience:** The Government will evaluate the Contractor's Experience to assess the likelihood of successful performance by reviewing the breadth and depth of its relevant experience, including their teaming approach, if applicable. Relevance will be determined by similarity in size, scope and complexity. The Government will consider the relevant experience, expertise and qualifications of the Contractor and its proposed teaming partners (e.g., proposed first-tier subcontractors or Joint Venture members), and proposed Key Personnel, including the extent that these qualifications will be leveraged post-award.

- **Factor 2 - Past Performance:** The Government will evaluate the quality of the Contractor's past performance to assess the likelihood of successful performance on the current requirement. The evaluation will focus on the quality of performance on the recent and relevant projects identified in the Phase 1 submission that are of similar scope, complexity, and magnitude to the NMFS mission. The evaluation will focus on recent (within the last three years) and relevant past performance supporting projects of similar scope, complexity, and magnitude.

  Along with the offeror's submittal, the Government reserves the right to use past performance information gathered from any available sources when evaluating the offeror's past performance. The government reserves the right to contact the references listed or any other sources identified. Contractors lacking relevant past experience history, or for whom past experience information is either not available or has not been submitted to the Government, will receive a neutral rating for past performance.

Phase 2 Evaluation: Factors 3 and 4

- **Factor 3 - Technical Approach:** The Government will evaluate the Contractor's proposed PWS to determine the feasibility, innovation, and comprehensiveness of their technical approach. The evaluation will assess how likely the proposed approach to executing the

work outlined in the SOO is to result in successful achievement of the SOO objectives.

- **Factor 4 - Price:** The Government will evaluate Price for fairness and reasonableness as detailed below:
    - Total Evaluated Price (TEP) Calculation: The Government will evaluate the TEP and labor rates of each Contractor. The TEP will be calculated by adding the sum of the base period and all option period line items, plus the value of FAR Clause 52.217-8 (Option to Extend Services). Calculation of FAR 52.217-8 will be evaluated by taking the total proposed price of the last option period (Option Year 2) and dividing by half, and adding that value to the TEP.
    - Labor Rate Analysis: The Contracting Officer will also evaluate that the specific labor rates proposed are fair and reasonable, consistent with the technical requirements, and verify that proposed labor rates are contained in and do not exceed the Contractor's established GSA STARS III IDIQ rates.
    - Except when it is determined in accordance with FAR 17.206(b) not to be in the Government's best interests, the Government will evaluate proposals for award purposes by the TEP, including options under FAR clause 52.217-8, Option to Extend Services, which applies to this solicitation. Evaluation of options will not obligate the Government to exercise the option(s). The Government may determine that an offer is unacceptable if the option prices proposed are significantly unbalanced.

Section IX - Order Clauses

Clauses Incorporated by Reference

Clause Number	Clause Title
1352.201-70	Contracting Officer's Authority. (MAR 2010)
1352.208-70	Restrictions on printing and duplicating. (APR 2010)
1352.209-72	Restrictions against disclosure. (APR 2010)
1352.209-73	Compliance with the laws. (APR 2010)
1352.209-74	Organizational conflict of interest. (APR 2010)
1352.216-77	Ceiling price. (APR 2010)
1352.227-70	Rights in data, assignment of copyright. (APR 2010)
1352.237-70	Security processing requirements-high or moderate risk contracts. (APR 2010)
1352.239-71	Electronic and information technology. (APR 2010)
1352.239-72	Security requirements for information technology resources. (APR 2010)
1352.246-70	Place of acceptance. (APR 2010)

NOAA Acquisition Manual 1330-52.215-70 SCHEDULE OF DELIVERABLES (SEPT 2005)

Refer to deliverables table in SOO.

FAR 52.252-2 Clauses Incorporated by Reference. (FEB 1998)

This contract incorporates one or more clauses by reference, with the same force and effect as if they were given in full text. Upon request, the Contracting Officer will make their full text available. Also, the full text of a clause may be accessed electronically at this/these address(es):
https://www.acquisition.gov/browse/index/far
https://www.acquisition.gov/far-overhaul/far-part-deviation-guide
https://www.acquisition.gov/car

(End of clause)

FAR 52.252-6 Authorized Deviations in Clauses. (NOV 2020)

(a) The use in this solicitation or contract of any Federal Acquisition Regulation (48 CFR Chapter 1) clause with an authorized deviation is indicated by the addition of (DEVIATION) after the date of the clause.

(b) The use in this solicitation or contract of any Commerce Acquisition Regulation (48 CFR 13) clause with an authorized deviation is indicated by the addition of (DEVIATION) after the name of the regulation.

(End of clause)

CAR 1352.201-72 Contracting Officer's Representative (COR). (APR 2010)

(a) TBD is hereby designated as the Contracting Officer's Representative (COR). The COR may be changed at any time by the Government without prior notice to the contractor by a unilateral modification to the contract. The COR is located at:

TBD AT TIME OF AWARD

Phone Number: [ ]

E-mail: [ ]

(b) The responsibilities and limitations of the COR are as follows:

(1) The COR is responsible for the technical aspects of the contract and serves as technical liaison with the contractor. The COR is also responsible for the final inspection and acceptance of all deliverables and such other responsibilities as may be specified in the contract.

(2) The COR is not authorized to make any commitments or otherwise obligate the Government or authorize any changes which affect the contract price, terms or conditions. Any contractor request for changes shall be referred to the Contracting Officer directly or through the COR. No such changes shall be made without the express written prior authorization of the Contracting Officer. The Contracting Officer may designate assistant or alternate COR(s) to act for the COR by naming such assistant/alternate(s) in writing and transmitting a copy of such designation to the contractor.

(End of clause)

CAR 1352.237-75 Key personnel. (APR 2010)

(a) The contractor shall assign to this contract the following key personnel:

Lead Appian Developer / Technical Lead

(b) The contractor shall obtain the consent of the Contracting Officer prior to making key personnel substitutions. Replacements for key personnel must possess qualifications equal to or exceeding the qualifications of the personnel being replaced, unless an exception is approved by the Contracting Officer.

(c) Requests for changes in key personnel shall be submitted to the Contracting Officer at least 15 working days prior to making any permanent substitutions. The request should contain a detailed explanation of the circumstances necessitating the proposed substitutions, complete resumes for the proposed substitutes, and any additional information requested by the Contracting Officer. The Contracting Officer will notify the contractor within 10 working days after receipt of all required information of the decision on substitutions. The contract will be modified to reflect any approved changes.

(End of clause)

CAR 1352.245-70 Government furnished property. (APR 2010)

The Government will provide the following item(s) of Government property to the contractor . The contractor shall be accountable for, and have stewardship of, the property in the performance of this contract. This property shall be used and maintained by the contractor in accordance with provisions of the "Government Property" clause included in this contract.

Laptop

(End of clause)

CAR 1352.270-70 Period of performance. (APR 2010)

(a) The base period of performance of this contract is from 09/11/2026 through 09/10/2027. If an option is exercised, the period of performance shall be extended through the end of that option period.

(b) The option periods that may be exercised are as follows:

- Option Year One: 9/11/2027 – 9/10/2028
- Option Year Two: 9/11/2028 – 9/10/2029
- Option Year Three: 9/11/2029 – 9/10/2030
- Option Year Four: 9/11/2030 – 9/10/2031

(c) The notice requirements for unilateral exercise of option periods are set out in FAR 52.217-9.

(End of clause)

NOAA Acquisition Manual 1330-52.222-70 NOAA SEXUAL ASSAULT AND SEXUAL HARASSMENT PREVENTION AND RESPONSE POLICY (MAY 2018)

In accordance with NOAA Administrative Order (NAO) 202-1106, NOAA Sexual Assault and Sexual Harassment Prevention and Response Policy, it is the policy of NOAA to maintain a work environment free from sexual assault and sexual harassment. NOAA prohibits sexual assault and sexual harassment by or of any employee, supervisor, manager, contractor, vendor, affiliate, or other individual with whom NOAA employees come into contact by the virtue of their work for NOAA.

(a) Definitions.

Contractor Employees - The term “contractor employees,” as used in this solicitation and contract language, refers to employees of the prime contractor or its subcontractors, affiliates, consultants, or team members.

Sexual Assault - The term sexual assault, as used in this solicitation and contract language, means any conduct proscribed by state or federal sexual abuse laws, including, but not limited to, those defined in chapter 109A of title 18 of the U.S. Code (sexual abuse), and assaults committed both by offenders who are strangers to the victim and by offenders who are known or related by blood or marriage to the victim.

Sexual Harassment - As defined by the Equal Employment Opportunity Commission, sexual harassment is a form of sex discrimination that violates Title VII of the Civil Rights Act of 1964. It includes unwelcome sexual advances, requests for sexual favors, and other verbal, non-verbal, or physical conduct of a sexual nature when any of the following are true:

● Submission to such conduct is made either explicitly or implicitly as a term or condition of an individual's employment;

● Submission to or rejection of such conduct by an individual is used as the basis for employment decisions affecting such individual;

● The conduct unreasonably interferes with an individual's work performance or creates an intimidating, hostile, or offensive working environment.

The main characteristics of sexual harassment are that the harasser's conduct is targeted against the recipient's sex, gender identity, or sexual orientation, and is unwelcome to the recipient. It may include, but is not limited to: offensive jokes, slurs, epithets or name calling, undue attention, physical assaults or threats, unwelcome touching or contact, intimidation, ridicule or mockery, insults or put-downs, constant or unwelcome questions about an individual's identity, and offensive objects or pictures.

(b) Requirements.

1. It is the responsibility of the contractor to ensure that contractor employees maintain the highest degree of conduct and standards in performance of the contract. In support of this, NOAA urges its contractors to develop and enforce comprehensive company policy addressing sexual assault and sexual harassment.

2. The contractor shall include wording substantially the same as this solicitation and contract language in every subcontract so that it is binding upon each subcontractor.

3. If a contractor employee observes or is the object of sexual assault or sexual harassment, he or she is highly encouraged to report the matter, as soon as possible, to their immediate supervisor, the COR, subset of the COR (e.g. Task Manager or Assistant COR), or contracting officer (CO) if a COR is not assigned to the contract. The contract employee may also contact the NOAA Civil Rights Office to obtain guidance on reporting instances of sexual assault or sexual harassment. If deemed necessary, the contractor employee may also report such instances to local law enforcement. In the case where the incident occurs while performing at a remote location, such as at sea or in the field (at a field camp or other isolated location) where the above referenced individuals are unavailable, the contractor employee should follow the reporting procedure set forth in NAO 202-1106, Section 6.07, Reporting from Remote Locations.

4. Swift reporting allows NOAA and the contractor to take the appropriate measures to ensure that offensive behavior stops and the complainants' needs are addressed.

5. The COR (if assigned), CO, and contractor, where applicable, will work together to ensure appropriate action is taken in accordance with applicable laws and regulations, contract terms and conditions, and the contractor's written policy (where applicable).

6. The contractor shall provide all contractor employees assigned to perform under this contract with mandatory sexual assault and sexual harassment prevention and response training in compliance with the requirements of NAO 202-1106, Section 5, Prevention Training and Awareness, as part of their initial in-processing and on an annual basis thereafter. The initial training shall be completed within THIRTY (30) business days (30 unless a different number is inserted) of contract award or the date a contractor employee is assigned to perform under the contract, as applicable.

Evidence of initial training by name and date completed for each contractor employee, shall be submitted to the COR or contracting officer (if no COR assigned) within 10 business days of completion.

Evidence of annual training by name and date completed for each contractor employee shall be submitted to the COR or contracting officer (if no COR assigned) no later than March 1st of each calendar year of contract performance.

7. The mandatory sexual assault and sexual harassment training provided by the contractor shall include the required elements set forth by NOAA's Workplace Violence Program Manager. A link to the website including the required elements of the training is provided at https://www.noaa.gov/organization/acquisition-grants/noaa-workplace-harassment-training-for-contractors-and-financial. The website will also provide training materials and resources to assist the contractor in conducting the training. The contractor may provide training that solely addresses the NOAA required elements or may supplement existing company sexual assault and sexual harassment training in a manner that ensures all of the elements are adequately addressed.

8. The required elements of the training and resources available to the contractor for the training may be updated by NOAA periodically. The contractor is responsible for monitoring the website and incorporating any changes to the NOAA required elements into the contractor provided training.

9. NOAA's Workplace Violence Program Manager, COR, or CO may periodically review the contractor's training outline to ensure all required elements are included and, if necessary, any appropriate adjustments are made to the training by the contractor.

10. Contractor employees performing on assignments in a remote location, such as at a field camp or other isolated locations, are subject to receiving the same briefing on the parameters of the order provided to NOAA employees as set forth in Section 6 of NAO 202-1106.

11. The contractor shall provide a copy of this solicitation and contract language and NAO 202-1106 to contractor employees.

(c) Sexual Assault/Sexual Harassment (SASH) Helpline.

For NOAA employees, affiliates, and contractors who have experienced sexual assault or sexual harassment, NOAA has established the NOAA Sexual Assault/Sexual Harassment (SASH) helpline. This helpline is designed to provide crisis intervention, referrals, and emotional support to those who are victims and/or survivors of sexual harassment or sexual assault within the workplace. Contractor employees may use the helpline to receive live, confidential, one-on-one support in an occurrence of sexual harassment or assault by a Federal Government employee.

All services are anonymous, secure, and available worldwide, 24 hours a day, seven days a week. The NOAA SASH helpline is accessible through a variety of channels, including:

● Phone: 1-866-288-6558

● Website & Online Chat: https://www.noaasashhelpline.org/

● Mobile App: NOAA SASH Helpline (available via iOS and Android App Stores)

● Text: (202) 335-0265

(d) Confidentiality.

Any party receiving information from the filing of a complaint alleging sexual assault or sexual harassment, or while performing an investigation into such a complaint, shall keep the information confidential. “Confidentiality” means that the information shall only be shared with others who have a need to know the information to conduct their official duties.

(e) Remedies.

In addition to other remedies available to the Government, contractor employee violations of Federal requirements (e.g., law, statutes, executive orders, code, rules, regulations) applicable to sexual assault and sexual harassment and/or failure to complete the mandatory training set forth in this solicitation and contract language, may result in:

1. Requiring the contractor to remove a contractor employee or employees from the performance of the contract;

2. Requiring the contractor to terminate a subcontract;

3. Suspension of contract payments until the Contractor has taken appropriate remedial action;

4. Termination of the contract for default or cause, in accordance with the termination clause of this contract;

5. Suspension or debarment; or

6. Other appropriate action.

(End of solicitation and contract language)

NOAA Acquisition Manual 1330-52.232-70 NOAA LIMITATION OF FUNDS ON TIME-AND-MATERIALS AND LABOR-HOUR CONTRACTS (MAY 2015)

It is estimated that the total cost to the Government for the performance of this contract shall not exceed the ceiling price of TBD at the time of award. Funds in the amount of TBD at the time of award are hereby allotted. The balance of this contract’s estimated ceiling will be allotted upon availability of funds through a unilateral modification(s).

(a) The parties estimate that performance of this contract will not cost the Government more than the ceiling amount specified in the contract. The contractor agrees to use its best efforts to perform the work specified in the Schedule and all obligations under this contract within the ceiling amount.

(b) The Schedule specifies the amount of funds presently available for payment by the Government and allotted to this contract as well as the items covered. The parties contemplate that the Government will allot additional funds incrementally to the contract up to the full estimated cost to the Government specified in the Schedule, provided that funds become available. The contractor agrees to perform work on the contract up to the point at which the total amount paid and payable by the Government under the contract approximates but does not exceed the total amount actually allotted by the Government to the contract.

(c) The contractor shall notify the contracting officer in writing whenever it has reason to believe that the costs it expects to incur under this contract in the next 60 days, when added to all costs previously incurred, will exceed 85% of the total funded amount so far allotted to the contract by the Government. The notice shall state the additional funds required to continue performance for the period specified in the Schedule.

(d) Except as required by other provisions of this contract, specifically citing and stated to be an exception to this solicitation and contract language –

1. The Government is not obligated to reimburse the contractor for costs incurred in excess of the total amount allotted by the Government to this contract; and

2. The contractor is not obligated to continue performance under this contract or otherwise incur costs in excess of the amount then allotted to the contract by the Government until the contracting officer notifies the contractor in writing that the amount allotted by the Government has been increased and specifies an increased amount, which shall then constitute the total amount allotted by the Government to this contract.

(e) Change orders shall not be considered an authorization to exceed the amount allotted by the Government specified in the Schedule, unless they contain a statement increasing the amount allotted.

(f) Nothing in this language shall affect the right of the Government to terminate this contract. If this contract is terminated, the Government and the contractor shall negotiate an equitable distribution of all property produced or purchased under the contract, based upon the share of costs incurred by each.

(End of solicitation and contract language)

NOAA Acquisition Manual 1330-52.232-71 ELECTRONIC SUBMISSION OF PAYMENT REQUESTS (FEB 2023)

The Contractor must submit payment requests electronically through the U.S. Department of the Treasury's Invoice Processing Platform System (IPP). The Contractor must use the IPP website to register, access, and submit payment requests. The IPP website address is https://www.ipp.gov.

"Payment request" means any request for contract financing payment or invoice payment to the Contractor. To be considered proper, invoices must be prepared in accordance with, and contain all elements specified in, the contract payment clause (e.g., FAR 52.212-4(g), FAR 52.232-25(a)(3), FAR 52.232-26(a)(2), FAR 52.232-27(a)(2)).

The Contractor must include the following documents as attachments to payment requests submitted through the IPP: MONTHLY PROGRESS REPORT; ANY OTHER ADDITIONAL SUPPORTING DOCUMENTATION REQUESTED AT THE DISCRETION OF THE COR AND/OR CONTRACTING OFFICER..

If the Contractor is unable to comply with the requirement to submit payment requests through the IPP due to a threat to national security; a matter of unusual or compelling urgency; or because the political, financial, or communications infrastructure of a foreign country does not support access to the IPP, the Contractor must request an exception in writing. Contact the Contracting Officer for more information about requesting an exception.

(End of solicitation and contract language)

NOAA Acquisition Manual 1330-52.237-70 CONTRACTOR COMMUNICATIONS

(a) A contractor employee shall be identified both by the individual's name and the contractor's name when:

● Included in NOAA's locator, and

● When submitting any type of electronic correspondence to any NOAA employee or stakeholder.

(b) Any written correspondence from a contractor or any contractor employee shall be printed on company/organization letterhead or otherwise clearly identify the sender as an employee of the company or organization and shall identify the contract number.

(c) Contractors and/or contractor employees shall clearly identify themselves as such in any verbal communications, whether in informal discussion or a formal meeting.

(End of solicitation and contract language)

NOAA Acquisition Manual 1330-52.237-71 NOAA GOVERNMENT-CONTRACTOR RELATIONS - NON-PERSONAL SERVICES CONTRACT (SEPT 2017)

(a) The Government and the contractor understand and agree that the services to be delivered under this contract by the contractor to the Government are non-personal services as defined in FAR Part 37, Service Contracting, and the parties recognize and agree that no employer-employee relationship exists or will exist under the contract between the Government and the contractor's personnel. It is, therefore, in the best interest of the Government to afford both parties an understanding of their respective obligations.

(b) Contractor personnel under this contract shall not:

1. Be placed in a position where they are under relatively continuous supervision and control of a Government employee.

2. Be placed in a position of command, supervision, administration, or control over Government personnel or over personnel of other contractors performing under other NOAA contracts.

(c) The services to be performed under this contract do not require the contractor or the contractor's personnel to exercise personal judgment and discretion on behalf of the Government. Rather, the

contractor's personnel will act and exercise personal judgment and discretion on behalf of the contractor.

(d) Rules, regulations, directives, and requirements that are issued by the Department of Commerce and NOAA under its responsibility for good order, administration, and security are applicable to all personnel who enter the Government installation and facilities, who are provided access to Government systems, or who travel on Government transportation. This is not to be construed or interpreted to establish any degree of Government control that is inconsistent with a non-personal services contract.

(e) Both parties are responsible for monitoring contract activities for indications of improper employee-employer relationships during performance. In the event a situation or occurrence takes place inconsistent with this contract language, the following applies:

1. The contractor shall notify the contracting officer in writing within 5 business days from the date of any situation or occurrence where the contractor considers specific contract activity to be inconsistent with the intent of this contract language. The notice must include the date, nature and circumstance of the situation or occurrence, the name, function and activity of each Government employee or contractor employee involved or knowledgeable about the situation or occurrence, provide any documents or the substance of any oral communications related to the activity, and an estimated date by which the Government is recommended to respond to the notice in order to minimize cost, delay, or disruption of performance.

2. The contracting officer will review the information provided by the contractor, obtain additional information (if needed), and respond in writing as soon as practicable after receipt of the notification from the contractor. The contracting officer's response will provide a decision on whether the contracting officer determines the situation or occurrence to be inconsistent with the intent of this contract language and, if deemed necessary, will specify any corrective action(s) to be taken in order to resolve the issue.

(End of solicitation and contract language)
