#	Question	Topic	Reference Information (Paragraph / Page/Section, etc.)
Q1	We reviewed the public FPDS / SAM.gov record for the incumbent task order H9821023F0024 awarded to Tripoint Solutions, LLC against IDV 47QTCB22D0186. The record shows total obligations of approximately $8.06M over the base year and two option years plus a six-month within-scope bridge mod (P00006, signed 22 Dec 2025, $1,180,802.49) extending performance to 02 Jul 2026. To support pricing reasonableness analysis under FAR 16.505, will the Government release the incumbent's prior 12-month direct labor mix by labor category, total FTE count, and total labor hours (without unit pricing) for the same scope being recompeted under DT3S?	Incumbent labor mix and FTE detail	RFQ Section 6 (PWS Follow-on); PWS 6.0, p. 11
A1	Competition will establish price reasonableness. This requirement is not exactly the same as the current contract and incumbent information will not be provided. To assist vendors with pricing, the Government estimates 13 FTEs.		
Q2	FPDS shows Mod P00006 to H9821023F0024 is a within-scope six-month extension to 02 Jul 2026, the day before DT3S performance begins. Please confirm whether this bridge funding includes knowledge-transfer support to the DT3S awardee during the phase-in window, specifically the three-day observation session, the three-day working-group sessions, and the artifact and access turnover described in PWS 4.8.10.1. If so, what KT scope and duration are funded under that mod?	Incumbent KT funding under Mod P00006 bridge	PWS 4.8 Transition; PWS 4.8.10.1, p. 25 Mod P00006 on H9821023F0024
A2	The knowledge transfer will occur between the Government and the vendor. This will include artifact and document sharing and providing recorded sessions.		
Q3	PWS 4.8.10.1 states the transition period is 30 days from the end of the period of performance. Please confirm that this 30-day transition is the contractually compensable phase-in window for the awardee, not solely a phase-out for the outgoing contractor.	Phase-in duration	PWS 4.8.10.1, p. 25
A3	This assumption is correct. The 30 day transition-in will include the compensable phase-in windows. The phase out will be between the incumbent and the Government. The knowledge transfer will be between the Government and the new awardee.		
Q4	Please provide a Government estimate or not-to-exceed value for CLIN x002 (T&M Travel) for each period of performance, and confirm whether the annual conference referenced in PWS 6.0 has an established location, duration, and traveler count.	Travel CLIN NTE	RFQ Schedule of Supplies/Services (CLINs x002 base and options); PWS Section 6.0, p. 28
A4	The annual conference is unknown at this time. NTE Amounts - Base period: $10,000; OY1: $10,500; OY2: $11,000; OY3: $11,500; OY4: $12,000.		
Q5	Volume II is limited to 5 pages. Please confirm that (a) tables, charts, and illustrations within Volume II count against the 5-page limit, and (b) graphics-only pages count fully against the limit if included in Volume II.	Page-limit clarification (Volume II)	RFQ Section 7 Volume II, p. 21
A5	Confirmed		
Q6	RFQ Section 7 permits smaller fonts for tables, charts, and illustrations so long as they remain legible. Please confirm the minimum acceptable font size (for example, 9-point) the Government considers legible for evaluation.	Font size in tables and charts	RFQ Section 7 Volume II, p. 21
A6	10-point font is the minimum acceptable font size for tables, charts, and illustrations		
Q7	Please confirm that the 1-inch margin requirement applies to top, bottom, left, and right, and that footers and headers used for pagination and document control may extend into the 0.5-inch zone outside the margin.	Margins and font defaults	RFQ Section 7, p. 21
A7	Confirmed		
Q8	RFQ Section 7 excludes cover pages, table of contents, glossary, appendices tabs, attachment tabs, offer/subcontractor teaming agreements, affiliate documentation, and Joint Venture Agreements from the page count. Please confirm that resumes (if included for key personnel) and references count against the Volume II 5-page limit.	Excluded pages enumeration	RFQ Section 7, p. 21

A8	Resumes are not required however if provided to support prior experience they will not count against the page limitation.		
Q9	If fewer than the threshold of 10 quotes are received and adequate price competition is not established, what specific cost or pricing data will the Government request to support the price reasonableness determination?	FFP risk and adequate price competition	RFQ Evaluation Factors for Award, p. 23
A9	This scenario is not anticipated. The pricing instructions on page 22 of the RFQ if followed, will give us the details we need to support price reasonableness.		
Q10	Please confirm that Surge Support (capped at $2,000,000) is not to be priced in the base CLIN x001 FFP quote and will be requested separately as the need arises.	Surge support pricing	PWS 4.10, p. 27
A10	The Surge Support NTE amount is not to be included in the proposal. Surge request will be requested seperately as a FFP any time during contract performance, a CLIN added to the contract to cover it and capped $2M over the life of the contract .		
Q11	Please confirm the GFE supplied at Mark Center includes (a) DoD-imaged laptops for the four on-site key personnel, (b) software licenses sufficient for Microsoft 365, JIRA, ServiceNow, and OBIEE access, and (c) refresh cycles consistent with DMDC cybersecurity policy.	Government-Furnished Equipment	PWS 9.0, p. 31
A11	Yes, GFE includes all this. However, no personnel are required to be on-site at the Mark Center. See revised PWS sections 6.0 and 9.0.		
Q12	The Government does not anticipate that SCLS applies. Please confirm there is no applicable wage determination at the place of performance (Alexandria, VA) for any of the labor categories likely to perform under the PWS.	Service Contract Labor Standards	RFQ Section 7, p. 21 and FAR Subpart 22.10
A12	The Government does not anticipate that SCLS applies. Whether it will apply will depend on the contractors quoted labor categories, see RFQ instructions.		
Q13	Are there any restrictions on subcontract percentage beyond the 8(a) STARS III ordering guide and FAR 52.219-14 limitations on subcontracting (50% small business performance) that would apply to this task order?	Subcontracting and teaming	RFQ Volume I (c), p. 22
A13	No		
Q14	RFQ Section 7(h) requires a Secret facility clearance prior to quote submission. Please confirm that Secret personnel clearances for the four designated positions can be in-process (with interim Secret granted by DCSA CAS) at award rather than fully adjudicated.	Security clearance timing	PWS 8.2, p. 30; RFQ Section 7(h), p. 22
A14	Confirmed		
Q15	Please confirm the current list of DoD-approved AI-powered tools acceptable under PWS 4.2.7 beyond GenAI.mil, and confirm the ARB review process turnaround time the Government considers reasonable for new tool requests.	AI tool approvals	PWS 4.2.7 and 4.2.13, pp. 14 to 15
A15	Under GenAI.mil, the current platform approved for use is Gemini. Grok and ChatGPT are listed as, "coming soon". The Government does not have a reasonable turnaround time to provide for new tool requests. Each request is determined on a case-by-case basis.		
Q16	Please confirm whether the dodhra.dodc-mb.dmdc.list.ir-team mailbox is the only required initial reporting channel for cyber incidents within 1 hour of discovery, or whether additional DC3 or DOD-CIO reporting per DFARS 252.204-7012 is required in parallel.	Cyber incident reporting interface	PWS 8.26, p. 35
A16	Yes, this mailbox is the only required initial reporting channel for cyber incidents.		
Q17	Given the quote due date of 27 May 2026 and PoP start of 03 Jul 2026, please confirm the targeted award date and whether the awardee will receive 30 calendar days for phase-in prior to PoP start, or whether phase-in must begin immediately at award.	Award timing and phase-in	RFQ Schedule; PWS 4.8 and 4.9

A17	The target award date is 3 July 2026. The awardee will receive turnover from the Government.		
Q18	Please confirm the procedure used to compute the average quoted price when determining the 10 quotes evaluated (five above and five below the average), including whether non-priced CLINS (e.g., CAF and Travel) are included in the average computation.	Evaluation pool mechanics	RFQ Evaluation Factors for Award, p. 23
A18	CLINs x001 - x003 will be used for total evaluated price and to determine the average. Plug in the following for travel CLINs: NTE Amounts - Base period: $10,000; OY1: $10,500; OY2: $11,000; OY3: $11,500; OY4: $12,000. To determine the NTE for the CAF CLINs it will be based on .75% of the total CLIN x001 and x002 and divided by 12 months. Round it so it is only two numbers past the decimal if it has an extended amount beyond the decimal.		
Q19	RFQ Volume II requests prior experience in DoD financial systems, federal compliance standards, data reporting, and agile project management. Please confirm whether prior experience must be at the prime level only, or whether subcontractor and teaming partner experience may be cited.	Past performance scope (prime vs. subcontractor)	RFQ Evaluation Factors, Volume II, p. 22
A19	Prior experience can include prime, subcontractor, key personnel and/or teaming partner.		
Q20	Please confirm whether Section 508 testing under PWS 4.3 (testing types includes 508 compliance) extends to the legacy DTS user interface or applies only to new functionality and patches released during the period of performance.	Section 508 testing scope	PWS 4.3 and 13.0
A20	Section 508 testing is requried for the legacy DTS user interface and all new functionality and patches.		
Q21	Can the Government provide an estimated percentage of work anticipated to be performed off-site versus within the National Capital Region (NCR)? Additionally, are there specific tasks or labor categories that must be performed within the NCR rather than remotely/off-site?		PWS Paragraph 6.0, Pages 17–18
A21	Project Manager 95% off-site and 5% at the Mark Center; all remaining work can be 100% off-site. See revised PWS Sections 6.0 and 9.0.		
Q22	Can the Government confirm whether travel is expected to be minimal and scenario-based? Additionally, will the Government establish a not-to-exceed (NTE) ceiling or plug number for travel reimbursement?		PWS Paragraph 6.0, Pages 17–18
A22	Travel is expected to be minimal. Travel is anticipated for an annual conference. The annual conference is unknown at this time. NTE Amounts - Base period: $10,000; OY1: $10,500; OY2: $11,000; OY3: $11,500; OY4: $12,000		
Q23	The PWS states that four personnel are anticipated to require access to classified information; however, it is unclear which labor categories will require clearances. Because cleared personnel may impact proposed pricing, can the Government provide a list of labor categories and required clearance levels for the current requirement, or otherwise clarify which personnel are expected to require clearance?		Solicitation Paragraph “Evaluation Factors,” Page 23
A23	Anticipated positions needing Secret clearance: Program Manager (1), Business Analysts (2), Information Technology Project Manager (1)		
Q24	Can the Government confirm whether the four prior experience areas listed—DoD financial systems, FFMIA/SSAE 18, OBIEE reporting, and Agile delivery—are equally weighted during the technical evaluation, or whether any areas are considered more important than others?		Solicitation Paragraph “Evaluation Factors,” Page 23
A24	There is no weighting.		

Q25	For Volume II, is the Government expecting a narrative demonstrating the quoter's prior experience performing similar work, or a list of prior contract details with corresponding work descriptions?		Solicitation Paragraph "Volume II – Technical," Page 22
A25	This is up to the vendor.		
Q26	The solicitation instructs quoters to "provide a labor mix including the proposed labor categories." Does the Government have an estimated Full-Time Equivalent (FTE) staffing baseline or incumbent staffing profile that can be provided for reference?		Solicitation Paragraph "Volume III – Price," Page 22
A26	See the response to Q1.		
Q27	Has the scope of work changed significantly from the incumbent contract? If so, can the Government identify the areas that have changed? This information will help quoters more accurately determine the required level of effort and develop realistic pricing.		PWS General Question
A27	The scope has changed slightly from the incumbent task order H9821023F0024. The scope is slightly narrower, focused on DTS support and less cyber security services.		
Q28	The evaluation criteria state that "The Government will calculate the average quoted price of all responsive quotes. The five quotes over the average and five quotes under the average will be evaluated for prior experience." Can the Government clarify how it will identify the five quotes over and five quotes under the average? Specifically, will the Government evaluate the five quotes closest above the average and the five quotes closest below the average, or will it evaluate the five highest-priced and five lowest-priced quotes?		Solicitation Paragraph "Evaluation Factors," Page 23
A28	The five closest to above average, and closest to below average (10 within the average)		
Q29	Given the requirement to handle CUI, would the Government please confirm that a potential awardee must have completed a Level 2 C3PAO CMMC Assessment prior to award?		PWS Section 8.9, Page 23
A29	No, this contract does not require a Level 2 C3PAO CMMC Assesment.		
Q30	Would the Government please confirm that offerors are to use the format provided in pages 3-5 of the RFP for their pricing?		RFP Section 7 "Quote Preparation and Submission Instructions Volume III-Price," Page 22
A30	Confirmed, however also see RFQ instructions on page 22		
Q31	Would the Government please confirm that offerors should supplement the pricing format provided in pages 3-5 of the RFP with a table that shows the proposed labor breakdown and discounts?		RFP Section 7 "Quote Preparation and Submission Instructions Volume III-Price," Page 22
A31	Confirmed		
Q32	Is the solicitation expected to require a Facility Clearance (FCL) at the prime or subcontractor level?		Solicitation General Question
A32	Prime at the time of proposal, subcontractor if necessary after award sponsored by the Prime
