STANDARD FORM 30 (REV. 11/2016)
Prescribed by GSA FAR (48 CFR) 53.243

SF 30 BLOCK 14 CONTINUATION PAGE

SUMMARY OF CHANGES

Block 14 (Description of Amendment/Modification): 1). Industry questions with responses have been added by full text.
2). The Wage Determinations attachment has been removed and replaced with a single Department of Labor Wage Determination, 2015-4935, Rev# 30, which has been incorporated into CLIN 0001 by reference.
3). The addendum to FAR 52.212-1 has been updated to clarify that the technical volume should be no more than 10 pages.
4). The closing date and time have been extended to 10:00 AM EST on 15 June 2026.
5). FAR clauses 52.222-41, 52.222-42, and 52.222-55 have been added.
6). The following paragraphs in the PWS have been updated:
-Para. 1.3.2.
-Para. 1.6.3. (added)
-Para. 1.6.5.
-Para. 1.6.7.5-1.6.7.8 (removed)
-Para. 1.6.7.9. (now 1.6.7.5.)
-Para. 1.6.7.10 (now 1.6.7.6.)
-Para. 1.6.7.11-1.6.7.13 (removed)
-Para. 1.6.7.14. (now 1.6.7.7.)
-Para. 1.6.7.15. (now 1.6.7.8.)
-Para. 1.6.8.1. (added)
-Para. 1.6.8.2. (added)
-Para. 1.6.14-1.6.15. (removed)
-Para. 1.6.16. (now 1.6.14.)
-Para. 5.2.1.
-Para. 5.3.
-Para. 5.4.2.
-Para. 5.4.4.
-Para. 5.4.6.
-Para. 5.4.8.
-Para. 5.4.9.
-Technical Exhibit B : Removed requirements for AT Level I, iWatch, OPSEC, and Information Assurance Certificates. Added Requirements for Quality Control Plan and Information Assurance Level I professional certification.
7). Point of contact is Adam Buchert, adam.p.buchert.civ@army.mil.

Solicitation/Contract Form Continuation

Response Due	08 Jun 2026	15 Jun 2026

Date		

Continuation of Supplies or Services and Prices/Costs

The following CLIN(s) / SLIN(s) / ELIN(s) were modified:

0001

INFORMATION	FROM	TO
Description	Provide server maintenance support services in accordance with (IAW) the Performance Work Statement (PWS) attached herein, for the base period. Applicable Wage Determination: Various. See attachment.	Provide server maintenance support services in accordance with (IAW) the Performance Work Statement (PWS) attached herein, for the base period. Applicable Wage Determination - Illinois /Lake /WD # 2015-4935/Rev # 30/Date 05/13 /2026.

Continuation of Description

Miscellaneous text in this section has been added to:

Industry Questions with Responses

1. Technical Exhibit C lists 41 units of equipment located exclusively at HQ USMEPCOM (2834 Green Bay Road, North Chicago, IL 60064). PWS Paragraph 1.3.2 states: "The equipment is to receive maintenance at USMEPCOM HQ in North Chicago, IL, and each individual MEPS site; those sites are remotely located throughout the country." Does the Government intend to add equipment at the 65 remote MEPS sites to Technical Exhibit C, or is the current equipment listing (HQ only) the complete scope for pricing purposes?

Response: Technical Exhibit C currently reflects the complete known inventory for pricing purposes under this solicitation. No additional server inventory is presently identified in Technical Exhibit C for remote MEPS sites. As such, all references in the PWS to performing work at remote MEPS sites has been removed. Any future additions or deletions of equipment for HQ USMEPCOM or otherwise will be handled as a modification in accordance with PWS paragraph 5.5.3.

2. PWS Paragraph 5.4.6 states: "The Contractor's maintenance personnel shall arrive at the J-6 /MIT SSB within two hours, which commences with the time of notification to the Contractor's POC that remedial maintenance is required." Does the 2-hour on-site arrival requirement apply only to HQ USMEPCOM in North Chicago, IL, or does it also apply to the 65 remote MEPS locations referenced in PWS paragrah1.3.2?

Response: The 2-hour on-site arrival requirement identified in PWS paragraph 5.4.6 applies to HQ USMEPCOM located in North Chicago, IL. All references to travel and work at remote MEPS have been removed.

3. PWS Paragraph 5.3 states the contractor shall provide remedial maintenance "24 hours per day, 7 days per week, 4-hour response and full repair/replacement within 24 hours, for the ALL servers." Does "4-hour response" mean the contractor must arrive on-site within 4 hours, or does it mean the contractor must respond via telephone/communication within 4 hours? This appears to differ from the 60-minute call-back and 2-hour arrival requirements stated in PWS paragraph 5.4.6.

Response: The 4-hour response requirement has been removed. Contractor shall provide a callback within 60 minutes of being notified of a failure and arrive onsite to HQ USMEPCOM within 2 hours.

4. PWS Paragraph 5.4.9 states: "A limited amount of these parts may be stored within the J-6 /MEIT-CSD-ESB server area or MEPS server location." Will the Government provide designated storage space for critical spare parts at HQ and/or MEPS locations, or must the contractor arrange independent storage facilities?

Response: Limited storage space may be made available within the HQ USMEPCOM server area as identified in PWS paragraph 5.4.9. However, the contractor remains responsible for maintaining adequate inventory and ensuring availability of emergency parts and tools required to meet contract response timelines.

5. The RFQ CLIN structure shows CLIN 0001 priced as "12 Months" for the base period. Should offerors provide a single Firm Fixed Price for the entire 12-month base period, or should pricing be broken down by monthly unit price per server/equipment item as implied by PWS 5.5.3 ("same monthly equipment unit price as those listed in TE C")?

Response: Offeror's pricing must be broken down by monthly unit price based on the requirements described in the PWS.

6. PWS Paragraph 1.6.4 establishes normal hours of operation as 0800-1630 CT, Monday through Friday. PWS Paragraph 5.3 requires 24/7/365 remedial maintenance for all servers. Are preventive maintenance and firmware/microcode upgrades (PWS 5.1) limited to normal business hours (0800-1630 CT), or may the Government direct preventive maintenance outside normal hours?

Response: Preventive maintenance and firmware/microcode upgrades are generally expected to occur during normal business hours identified in PWS paragraph 1.6.4 unless otherwise coordinated with the COR. However, pursuant to PWS paragraph 1.6.2, the Government may require services or activities outside normal operating hours for mission or operational requirements.

7. Technical Exhibit A identifies two performance thresholds: (1) full repair within 24 hours 90% of the time, and (2) emergency parts available 24/7 98% of the time. PWS paragraph 1.6.1

references a Quality Assurance Surveillance Plan. Is there a QASP that will be provided to the successful offeror, or should the offeror's Quality Control Plan serve as the sole quality management mechanism?

Response: There is a QASP, however it is an internal document that is not provided to offerors. Offeror shall refer to the Performance Requirements Summary for performance metrics. Additionally, paragraph 1.6.3. has been added to the PWS to require a Quality Control Plan, which will serve as the successful offeror's quality control mechanism.

8. PWS Paragraph 1.6.13 states: "Travel is included in maintenance. The Contractor shall bear all expenses necessary to repair equipment." Does this include travel to all 65 MEPS locations (if equipment exists or is added per Question 1), or only travel to HQ USMEPCOM?

Response: Only travel to HQ USMEPCOM. If additional work is needed at remote MEPS sites during the life of the contract a modification will be issued in accordance with PWS paragraph 5.5.3.

9. The Addendum states: "The technical volume should be specific, detailed, and complete." Is there a page limit for the Technical Volume?

Response: The technical volume shall be no more than 10 pages.

10. PWS Paragraph 5.4.8 requires the contractor to "provide a functionally identical replacement server or TBU, for each server listed in TE C at no cost to the Government if they are not repairable on site." Does "functionally identical" mean the same Dell PowerEdge model (e.g., M640 replaced with M640), or may the contractor provide a successor model with equal or greater capability (e.g., M640 replaced with a current-generation equivalent)? Several models in TE C (M630, M1000E) are approaching end-of-life status.

Response: "Functionally identical" replacement equipment may include successor-generation equipment provided the replacement maintains equal or greater operational capability, compatibility, and performance necessary to support the USMEPCOM mission and existing configuration requirements. Any replacement equipment must remain fully compatible with the Government's operational environment in accordance with PWS paragraph 5.5.2.

11. PWS Paragraph 1.6.8 requires all employees to "possess and maintain current Information Assurance Technician (IAT) Level I professional certification during the execution of this contract." Does this requirement apply to all personnel including those who perform only hardware repair without accessing Government information systems, or only to personnel who access Government networks?

Response: The IAT Level I certification requirement applies to contractor personnel performing duties requiring access to Government information systems, IA/IT functions, or network-connected systems in support of this contract. Personnel performing purely technical or maintenance work that do not require access to these systems do not require IAT Level I certification.

12. CLIN 0002 references a "Governmentwide Acquisition Contract (GWAC) Contract Access Fee (CAF)" applied to "the total amount paid on each invoice." Should the offeror calculate and populate the CAF amount in CLIN 0002, or will the Government populate CLIN 0002 at award?

Response: Offeror must provide the CAF in CLIN 0002. Per paragraph B.6.2 of the STARS III master contract, the CAF is currently 0.75% and is applied to the total amount paid on each invoice (including ancillary support and travel).

13. Can the government please provide the SCA Labor categories that have been used on the current contract in order to maintain consistency across the Wage Determination locations for the 65 Military Entrance Processing Stations (MEPS)?

Response: Labor categories being used in the current contract are proprietary. However, the suggested labor categories are "Computer System Analyst I, Computer System Analyst II, Personal Computer Support, Technician, System Support Specialist and are reflected is FAR Clause 52.222-42.

14. Exhibit C list servers in the Chicago Location, but PWS Section 1.2 refers to the 65 Military Entrance Processing Stations (MEPS). What types of Servers reside at these locations?

Response: At present, Technical Exhibit C identifies the currently known server inventory located at HQ USMEPCOM in North Chicago, IL.

Contract Clauses

Addendum to 52.212-1, Instructions to Offerors - Commercial Products and Commercial Services

Miscellaneous text in this section has been modified to:

REQUEST FOR QUOTE (RFQ) - FAR 52.212-1 ADDENDUM

1. This RFQ is being issued as a commercial acquisition using a combination of procedures found in Revolutionary FAR Overhaul (RFO) Federal Acquisition Regulation (FAR) Parts 8 and 12. This solicitation is a 100% 8(a) set-aside utilizing General Services Administration (GSA) 8(a) STARS III Governmentwide Acquisition Contract (GWAC). The Government anticipates the award of a Firm Fixed Price task order from this solicitation.

2. The Mission and Installation Contracting Command (MICC) - Fort Knox points of contact responsible for providing information and responding to inquires are the Contracting Officer (KO) and the Contract Specialist:

-Contracting Officer: Amy Gawarecki, amy.l.gawarecki.civ@army.mil

-Contract Specialist: Adam Buchert, adam.p.buchert.civ@army.mil

3. Quotes shall be submitted through the GSA eBuy portal or by emailing the individuals listed above prior to the closing date and time listed on SF 1449 block eight (8) or as identified in an amendment. Pricing shall remain valid for a period of **90 days** after the closing date and time identified on the SF 1449 or subsequent amendment. Quotes and acknowledged amendments that are late may not be accepted.

4. Questions shall be received by the Contract Specialist and Contracting Officer no later than **10: 00 am Eastern Time (ET) on 25 May 2026** to allow time for a written response. The RFQ may only be changed by a formal written amendment issued by Mission and Installation Contracting Command (MICC) Fort Knox, Kentucky. All amendments will be posted to the GSA eBuy portal.

5. All offerors wishing to do business with the government must register online at https://.sam.gov. Offerors shall have an active System for Award Management (SAM) registration at time of quote submission. Offers containing a name and address (Block 17a of SF1449) different from that registered in SAM may be deemed ineligible for award.

6. Electronic submissions via facsimile will not be accepted.

7. It is the Government's intention to award without negotiations. Offerors are encouraged to present their best prices in their initial quote submission. However, should negotiations become necessary, the Government reserves the right to hold them.

Required Documents

1. Technical Volume: The technical volume shall be submitted in a PDF format and be no more than 10 pages maximum. The technical volume should be specific, detailed, and complete to clearly and fully demonstrate that the Offeror has a thorough understanding of the requirements for the accomplishment of the effort. Statements that the Offeror understands, can, or will comply with the PWS; statements paraphrasing the PWS or parts thereof; and phrases such as "standard procedures will be employed" or "well known techniques will be used" etc., may render the quote non-compliant.

2. Price: Unit prices in the quote shall be completed using the Contract Line-Item Number (CLIN) schedule in the RFQ (NOTE: failure to quote on all items may render the quote non-compliant and the quote may not be considered). Vendors shall submit all unit prices to the whole penny; any fractions will be rounded to the next higher whole penny per unit for evaluation and award purposes.

Basis for Award

1. Award will be made using Simplified Acquisition Procedures to the vendor with the lowest price who meets the requirements of the solicitation and is deemed responsible in accordance with the FAR.

2. Trade-offs between cost/price and non-cost/price factors are not permitted. The Government will evaluate proposed prices for reasonableness using price analysis techniques found in RFO FAR 15.404-1(b).
