QUALITY ASSURANCE SURVEILLANCE PLAN (QASP)
Office of the Chief Procurement Officer (OCPO) Technical Support Services

Objective: The purpose of this plan is to provide a QASP for the Office of the Chief Procurement Officer (OCPO) technical support services for: project management and maintenance of OCPO Microsoft 365 (M365) applications, SharePoint Online (SPO) environment and OCPO data management. This plan provides a basis for the Contracting Officer's Representative (COR) to evaluate the quality of the Contractor's performance. The oversight provided for in the contract and in this plan shall ensure service levels reach and maintain the required levels throughout the contract term. This plan shall provide the COR with a proactive way to avoid unacceptable or deficient performance and provide verifiable input for the required annual past performance evaluations.

1.0 Performance Standards:

a) Frequency: The COR shall evaluate the current levels of performance according to the standards set forth in this contract. During performance of this contract, the COR shall take periodic measurements as specified and shall analyze whether negotiated frequency of measurement is appropriate for the work being performed.

b) Management Responsiveness: The COR shall determine whether the Contractor has managed the contract effectively and efficiently with successful and timely response.

2.0 Evaluation Methods: The COR shall conduct performance evaluations based on the required performance levels as set forth in the contract.

a) Service Level Monitoring: The Contractor shall provide sufficient qualified personnel to provide technical support services to meet the needs of the requirement.

b) Certification: Prior to contract award if requested, the Contractor shall provide the COR with the staffing plan and all required licenses for all individuals assigned to this contract.

3.0 Measures:

a) Performance Objective: The Contractor shall align each task with driven and professional team members with the subject matter expertise to timely, efficiently, and effectively deliver work products and deliverables. Contractors shall provide professional consultants that have the subject matter expertise (SME),

experience, and operational knowledge of the task areas in which they are supporting.

b) Determining Performance: Government shall use the monitoring methods cited to determine whether the performance standards/service levels/AQLs have been met. If the Contractor has not met the minimum requirements, it may be asked to develop a corrective action plan to show how and by what date it intends to bring performance up to the required levels.

OCPO Technical Support Services

PERFORMANCE REQUIREMENT SUMMARY

Required Services (Tasks)	Performance Standards	Acceptable Quality Levels (AQL)	Methods of Surveillance	Incentive (Positive and/or Negative) (Impact on Contractor Payments)
PRS No. 1, (4.1.1), Sub Task 1.1, Kickoff Meeting.	The kickoff meeting shall be held within 10 (ten) business days of award. The Contractor shall provide any discussed follow-up items to the Government within 5 (five) business days after the meeting.	**AQL** is 100 (one-hundred)% compliance. **Corrective Action:** Any errors or omissions identified are corrected within 1 (one) business day following Government notification.	Periodic inspections, random sampling, and customer complaints and feedback.	Contractor reperformance, no payment for nonperformance services & positive or negative performance information will be documented in CPARS past performance assessment.
