- **Are resumes with letters of intent the sole requirement for Volume II?**

Offerors must also provide convincing rationale to address how they intend to meet these requirements, assuming the Government has no prior knowledge of their capabilities, work processes, facilities, and experience. The Government will base its evaluation on the information presented in the offeror's technical quote. Offerors are encouraged to provide adequate and complete documentation that clearly demonstrates compliance with all technical requirements in the PWS.

- **Is there a page limit?**
  No

- **For new requirements added after contract award or when employee turnover occurs, vacancies are filled with qualified personnel within 20 or 30 business days of vacancy (PWS (Para 2.0 Table vs PWS 4.4.1)?**

If the RFQ is Pool-only, would the agency consider amending or reissuing the requirement under MAS procedures that permit qualified 8(a) joint ventures to compete?**
  "8(a)JV-Eligible" vendors eligibility for a particular award is determined by SBA at the order level.

- **The pricing build gives each of the seven (7) CME lines its own rate cell, while Section M evaluates "rates proposed for each labor category and year." Please confirm whether a single fully burdened rate is required for all LMS Support lines and a single rate for all IMS Support lines within a period, or whether individual per-line rates are permitted.**

  Proposed unit/CLIN prices shall be rounded to the nearest whole dollar. If any

proposed unit/CLIN price does not meet the required rounding, the Government will round that unit/CLIN price to the nearest whole dollar. The Government adjusted unit/CLIN price will become the offeror's proposed amount.
