INSTRUCTIONS, CONDITIONS, AND NOTICES TO QUOTERS (FAR 52.212-1 Addendum)

The Government intends to award a single, Firm-Fixed-Price task order to the responsible quoter whose quote represents the Lowest Price Technically Acceptable (LPTA) to the Government. Quotes will be evaluated as follows:

FACTOR 1 – TECHNICAL CAPABILITY

Volume I - Technical Capability: Resumes of proposed personnel, copies of active required Department of Defense (DoD)/Department of War (DoW) certifications, and confirmation of active security clearance. See the PWS for specific detailed requirements.

Quotes will be evaluated on an Acceptable / Unacceptable basis. Quotes must meet or exceed all stated experience, clearance, and DoD/DoW baseline and computing environment certification requirements as per the PWS.

FACTOR 2 – PAST PERFORMANCE

Volume II - Past Performance: Provide up to three (3) references for similar IT/Network services performed within the past three (3) to five (5) years.

Quotes will be evaluated on an Acceptable / Unacceptable basis. The Government will evaluate the relevance and quality of the quoter's recent past performance. A record of relevant, successful past performance will receive an "Acceptable" rating. (Note: In accordance with FAR 15.305(a)(2)(iv), a quoter without a record of relevant past performance will receive a "Neutral" rating and be deemed "Acceptable").

FACTOR 3 – PRICE

Submission Requirements:

Completed pricing sheet utilizing the required labor category established under GSA Schedule 54151S. Quotation should list be fully burdened labor rates. Price shall be submitted on the Price Proposal Schedule (Encl. 3) included with this solicitation. Electronic submission via GSA is required and that the price and technical proposals are separate documents upon submission.

Award will be made to the lowest-priced quoter that receives an "Acceptable" rating in Factors 1 and 2. The Government will evaluate the total price to determine the lowest evaluated price of proposals meeting or exceeding the acceptability standards for non-price factors.

In accordance with FAR 12.301(b)(2), Quoters shall complete electronic annual representations and certifications within the System for Award Management (SAM) database at sam.gov.
If the Quoter's SAM certifications are current, complete, and accurate as of the response date of this RFQ, the Quoter shall include a statement in your price quotation stating: "The offeror has completed the annual representations and certifications electronically in SAM and confirms they are current, accurate, and complete as of [Insert Date]."
