ATTACHMENT A
PURCHASE ORDER SCOPE OF WORK

1. Description of Service

The Provider must provide the services described within this Scope of Work (Scope).

1.1 The Florida Department of Children and Families (Department) requires the Provider to furnish, implement, configure, migrate, train, and support a cloud-based Contact Center Platform solution to replace the Department's existing Abuse Hotline contact center technology. The Florida Abuse Hotline serves as the statewide point of contact for reports of abuse, neglect, and exploitation of children and vulnerable adults and operates 24 hours a day, seven days a week, 365 days a year. The Provider shall deliver a fully managed, Contact Center Platform solution that supports mission-critical hotline operations with high availability and minimal service interruption.

1.2 The solution shall support the Department's Abuse Hotline operations, by providing statewide intake services for reports of child and adult abuse, neglect, abandonment, and other critical protective service concerns. The Provider shall deliver a modern, scalable, secure, highly available Contact Center Platform that supports omnichannel communications, contact routing, workforce management capabilities, quality assurance functions, reporting and analytics, call recording, and integration capabilities with Department systems.

1.3 The Provider shall perform all activities necessary for successful implementation and ongoing operation of the solution, including project management, discovery, solution design, configuration, testing, data migration, knowledge transfer, training, deployment, post-implementation stabilization, and ongoing hosting, maintenance, technical support and operational support services with high availability, urgent call handling, defined escalation procedures, and operational support appropriate for a 24/7/365 environment.

1.4 The Provider shall work collaboratively with the Department throughout implementation to validate, refine, and document the Department's operational, technical, security, integration, and implementation requirements, as necessary, to ensure the solution meets the Department's business needs. Any refinements to the implementation approach or configuration shall be made in accordance with the terms of the Purchase Order and approved by the Department. Changes affecting scope, schedule, cost, or major deliverables shall require prior written approval by the Department through the applicable Contract or Purchase Order change process. The Department's objective is to replace the existing Avaya Aura Contact Center (AACC) Platform with a Contact Center Platform that improves operational resiliency, reporting capabilities, maximized workforce efficiency, customer service delivery, and long-term sustainability while minimizing disruption to Abuse Hotline operations.

1.5 The Provider shall complete implementation and production deployment of the new Contact Center Platform no later than June 30, 2027, unless otherwise approved in writing by the Department.

2 Governance

Based on §287.057(19), Florida Statutes (F.S.), if applicable, Provider(s) under this contract will be prohibited from participating in any other engagement in which the Provider provides related content as this would create a conflict of interest. The Provider shall comply with all applicable state and federal requirements, including, without limitation:

- Chapter 39, Florida Statutes
- Chapter 815, Florida Statutes
- Section 119.0701, Florida Statutes
- Section 282, Florida Statutes
- Florida Cybersecurity Standards
- CJIS Security Policy (if applicable)
- HIPAA and HITECH requirements (where applicable)
- NIST Cybersecurity Framework

- State of Florida Information Technology Security Policies
- Department of Children and Families Security and Privacy Standards

3 Term

3.1 The anticipated term of the resulting contract is October 1, 2026 for a period of three years. The term of the resulting purchase order is subject to change based on the actual execution date of the resulting Contract.

3.2 In accordance with §287.058(1)(g), F.S., the Contract resulting from this procurement may be renewed for a period that may not exceed three years or the term of the resulting original Contract period, whichever is longer. Renewal of the Contract shall be in writing and subject to the same terms and conditions set forth in the original Contract. A renewal may not include any compensation for costs associated with the renewal. Renewals are contingent upon satisfactory performance as determined by the Department, are subject to the availability of funds, and optional to the Department.

3.3 The total term (original term and renewal term) of the resulting Contract will be limited to the remaining term of the Providers' contract source, unless the Provider's contract includes duration or survivability language that permits the Department to contract with the Provider past the expiration.

3.4 Funding under this Contract is subject to the availability of funds. The Department reserves the right to expand the Scope performed by the Provider, should additional needs and funding become available. Additional services may be included in, or added to, any purchase order(s), upon mutual written agreement, and through issuance of a change order.

3.5 The Department is working within the legislatively approved Legislative Budget Request funding for this initiative. The proposed solution, including implementation, licensing, support, maintenance, and any recurring or nonrecurring costs, must be deliverable within the funding available for this project.

4 Composition of the Contract

4.1 This Contract is composed of the documents listed in this section. In the event of any conflict between the documents, the documents shall be interpreted in the following order of precedence:

4.1.1 Purchase Order Scope of Work (PMT-57), and other attached documents: All other attachments and exhibits to the Contract referenced in the solicitation shall also be part of the resulting Contract, if any.

4.1.2 The Department's Purchase Order Terms and Conditions, located at: https://www.myflfamilies.com/about/additional-services-offices/contracted-client-services/resources/

4.1.3 Contract Source: Alternate Contract Source (ACS), Data Communications Products and Services, 43220000-NASPO-19-ACS, General Services Administration (GSA), (GSA) MAS 2023, and Department of Management Services, Telecommunications/Suncom Contract

4.1.4 Department of Children and Families Standard Contract Definitions, located at: https://www.myflfamilies.com/about/additional-services-offices/contracted-client-services/resources/

4.1.5 PUR 1000 Form, located at: https://www.dms.myflorida.com/business_operations/state_purchasing/state_agency_resources/state_purchasing_pur_forms.

4.1.6 Provider Response: The Provider's Response and any additional submittals, if incorporated into or attached to the Contract.

4.2 Notwithstanding the order of precedence indicated, for purchases based on a State Term Contract (STC) or an enterprise Alternative Contract Source (ACS) procured for state agency use by the Department of Management Services (DMS), the terms of the underlying STC or DMS enterprise ACS agreement shall prevail over conflicting terms in other documents in the order of precedence, unless by the terms of that underlying STC or ACS agreement the "Customer" is explicitly authorized to vary the terms to the State's detriment.

5 Elements of Services

The Provider is responsible for meeting all requirements set forth in this Scope.

5.1 Service Delivery

5.1.1 Service Delivery Location

Provider will perform work on-site at DCF in both Tallahassee and possible locations throughout the state of Florida, and remotely from within the United States as mutually agreed to by Provider and the Department. The Provider is responsible for any incremental costs associated with having staff work remotely.

5.2 Equipment

5.2.1 The Provider must provide all equipment required for services within this Scope.

5.3 Task List

The Provider will perform the following tasks:

5.3.1 Project Initiation and Planning

The Provider shall:

5.3.1.1 Conduct project kickoff activities.
5.3.1.2 Develop and maintain a Project Management Plan.
5.3.1.3 Establish project governance and communication processes.
5.3.1.4 Conduct discovery and requirements validation sessions.
5.3.1.5 Develop an implementation schedule and risk management plan.
5.3.1.6 Develop and maintain a Requirements Traceability Matrix (RTM) that maps Department-approved requirements to system configuration, testing, defect resolution, acceptance status, and final implementation.

5.3.2 Solution Design and Configuration

The Provider shall:

5.3.2.1 Design the target-state Contact Center Platform architecture.
5.3.2.2 Document system configuration requirements.
5.3.2.3 Validate network, security, telephony, and infrastructure requirements.
5.3.2.4 Develop integration approach documentation.
5.3.2.5 Configure the Contact Center Platform.
5.3.2.6 Configure skills-based routing.
5.3.2.7 Configure IVR functionality.
5.3.2.8 Configure queues, user roles, permissions, dashboards, and workflows.
5.3.2.9 Configure workforce management and quality monitoring functions.
5.3.2.10 Configure call recording and retention capabilities.

5.3.3 Implementation and Migration

The Provider shall:

5.3.3.1 Develop a migration strategy.

5.3.3.2 Migrate required configurations and historical information as approved by the Department.
5.3.3.3 Coordinate telephone number porting and transition activities.
5.3.3.4 Conduct migration validation activities.
5.3.3.5 Implement required integrations identified by the Department.
5.3.3.6 Support future integration readiness with Department systems including CCWIS and other approved enterprise applications.
5.3.3.7 Provide Application Programming Interface documentation and integration specifications.

5.3.4 Testing, Training, Deployment, and Go-Live

The Provider shall:

5.3.4.1 Develop test plans.
5.3.4.2 Conduct unit testing.
5.3.4.3 Conduct system testing.
5.3.4.4 Conduct user acceptance testing.
5.3.4.5 Resolve identified defects prior to production deployment.
5.3.4.6 Develop training materials.
5.3.4.7 Conduct administrator training.
5.3.4.8 Conduct supervisor training.
5.3.4.9 Conduct end-user training.
5.3.4.10 Provide knowledge transfer documentation.
5.3.4.11 Develop a deployment plan.
5.3.4.12 Support production cutover activities.
5.3.4.13 Provide enhanced support during stabilization.
5.3.4.14 Monitor solution performance during go-live.
5.3.4.15 Complete production cutover and go-live no later than June 30, 2027, unless otherwise approved in writing by the Department.
5.3.4.16 The Department reserves the right to delay production deployment until all required acceptance criteria have been satisfied.

5.3.5 Contract Transition and Data Export

The Provider shall:

5.3.5.1 Upon request, expiration, or termination of the PO, the Provider shall provide a complete export of Department data in a Department-approved format, within thirty (30) calendar days unless otherwise approved by the Department.
5.3.5.2 Data export and transition support shall be provided at no additional cost unless expressly identified in the Provider response and approved by the Department.
5.3.5.3 Following written confirmation from the Department, the Provider shall securely delete Department data from Provider-controlled systems in accordance with applicable retention requirements and provide written certification of destruction.

5.3.6 Ongoing Hosting, Maintenance and Technical Support

The Provider shall:

5.3.6.1 Provide ongoing maintenance and support.
5.3.6.2 Provide software updates and patches.
5.3.6.3 Maintain service levels and availability requirements.
5.3.6.4 Provide help desk support and incident management.
5.3.6.5 Meet all Service Level Agreement (SLA) Requirements including:

5.3.6.5.1 A Minimum 99.9% monthly Contact Center Platform availability.

5.3.6.5.2 Provide a production environment that supports Department operations 24x7x365.

5.3.6.5.3 Scheduled maintenance that may affect system availability shall be coordinated with the Department and performed during Department-approved maintenance windows whenever practicable. The Provider shall provide advance written notice of scheduled maintenance.

5.3.6.6 Disaster recovery and business continuity capabilities.

5.3.6.7 Incident response and resolution targets:

Priority	Response Time	Resolution Target
Critical	15 minutes	3 hours
High	1 hour	8 hours
Medium	4 hours	72 hours
Low	1 business day	7 business days

5.3.6.7.1 Response and resolution times shall commence upon the Department's notification of an Incident or the Provider's detection of an Incident, whichever occurs first.

5.4 Provider Responsibilities

The Provider shall:

5.4.1 Provide all personnel, software, licensing, equipment, tools, and materials required to perform services.

5.4.2 Assign a dedicated Project Manager.

5.4.3 Maintain qualified implementation and support staff.

5.4.4 Comply with Department security requirements.

5.4.5 Maintain solution availability in accordance with approved service levels.

5.4.6 Participate in project status meetings.

5.4.7 Provide monthly operational reports including monthly status and monthly uptime reports.

5.4.8 Ensure the Contract Center Platform meets all functional, technical, security, and operational requirements set forth in **Section 5.6.**

5.4.9 Provide a fully functional system that supports all required system integrations and Contact Center Platform operations.

5.4.10 Ensure system security, including encryption, access controls, audit logging, and compliance with applicable security standards.

5.4.11 Provide system hosting within the contiguous United States and maintain required system availability and performance as outlined in **Section 5.3.6.5.**

5.4.12 Ensure data backup, recovery, and retention in accordance with State requirements.

5.4.13 Develop, maintain, and implement an approved Implementation Plan and adhere to all timelines and milestones.

5.4.14 Provide training, user documentation, and support necessary for effective system use.

5.4.15 Provide help desk support, issue resolution, and ongoing maintenance services.

5.4.16 Maintain sufficient staffing, infrastructure, and technical resources to meet Contract requirements.

5.4.17 Immediately notify the Department, in accordance with applicable Department security policies, of any actual or suspected security incident, cybersecurity event, or data breach affecting Department systems or Department Data.

5.4.18 Support system testing and User Acceptance Testing (UAT).

5.4.19 Upon termination, the Provider shall support data export and transition activities to ensure continuity of operations. All Department data entered into, stored in, processed by, or generated through the system shall remain the property of the Department.

5.4.20 The Provider shall identify all license types, user categories, access restrictions, usage limitations, and cost drivers applicable to the proposed solution. The Provider shall clearly identify whether licenses are named-user, concurrent-user, role-based, enterprise, or other license types. The Provider shall disclose any additional cost associated with management personnel, support personnel, stakeholders, read-only users, approvers, or other limited-access participants. The Provider shall identify pricing for additional users and renewal periods in the Cost Proposal.

5.5 Department Responsibilities

The Department shall:

5.5.1 Provide project oversight and governance.

5.5.2 Designate a Project Manager and business representatives.

5.5.3 Provide timely review and approval of project deliverables.

5.5.4 Facilitate stakeholder participation.

5.5.5 Coordinate access to Department systems and resources as required.

5.5.6 Support testing and user acceptance activities.

5.5.7 Assign a Contract Manager to serve as the primary point of contact and coordinate Contract activities.

5.5.8 Provide guidance, clarification, and interpretation of Contract requirements as needed.

5.5.9 Review, approve, reject, or request revisions to the Provider’s deliverables in a timely manner.

5.5.10 Provide access to necessary personnel, systems, and information required for implementation and ongoing operations.

5.5.11 Participate in implementation activities, including meetings, testing, validation, and acceptance.

5.5.12 Provide timely feedback, decisions, and approvals to support project progress.

5.5.13 Monitor Provider performance and compliance with Contract requirements and enforce remedies as necessary.

5.5.14 The Department acknowledges that the Provider shall not be responsible for delays solely caused by the Department's failure to timely provide required information, approvals, access, or decisions. Any resulting schedule adjustments shall be documented through the project governance process.

5.6 System Requirements

The Provider’s proposed solution shall support mission-critical Abuse Hotline operations, including voice, web, and fax intake channels; intelligent routing and queue management; callback capabilities; real-time reporting and dashboards; disaster recovery and resiliency;

integration capabilities with the Florida Comprehensive Child Welfare Information System (CCWIS); and modern tools that may include automation, language support, transcription, and agent-assist functionality. The detailed system requirements are organized by category outlined in **Attachment C, Master List DCF Hotline Contact Center Requirements.**

6 Deliverables, Minimum Performance Measures, and Financial Consequences

6.1 The Provider must complete or submit the following deliverables in the time and manner specified herein. Each deliverable shall be accepted only when the Provider submits the required supporting documentation and the Department verifies that the applicable acceptance criteria have been met. Acceptance criteria shall include, as applicable, completion of required tasks, Department approval of required plans or documentation, satisfaction of Requirements Traceability Matrix items, successful completion of testing, closure or approved deferral of defects, and compliance with applicable service levels. Department acceptance, rejection, or requested revisions shall be provided in writing.

6.2 Pursuant to §287.058, F.S., the Contract must contain financial consequences that will apply if the Provider fails to perform in accordance with the Contract terms.

6.3 The deliverables must meet the following minimum service level, and failure of the Provider to complete or submit a deliverable in the time and manner specified will result in a reduction of payment for that deliverable:

REMAINDER OF PAGE INTENTIONALLY LEFT BLANK

DELIVERABLES, MINIMUM PERFORMANCE MEASURES, AND FINANCIAL CONSEQUENCES				
Deliverable # and Description	**Minimum Performance Measure**	**Supporting Documentation**	**Qualitative Monitoring Criteria**	**Financial Consequence**
Deliverable 1: Project Initiation and Planning	Provider submits Department-approved Project Management Plan, implementation schedule, communication plan, risk management plan, and conducts project kickoff	Approved implementation plan, project schedule, meeting minutes, status reports, Requirements Traceability Matrix.	Deliverables demonstrate adequate planning, timelines, staffing, and project governance	Payment may be withheld until acceptable implementation documentation is approved
Deliverable 2: Solution Design and Configuration	Provider configures the Contact Center Platform to support approved workflows, routing, security controls, user roles, dashboards, integrations, authentication, and reporting requirements	Configuration documentation, security documentation, integration test results	System functionality aligns with Department requirements and security standards	Payment may be withheld until deficiencies are corrected and accepted
Deliverable 3: Implementation and Migration	Provider completes Department-approved configuration, integrations, data migration, system testing, defect resolution, and supports successful UAT. The Provider shall identify all data, configurations, and historical information proposed for migration, archival, or exclusion, and obtain	Data Migration Plan, validation reports, defect logs, UAT approval documentation, Requirements Traceability Matrix	Migrated data is accurate and system performs according to functional requirements	Provider shall correct deficiencies at no additional cost; payment may be withheld pending approval

	Department approval prior to migration.			
Deliverable 4: Testing, Training, Deployment & Go-Live	Provider completes Department-approved training, deploys the Contact Center Platform into production, and provides minimum sixty (60) day stabilization period.	Training records, training materials, Go-Live approval, stabilization reports	Go-live must occur no later than June 30, 2027, and shall require Department approval of completed training, successful completion of UAT, resolution of all Severity 1 and Severity 2 defects, completion of production deployment activities, approval of security documentation, and execution of the Go-Live readiness checklist.	Payment may be reduced or withheld for unresolved critical issues or incomplete training
Deliverable 5: Contract Transition and Data Export	Provider supports Contract transition activities and returns all Department data in Department approved format upon expiration or termination of the Purchase Order.	Data export documentation, transfer confirmation, transition plan	Data is complete, accessible, and securely transferred to the Department	Final payment may be withheld until all data and transition requirements are completed
Deliverable 6: Ongoing Hosting, Maintenance, and Technical Support	Provider maintains required Contact Center Platform availability and meets all SLA requirements, including required availability, incident response and incident resolution targets.	Monthly Operational, Status, and Uptime Reports, maintenance logs, help desk tickets, and incident reports	Contact Center Platform remains operational, secure, available, and Provider consistently meets required service levels and support obligations.	Up to a ten percent (10%) reduction of the applicable monthly invoice for the billing period in which one or more SLA requirements identified in Section 5.3.6.5 are not achieved. Multiple SLA failures occurring during the same monthly billing period shall not result in a cumulative reduction exceeding ten percent (10%) unless otherwise approved by the Department.

7 Reports

7.1 The Provider shall adhere to reporting requirements included in this section. The Department reserves the right to direct the Provider to amend or update its reports and/or report formats in accordance with the best interests of the Department and at no cost to the Department. The Department will notify the Provider of such modification, in writing.

REPORTS			
#	**Title**	**Due Date**	**Section Reference**
1	Monthly Operational, Status and Uptime Reports	Monthly, due by the 10th business day of the following month or as requested by the Department.	**5.4.7**

7.1.1 Monthly Operational, Status, and Uptime Reports shall include, at a minimum:

- **7.1.1.1** Contact Center Platform availability
- **7.1.1.2** SLA compliance results
- **7.1.1.3** Incident summary
- **7.1.1.4** Open critical issues
- **7.1.1.5** Software updates and patches applied
- **7.1.1.6** Planned maintenance activities
- **7.1.1.7** Outstanding project or operational risks
- **7.1.1.8** Corrective actions completed or planned

7.2 The Department reserves the right to modify reporting formats and submission timetables resulting from changing priorities or management direction.

7.3 Executive Compensation Reporting

7.3.1 Annually on or before May 1, the Provider shall complete and return the Executive Compensation Annual Report (Form PCMT-08), located at: https://www.myflfamilies.com/about/additional-services-offices/contracted-client-services/resources/ .

7.3.2 All reports shall be developed and produced at no cost to the Department.

8 Invoicing and Payments

8.1 General Information

8.1.1 A Purchase Order (PO) will be issued to the Provider.

8.1.2 The method of payment for this purchase is fixed rate.

8.1.3 The Provider will not receive payment in advance for goods or services described in this Scope.

8.2 Invoicing

8.2.1 The Provider must submit an invoice upon completion of goods or services that provides a

detailed accounting during the invoice period for which payment is being requested. Invoices must be sufficient for a proper pre-audit and post-audit thereof.

8.2.2 The invoice shall be submitted along with documentation supporting completion of each deliverable, milestone, and/or recurring maintenance and operations monthly cost. Each invoice must include the following information:

8.2.2.1 PO number,

8.2.2.2 Provider name and address,

8.2.2.3 Provider federal identification number,

8.2.2.4 Date(s) and services provided,

8.2.2.5 Identification of any deliverable(s) due during the invoicing period, if applicable,

8.2.2.6 Invoice amount,

8.2.2.7 PO balance after payment of invoice, and

8.2.2.8 Signature of Provider's authorized representative and date signed.

8.2.3 The Department may require any other information from the Provider that the Department deems necessary to verify the completion of services.

8.3 Payments

8.3.1 Frequency of Payment: Deliverables identified as One-Time in the Deliverable-Based Pricing table shall be invoiced and paid upon the Department's acceptance of the completed deliverable. Deliverables identified with a Monthly payment frequency in the Ongoing Costs table shall be invoiced monthly and paid upon the Department's acceptance of the monthly services and receipt of a properly submitted invoice in accordance with the Contract.

8.3.2 The Provider will receive payment for work described in this Scope after proof of completion is submitted to the Department and is deemed to meet the Department's satisfaction.

8.3.3 Payments to the Provider through this PO will be made through MyFloridaMarketPlace (MFMP), thus it is required that the Provider is registered with MFMP.

8.3.4 MFMP registration instructions are located at:
https://www.dms.myflorida.com/business_operations/state_purchasing/myfloridamarketplace/mfmp_vendors/requirements_for_vendor_registration

8.3.5 The PO and this document contain all terms and conditions agreed upon by all parties involved, the terms and conditions shall govern all transactions between the Department and the Provider related to this Contract. This Contract may only be modified or amended upon mutual written agreement of the Department and the Provider. Any modification to this PO will be addressed through a change order within MFMP.

8.3.6 Effective July 1, 2024, the MFMP transaction fees imposed for the use of MFMP are equal to seven-tenths of one percent (0.7%) of the payment issued. More information is located at:
https://www.dms.myflorida.com/business_operations/state_purchasing/myfloridamarketplace/mfmp_vendors/transaction_fee_and_reporting.

9 Provider Travel Reimbursement

The Provider will not be reimbursed for any travel expenses under this PO.

10 Definitions

Program or Service Specific Terms and definitions are:

Abuse Hotline Contact Center Replacement - Definitions	
Term	**Definition**
Abuse Hotline	The Department's statewide point of contact for receiving reports of abuse, neglect, abandonment, exploitation, and other critical protective service concerns involving children and vulnerable adults.
Contact Center Platform	The cloud-based system furnished, implemented, configured, hosted, maintained, and supported by the Provider to support Abuse Hotline communications and operations.
CCaaS Contact Center Solution	Contact Center as a Service; the Provider's managed, cloud-based contact center solution, including software, hosting, licensing, configuration, integrations, maintenance, support, and related services required under the Scope.
Contact / Intake Channel	A communication received, initiated, routed, handled, or recorded through the Contact Center Platform, including voice, web, fax, callback, or any other Department-approved channel used for Abuse Hotline intake.
Omnichannel Communications	The coordinated management of contacts across multiple Department-approved communication channels, such as voice, web, fax, and callback, through the Contact Center Platform.
Contact Routing / Skills-Based Routing	Functionality that directs contacts to the appropriate queue, agent, skill group, function, or resource based on Department-approved rules, including agent skills, roles, language capability, availability, contact type, or priority.
Interactive Voice Response (IVR)	Automated telephony functionality that interacts with callers through prompts, menus, voice responses, or keypad entries to collect information, provide information, or route calls.
Queue Management	The monitoring, configuration, routing, prioritization, and management of contacts waiting to be handled by an appropriate agent, skill group, or function.
Callback Capability	Functionality that allows a caller or contact to receive a return call instead of remaining in queue, as configured and approved by the Department.
Workforce Management (WFM)	Contact center functionality used to support staffing, scheduling, forecasting, adherence, capacity planning, performance visibility, and workforce efficiency for Abuse Hotline operations.
Quality Assurance Functions / Quality Monitoring	Contact center capabilities and processes used to monitor, review, evaluate, score, report, or improve contact handling, agent performance, service delivery,

	training, and operational compliance.
Call Recording	The capability to capture, store, retrieve, and manage recordings of voice contacts handled through the Contact Center Platform in accordance with Department-approved retention, security, and access requirements.
Agent-Assist Functionality	Technology-enabled features that assist agents during contact handling, which may include prompts, recommended actions, automation, transcription support, knowledge resources, or other Department-approved tools intended to improve efficiency, accuracy, and service delivery.
Integration and API	A Department-approved connection, interface, data exchange, authentication method, or technical interaction between the Contact Center Platform and another Department system, enterprise application, reporting tool, or approved third-party service. API means a documented method that allows the Contact Center Platform to exchange data or functionality with another approved system, application, or service.
Telephone Number Porting	The process of transferring Department-approved telephone numbers from the existing service or platform to the new Contact Center Platform or related telecommunications service.
Configuration	The setup and adjustment of Contact Center Platform functions, including routing rules, IVR flows, queues, user roles, permissions, dashboards, workflows, workforce management, quality monitoring, call recording, reporting, integrations, and other settings necessary to meet Department requirements.
Data Migration	The process of identifying, extracting, transforming, transferring, validating, and loading Department-approved configurations, historical information, or other required data into the new Contact Center Platform.
Go-Live	The point at which the Department approves the Contact Center Platform for production use and the solution is made available to support live Abuse Hotline operations.
Production Environment	The Department-approved operational Contact Center Platform supporting live Abuse Hotline operations.
Stabilization Support	Provider support provided after Go-Live to monitor solution performance, resolve issues, assist users, make approved adjustments, and support reliable ongoing operation of the Contact Center Platform.

System Availability / Platform Availability	The percentage of time the Contact Center Platform is operational, accessible, and capable of supporting required Abuse Hotline functions, excluding only Department-approved scheduled maintenance or other exclusions expressly stated in the Contract.
Disaster Recovery and Business Continuity	The Provider's documented capabilities, processes, and technical controls for maintaining or restoring Contact Center Platform access, functionality, and Department data during or after an outage, disaster, or other disruption to Abuse Hotline operations.
Incident	An unplanned interruption, degradation, failure, defect, service issue, security event, or other condition that affects or may affect Contact Center Platform availability, performance, functionality, security, or Abuse Hotline operations.
Service Level Agreement / Service Level Requirement (SLA)	A required performance standard for the Contact Center Platform or Provider services, including availability, incident response, incident resolution, support performance, and other measurable obligations stated in the Contract.
User Acceptance Testing (UAT)	Testing performed by Department-designated users to validate that the Contact Center Platform meets approved business, functional, operational, security, and technical requirements before final acceptance or Go-Live.
Requirements Traceability Matrix (RTM)	A document or tool that maps approved requirements to system functionality, configuration, testing evidence, defect status, acceptance status, and related deliverables.
Department Data and Data Export	Department Data means all data entered into, stored in, processed by, transmitted through, recorded by, or generated through the Contact Center Platform or related services on behalf of the Department. Data Export means extracting Department Data and providing it to the Department in a Department-approved format upon request, expiration, termination, or transition of the Purchase Order.
Contact Center Licensing / Core User	Contact Center Licensing means the licenses, subscriptions, entitlements, or usage rights required for Department-authorized users to access or use the Contact Center Platform. Core User means a Department-authorized user who requires regular access to perform, supervise, administer, support, monitor, or report on Abuse Hotline operations, as further defined by the Provider's licensing model and approved by the Department.
Deliverable	A specific, measurable output, product, service, milestone, document, configuration, deployment activity, support activity, or other required item under this Scope

	that is subject to Department review and written acceptance.
Financial Consequence	A payment withholding, invoice reduction, reduction in payment, or other contractually specified consequence imposed when the Provider fails to meet deliverable, performance, service level, support, availability, or other Contract requirements.
Severity 1 Defect	A defect that prevents the Contact Center Platform from performing one or more critical business functions, has no acceptable workaround, and prevents production deployment or continued operation.
Severity 2 Defect	A defect that significantly impacts required functionality or business operations but does not completely prevent production deployment or continued operation. A temporary workaround may exist but the defect requires correction before Department acceptance.
