CODE / FACILITY CODE		

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☒ is extended. ☐ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or electronic communication which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by letter or electronic communication, provided each letter or electronic communication makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NUMBER AS DESCRIBED IN ITEM 14.

CHECK ONE	
☐	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NUMBER IN ITEM 10A.
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation data, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not ☐ is required to sign this document and return _____ copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (*Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

This Amendment to Solicitation 47QAA26R0306 - Risk Management, Financial Analysis, and Administrative Support Services is for the following:

A. Provide a List of Questions and Answers received in reference to the solicitation.
B. Provide updated copies of the RFP and all attachment documents.
C. Provide andextension of the proposal submittal due date from 09/21/2026 to 09/29/2026 No Later Than 9:00 am EST.

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

Questions and Answers

Question 1

1. RFP Attachment D, 89/1 Section L.2, Factor 4/Past Performance, Relevant Experience/Past Performance

Section L states that offerors may provide “up to three” relevant projects, while Attachment D states that each offeror “must submit” past performance information on a minimum of three contracts. Please clarify the number of past performance projects an offeror is required and permitted to submit. Specifically: (1) if three projects is the minimum requirement, may an offeror submit more than three relevant past performance projects; or (2) if offerors may submit up to three projects, may an offeror submit fewer than three without being considered noncompliant or otherwise adversely evaluated? Please also clarify how the Government will evaluate an offeror that submits fewer or more than three projects.

Response: Section L.2, Factor 4 will be amended to remove the "up to three (3)" limitation and to read "a minimum of three (3) and no more than five (5)" relevant projects. If more than five are submitted, the Government will evaluate only the first five in the order presented. An offeror that submits fewer than three references will not be found non-compliant, but the Government will evaluate only what is submitted; an offeror with no recent, relevant past performance will be rated Neutral/Unknown confidence in accordance with Section M.4 and FAR 15.202(c). Quantity itself is not scored; relevance, recency, and quality of performance are. **(See Revised RFP Section L.2 Factor 4)**

Question 2

2. RFP Attachment D, 89/1 Section L.2, Factor 4/Past Performance, Recency of Past Performance

Section L limits relevant past performance to contracts performed within the last three (3) years from the posting of the RFP, while Attachment D permits contracts performed within the last five (5) years. Please clarify the applicable recency period for relevant experience/past performance and revise the solicitation and/or Attachment D as appropriate to ensure consistency.

Response: Section L.2, Factor 4 and Section M, Factor 4 will be amended by the same amendment that issues these responses to substitute "within the last five (5) years from the date of solicitation posting" for "within the last three (3) years." **(See Revised RFP Section L.2 Factor 4)**

Question 3

3. RFP 89 Section L.2, Factor 4, Relevant Experience/Past Performance

For purposes of Factor 4 – Relevant Experience/Past Performance, will the Government consider relevant contracts performed by proposed subcontractors when the subcontractor will perform a meaningful portion of the corresponding work under the resulting contract? If so, may one or more of the offeror’s submitted past performance projects be contracts performed by the proposed subcontractor, and how will subcontractor past performance be considered in the Government’s relevance and performance confidence assessments?

Response: The Government will consider contracts performed by a proposed subcontractor, teaming partner, or joint-venture member where that entity will perform a meaningful portion of the work under the resulting contract. One or more of the required references may be a subcontractor reference,

provided the offeror identifies the entity, the portion of this requirement that entity will perform, and the workshare (dollar or percentage) it performed on the referenced contract. Such references are evaluated for relevance and quality on the same basis as prime references; however, the Government will consider the degree to which the referenced performance is likely to be brought to bear on this requirement in assigning the performance confidence rating. Offerors are cautioned that a proposal relying exclusively on partner past performance may receive less confidence than one demonstrating the offeror's own comparable record.

Question 4

4. RFP Attachment D, 89/1.-6, Section L.2 Factor 4 Past Performance Questionnaire, CPARS /Past Performance Questionnaire.

For Federal contracts for which an official CPARS evaluation is available, may an offeror submit the applicable CPARS evaluation in lieu of the client-completed Past Performance Questionnaire in Attachment D, or in addition to Attachment D? If subcontractor past performance is permitted, may CPARS evaluations associated with a proposed subcontractor's relevant Federal contracts likewise be submitted and considered under Factor 4?

Response: For any Federal contract with a completed CPARS evaluation, the offeror may submit the CPARS report in lieu of, or in addition to, the Attachment D questionnaire, and the Government will consider it. CPARS evaluations for a proposed subcontractor's relevant Federal contracts may likewise be submitted and will be considered under Factor 4 on the same basis described in the response to Question 3. Offerors should submit CPARS reports as attachments to Volume I and identify the referenced contract number for each.

Question 5

5. RFP 88-89, Section L.2, Factors 1-4, Corporate vs. Individual Experience

Where proposed key personnel possess highly relevant experience obtained while employed by another organization, may that individual experience be presented and evaluated within the Technical Approach, Management/Staffing, and Key Personnel portions of the proposal, distinct from corporate past performance? Please clarify how the Government will distinguish and evaluate offeror corporate experience, proposed subcontractor experience, and individual key personnel experience.

Response: Individual experience of proposed personnel gained at another organization may be presented and will be evaluated under Factor 1 (Technical Approach) and the Staffing/Key Personnel factor, which is where personnel qualifications are assessed. It will not be credited as the offeror's corporate past performance under Factor 4. The Government will distinguish the three as follows: (a) offeror corporate experience and subcontractor/partner experience are evaluated under Factor 4 as described in the response to Question 3; (b) individual key personnel and labor-category qualifications are evaluated under the Staffing/Key Personnel factor against PWS Sections 7.1, 7.2, and Appendix A; and (c) demonstrated technical understanding, however acquired, is evaluated under Factor 1.

Question 6

6. RFP 88-93, Section L.2/Section M, Factors 2 - 3,

Section L and Section M appear to use different titles and/or descriptions for Factors 2 and 3. Please clarify the final title, proposal content requirements, evaluation criteria, and relative importance applicable to Factors 2 and 3, and revise the solicitation as necessary so that offerors can organize their proposals consistent with the Government's intended evaluation methodology.

Response: The factor titles and order are: Factor 1 - Technical Approach and Understanding of OCRM Requirements; Factor 2 - Staffing, Key Personnel, and Labor Category Qualifications; Factor 3 - Management Plan, Quality Control, and Task Order Execution; Factor 4 - Relevant Experience and Past Performance. Relative importance is as stated in Section M.2: Factor 1 is most important; Factor 2 is second in importance; and Factors 3 and 4 are of equal importance to one another. Section L.2 will be amended to conform its factor titles and content requirements to Section M, and the stray parenthetical "(Factor 1)" in the Section L.2 Factor 3 heading will be deleted. Offerors should organize Volume I using the Section M factor titles; content placed under a differently titled heading will still be evaluated under the factor to which it pertains. **(See Revised RFP Section L and M)**

Question 7

7. RFP 88-93, Section L.2/Section M, Factor 3,

Section L establishes a ten-page limit for Factor 1, a ten-page limit for Factor 2, and a six-page limit for Factor 4, but does not identify a page limit for Factor 3. Please confirm the page limit applicable to Factor 3. Please also clarify whether the Draft Management Work Plan, Quality Control/Quality Assurance Plan, Transition Plan, and key personnel resumes are included within the applicable factor page limits or may be submitted as separate attachments excluded from those limits.

Response: Factor 1 (Technical Approach) is limited to 10 pages, Factor 2 (Management Approach) to 10 pages, and Factor 4 (Past Performance / Prior Experience) to 6 pages excluding Attachment D. Section L.2 states no limit for Factor 3; the amendment will establish one. The Government intends to set the Factor 3 narrative at 10 pages, with the Draft Management Work Plan, the draft Quality Assurance Plan, and the Transition (Phase-In/Phase-Out) Plan submitted as attachments to Volume I and limited to 5 pages each. Key personnel resumes are excluded from the factor page limits and are limited to 2 pages per resume. The Attachment D questionnaires are excluded from the Factor 4 limit, and the Attachment F organizational conflict of interest response is excluded from all page limitations under paragraph 2 of that attachment. Offerors are reminded of the Section L instruction to be clear, concise, and complete; volume alone is not credited. [FOR CO ACTION: the amendment must add to Section L.2 the Factor 3 page limit, the 5-page limit per required plan, and the 2-page limit per resume stated above.] **(See Revised RFP Section L)**

Question 8

8. RFP/PWS, 88-/6, Factor 1/PWS Section 8.1, SBA Systems and OCRM Specific Experience

Factor 1 requires demonstrated capability related to the Lender Portal, CAFS, and other diagnostic tools, while PWS Section 8.1 states that SBA will provide training for tasks unique to SBA/OCRM. Please clarify whether prior hands-on experience with the Lender Portal, CAFS, OCRM protocols, or other SBA-specific systems is required for proposed personnel at the time of proposal submission, or whether personnel with demonstrated experience in comparable banking, lending, financial analysis, credit-risk, regulatory, or oversight systems will receive full consideration and subsequently receive SBA/OCRM-specific training.

Response: Prior hands-on experience with the Lender Portal, CAFS, or OCRM protocols is not a mandatory minimum qualification for proposed personnel at the time of proposal submission. Personnel with demonstrated experience in comparable commercial banking, government-guaranteed lending, credit-risk, financial-analysis, audit, or financial-institution supervisory or oversight systems will receive full consideration, and SBA will provide SBA/OCRM-specific training under PWS Section 8.1. Under Factor 1, the Government will evaluate the offeror's demonstrated capability to use these or functionally analogous systems and the credibility of its approach to bringing personnel to proficiency; demonstrated direct SBA system experience may be evaluated as a strength.

Question 9

9. RFP/PWS Appendix A, 29-33/20-24, Factor 1/Financial Analyst Position Description, SBA Lending Experience

Please clarify whether prior SBA 7(a), 504, delegated lending, or OCRM experience is a minimum requirement or a preferred qualification. Where SBA-specific experience is identified as preferred, will comparable experience in commercial banking, government-guaranteed lending, credit risk, financial institution oversight, audit, accounting, or regulatory environments satisfy the underlying experience requirement?

Response: Prior SBA 7(a), 504, delegated lending, or OCRM experience is a preferred qualification, not a minimum requirement. Appendix A identifies it as "Preferred." Comparable experience in commercial banking, government-guaranteed lending, credit risk, financial-institution oversight, bank supervision, credit review, internal audit, accounting, or a comparable regulatory environment satisfies the underlying specialized-experience requirement.

Question 10

10. RFP, 88, Section L.2, Management/Transition, Incumbent Information

Is this requirement currently being performed by an incumbent contractor? If so, please provide the incumbent contractor name, incumbent contract number, current period of performance, and current labor-category/staffing profile, to the extent available.

Response: These services are currently performed under an existing contract. Consistent with FAR 15.201, the Government provides the following: incumbent contractor name (The Jardin Group LLC), contract number (47QACA26P0051), current period of performance, and current staffing by labor category (Staffing is Per PWS). Proprietary incumbent pricing will not be released. Offerors should note that Section B.6 (See Attachment B - Pricing Worksheet) states the Government's estimated level of effort for all offerors and is the basis on which price proposals are to be constructed.

Question 11

11. RFP/PWS, 88/7-8, Section L.2, Transition/PWS Sections 9 and 14, Phase in/Knowledge Transfer

If these services are currently performed by an incumbent contractor, what phase-in/transition period does the Government anticipate following award? Please describe the Government’s expectations regarding transfer of work-in-process, records, procedures, outstanding actions, system knowledge, and other institutional knowledge from the incumbent to the successor contractor, including any anticipated overlap period.

Response: The Government anticipates a phase-in period of up to thirty (30) calendar days following award, during which the successor contractor completes security packages, obtains badges and system access, and receives SBA/OCRM-specific training. The Government's expectations for knowledge transfer are: transfer of work-in-process inventories and status; return or transfer of all Government records and files; documentation of desk-level procedures maintained by contractor staff; a list of open and pending actions with status; and coordinated hand-off of Lender Portal and CAFS access. All Government-owned records and work products remain with SBA and will be furnished by SBA, not by the incumbent contractor.

Question 12

12. PWS, 11-12, Section 14.1-14.3, Suitability, PIV, and System Access

Because contractor personnel may not report for duty or access required systems until applicable suitability/access requirements are satisfied or temporary access is approved, please clarify how the

Government anticipates addressing the period between contract award and completion of suitability, PIV, CAFS, Lender Portal, and other required access processes for successor-contractor personnel. Will temporary access, phased onboarding, incumbent overlap, or another transition mechanism be available?

Response: Contractor personnel shall not report for duty until the required suitability or access determination has been favorably adjudicated or temporary access has been approved by the SBA Suitability Office, as stated in PWS Section 14.2. To bridge the interval between award and completion of processing, the Government contemplates: (a) immediate submission of complete Security Packages upon award; (b) requests for temporary access under PWS Section 14.3 where appropriate; (c) phased onboarding, with positions brought on as individuals are cleared; and (d) reciprocal acceptance of existing favorably adjudicated Tier 2 or higher investigations where SBA security determines reciprocity applies. Task Order hours will be authorized consistent with actual onboarding.

Question 13

13. RFP, 5-7, Section B.6, Estimated Staffing Profile

The pricing schedule identifies eight estimated personnel totaling 16,640 hours annually: one On-Site Supervisor, two Financial Analysts, one Administrative Assistant, one Program Analyst I, two Program Analysts II, and one Program Analyst III. Please clarify whether this staffing profile represents: (1) the Government's anticipated initial staffing requirement; (2) estimated annual utilization for proposal evaluation purposes; (3) historical/current staffing; or (4) an illustrative staffing scenario only.

Response: Refer to Questions 20 and 51

Question 14

14. RFP/PWS 5-7/2.3, Section B.6/PWS Sections 4.2 -4.3 and 10, Anticipated Initial Task Order,

Does the Government anticipate issuing an initial Task Order at or near contract award? If so, without committing the Government to a future order, can the Government provide the anticipated scope, labor-category mix, approximate number of personnel or hours, estimated value, and expected period of performance of the initial Task Order for proposal planning purposes?

Response: The Government anticipates issuing an initial Task Order at or near award. For planning purposes only, and without committing the Government, the anticipated initial Task Order is expected to cover the six labor categories and eight positions identified in Section B.6 (See Attachment B - Pricing Worksheet), for a period of performance approximately coextensive with the base period, at a ceiling based on the offeror's awarded fully loaded rates applied to the Section B.6 hours (See Attachment B - Pricing Worksheet).

Question 15

15. RFP/PWS, 4/3, Section B.4/PWS Section 4.3, Concurrent Task Orders

Given the $1.5 million maximum amount identified for an individual Task Order and the substantially larger total IDIQ ceiling, does the Government anticipate issuing multiple Task Orders concurrently? If so, should offerors demonstrate the capacity to staff and manage multiple concurrent Task Orders beyond the eight-person annual staffing profile shown in Section B.6 (See Attachment B - Pricing Worksheet)?

Response: The Government does not anticipate issuing multiple concurrent Task Orders as a routine matter; the expectation is a single Task Order per contract period covering the required positions, with

additional Task Orders issued only if a discrete requirement arises. Offerors are not required to demonstrate capacity beyond the eight-person profile in Section B.6 (See Attachment B - Pricing Worksheet), but should describe surge capability for peak oversight periods as required under the Staffing factor. The $1.5 million individual Task Order maximum and the total contract ceiling do not imply concurrent orders.

Question 16

16. RFP/PWS, 5-7/1-4, Section B.6/PWS Sections 3,5 and 6, Additional Labor Categories

The PWS permits ad hoc efforts, special projects, emerging-risk analysis, policy/procedure work, and other OCRM support, while Section B establishes rates for six labor categories. If a future Task Order requires specialized expertise not reasonably encompassed by the established labor categories, may additional labor categories and rates be added by bilateral contract modification or proposed at the Task Order level?

Response: If a future requirement calls for expertise not reasonably encompassed by the six awarded labor categories, additional labor categories and fully loaded rates may be added by bilateral modification to the IDIQ, negotiated for fairness and reasonableness, before any Task Order is issued against them. Offerors should not propose additional labor categories or rates in Attachment B; Attachment B shall be completed exactly as issued.

Question 17

17. RFP/PWS, 5/4-5, 29, Section B.6/PWS Sections 7 1.7-7.2/Appendix A, Project Manager and On-site Supervisor

PWS Section 7.1 states that the Project Manager is Key Personnel, shall not be billed directly to SBA, and shall have its costs absorbed in fully loaded labor rates. Section 7.2 states that the Project Manager shall serve as the On-Site Supervisor, while the On-Site Supervisor is a separately priced labor category for which the pricing schedule includes 2,080 annual hours. Appendix A further describes the On-Site Supervisor responsibilities as collateral duties of an individual who also holds a PWS labor-category position. Please clarify the Government’s intended staffing and billing construct. Specifically, may the same individual serve as Project Manager and On-Site Supervisor and bill authorized On-Site Supervisor or other labor-category hours while performing non-separately-billable Project Manager responsibilities as collateral duties? If not, please clarify how these requirements are intended to be staffed and priced.

Response: The Government's intended construct is as follows. (a) The On-Site Supervisor is a separately priced, separately billable labor category (CLIN 0001/1001/2001/3001/4001) and is one of the eight positions reflected in Section B.6 (See Attachment B - Pricing Worksheet) . The individual filling it is a working, full-time on-site employee who performs substantive labor-category work for OCRM and performs the supervisory duties in PWS Section 7.2 and Appendix A as a collateral duty. All hours for that individual are billed under the On-Site Supervisor CLIN at the awarded On-Site Supervisor rate; that individual shall not also be counted or billed under another CLIN, so there is no double counting. (b) The Project Manager is a separate, non-billable management function whose cost is absorbed in the fully loaded rates in accordance with PWS Section 7.1, and is not one of the eight positions in Section B.6 (See Attachment B - Pricing Worksheet) . (c) Because more than three contractor employees will be placed at SBA Headquarters, the Project Manager is not required to serve as the On-Site Supervisor; consistent with Appendix A, the Project Manager serves as On-Site Supervisor only where fewer than three contractor employees are placed at an SBA site. The sentence in PWS Section 7.2 stating "The Project Manager shall serve as the On-Site Supervisor" will be revised by amendment to align with Appendix A. The same individual may serve in both roles at the

offeror's option, but in that case only the On-Site Supervisor labor-category hours are billable and Project Manager duties remain non-billable. **(See Attachment C, section 7.2)**

Question 18

18. RFP/PWS, 88/4, Section L.2/PWS Section 7.1, Project Manager Level of Effort

Section L requires offerors to state the percentage of time the Project Manager will commit to the contract, while PWS Section 7.1 prohibits direct billing of the Project Manager. Does the Government have an anticipated or minimum Project Manager level of effort or percentage commitment for evaluation purposes? If not, please confirm that offerors may propose the level of Project Manager effort they determine appropriate to successfully manage the IDIQ and resulting Task Orders.

Response: PWS Section 7.1 prohibits direct billing of Project Manager time; it does not prescribe a minimum level of effort. The Government has no minimum or anticipated Project Manager commitment percentage for evaluation purposes. Offerors may propose the level of Project Manager effort they determine necessary to manage the IDIQ and resulting Task Orders, and the Government will evaluate the credibility and sufficiency of the qualification under the Staffing/Key Personnel factor.**(See Attachment C, Section 7.1)**

Question 19

19. PWS/QASP, 14-15/31/32, PWS Section 18, 19 and 21/QASP Section 3 and 4, Government Direction and Non-Personal Services,

The solicitation characterizes this requirement as non-personal services, and PWS Section 21 states that Contractor employees will be controlled and supervised at all times by Contractor management and will perform independently without Government supervision. However, the QASP provides that the OCRM Director or designee will provide day-to-day technical guidance, determine start and end times, confirm work schedules and hours, advise on operational priorities and workload distribution, and verify Contractor personnel time sheets. Please clarify the intended division of responsibilities among the OCRM Director/designee, COR, Contractor Project Manager, and On-Site Supervisor for assigning work, establishing schedules and priorities, providing technical direction, evaluating day-to-day performance, and supervising Contractor personnel. Specifically, how will Government technical direction be administered through Contractor management to preserve the non-personal services relationship required by the solicitation?

Response: The requirement is and remains non-personal services. Responsibilities divide as follows. The Contracting Officer is the only official authorized to direct, change, or amend the contract or a Task Order. The COR provides technical direction within scope, reviews and accepts deliverables, and verifies hours for invoice-review purposes. The OCRM Director or designee identifies operational priorities, required coverage hours, workload distribution, and technical requirements, and provides feedback on the adequacy and quality of work products. All such direction is operational and technical in nature, is communicated to and through the Contractor's Project Manager and On-Site Supervisor, and does not constitute supervision of contractor employees. The Contractor's Project Manager and On-Site Supervisor retain exclusive authority over the supervision of contractor employees, including assignment of individuals to work, establishment of individual work schedules within the Government-identified coverage window, approval of leave, timecard certification, performance appraisal, and discipline. Verification of hours by the Government is for contract administration and invoice review only. The QASP will be revised to state that the OCRM Director or designee identifies required coverage hours and priorities and verifies hours worked, rather than "determines start and end times" for contractor personnel, so that the non-personal services relationship is preserved. **(See PWS Attachment B QASP Section 3.3)**

Question 20

20. RFP/PWS, 5-7/7-8, Section B.6/PWS Sections 9.3-9.4, 2080 hours/Holidays/Backfill,

Section B.6 uses 2,080 estimated hours per full-time position annually, while PWS Sections 9.3 and 9.4 prohibit work on Federal holidays and Government closures and provide that the Contractor will not be paid for time not worked. Please clarify whether 2,080 hours per position is solely a standardized quantity for price evaluation or represents the Government's expected billable hours. If the Government expects 2,080 hours to be performed, please clarify how offerors should account for Federal holidays, Government closures, employee leave, and other non-billable periods, including whether qualified backfill personnel are expected to achieve the estimated hours or required coverage.

Response: The estimated hours in Section B.6 (See Attachment B - Pricing Worksheet) are a standardized quantity used to establish a common basis for price evaluation; they are not a guarantee of billable hours and do not obligate the Government to order them. Because PWS Sections 9.3 and 9.4 prohibit work on Federal holidays and during Government closures and provide that the Contractor is not paid for time not worked, the estimate is being revised to reflect productive hours. Section B.6 and Attachment B as issued state 2,080 hours per position per year, or 16,640 hours for the eight positions. **SBA has established the estimating basis as 1,912 productive hours per position per year** - 2,080 hours less 88 hours for the 11 Federal holidays and less 80 hours for 10 business days of personal leave - or 15,296 hours per year for the eight positions. Section B.6 and Attachment B will be amended to 1,912 hours per position. Offerors shall price the quantities as amended and shall make no further adjustment for holidays, closures, or leave. Offerors are not required to backfill or to work additional hours to reach the estimated quantity. The Government expects the required positions to be covered during the core hours addressed in PWS Section 9.1, and the Contractor is paid only for hours actually worked and accepted. **(See Attachment C, Section 9.3 and 9.4)**

Question 21

21. PWS/QASP, 7/33-35, PWS Section 9.3/QASP Performance Requirement Matrix, Hours of Operation/Coverage

The PWS requires Contractor personnel to work eight-hour days and forty-hour workweeks within the 0630-1800 EST/EDT operating window, while the QASP references maintaining coverage during core hours. Please clarify whether the Government requires Contractor coverage throughout the entire 0630-1800 operating window each business day through staggered schedules, or whether each assigned employee will work an eight-hour schedule within that window as established by Contractor management consistent with Government coverage requirements.

Response: 0630 to 1800 EST/EDT is the operating window within which contractor personnel may be scheduled; it is not a requirement that every position be staffed for the entire 11.5 hours. Each assigned employee works an eight-hour day and a forty-hour workweek on a fixed schedule established by Contractor management, staggered as necessary so that the coverage hours and operational priorities identified by the Government are met. The phrase "100% coverage during core hours" in Section L.2, Section M, and the QASP performance matrix means the staffing plan provides uninterrupted coverage of the Government-identified coverage requirements across the window, with no unstaffed gap in required positions, and will be clarified by amendment. **(See Attachment C, Appendix B)**

Question 22

22. RFP/PWS, 4/2/8, Section B.1 and B.5/PWS Section 4.1, 4.2 and 10, Task Order Contract Type

Section B.1 states that Task Orders may be issued on a Labor-Hour, Time-and-Materials, or Firm-Fixed-Price basis, while the PWS repeatedly states that Task Orders will be issued on a Labor-Hour basis and Section 10 states that Task Orders will be issued solely on a Labor-Hour basis. Please clarify which Task Order contract type(s) may be used under the resulting IDIQ and revise the solicitation accordingly.

Response: Task Orders will be issued solely on a labor-hour (LH) basis. The Contracting Officer has executed a determination and findings under FAR 16.601(d) that no other contract type is suitable, and PWS Sections 4.1 and 10 state the labor-hour requirement. Section B.1 and Section H.4 will be amended to delete the references to Time-and-Materials and Firm-Fixed-Price ordering. Each Task Order will include a ceiling price that the Contractor exceeds at its own risk, and payment will be made under FAR 52.232-7. **(See revised RFP)**

Question 23

23. PWS/QASP, 8/35, PWS Section 9.5/QASP Performance Objective 11, Overtime Billing

PWS Section 9.5 states that authorized overtime will be billed and paid in accordance with the contract's pricing terms and applicable labor-hour rates, while the QASP states that overtime will be billed at 1.5 times the regular rate. The pricing schedule does not request separate overtime rates. Please clarify the applicable billing methodology for authorized overtime and whether offerors should include or identify overtime rates in their price proposals.

Response: Attachment B does not request overtime rates and offerors shall not propose or enter them. Overtime is not a normal practice under this contract and requires advance written authorization by the Contracting Officer under PWS Section 9.5. Authorized overtime will be billed in accordance with the contract's pricing terms and applicable labor-hour rates and applicable law: for non-exempt employees, at one and one-half times the applicable fully loaded hourly rate for hours worked in excess of forty in a workweek; for exempt employees, at the applicable fully loaded hourly rate. QASP Performance Objective 11 will be revised to reflect this and to remove the unqualified "1.5 times" statement. (**See revised Attachment C Section 9.5**)

Question 24

24. Attachment E/PWS, 1, 10/10, Wage Determination No. 2015-4281/PWS Section 4.2, Service Contract Labor Standards Applicability

Please confirm whether the Government anticipates that the Administrative Assistant is the only proposed labor category subject to the occupational wage rates in Attachment E, with offerors responsible for determining the exempt or non-exempt status of all remaining labor categories in accordance with applicable labor laws.

Response: Confirmed, with the following qualification. Wage Determination No. 2015-4281 applies to all Service-Contract-Labor-Standards-covered, non-exempt positions performing in Washington, DC. The Government's expectation is that the Administrative Assistant is the labor category most likely to be covered by an occupational classification in the wage determination. The Contractor remains solely responsible for determining the exempt or non-exempt status of each of its positions and for correct classification and conformance under the Service Contract Labor Standards, 29 CFR Part 4, and the Fair Labor Standards Act. Positions that qualify as bona fide professional employees are exempt.

Question 25

25. PWS Section 4.1, Task One/RFP Section B.1,

The PWS and SF 1449 state that all Task Orders will be issued solely on a labor-hour (LH) basis, consistent with a Contracting Officer determination that no other contract type is suitable under FAR 16.601(d). However, RFP Section B.1 states Task Orders may be issued as Labor-Hour, Time-and-Materials, or Firm-Fixed-Price. Please clarify which contract/ordering type(s) will actually be used, as this affects our pricing methodology and risk allocation.

Response: (Refer to questions 22)

Question 26

26. PWS Section 7.2/Attachment B Pricing Sheet, CLIN 001/1001/2001/3001/4001

Section 7.2 of the PWS states the On-Site Supervisor role is a collateral duty performed by an individual who also holds one of the other labor category positions, and that the Contractor may bill for On-Site Supervisor hours only to the extent they are included in an awarded labor category. However, the Pricing Sheet and SF 1449 list "On-Site Supervisor" as a separate, independently staffed CLIN with its own FTE and hours. Please clarify whether the On-Site Supervisor position should be priced as a distinct, additional FTE, or whether those hours should be embedded within one of the other five labor categories' fully loaded rates, to avoid double-counting labor in our price proposal.

Response: (Refer to question 17)

Question 27

27. Attachment D, Past Performance Questionnaire

Attachment D directs the Offeror to submit Past Performance Information on a minimum of three comparable contracts as part of the technical quote, but also instructs the Offeror to forward the questionnaire to references for independent submission directly to the Contracting Officer. Please clarify: (1) whether the Offeror's own narrative submission and the client-submitted questionnaire are both mandatory and independently due by the proposal deadline, and (2) whether the client's independent submission may be received after the proposal due date without being considered late or non-responsive.

Response: (1) Both are required. The offeror's own narrative and reference information for a minimum of three contracts is part of Volume I and is due with the proposal; Attachment D expressly requires it "as part of the technical quote." The offeror shall complete the company-specific fields on pages 1-2 of Attachment D, forward the form pages 3-6 to each reference, and request that the reference complete and email it directly to bertha.russell@gsa.gov with the subject line prescribed on page 3 of Attachment D ("Solicitation 47QACA26R0306 - Past Performance Questionnaire - [Evaluated Company's Name]"). (2) References are requested to submit questionnaires by the proposal due date. Offerors bear the risk of a reference's non-submission; where a questionnaire is not received. The offeror may submit project CPARS in lieu of the questionnaire. **(See Revised RFP Section L and Attachment D)**

Question 28

28. PWS Section 9.1/SF1449 Item 0001

The anticipated period of performance begins October 6, 2026, only about two weeks after the proposal due date of September 21, 2026. Given the Security Package, PIV/HSPD-12, and Suitability Office clearance requirements in PWS Sections 14.1–14.3, please clarify the expected timeline for

adjudicating contractor personnel suitability determinations relative to the anticipated start date, and whether temporary access/clearance is expected to bridge any gap.

Response: (See Revised SF1449 and The Government intends to award in time to begin performance on October 6, 2026, subject to completion of the evaluation and availability of funds. Because Security Packages cannot be submitted before award, the Government expects a phased ramp: complete Security Packages submitted immediately upon award; temporary access requested under PWS Section 14.3 where appropriate; and personnel reporting for duty as individually cleared. Personnel may not report for duty until favorable adjudication or approved temporary access. **(See Attachment C, Section 14)**

Question 29

29. PWS Section 6/Attachment B Pricing Sheet

The PWS states the Government may elect not to backfill immediately when a contractor employee leaves, and that a bilateral modification would reduce Task Order price accordingly if fewer positions than stated are provided. Please confirm whether Offerors have flexibility to propose an alternate FTE mix or total headcount (while still meeting the stated labor categories and total hours), or whether the FTE counts and hours by labor category on the Pricing Sheet are fixed and must be quoted exactly as shown.

Response: The FTE counts and hours by labor category in Attachment B are fixed for pricing purposes and shall be quoted exactly as issued; alternate FTE mixes or headcounts shall not be substituted in the pricing sheet. PWS Section 6 addresses post-award administration only: if a position becomes vacant and the Government elects not to backfill immediately, the parties will bilaterally modify the affected Task Order to reduce price for the unfilled hours. Offerors may describe a proposed alternative approach to labor mix in Volume I as additional information, but the priced quantities in Attachment B must match those issued or the price proposal may be found non-compliant.**(See Attachment C Section 6)**

Question 30

30. PWS Section 9.5/Attachment B Pricing Sheet

The PWS states overtime is not a normal practice and requires advance written CO authorization, but the Pricing Sheet contains no separate line item or rate structure for overtime hours. Please clarify how authorized overtime hours, if any, should be priced and invoiced under the Task Order structure, and whether a separate overtime rate should be included in our price proposal.

Response: (Refer to question 23)

Question 31

31. PWS Sec 6 – Required Personnel Labor Categories

PWS Section 6 states that if the Contractor provides fewer positions than stated in a Task Order (e.g., due to attrition and the Government electing not to backfill immediately), the parties will bilaterally modify the Task Order to reduce the price accordingly. Please clarify the expected mechanism/timeline for this price reduction (e.g., prorated by unfilled hours) so we can appropriately model risk and pricing contingencies.

Response: The price reduction will be prorated. Where a position is unfilled and the Government elects not to require immediate backfill, the affected Task Order will be bilaterally modified to reduce the ceiling by the unfilled hours multiplied by the awarded fully loaded rate for that labor category. The Government will process the modification promptly after the staffing change is reported through

the twice-monthly Contract Employee Report; in the interim, the Contractor bills only hours actually worked, so no reduction is required to prevent overbilling. There is no downward adjustment to awarded hourly rates because of a vacancy. **(See Attachment C, Section 6)**

Question 32

32. PWS Sec 12.2 Quality Assurance Plan

PWS Section 12.2 requires a draft Quality Assurance Plan (QAP) to be submitted with the proposal. Please confirm whether the draft QAP counts toward any technical proposal page limit and, if so, specify the maximum page count expected for this submission.

Response: (Refer to question 7)

Question 33

33. PWS Sec 8.2 Language Requirements

PWS Section 8.2 requires that at least one employee assigned under the contract have business-level Spanish proficiency "when such tasks are required." Please clarify whether this bilingual requirement must be met by a dedicated, specifically-designated employee at contract start, or may be satisfied on an as-needed basis by any qualified team member, and whether it applies across all labor categories or only specific positions (e.g., Financial Analyst, Program Analyst).

Response: The requirement is that at least one employee assigned under the contract have business-level Spanish proficiency when such tasks are required. It is not a dedicated position and is not tied to a specific labor category; it may be satisfied by any qualified assigned team member in any labor category. The Government expects the capability to be available at the start of performance and to be maintained throughout. The individual need not be identified by name in the proposal; offerors should confirm in Volume I how the requirement will be met and maintained. Proficiency will be verified by Contractor certification to the COR at the time of assignment, supported by the employee's qualifications. **(See Attachment C Section 8.2)**

Question 34

34. PWS Appendix A Financial Analyst Position Description

The Financial Analyst position description lists two distinct experience tiers: a GS-11 equivalent (typically one to two years of specialized experience) and a GS-12 equivalent (typically three or more years of progressively responsible specialized experience), with Master's degree preferred especially for higher-level/GS-12 placement. The Pricing Sheet lists 2 FTEs under a single "Financial Analyst" line with one blended rate. Please confirm whether Offerors should propose both GS-11 and GS-12 equivalent Financial Analysts (i.e., one of each) at differentiated rates, or whether both FTEs should be priced at a single level, and if so, which level SBA expects.

Response: Both Financial Analyst positions are priced at a single blended fully loaded rate under one CLIN, as Attachment B is issued; offerors shall not split the CLIN or propose two differentiated rates. The two experience tiers in Appendix A describe the range the Government expects to be filled. The Government expects at least one of the two Financial Analysts to meet the higher tier (three or more years of progressively responsible specialized experience, and will accept the second at the one-to-two-year tier. Offerors should price accordingly. The GS equivalent has been removed. **(See Attachment C, Appendix A)**

Question 35

35. PWS Appendix A Program Analyst I, II, II Position Descriptions

The PWS distinguishes Program Analyst I (GS-10 equivalent), Program Analyst II (GS-11 equivalent), and Program Analyst III (GS-12 equivalent) as separate labor categories with different qualifications, and the Pricing Sheet separately lines out 1 Program Analyst I, 2 Program Analyst IIs, and 1 Program Analyst III. Please confirm whether Offerors must identify/propose specific named candidates (or at minimum resumes demonstrating the applicable GS-equivalent experience tier) for each of these four Program Analyst positions at proposal submission, or whether staffing to the specific level may occur after award.

Response: Named candidates are not required at proposal submission for the Program Analyst I, II, and III positions, which are not Key Personnel. Offerors shall describe a recruitment, qualification-verification, and retention approach demonstrating the ability to staff each tier at the applicable experience level. Resumes for these positions are not required; if provided, they will be considered under the Staffing/Key Personnel factor, are limited to 2 pages each, and are excluded from the factor page limits. Qualifications for each individual will be verified by the COR against the labor category before the individual is placed. **(See Revise RFP Section L)**

Question 36

36. PWS Sections 7.1 and 7.2 Project Manager and On-Site Supervisor Qualifications

The minimum qualifications listed for the Project Manager (Section 7.1) and the On-Site Supervisor (Section 7.2) are identical (Bachelor's degree or 10 years of relevant experience managing contracts of similar scope and complexity, plus personnel transition experience), and the PWS states the Project Manager shall serve as the On-Site Supervisor when fewer than three employees are placed at a site. Since all work is performed at a single SBA HQ location with six FTEs (exceeding the three-employee threshold), please confirm whether SBA expects the Project Manager and On-Site Supervisor to be the same individual or two distinct individuals under this specific staffing plan.

Response: The Government's intended construct is as follows. (a) The On-Site Supervisor is a separately priced, separately billable labor category (CLIN 0001/1001/2001/3001/4001) and is one of the eight positions reflected in Section B.6 (Attachment B - Pricing Worksheet). The individual filling it is a working, full-time on-site employee who performs substantive labor-category work for OCRM and performs the supervisory duties in PWS Section 7.2 and Appendix A as a collateral duty. All hours for that individual are billed under the On-Site Supervisor CLIN at the awarded On-Site Supervisor rate; that individual shall not also be counted or billed under another CLIN, so there is no double counting. (b) The Project Manager is a separate, non-billable management function whose cost is absorbed in the fully loaded rates in accordance with PWS Section 7.1, and is not one of the eight positions in Section B.6 (Attachment B - Pricing Worksheet). (c) Because more than three contractor employees will be placed at SBA Headquarters, the Project Manager is not required to serve as the On-Site Supervisor; consistent with Appendix A, the Project Manager serves as On-Site Supervisor only where fewer than three contractor employees are placed at an SBA site. The sentence in PWS Section 7.2 stating "The Project Manager shall serve as the On-Site Supervisor" will be revised by amendment to align with Appendix A. The same individual may serve in both roles at the offeror's option, but in that case only the On-Site Supervisor labor-category hours are billable and Project Manager duties remain non-billable. (**Refer to question 17)**

Question 37

37. Administrative Assistant vs. Program Analyst Duties

The Administrative Assistant position description includes "routine bookkeeping and reconciliatory tasks" and "basic understanding of bookkeeping concepts and comfort working with financial or budget-related information," which overlaps with the Program Analyst I description's "basic analysis, and maintenance of spreadsheets or simple dashboards" and "assisting with data collection." Please clarify the scope boundary between the Administrative Assistant and Program Analyst I roles so Offerors can appropriately allocate tasks and avoid duplicative FTE effort in their staffing and pricing approach.

Response: The Administrative Assistant provides clerical, administrative, and secretarial support, scheduling, correspondence and document preparation, records and filing systems, mail and telephone handling, meeting logistics and minutes, supply management, front-line customer service, and routine transactional bookkeeping such as maintaining logs, tracking expenditures, and reconciling simple records. The Program Analyst I performs analytic support: assisting with data collection and validation, building and maintaining spreadsheets and dashboards used for program measurement, preparing charts, tables, and sections of analytic reports, and tracking project actions. The distinction is analytic content and work product, not the software used. Where a task involves interpreting or analyzing data to inform an OCRM oversight or program decision, it belongs to a Program Analyst; where it involves recording, compiling, formatting, or administering, it belongs to the Administrative Assistant. **(See Attachment C, Appendix A)**

Question 38

38. PWS Section 8.1 Training

PWS Section 8.1 states the SBA will provide, at its own expense, training for Contractor employees who perform tasks unique to SBA/OCRM, but does not specify which labor categories or role-specific systems (e.g., Lender Portal, Capital Access Financial System) this training covers, or the expected timeframe for new employees to complete such training before being fully productive. Please clarify the scope and timeline of SBA-provided training by labor category, as this affects our ramp-up and staffing transition planning.

Response: Refer to Question 8

Question 39

39. RFP General

When issued a task order, how long does the Contractor have to meet the SBA’s hiring needs?

Response: The Contractor shall have all positions identified in a Task Order staffed, with personnel submitted for suitability processing, within thirty (30) calendar days of Task Order issuance, and shall submit replacement candidates for any vacancy arising during performance within thirty (30) calendar days. Time attributable to Government suitability processing is excluded from these periods.

Question 40

40. RFP General

Does the SBA require review and approval of resumes and require interviewing new staff prior to hiring and placement on this contract?

Response: For Key Personnel (Project Manager and On-Site Supervisor), the Government reviews and approves qualifications, and substitutions require the Contracting Officer's prior written consent

under Section H.2. For non-key labor categories, SBA does not select, approve, or interview contractor employees; doing so would be inconsistent with the non-personal services nature of the contract. The COR will, however, review submitted qualifications to verify that each proposed individual meets the applicable labor-category requirements before placement, as part of the Security Package. **(See Revised RFP Section H.2)**

Question 41

41. Does the government anticipate issuing a single consolidated Task Order per year covering all 8 positions, or multiple concurrent Task Orders (e.g., per labor category or position)?

Response: (Refer to question 15)

Question 42

42. Section L.2, Factor 4 (p. 89) limits past performance references to contracts performed 'within the last three (3) years' and requests 'up to three (3) relevant projects.' Attachment D (Past Performance Questionnaire, p. 1) instead requires 'a minimum of three (3) contracts... in the last 5 years.' Can you please confirm the correct lookback period and whether three references is a minimum or a maximum.

Response: (Refer to questions 1 and 2)

Question 43

43. Will the Government grant temporary security clearances or allow a transition period for background investigations, given the 15-day window between proposal submission (September 21, 2026) and contract start (October 6, 2026)?

Response: (Refer to questions 11,12 and 28).

Question 44

44. Will the Government accept completed CPARS evaluations in place of Past Performance Questionnaires (Attachment D) if client references are unable to submit forms directly to Bertha Russell by the proposal due date?

Response: CPARS evaluations may be submitted in addition to, or in place of, the Attachment D questionnaire. **(Refer to question 4)**

Question 45

45. PWS Section 7.2 (p. 5) states 'The Project Manager shall serve as the On-Site Supervisor' without qualification, while the On-Site Supervisor position description in Appendix A (p. 29) states this consolidation applies only 'If a Contractor supplies less than three employees to an SBA office.' Is the Project Manager required to also serve as On-Site Supervisor, or can these be separate individuals?

Response: These may be separate individuals. Appendix A governs: the Project Manager serves as the On-Site Supervisor only where the Contractor places fewer than three employees at an SBA office. PWS Section 7.2 will be amended to add that qualification. See the response to Question 17 for the complete construct. **(Refer to question 17)**

Question 46

46. PWS, Para 5.1 Required Outcomes, Required Outcomes 3rd bullet.

Does the Agency have a required template for complete risk-based reviews, Desktop reviews or will contractor develop such reports independently with agency approval?

Response: SBA maintains standard formats, protocols, and work-paper templates for risk-based reviews and Desktop Reviews, and the Contractor shall use the SBA-provided formats and protocols in effect at the time of performance. The Contractor does not independently develop the review methodology, but is expected to recommend improvements to protocols, templates, and analytic methods for OCRM's consideration and approval. **(See Attachment C 5.1)**

Question 47

47. PW, Para 7.2 On Site Supervisor, ON Site Supervisor

This section states that "an On-Site Supervisory for each SBA site on which the Contractor has placed three or more Contractor employees." How many SBA sites does agency anticipate under task orders and in which locations in the country?

Response: All work under this requirement is performed at SBA Headquarters, 409 3rd Street SW, Washington, DC 20416. The Government does not anticipate performance at any other location, and accordingly a single On-Site Supervisor is required. Section F.2 permits a different location only if specified in an individual Task Order; none is anticipated. **(See PWS Section 7.2)**

Question 48

48. PWS, Para 7.2 ON Site Supervisor, On Site Supervisor

Would you please clarify if On-Supervisor can be a Financial Analyst II given that the first paragraph of this section indicates that "On-Site Supervisor responsibilities shall be a collateral duty of individuals encumbering one of the positions."

Response: (Refer to question 17)

Question 49

49. PWS, Section 9.3, Hours of Operation

This paragraph states, "The Government will identify required coverage hours and operational priorities, and the Contractor shall schedule its personnel to meet those requirements while maintaining contractor supervision consistent with the non-personal services nature of the contract." Are these hours all on-location or some are remote?

Response: All hours are performed on site at SBA Headquarters. No telework or remote performance is authorized for any labor category unless expressly authorized in an individual Task Order or in writing by the Contracting Officer. PWS Section 13.1 provides that the Government furnishes on-site workspace and equipment. **(See Attachment C PWS, Section 7.2 and 13.1)**

Question 50

50. Program Analyst II. Attachment B, CLIN 0005, lists two Program Analyst II positions. Please confirm that the requirement is for two Program Analyst II positions.

Response: Refer to Questions 13, 20, and 51

Question 51

51. Estimated hours. Attachment B estimates 2,080 hours per position per year, while task orders under the incumbent contract were issued at 1,960 hours per position. Please confirm the basis for the 2,080-hour estimate, given that contractor personnel do not work on the eleven Federal holidays (PWS 9.4).

Response: Section B.6 (Attachment B - Pricing Worksheet) and Attachment B as issued state 2,080 hours per position per year, or 16,640 hours for the eight positions. SBA has established the estimating basis as 1,912 productive hours per position per year - 2,080 hours less 88 hours for the 11 Federal holidays and less 80 hours for 10 business days of personal leave - or 15,296 hours per year for the eight positions. Section B.6 and Attachment B will be amended to 1,912 hours per position. THe Optional 6 month extension has been removed and will be priced at a future date as needed. Offerors shall price the quantities as amended and shall make no further adjustment for holidays, closures, or leave. The revised quantity remains a standardized estimate used to evaluate price on a common, arithmetically consistent basis; it is not a representation of hours that will be ordered. Actual authorized hours will be stated in each Task Order, under which the Contractor is paid only for hours actually worked and accepted. [FOR CO ACTION: Section B.6 and Attachment B must be reissued by amendment at 1,912 hours per position, 15,296 hours per year, and 7,648 hours for the six-month extension, before these responses are released. **(See Attachment B)**

Question 52

52. Questions are due September 14, 2026 at 9:00 a.m. EST and proposals are due September 21, 2026 at 9:00 a.m. EST. This allows offerors approximately five business days after the question deadline, and fewer once the answering amendment is posted. Given that Volume I requires a Draft Management Work Plan, Draft Quality Control Plan, Transition Plan, OCI disclosure and mitigation plan, key personnel qualifications, and up to three past performance references with completed questionnaires, will the Government extend the proposal due date to provide at least ten business days following publication of the Q&A amendment?

Response: The proposal due date is extended to September 29, 2026 by 9:00 am EST. All other terms remain unchanged.

Question 53

53. On what date does the Government intend to post the amendment containing answers to questions? If answers are posted fewer than five business days before the proposal due date, will the due date be extended accordingly?

Response: The amendment containing these responses is scheduled for posting to SAM.gov on September 19, 2026.

Question 54

54. The base period is stated as October 6, 2026 through October 5, 2027, with proposals due September 21, 2026. Please confirm the anticipated award date and whether the Government intends to award in time for performance to begin on October 6, 2026.

Response: Period of performance date is changed to November 6, 2026

Question 55

55. Section L.2 Factor 2 requires a Draft Management Work Plan (MWP) addressing project oversight, training, recruitment, retention, and understanding of Federal Credit Regulations and OMB guidelines. The MWP is not referenced in Section M or in the Section L.5 submission checklist.

Please confirm whether the MWP is a required submission and identify the evaluation factor under which it will be assessed.

Response: Refer to Question 7

Question 56

56. Section L.2 Factor 2 requires "Execution Protocols" covering burn-rate controls, invoice preparation, twice-monthly employee reports, and ad-hoc risk support. Section M evaluates burn-rate control under Factor 3 and reporting accuracy and timeliness under Factor 2. Please confirm where offerors should address execution protocols so the material is evaluated under the intended factor.

Response: Refer to Question 6

Question 57

57. Will the Government provide templates or required data-element lists for the Monthly Status Report, the Monthly Burn Rate Report, the Contract Employee Report, and the performance metrics format referenced in PWS 11.5? If templates exist, will they be released before the proposal due date so offerors may reflect them in the Management Approach?

Response: SBA will furnish the current templates and required data elements for the Contract Employee Report, Monthly Status Report, Monthly Burn Rate Report, and PWS Section 11.5 performance metrics at the post-award kickoff conference. The minimum required data elements for each are stated in PWS Sections 11.1 through 11.5 and are sufficient for proposal preparation; templates will not be released before the proposal due date.

Question 58

58. Section L.2 Factor 4 limits discussion to contracts "within the last three (3) years from the posting of the RFP." Does a contract qualify if any portion of performance occurred within that three-year window, or must the contract have been completed within the window, or be currently active?

Response: Refer to Question 2

Question 59

59. Section L.2 Factor 4 requires each reference narrative to explain how the contract relates to "risk management, financial analysis, or lender oversight services," while Section M Factor 4 evaluates the record of performance in "risk management, financial analysis, or similar administrative support services." Please confirm whether administrative support services contracts without a credit-risk or lender-oversight nexus will be assessed as relevant, and how such references will be weighted in the performance confidence assessment.

Response: Relevance requires a nexus to the work in this PWS. A contract limited to general administrative or clerical support, with no risk management, financial analysis, credit-risk, or lender- or financial-institution-oversight content, will generally be assessed as not relevant or of limited relevance and will carry correspondingly less weight in the performance confidence assessment. Section M Factor 4 will be confirmed by amendment to read "risk management, financial analysis, lender oversight, or closely related analytical support services." Administrative support experience remains useful in demonstrating the ability to staff and manage on-site support of comparable scale, and offerors may present it on that basis. **(See Revised RFP Section M Factor 4)**

Question 60

60. Section M Factor 4 states that relevance will consider similarity of "scope, complexity, and contract value." Please state the dollar-value threshold or range the Government will consider relevant for this requirement.

Response: The Government will not establish a dollar-value threshold. Relevance is assessed on the integrated similarity of scope, complexity, and value. For reference, this requirement contemplates on-site staff augmentation of approximately eight full-time positions performing risk management, financial analysis, and administrative support, with an estimated total contract ceiling of $9.5 million over a base year and four option years. Contracts of substantially smaller annual value or scale may still be found relevant where the scope and complexity of the work closely correspond.

Question 61

61. Are past performance references from proposed subcontractors, teaming partners, or joint venture members permitted, and will they be evaluated? If permitted, how many of the three references may be partner references?

Response: Refer to Question 3. S

Question 62

62. Please confirm that an offeror without past performance meeting the recency and relevance criteria will receive a Neutral/Unknown confidence rating consistent with Section M.4 and FAR 15.305(a)(2)(iv), and will be neither favorably nor unfavorably evaluated on that basis.

Response: An offeror without past performance meeting the recency and relevance criteria will be assigned a Neutral/Unknown confidence rating and will be evaluated neither favorably nor unfavorably on that basis, consistent with Section M.4 and FAR 15.202(c).

Question 63

63. Please confirm whether a joint venture, including an SBA-approved mentor-protégé joint venture under 13 CFR 125.9 and 127.506, is eligible for award. If so, please specify the WOSB certification and joint venture agreement documentation that must accompany the proposal.

Response: A joint venture, including an SBA mentor-protege joint venture, is eligible for award provided the joint venture complies with 13 CFR 127.506 and, for mentor-protege joint ventures, 13 CFR 125.8 and 125.9, and provided the required WOSB certification is held as prescribed by 13 CFR 127.503 and 127.506 at the time of proposal submission and at award. With its proposal the offeror shall submit: the written joint venture agreement containing all provisions required by 13 CFR 127.506(c) (and 13 CFR 125.8(b) for a mentor-protege joint venture); evidence of the SBA-approved mentor-protege agreement, if applicable; documentation of SBA WOSB certification for the applicable venturer; the joint venture's SAM.gov registration and representations; and identification of the responsible managing venturer, project manager, and the workshare performed by each venturer.

Question 64

64. Please confirm the limitation on subcontracting applicable to this services set-aside - specifically the percentage of the amount paid under the contract that may be paid to firms that are not similarly situated entities - and state how compliance will be assessed at the proposal stage.

Response: The limitation on subcontracting at FAR 52.219-14 and 13 CFR 125.6 applies. For a services contract (other than construction), the Contractor may not pay more than fifty percent (50

percent) of the amount paid by the Government to firms that are not similarly situated entities; work performed by a similarly situated subcontractor (an SBA-certified WOSB small business subcontractor under the same NAICS code and size standard) is excluded from that fifty percent. Compliance is a matter of contract performance, certified by the offeror through its representations and certifications. At the proposal stage the Government may assess whether the proposed teaming arrangement, staffing plan, and pricing appear consistent with the limitation, and may seek clarification where they do not.

Question 65

65. May a firm that is not a certified WOSB perform as a subcontractor under this contract, and may non-WOSB subcontractor personnel fill the Financial Analyst, Program Analyst, or On-Site Supervisor positions?

Response: A firm that is not a certified WOSB may perform as a subcontractor, and non-WOSB subcontractor personnel may fill the Financial Analyst, Program Analyst, or On-Site Supervisor positions, subject to the limitation on subcontracting described in the response to Question 64 and to the Key Personnel provisions of Section H.2 for the On-Site Supervisor. Only the prime offeror must be an SBA-certified WOSB.

Question 66

66. Section L.3 item 5 requires "proof of current SBA-certified WOSB status in the SBA certification system." Please specify the acceptable documentation (for example, a certification letter, a screenshot of the certify.sba.gov record, or the SAM.gov representation) and confirm whether certification must be reflected in both SAM.gov and the SBA certification system as of the proposal due date.

Response: Acceptable documentation is a copy of the SBA WOSB certification letter or a dated screenshot or export of the offeror's certification record from the SBA certification system (certify.sba.gov / the SBA Certification portal) showing active WOSB certification. The offeror shall also submit its current SAM.gov record reflecting the WOSB representations at FAR 52.219-1 / 52.212-3. The offeror must be certified in the SBA certification system and have completed the corresponding SAM.gov representations as of the proposal due date and must remain eligible at the time of award.

Question 67

67. Section H.1 requires the Contractor to disclose "any financial or business relationships with entities currently under review or audit by the Government." Offerors have no visibility into which lenders are under OCRM review or audit. Please clarify the intended scope of this disclosure - for example, whether it is limited to SBA 7(a) participating lenders - and how an offeror can make a complete disclosure without access to that information.

Response: The disclosure is based on the offeror's own knowledge and is not intended to require knowledge of non-public SBA review or audit activity. For purposes of Section H.1 and PWS Section 22, offerors shall disclose: (a) any current or recent (within three years) financial, ownership, or business relationship with an SBA 7(a) or 504 participating lender, an SBA Supervised Lender or SBLC, a lender service provider, or an agent operating in SBA's lending programs; (b) any engagement to provide consulting, audit, compliance, underwriting, servicing, liquidation, or litigation support services to such an entity; and (c) any matter known to the offeror in which such an entity is under Federal or state review, audit, examination, or enforcement action. Offerors are not expected to disclose review or audit status that is not publicly known or otherwise known to them. Section H.1 will be clarified by amendment accordingly.

Question 68

68. Would an offeror's or proposed subcontractor's performance of services for an SBA 7(a) participating lender constitute a disqualifying organizational conflict of interest, or an OCI that may be mitigated? Please describe the mitigation measures the Government would consider acceptable.

Response: Attachment F (Organizational Conflict of Interest), as revised and posted September 11, 2026, requires each offeror - inclusive of any subcontractors, consultants, or teaming partners - to disclose any actual or potential conflict relating to this requirement and to address it in accordance with FAR Subpart 9.5, submitting an OCI Avoidance or Mitigation Plan if a real or apparent conflict is identified. Performance of services for an SBA 7(a) participating lender therefore creates a potential OCI to be disclosed and evaluated, not an automatic disqualification. Mitigation measures the Government would consider include: organizational and physical firewalls with documented information barriers; exclusion of individuals with the relationship from any work touching the affected lender or its portfolio; recusal and screening procedures with COR notification; individual non-disclosure and conflict certifications; a prohibition on the affected business unit's access to OCRM work product; periodic certification of continued compliance; and, where mitigation is not feasible, divestiture or non-assignment. Under Attachment F, paragraph 2, the Contracting Officer reviews the OCI submission separately from the technical evaluation and determines eligibility for award; only a conflict that cannot be avoided, mitigated, or neutralized renders the offeror ineligible.

Question 69

69. Would prior or concurrent contract performance for SBA's Office of Capital Access outside of OCRM, or for other SBA program offices, create an actual or potential OCI under this requirement?

Response: Prior or concurrent performance for SBA's Office of Capital Access outside OCRM, or for other SBA program offices, does not by itself create an OCI. It must nonetheless be disclosed under Attachment F so the Contracting Officer can assess whether an unequal-access-to-information or impaired-objectivity concern exists - for example, work involving loan origination, servicing, purchase, or program policy that the Contractor would subsequently review or analyze under this contract. Attachment F identifies concurrent performance on 504 loan compliance reviews or other financial consulting roles for SBA as an illustrative concern. Where such a concern exists, it will be addressed through mitigation as described in the response to Question 68.

Question 70

70. Does the OCI disclosure and mitigation plan count against the Management Approach page limit? If an offeror identifies no actual or potential OCI, is a signed statement to that effect sufficient in lieu of a mitigation plan?

Response: Refer to Question 7

Question 71

71. Will the Government make an OCI determination prior to award, and will offerors be afforded an opportunity to revise a mitigation plan if the Contracting Officer finds it inadequate?

These provisions conflict regarding the On-Site Supervisor. PWS 7.1 states the Project Manager's costs are absorbed in G&A and are not separately billable. PWS 7.2 states unconditionally that "The Project Manager shall serve as the On-Site Supervisor," while also describing the On-Site Supervisor role as "a collateral duty of individuals encumbering one of the positions" and billable only to the extent authorized in a Task Order. Appendix A states the Project Manager serves as On-Site Supervisor only where fewer than three contractor employees are placed at a site. Section B.6 (See Attachment B - Pricing Worksheet) prices the On-Site Supervisor as a discrete CLIN at 2,080 hours

per year. Please reconcile these provisions and confirm (a) whether the On-Site Supervisor is a separately billable labor category or a non-billable collateral duty, and (b) the conditions under which the Project Manager serves as On-Site Supervisor.

Response: Refer to Question 17

Question 72

72. If the On-Site Supervisor is billable at 2,080 hours under CLIN 0001, should offerors price that position as an additional full-time equivalent above the other five positions listed in Section B.6 (See Attachment B - Pricing Worksheet), or as a premium applied to an individual already filling one of those positions?

Response: Refer to Question 17.

Question 73

73. Section B.6 identifies 8 employees and 16,640 hours per year (On-Site Supervisor 1; Financial Analyst 2; Administrative Assistant 1; Program Analyst I 1; Program Analyst II 2; Program Analyst III 1). Please confirm that these quantities represent the Government's estimated level of effort for pricing purposes, that offerors are to price to these exact quantities, and that the same quantities apply to each option year.

Response: (Refer to questions 13, 20 and 51)

Question 74

74. Is the Project Manager an additional position beyond the eight employees reflected in Section B.6? Is the Project Manager required to be physically on site, and if so, for what portion of each work week?

Response: (Refer to question 18)

Question 75

75. Section L.2 and Section M require "100% coverage during core hours (0630 am to 6:00 pm EST)," an 11.5-hour window, and the QASP performance matrix requires coverage maintained during core hours 0630–1800. PWS 9.3 provides that contractor personnel work eight-hour days and forty-hour weeks. Please confirm whether continuous staffing across the full 11.5-hour window is required, or whether 0630–1800 is a scheduling window within which each employee works an eight-hour shift. If continuous coverage is required, please confirm whether the Section B.6 quantities are sufficient to provide it.

Response: Refer to Question 21

Question 76

76. If continuous coverage of the 0630–1800 window is required, please identify the specific labor categories and the minimum number of personnel that must be present throughout the window.

Response: Refer to Question 21

Question 77

77. PWS 7.1 and 7.2 both require key personnel to have experience "managing contracts of similar scope and complexity across multiple locations," while Sections B.3 and F.2 establish a single place of performance at SBA Headquarters in Washington, DC. Please confirm whether multi-location

management experience is a mandatory minimum qualification, and whether the Government anticipates performance at any location other than SBA Headquarters.

Response: (Refer to questions 47 & 49)

Question 78

78. Section L.2 Factor 3 requires offerors to "state the specific percentage of time that will be committed to this contract" for key personnel. Please confirm the Government's minimum expected commitment percentage for the Project Manager and the On-Site Supervisor.

Response: (Refer to question 18)

Question 79

79. Are résumés required for the Project Manager and On-Site Supervisor? If so, please state any page limit per résumé and confirm whether résumés are excluded from the factor page count. Are signed letters of commitment or letters of intent required for key personnel?

Response: (Refer to question 7)

Question 80

80. Must offerors propose named candidates for the non-key labor categories (Administrative Assistant, Financial Analyst, Program Analyst I/II/III) at the time of proposal, or is a described recruitment and staffing approach sufficient?

Response: (Refer to question 35)

Question 81

81. PWS 8.2 requires at least one assigned employee with business-level Spanish proficiency. Must this individual be identified in the proposal, and how will the Government verify proficiency? Does this requirement apply to a specific labor category?

Response: (Refer to question 33)

Question 82

82. PWS 8.3 addresses personnel placed in positions requiring the lifting of files and boxes often weighing in excess of twenty-five pounds. Please identify which labor categories this requirement applies to.

Response: PWS Section 8.3 applies to any position to which such tasks are assigned. In practice, the Government expects the requirement to apply principally to the Administrative Assistant and the Program Analyst I positions, which handle files, boxes of files, supplies, and copy paper. It applies to Financial Analyst and Program Analyst II and III positions only incidentally, in connection with loan-file or record handling. The requirement is subject to reasonable accommodation under the Americans with Disabilities Act, as amended.

Question 83

83. The Financial Analyst position description references a "Supervisory Financial Analyst" to whom procedural and policy recommendations are made, and states that the Financial Analyst evaluates reviews prepared by other contractor staff for quality assurance. Please confirm that the Supervisory Financial Analyst is a Government position and is not a contractor labor category to be proposed.72.

Response: The Supervisory Financial Analyst is a Government (SBA/OCRM) position. It is not a contractor labor category and shall not be proposed or priced. References in Appendix A to recommendations made to the Supervisory Financial Analyst, and to contractor Financial Analyst quality review of work prepared by other contractor staff, describe the flow of work product to SBA and internal contractor quality control respectively; final review and acceptance rest with the Government.

Question 84

84. If Firm-Fixed-Price Task Orders are permitted, how should offerors price for that possibility when Attachment B and Section L.3 require only fully loaded hourly rates by labor category? Will FFP Task Orders be priced at the awarded hourly rates applied to a negotiated level of effort?

Response: (Refer to question 22)

Question 85

85. Please confirm that the $25,000 minimum total amount stated in Section B.4 constitutes the Government's guaranteed minimum under this IDIQ.

Response: The $25,000 stated in Section B.4 is the Government's guaranteed minimum for the entire period of performance of this IDIQ. The corresponding maximum is $9.5 million, as stated in PWS Section 4.3. Section B.4 and the ordering limitation in Section I state $9.5 million and will be corrected to $9.5 million by amendment. **(See Revised RFP Section B.4)**

Question 86

86. PWS 4.2 provides that each Task Order will incorporate the relevant Department of Labor wage determination "for the locations where work is to be performed." Please confirm that Washington, DC is the sole place of performance and that WD 2015-4281 is the only applicable wage determination for the base period.

Response: Refer to Questions 47 and 49.

Question 87

87. Are offerors permitted to apply an escalation factor between the base year and the option years? If so, is a specific escalation rate prescribed or capped, and should the basis for escalation be explained in the pricing narrative?

Response: Offerors may apply escalation between the base year and the option years. No specific escalation rate is prescribed and no cap is imposed; proposed rates must be fair and reasonable. The basis for escalation (for example, published wage indices, Employment Cost Index data, or the Contractor's compensation policy) should be explained briefly in the pricing narrative required by Section L.3.

Question 88

88. PWS 9.5 states that overtime is not a normal practice and requires advance written authorization. Should offerors propose overtime rates in Attachment B? If so, please identify where in the pricing sheet they are to be entered.

Response: See the response to Question 23

Question 89

89. Section L.3 requires proposals to "explicitly confirm that the costs for the Project Manager are inclusive." Please confirm the required placement of that statement and whether it must also appear in Volume I. Please also confirm how Project Manager cost is to be reflected in Attachment B, given that no CLIN is provided for the position.

Response: (Refer to questions 17 & 18)

Question 90

90. Section M.3 refers to a realism analysis "if required." Please confirm whether a price realism analysis will be conducted. If so, please identify the supporting data offerors should submit — for example, direct labor rates, indirect rate build-up, or a basis-of-estimate narrative — and confirm whether such data is excluded from any page limit.

Response: The Government will perform a price reasonableness analysis and will assess realism and completeness as described in Section M.3, including whether proposed rates are materially low in a way that raises doubt about recruitment and retention. Supporting data required is limited to the Pricing Narrative under Section L.2 Volume II Price Proposal, which should explain the labor-rate structure, the basis for the proposed rates (for example, market survey, current payroll, or wage determination compliance), and any escalation basis. Direct labor rates and indirect rate build-ups are not required to be submitted, but the Contracting Officer may request additional supporting information. The Pricing Narrative is part of Volume II and is not counted against the Volume I factor page limitations. **(See RFP Section L.1 Volume II Price Proposal)**

Question 91

91. Section G.2 requires invoices to be submitted through the GSA Finance Center or the Invoice Processing Platform. Please confirm the designated invoicing portal and whether registration is required prior to award or prior to first invoice submission.

Response: Invoices shall be submitted electronically through the GSA-designated invoicing system identified in the Task Order; the Government anticipates the Invoice Processing Platform (IPP). Registration is not required before award, but the Contractor shall complete registration in the designated system before submitting its first invoice, and shall ensure its SAM.gov EFT information is current.

Question 92

92. Section H.3 requires a Tier 2 background investigation for access to CAFS and the SBA Lender Portal. PWS 14.2 requires an SBA Security Package adjudicated by the SBA Suitability Office using SBA forms (OF 306, SBA Form 2044, SBA Form 1228). Section G.4 refers to passes presented for inspection by "GSA Security." Please confirm which agency conducts badging, which conducts suitability adjudication, and which forms apply.

Response: Suitability adjudication is performed by the SBA Suitability Office using the SBA forms identified in PWS Section 14.2 (OF 306, SBA Form 2044, qualifications, citizenship documentation,

together with the COR-completed E-QIP checklist, OPM Position Risk Designation Summary, and SBA Form 1228). Access to CAFS and the SBA Lender Portal is contingent on a favorably adjudicated Tier 2 investigation, adjudicated by SBA. Badging and PIV credentialing for access to SBA Headquarters are administered through SBA's security office under HSPD-12; the reference in Section G.4 to "GSA Security" refers to the building guard force at the leased Federal facility and will be revised to refer to SBA or building security personnel. **(See Revised RFP Section G.4)**

Question 93

93. What is the Government's historical average processing time from submission of a complete Security Package to (a) favorable suitability determination and (b) grant of temporary access? This drives the phase-in schedule and staffing ramp assumptions.

Response: SBA's recent experience is approximately 30 business days from receipt of a complete Security Package to a grant of temporary access, and approximately 30 calendar days to final favorable suitability determination. These are historical averages, not commitments; timelines depend on the completeness of submissions and factors outside SBA's control.

Question 94

94. May contractor personnel perform and be billed under a Task Order during the period between onboarding and final suitability adjudication, where temporary access has been granted under PWS 14.3?

Response: Where temporary access has been granted under PWS Section 14.3, the individual may report for duty and perform, and hours actually worked and accepted are billable under an authorized Task Order at the applicable fully loaded rate. Temporary access is not assurance that final access will be granted, and the Contractor must remove any individual whose access is subsequently denied or withdrawn.

Question 95

95. Must proposed personnel hold a current, favorably adjudicated Tier 2 investigation at the time of proposal submission or at the start of performance, or will the Government initiate investigations after award?

Response: Proposed personnel are not required to hold a current, favorably adjudicated Tier 2 investigation at the time of proposal submission. Investigations are initiated after award, upon submission of the Security Package to the COR. Personnel must have a favorable determination or approved temporary access before reporting for duty and before receiving access to CAFS or the Lender Portal. Where an individual holds a current, favorably adjudicated Tier 2 or higher investigation, SBA may accept it reciprocally, subject to SBA security review. **(See PWS Section 14.1 and 14.2)**

Question 96

96. PWS 14.2 references citizenship documentation for foreign nationals and naturalized citizens. Please confirm whether U.S. citizenship is required for all labor categories, or whether lawful permanent residents are eligible.

Response: U.S. citizenship is not stated as a requirement for every labor category by the PWS. Personnel must be able to obtain and maintain a favorable SBA suitability determination and the investigation level required for access to CAFS and the SBA Lender Portal; PWS Section 14.2 accordingly requires citizenship documentation for foreign nationals and naturalized citizens. [FOR SBA ACTION: the SBA Suitability Office and the system owners for CAFS and the SBA Lender

Portal must confirm, before these responses are released, (a) whether U.S. citizenship is required for access to those systems, (b) whether lawful permanent residents are eligible for the positions, and (c) that Tier 2 is the correct investigation level for the work described in the PWS.]

Question 97

97. PWS 8.1 provides that SBA will train contractor employees on tasks unique to SBA/OCRM at Government expense. Please describe the expected duration of Lender Portal and CAFS training and the period before newly onboarded personnel are expected to be fully productive. Are training hours billable to a Task Order?

Response: Refer to Question 11.

Question 98

98. Section L.2 Factor 2 requires a draft Phase-In/Phase-Out plan ensuring no disruption to OCRM operations. Please state the anticipated phase-in period duration and confirm whether phase-in is separately funded under a Task Order or is to be performed at the contractor's expense.

Response: Refer to Question 11.

Question 99

99. Given proposals due September 21, 2026 and a base period beginning October 6, 2026, please confirm the number of calendar days the Government anticipates between award and full performance, and whether a phase-in overlapping incumbent performance is contemplated.

Response: (Refer to question 11)

Question 100

100. Will the Government release the incumbent's current staffing levels by labor category and current fully loaded hourly rates? If not, please confirm that the Section B.6 estimated quantities are the sole basis on which offerors are expected to construct their price proposals.

Response: (Refer to question 10)

Question 101

101. To support a technically sound approach and a realistic staffing plan, please provide historical annual workload volumes for the following: (a) delegated authority renewals, nominations, add-ons, and re-delegations processed; (b) Desktop Reviews completed; (c) quarterly condition reports and annual reports analyzed for SBA Supervised 7(a) Lenders; (d) 7(a) loan transfers processed; and (e) invoice resolution actions handled.

Response: (Refer to question 10)

Question 102

102. Please indicate the approximate number of SBA 7(a) Lenders within the oversight population, and the number classified as SBA Supervised Lenders, so offerors can size the analytical workload.

Response: Refer to Question 10

Question 103

103. PWS Section 11.1 is titled "Contract Employee Report" but contains no text. The QASP performance matrix (Objective 5) indicates reports are due electronically on the 1st and 16th of each month and must contain required data elements including additions and deletions by name and

position. Please provide the complete content, format, and data-element requirements for the Contract Employee Report.

Response: Refer to Question 57

Question 104

104. PWS Task Three requires "twice-monthly reports"; Section L.2 refers to "twice-monthly employee reports"; Section M Factor 2 refers to "bi-weekly staffing" reports; and the QASP refers to "bi-weekly employee reports" submitted on the 1st and 16th of each month. Please confirm the report is due twice per month (24 per year) rather than every two weeks (26 per year), and confirm all four references describe the same deliverable.

Response: The deliverable is due twice per month, on the 1st and the 16th, for twenty-four (24) submissions per year - not every two weeks. PWS Task Three, PWS Section 11.1, Section L.2, Section M Factor 2, and the QASP all describe the same single deliverable: the Contract Employee Report. The "bi-weekly" references in Section M and the QASP will be corrected to "twice-monthly" by amendment. **(See PWS 11.1, Section L.2, Section M Factor 2, and the QASP)**

Question 105

105. PWS 12.1 states that acceptable quality levels are stated in the attached QASP, and Appendix B contains a Performance Requirements Matrix with AQLs. Please confirm that the AQLs in Appendix B §5.1 are the standards against which performance will be assessed, and that no separate AQL table is forthcoming.

Response: The Acceptable Quality Levels in the Performance Requirements Matrix at Appendix B, Section 5.1 are the standards against which performance will be assessed. No separate AQL table is forthcoming. PWS Section 12.1 points to the attached QASP for that purpose.

Question 106

106. PWS 24 requires all electronic and information technology deliverables to comply with Section 508 and the Revised 508 Standards. Please confirm whether the Government will furnish accessible templates for reports and dashboards, and whether remediation of Government-furnished source data or legacy documents falls within the scope of this contract.

Response: SBA will furnish accessible templates for recurring reports and dashboards where SBA has established them, and will provide the required formats at kickoff. The Contractor's Section 508 obligation applies to the electronic and information technology deliverables it produces under this contract. Remediation of Government-furnished source data or pre-existing legacy documents is not within scope, except that where the Contractor incorporates Government-furnished content into a deliverable it produces, the resulting deliverable shall be accessible. Where a deliverable cannot meet a specific requirement, the Contractor shall document the exception and provide an accessible alternative acceptable to the COR.

Question 107

107. PWS 13.1 provides that the Government will furnish workspace, personal computers, telephones, and other equipment. Please confirm that all contractor personnel will be furnished Government workstations and system accounts, and that no contractor-provided IT equipment or software is required.

Response: The Government will furnish on-site workspace, a Government personal computer, telephone, and network and system accounts for each contractor employee performing under a Task Order, together with other equipment and supplies needed to perform assigned tasks. No

contractor-provided IT equipment or software is required, and use of privately owned computers at SBA offices is prohibited absent prior written approval under PWS Section 13.2. **(See PWS Section 13.1 and 13.2)**

Question 108

108. Please confirm that all work is performed on site at SBA Headquarters, 409 3rd Street SW, Washington, DC, and that no telework or remote performance is authorized for any labor category.

Response: (Refer to question47 & 49)

Question 109

109. Section L, Factor 4 states that past performance should be limited to contracts performed within the last three (3) years and allows offerors to submit up to three (3) relevant projects.

However, Attachment D – Relevant Experience/Past Performance Questionnaire states that each offeror must submit past performance information on a minimum of three (3) contracts performed within the last five (5) years that are comparable in scope and complexity.

Could you please clarify which requirement should govern the submission? Specifically, should offerors use a three-year or five-year lookback period ?

Response: (Refer to questions 1 & 2)

Question 110

110. Section 7.1 (Project Manager) page 12 states that the Contractor shall provide a Project Manager and that the Project Manager's services are considered a management function that shall not be billed directly to SBA and must be absorbed as part of the Contractor's general and administrative (G&A) expenses. However, Section 7.2 (On-Site Supervisor) page 13 states that the Project Manager shall serve as the On-Site Supervisor, and that the Contractor may bill for the On-Site Supervisor to the extent the hours are included in an awarded labor category and authorized under the applicable Task Order.

Can the Government clarify whether the Project Manager and the On-Site Supervisor are intended to be the same individual or two separate roles? If they are the same individual, please clarify which duties are considered non-billable management functions under Section 7.1 and which duties, if any, may be billed as the On-Site Supervisor under Section 7.2.

Response: (Refer to question 17)

Question 111

111. Past Performance: May Offerors submit relevant past performance performed as a subcontractor, or is past performance limited to work performed as the prime contractor? If both are acceptable, please clarify whether the Government will evaluate prime and subcontractor past performance equally.

Response: (Refer to question 3)

Question 112

112. The PWS sets a $9.5 million IDIQ ceiling and a $25,000 guaranteed minimum. Will the total evaluated price be based on the Attachment B hours across base plus all option years, and does the $9.5M ceiling constrain the evaluated price?

Response: (Refer to question 85)

Question 113

113. What is the length of the transition/phase-in period? The PWS requires a transition plan and transition experience but doesn't state a phase-in duration.

Response: (Refers to question 11)

Question 114

114. The PWS requires at least one employee with business-level Spanish proficiency, is that required at contract start, and does it apply to a specific labor category?

Response: Refer to Question 33

Question 115

115. Requests clarification regarding the relevant experience/past performance requirements.

For purposes of the technical and past performance evaluation, may an offeror rely upon relevant experience and past performance of a proposed first-tier subcontractor or teaming partner? Additionally, may the relevant experience of proposed key personnel be considered in demonstrating the offeror's capability to perform the requirement? If such experience may be considered, please clarify any documentation or relationship requirements the Government expects the offeror to include in its proposal.

Response: Refer to Questions 3.

Question 116

116. On-Site Supervisor labor category and billing — PWS §7.2 and Attachment B: The PWS requires the On-Site Supervisor to also hold another listed position and describes supervision as a collateral duty. However, Attachment B includes a separate On-Site Supervisor labor category. Please clarify: Should all hours for this individual be billed under the On-Site Supervisor category, or under the other labor category the individual fills?

Response: (Refer to question 17)

Question 117

117. PWS Sec 7.9 and 9.2

PWS lists: "Contractor shall designate an On-Site Supervisor for each SBA site on which the Contractor has placed three or more Contractor employees" 1. Will there be more than one SBA site on contractor employees will be?

Response: (Refer to question 47)

Question 118

118. PWS 1-7.2

PWS lists: "The Project Manager shall serve as the On-Site Supervisor." 1. Is this a requirement or optionality?

Response: (Refer to question 17)

Question 119

119. If an initial task order requires fewer than three employees, or staffing subsequently falls below three, is a full-time On-Site Supervisor still required? If not, may the Project Manager provide supervision remotely?

Response: (Refer to question 17)

Question 120

120. Attachment A, PWS Sect 9.1 and 14: Transition and onboarding — Attachment A; PWS §§9.1 and 14: With performance scheduled to begin October 6, 2026, what transition period will be provided? Must all personnel be approved and available on that date, and how will Government suitability-processing delays affect the required staffing date?

Response: (Refer to questions 11, 12, 28, and 39)

Question 121

121. Personnel qualifications — PWS Appendix A: The position descriptions label education and experience criteria as “Recommended Qualifications.” Please clarify which criteria are mandatory minimums and whether equivalent combinations of education and experience are acceptable

Response: The education and experience criteria in Appendix A are the Government's expected minimum qualifications for each labor category, applied with the flexibility the appendix describes; the heading "Recommended Qualifications" will be revised to "Minimum Qualifications" for clarity. Equivalent combinations of education and experience are acceptable for all non-key labor categories, and Appendix A expressly so provides for the Program Analyst positions. Items identified as "preferred" - including master's degrees, professional certifications, and prior SBA 7(a) or 504 experience - are not mandatory. For the two Key Personnel positions, the qualifications stated in PWS Sections 7.1 and 7.2 are mandatory minimums, and the stated alternative of a bachelor's degree or ten years of relevant experience applies. **(See PWS Appendix A)**

Question 122

122. Past performance — prime vs. subcontractor.

Please confirm whether relevant work performed as either a prime contractor or a subcontractor will receive equal consideration when assessing similarity in size, scope, and complexity, provided the offeror clearly identifies its actual scope and value of work. Reference: RFP Section L, Factor 4; Attachment D.

Response: (Refer to question 3).

Question 123

123. Are references from predecessor companies, affiliates, or a parent organization permitted where the performing personnel or business unit transferred to the offeror?

Response: Yes, with documentation. References from a predecessor company, an affiliate, or a parent organization are permitted where the offeror demonstrates that the personnel, business unit, or division that performed the referenced work transferred to and is available to the offeror. The offeror shall describe the corporate relationship or transaction, identify the resources that transferred, and explain how those resources will be applied to this requirement. The Government will consider such references to the extent the offeror demonstrates that the relevant capability will be brought to bear on

this contract; a reference resting solely on a corporate affiliation, without transfer of performing resources, will be given little weight.

Question 124

124. Six-month Option V: Section F.1 and Attachment B include a six-month Option V, while other portions of the solicitation describe a base year and four one-year option periods. Please confirm whether offerors must price the six-month Option V.

Answer: Six-Month Option has been removed from both documents. No pricing is required

Question 125

125. Option Year 4 dates: Attachment A, SF 1449, appears to give Option Year 4 the same October 6, 2029–October 5, 2030 period as Option Year 3. Section F.1 identifies Option Year 4 as October 6, 2030–October 5, 2031. Please confirm the correct Option Year 4 period of performance.

Answer: (Refer to Section F and Attachment A)

Question 126

126. Past-performance questionnaire: Section L refers to a Past Performance Reference Sheet as Attachment A, while the solicitation package identifies the Relevant Experience/Past Performance Questionnaire as Attachment D. Please confirm that Attachment D is the required form and whether completed questionnaires should be included by the offeror in Volume I or submitted directly by each customer reference.

Answer: Section L Factor 4 has been corrected. Attachment D - Relevant Experience/Past Performance Questionnaire is the required form.

Question 127

128. The notice on SAM.gov says the set aside is WOSB Sole Source, please confirm this effort is being competed through the WOSB program and is not sole sourced.

Answer: This requirement is not a sole source and is being competed among vendors who are a certified WOSB company. The Classification Section

- Original Set Aside: SBA Certified Women-Owned Small Business (WOSB) Program Sole Source (FAR 19.15). Will be corrected with the posting of the amendment.

Question 128

128. What is the incumbent contract number?

Answer: Incumbent is The Jardin Group LLC, Contract Number is 47QACA26P0051

Question 129

Question 129

129. Section L.2 requires a "Draft Quality Control Plan (QCP)"; PWS 12.2 requires submission of a "draft QAP" with the proposal; the Section L.5 checklist lists a "Draft Quality Assurance Plan (QAP)"; and Section M Factor 3 evaluates the "Quality Assurance Plan (QAP) and QASP Alignment." Are the QCP and QAP the same document or two separate documents? Under which factor should the plan be submitted, and does it count against that factor's page limit?

Response: (Refer to question 19)

Question 130

130. Please confirm that 8,320 is the correct total for the six-month extension and provide a corrected pricing attachment if appropriate.

Answer: Option 5 for 6 months has been removed. No pricing is required.

Question 131

131. Please confirm whether completed Past Performance Questionnaires must:

- Be included in the offeror's Volume I submission,
- Be sent directly to the Contracting Officer by each reference, or
- Be submitted using both methods.

Answer: See response to Question 27

Question 132

132. Can CPARS be submitted in lieu of Past Performance Questionnaires?

Answer: For any Federal contract with a completed CPARS evaluation, the offeror may submit the CPARS report in lieu of, or in addition to, the Attachment D questionnaire, and the Government will consider it. CPARS evaluations for a proposed subcontractor's relevant Federal contracts may likewise be submitted and will be considered under Factor 4 on the same basis described in the response to Question 3. Offerors should submit CPARS reports as attachments to Volume I and identify the referenced contract number for each.

Question 133

133. Please identify the applicable Service Contract Labor Standards occupation for each proposed labor category, particularly Financial Analyst, Program Analyst I, II, and III, and On-Site Supervisor and Government Equivalent.

Answer: The applicable Service Contract Labor Standards Wage Determination, apply to the Administrative Assistant position only. The rest, Financial Analyst, Program Analyst I, II, III, and On-Site Supervisor are professionals, so the wage determination is not applicable.

Question 134

134. Attachment A/RFP, 4/Section F, SF 1449 CLIN 4001/Section F.1, Option Year 4 Period of Performance. Attachment A identifies the Option Year 4 period of performance as 10/6/2029-10/5/2030, which duplicates Option Year 3, while Section F identifies Option Year 4 as 10/6/2030-10/5/2031. Please confirm the intended Option Year 4 period of performance and revise Attachment A as appropriate

Answer: SF 1449 CLIN 4001 Period of Performance has been corrected to 11/06/2030 to 11/05/2031

Question 135

135. RFP, 7/Price Proposal, Section B.6/Section L.3, Optional Six Month Extension

The Optional Six-Month Extension pricing schedule lists half-year estimated hours by labor category that total 8,320 hours, while the Option 5 total is shown as 16,640 hours. In addition, Section L.3 instructs offerors to provide rates for the Base Year and four Option Years, while Section B.6 includes this additional six-month extension. Please confirm the correct total estimated hours for the six-month extension, whether offerors are required to price the extension, and whether the six-month extension amount will be included in the Government's total evaluated price.

Answer: The 6 month extension has been removed from the solicitation in Section B.6 and the Pricing Sheet. No pricing should be provided

Question 136

136. Is the cover page and TOC excluded from the page limit for the Technical Proposal?

Answer: See Section L for Page Limits

Question 137

137. Attachment E/PWS, 1, 10/10, Wage Determination No. 2015-4281/PWS Section 4.2, Service Contract Labor Standards Applicability

Please confirm whether the Government anticipates that the Administrative Assistant is the only proposed labor category subject to the occupational wage rates in Attachment E, with offerors responsible for determining the exempt or non-exempt status of all remaining labor categories in accordance with applicable labor laws.

Answer: The applicable Service Contract Labor Standards Wage Determination, apply to the Administrative Assistant position only.

Question 138

138. RFP General

We were unable to locate a stated page limit for the technical and/or price proposal volumes, though Attachment F confirms that OCI submissions are excluded from any page limitation. Please confirm the maximum page count (if any) for the technical and price volumes, and specify whether resumes, past performance narratives, and pricing sheets count against that limit.

Answer: See Section L for Page Limits

Question 139

139. Attachment B Pricing Sheet/PWS Sec. 9.1 & 4.1

The Pricing Sheet (Attachment B) includes a priced line item for "Option 5 (6-month Extension)," but the PWS (Sections 4.1 and 9.1) and SF1449 CLIN structure only describe a base year plus four option years, with no mention of a 6-month extension option. Please confirm whether Option 5 is a real, exercisable contract option that must be priced?

Answer: Option 5 – six-month extension has been removed from the solicitation. No pricing is required.

Question 140

140. Attachment D – Past Performance Questionnaire

Attachment D instructs offerors to forward the Past Performance Questionnaire to their references and have the references submit it directly to bertha.russell@gsa.gov, but does not specify a due date for that reference submission. Please confirm whether completed PPQs from references must be received by the Contracting Officer by the same 9/29/2026, 9:00 AM EST proposal deadline, or whether a grace period is permitted.

Answer: Completed Past Performance Questionnaire from references must be received by the Contracting Officer by the same 9/29/2026, 9:00 AM EST proposal deadline

Question 141

141. RFP Sec iv/PWS Sec 9.1

The RFP states the anticipated period of performance begins November 6, 2026, while PWS Section 9.1 notes actual dates may vary depending on completion of required acquisition processes and that the Contractor "shall not begin performance prior to the issuance of a Task Order." Given the compressed timeline between the 9/29/2026 proposal due date and completed PPQs from references must be received by the Contracting Officer by the same 9/29/2026, 9:00 AM EST proposal deadline

Answer: Completed PPQs from references must be received by the Contracting Officer by the same proposal deadline.

Question 142

142. Attachment F OIC/General Proposal Instructions

Attachment F states that the OCI submission will not count toward "any page limitations," implying a technical proposal page limit exists, but no such page limit was identified elsewhere in the RFP, PWS, or attachments reviewed. Please confirm whether a technical/price proposal page limit applies and, if so, state it explicitly (including font, spacing, and margin requirements, if any).

Answer: See Section L for Page Limits

Question 143

143. Is there an incumbent contractor currently performing these services, or is this solicitation a new requirement?

Answer: There is an incumbent (The Jarding Group, LLC) on an expiring contract. This procurement is a new contract that is being competed among certified WOSB.

Question 144

144. Governing PWS. The PWS appears in the body of the RFP document and again as Attachment C. Please confirm which version governs and whether the two differ.

Answer: PWS has been removed from Section C. Attachment C is the PWS for this RFP.

Question 145

145. Six-month extension. PWS Section 9.1 describes a base year and four option years, while FAR 52.217-8 is included in Section I and Attachment B contains a six-month extension line. Is the six-month extension to be priced within the maximum amount for the base year and four option years, or in addition to it?

Answer: The solicitation Is for a base year with 4 options years. Option 5 – 6-month extension has been removed from the solicitation. Pricing is required only for the base and 4 year options.

Question 146

146. The posted file is titled "DRAFT RFP 47QACA26R0306 – Risk Management Financial Analysis Administrative Support Services," while the opening paragraph states that this is a combined synopsis/solicitation, that it "constitutes the only solicitation," and that "a separate written solicitation will not be issued." Please confirm whether the posted document is the final solicitation upon which proposals are to be based, or a draft that will be superseded by a subsequent posting.

Answer: The RFP has been corrected with the removal of the word DRAFT. There will be no other RFP posting except for the Amendment.

Question 147

147. The synopsis states that GSA is using overhauled FAR parts under the Revolutionary FAR Overhaul in accordance with GSA deviations. The solicitation nonetheless cites legacy provisions including FAR 52.212-1, FAR 52.215-1, FAR 15.305(a)(2)(iv), FAR 16.505, FAR 16.601(d), FAR Subpart 9.5, and FAR Subpart 37.6. Please identify which FAR framework governs proposal preparation, evaluation, and award, and list the RFO-deviated provisions that apply.

Answer: All Clauses in Section I – Clauses, have been reviewed and edited as appropriate. FAR 52.212-1 has not yet been updated by the RFO. FAR 52.215-1, 16.505, 16.601, 9.5, have all been updated by RFO. FAR Subpart 37.6 under the RFO is now combined under 37.1. Section I.3 C-SCRM Clause did not pertain to this RFP and has been removed.

Question 148

148. The Contracting Officer is identified at a gsa.gov address and the solicitation number is a GSA number, while the COR, Alternate COR, and program office are SBA. Please confirm that GSA is the contracting activity acting on behalf of SBA and identify the agency that will be the reporting activity in CPARS.

Answer: General Services Administration (GSA) is issuing and will administer the contract on behalf of the Small Business Administration (SBA). The client agency (SBA), will provide the Contracting Officer Representative (COR) who will interact directly with the vendor and provide all reports to include performance for the contract. (See PWS Item 26)

Question 149

149. Is this an open-market acquisition, or must offerors hold a GSA Multiple Award Schedule contract or other contract vehicle under NAICS 541611 / SIN 541611 to be eligible for award?

Answer: This is an open market acquisition that is 100% set aside for certified WOSB. Since it is being competed on the open market and not on GSA Federal Supply Schedule, no vendor is required to have a Federal Supply Schedule Contract.

Question 150

150. Section L.1 states: "Subject Line: All files shall be named with the following convention: [Vendor Name]_[Solicitation number and solicitation name (RiskMgmtSupportServices)]." Please state separately (a) the required email subject line and (b) the required file naming convention for each submitted file.

Answer: Subject Line and Document Titles: All files shall be named with the following convention: [Vendor Name]_[Solicitation number and solicitation name (RiskMgmtSupportServices)]. **(See RFP Section L.1)**

Question 151

151. Is there a maximum email message size or attachment size for the submission? Are offerors permitted to submit multiple emails, and if so, how should they be labeled and sequenced? Will the Contracting Officer confirm receipt, and within what timeframe should an offeror follow up if no confirmation is received?

Answer: When sending an attachment via email, the maximum size an email including attachments is 25MB. If the email is anything over that limit, then it will have to be sent in multiple emails. The emails should be labeled per the naming convention in L.1 "[Vendor Name]_[Solicitation number and solicitation name (RiskMgmtSupportServices)]". If there are multiple emails then please number each email so the Contracting Officer knows that there is more than one (Such as Email 1 0f 3, Email 2 of 3, Email 3 of 3 etc.) **(See RFP Section L)**

Question 153

152. Please confirm which of the following are excluded from page counts: cover letter; table of contents; acronym list; key personnel résumés; letters of commitment; Draft Management Work Plan; Draft Quality Control Plan / Quality Assurance Plan; Transition (Phase-In/Phase-Out) Plan; OCI disclosure and mitigation plan; Past Performance Reference Sheet; and Attachment D Past Performance Questionnaires.

Answer: See Section L for Page Limits

Question 154

154. Section L.1 requires 12-point Times New Roman (or 11-point Arial), double-spaced, with one-inch margins. Please confirm that, (a) double spacing applies to body narrative only and that tables, charts, graphics, organizational charts, and figure captions may be single-spaced; (b) the minimum permissible font size within tables and graphics; and (c) whether headers and footers may appear within the one-inch margin.

Answer: See RFP Section L.1

Question 155

155. How will the Government treat pages submitted in excess of a stated page limit — will excess pages be removed and left unevaluated, or will the proposal be rejected as non-compliant?

Answer: See Section L for Page Limits

Question 156

156. Section L.1 provides that inclusion of any pricing information in Volume I will render the proposal non-responsive. Please confirm whether labor category names, proposed staffing quantities, and level-of-effort hours — none of which disclose rates or dollar amounts — may appear in Volume I without violating this restriction, since the staffing plan required by Section L.2 cannot reasonably be written without them.

Answer: See RFP Section L.1

Question 157

157. The designation "Attachment A" is used inconsistently. Section J identifies Attachment A as the SF 1449; Section L.2 Factor 4 directs offerors to complete the "Past Performance Reference Sheet (Attachment A)"; and PWS Sections 5.1, 6, and 9.2 refer to the position descriptions as "Attachment A" while Appendix A of the PWS contains those position descriptions. Please confirm the correct attachment designation for (a) the SF 1449, (b) the Past Performance Reference Sheet, and (c) the position descriptions.

Answer:

L.2 Factor 4 attachment has been corrected to Attachment D – Relevant Experience /Past Performance Questionnaire.

On PWS Sections 5.1, 6, and 9.2, Attachment A has been corrected to Appendix A.

Section J, Attachment A – SF 1449 Risk Management Support Services name is correct.

Question 158

158. Section J notes that Attachment B (Price Sheet) and Attachment D (Past Performance Questionnaire) are attached as separate documents. Please confirm both have been posted to SAM.gov and provide the exact file names.

Answer: All attachments were uploaded initially to SAM.gov. All corrected documents will be re-uploaded with the Amendment.

Question 159

159. Is the "Past Performance Reference Sheet" referenced in Section L.2 a document distinct from the Attachment D Past Performance Questionnaire? If both are required, please provide both templates.

Answer: See Response to Question 27. See RFP Section l.1 Factor 4

Question 160

160. The Section L.5 checklist places the "Cover Letter (POC, UEI, Amendment Acknowledgment)" in Volume II, while Section L.3 item 1 requires a "Cover Sheet" in Volume II. Please confirm whether the

cover letter and cover sheet are the same document, and whether a cover letter is also required or permitted in Volume I.

Answer: Both are the same document. Both are now named "Cover Sheet" instead one being named Cover Letter and the Other Cover Sheet. See RFP Section L.5 Checklist

Question 161

161. Who is responsible for submitting the Attachment D Past Performance Questionnaire — the offeror, or the reference point of contact directly to the Contracting Officer? Please provide the submission address and the deadline and confirm whether the questionnaire deadline differs from the proposal due date.

Answer: See response to Question 27

Question 162.

162. . Does the OCI disclosure and mitigation plan count against the Management Approach page limit? If an offeror identifies no actual or potential OCI, is a signed statement to that effect sufficient in lieu of a mitigation plan?

Answer: See Section L for page limits. See RFP Section H and Attachment F - Organizational COnflict of Interest Form

Question 163

163. Does FAR 52.222-17, Non-Displacement of Qualified Workers, or an equivalent right-of-first-refusal obligation apply to this acquisition? If so, will a seniority list of incumbent employees be furnished to the successful offeror?

Answer: Executive Order has revoked that FAR Clause

Question 164

164. **SCLS / wage-determination mapping.**
Please confirm which proposed labor categories are subject to the Service Contract Labor Standards and the applicable occupational mapping for pricing purposes. For any SCLS-covered position that does not correspond directly to a title on WD 2015-4281 (for example, Financial Analyst or Program Analyst I/II/III), please confirm whether a conformance (SF-1444) will be required.
Reference: RFP clauses (FAR 52.222-41 et al.); Attachment E — Wage Determination 2015-4281.

Answer: The applicable Service Contract Labor Standards Wage Determination, apply to the Administrative Assistant position only. The rest, Financial Analyst, Program Analyst I, II, III, are professionals, so the wage determination is not applicable to these positions.

A SF-1444 conformance request is not required or submitted for exempt classifications, which include professional such the Financial Analyst, Program Analyst I, II, III as defined under 29 C.F.R.

Question 165

165. Scope of price evaluation

Please confirm whether price evaluation will include the Base Year, all four Option Years, and the FAR 52.217-8 six-month extension, and whether the Government will evaluate total extended price using the estimated hours shown in Attachment B.

Reference: RFP Sections B, L, and M; Attachment B.

Answer: The Base plus 4 Option years will be evaluated only. Option V – 6 month extension has been removed. The 6-month extension will only be priced at the time it may be needed in the future.

Question 166

166. Attachment B formulas / format.
Attachment B appears to contain formula/reference anomalies. May offerors correct formula/reference errors while maintaining the Government-provided structure, or will GSA issue a corrected pricing workbook by amendment?
Reference: Attachment B — Pricing Sheet.

Answer: The Pricing Sheet has been updated but if there are still formula/reference anomalies that are discovered**, the vendor cannot make corrections.** Please contact the Contracting Officer **immediately.** Email. **Bertha.Russell@gsa.gov, Phone (404)-989-6124.**

Question 167

167. Are graphics, organizational charts, and phase-in schedule diagrams permitted within Volume I, and do they count against the applicable page limit?

Answer: See Section L for Page Limits. All graphics, organizational charts, phase-in schedule diagrams, and other such documents, etc. should be included in Volume do not count against the page limit.
