United States Central Command J3 Directorate of Operations

Performance Work Statement for Foreign Humanitarian Assistance Support Services

9 September 2026

1.0 SCOPE

1.1 The Contractor shall provide all non-personal professional support services identified in this Performance Work Statement (PWS) to the United States Central Command (USCENTCOM) Foreign Humanitarian Assistance (FHA) Branch in support of headquarters-level FHA policy, planning, program analysis, project coordination, training support, and financial/budget analysis. This requirement is for headquarters-level support only and does not include execution of FHA projects overseas.

1.2 FHA activities provide program management and integrate the Congressionally authorized Department of War (DoW) Humanitarian Assistance (HA), Humanitarian and Civic Assistance (HCA), Humanitarian Assistance-Excess Property (HA-EP), Humanitarian Mine Action (HMA), Denton Program, and related transportation activities. These programs entail projects and activities planned and executed by USCENTCOM, component commands, subordinate activities, and other authorized Government organizations.

1.3 The Contractor shall provide research, analysis, drafting, coordination, reporting, and administrative support necessary to enable the Government to manage FHA activities. Contractor support includes development and implementation of FHA policy, procedures, and guidance; support to FHA project development and review; coordination with related security-cooperation activities; support to applicable appropriations management; and FHA program oversight.

1.4 The Contractor shall provide non-personal services and shall not perform inherently governmental functions. The Contractor shall not make final Government decisions, approve FHA projects, approve funding, render legal opinions, direct military operations, commit the Government, or otherwise exercise Government authority. Any authorized travel in support of this PWS shall be performed only in accordance with paragraph 2.5 and the applicable Time and Materials (T&M) Travel CLIN.

2.0 GENERAL INFORMATION

2.1 Recognized Federal Holidays

2.1.1 The Contractor is not required to perform routine services on recognized Federal holidays or during Government-directed facility closures unless otherwise authorized in writing by the Contracting Officer (CO).

- New Year's Day
- Martin Luther King Jr. Day
- President's Day
- Memorial Day
- Juneteenth
- Independence Day
- Labor Day
- Columbus Day
- Veteran's Day
- Thanksgiving Day
- Christmas Day

2.1.1 The Contractor shall maintain continuity of critical deliverables and suspense-driven support during planned and unplanned absences. No separate compensation is authorized for overtime or premium labor under the fixed-price service CLINs.

2.2 Hours of Support

2.2.1 The Contractor shall ensure availability to support Government requirements during core hours of 0730–1630 Eastern Time, Monday through Friday, excluding Federal holidays and Government-directed facility closures.

2.2.2 The Contractor shall maintain continuity of critical deliverables and suspense-driven support during planned and unplanned absences. No separate compensation is authorized for overtime or premium labor under the fixed-price service CLINs.

2.2.3 The Contractor shall ensure it maintains an adequate workforce for the uninterrupted performance of all tasks. The Contractor is responsible for determining employee schedules, supervision, workload distribution, and means and methods of performance necessary to meet all requirements of this PWS.

2.3 Place of Performance

2.3.1 The Contractor shall perform FHA support services at HQ USCENTCOM, MacDill AFB. Florida.

2.3.2 In the event the Government facility is closed, the Contractor may use an authorized alternate work location at the Contractor's expense. The alternate work location must meet required security standards outlined in the contract. The Contractor shall coordinate proposed alternate work locations with the COR to confirm that mission, access, and security requirements are met. Any change affecting contract scope, price, security requirements, performance requirements, or place-of-performance terms requires CO approval.

2.4 Telework

2.4.1 Telework is authorized for Contractor employees performing on this PWS in a situational or ad hoc capacity only. Remote or Long-term teleworking is not authorized for Contractor employees performing on this PWS.

2.4.1.2 The Contractor shall provide a written request with appropriate rationale and coordinate proposed telework arrangements with the COR prior to any telework. The COR may confirm whether mission, access, and security conditions are met; however, the COR may not authorize a telework arrangement that changes scope, price, performance requirements, or security requirements.

2.4.2 Telework Restrictions

All equipment and information systems used to perform telework shall be authorized for the intended Government work and comply with applicable Government security requirements.

The Government does not provide any equipment for teleworking. Contractor employees shall maintain availability during core hours via e-mail and phone while teleworking. All telework expenses are the responsibility of the Contractor. Classified work is not authorized while teleworking. Personal IT equipment is not authorized for use on Government work while teleworking. Authorized telework does

not relieve the Contractor of responsibility to comply with DoW and USAF security regulations outlined in paragraph 2.11 of this PWS and DD Form 254.

2.5 Travel

2.5.1 Travel shall be performed only when necessary to accomplish requirements under this PWS and only after written Government authorization.

2.5.2 The anticipated travel for each contract performance year is listed below in Table 1. The numbers of trips and types of personnel traveling shall be limited to the minimum required to accomplish work requirements and shall be coordinated with the COR. The COR will attempt to provide as much notification as possible for each trip. The Contractor shall submit a travel request in accordance with paragraph 2.5.4, Travel Approval Process.

2.5.3 Authorized travel shall be reimbursed only under the applicable T&M Travel CLIN and only up to the funded not-to-exceed amount for the applicable contract period. The T&M Travel CLIN is limited to actual, authorized, allowable, reasonable, and supported travel costs. It does not authorize billing for travel labor hours, overtime for travel, or reimbursement exceeding the applicable funded not-to-exceed amount.

2.5.4 OCONUS Travel

When OCONUS travel is authorized, the Contractor shall comply with applicable theater-entry, country-clearance, security, deployment, personnel-accountability, and insurance requirements identified in the task order, DD Form 254, and written travel authorization. If required for authorized travel to an OCONUS theater of operation, the Contractor shall acquire and maintain applicable Defense Base Act insurance.

2.5.5 Estimated Travel Requirements

The following travel is estimated for planning purposes. Actual travel may vary based on mission requirements, funding availability, security conditions, and Government authorization.

TABLE 1

PWS Ref.	Purpose	Estimated Timing	Trips	Travelers	Days	From	To
2.5	Humanitarian Mine Action Workshop	June	1	2	5	Tampa, FL	Washington, DC
2.5	DSCA Workshop	April	1	2	5	Tampa, FL	Washington, DC
2.5	FHA-Related AOR Support	TBD	1	2	Up to 14	Tampa, FL	AOR location, as authorized

2.5.6 Travel Approval Process

The Contractor shall submit a written travel request no later than 10 business days before planned travel unless a shorter suspense is authorized in writing by the COR. The COR may authorize routine, in-scope travel within the applicable funded travel CLIN ceiling and within the COR's delegated authority. The CO must approve travel that exceeds established cost limitations, requires an increase to a travel CLIN ceiling, affects task-order scope, requires modification of task-order terms, or requires a decision outside the COR's delegated authority.

Each travel request shall include:

1. Traveler name and labor category;
2. Travel dates;
3. Travel destination;
4. Mission purpose;
5. Estimated allowable costs;
6. Proposed transportation and lodging;
7. Applicable clearance, theater, deployment, or country-entry documentation; and
8. Other information reasonably necessary for Government review.

2.5.7 Travel Reimbursement

If written authorization is not obtained, the Contractor may not be reimbursed any travel costs. Allowable travel costs shall be consistent with Federal Acquisition Regulations, applicable Joint Travel Regulations limitations, and this PWS. The Contractor shall not apply fee, profit, or indirect costs to reimbursable travel costs unless specifically authorized in the task-order pricing schedule.

The Contractor shall:

1. Use the lowest reasonable customary standard coach airfare or equivalent transportation;
2. Obtain written approval before making travel reservations;
3. Submit required vouchers, receipts, and supporting documentation with invoices;
4. Submit a written trip report within five business days after return from travel;
5. Not charge overtime for transit or "on-the-road" travel time; and
6. Monitor costs against the applicable funded travel CLIN ceiling.

2.6 Post-Award Conference

2.6.1 The Contractor shall attend a post-award conference within 10 business days after award unless otherwise directed by the CO. The Government will provide the agenda and meeting minutes.

2.6.2 The post-award conference will address roles, communications, deliverables, quality-control requirements, security, travel, transition, invoice procedures, and performance surveillance.

2.7 Annual Progress Review Meeting

The Contractor shall attend an annual progress review meeting with the Government to review the Contractor's performance. At these meetings the Government will review its assessment of Contractor

performance, and the Contractor will inform the Government of any problems being encountered, if there are any. The Contractor shall take appropriate corrective action to resolve outstanding issues. The Government will provide the agenda and meeting minutes.

2.8 Phase-In / Phase-Out Requirements

2.8.1 The services under this contract are important to the Government and must continue without interruption. There will not be a separate contract line-item for phase-in, phase-out services cost.

2.8.2 Phase-In

Within five business days after award, the Contractor shall submit a Phase-In Plan that includes:

1. Site Lead identification;
2. Proposed staffing and onboarding schedule;
3. Clearance, access, badge, and system-account status;
4. Knowledge-transfer plan;
5. Inventory of recurring deliverables and open actions;
6. Transition-risk register and mitigation actions; and
7. Readiness milestones.

2.8.3 Phase-Out

The Contractor shall cooperate in an orderly transition to a successor contractor or Government activity. The Contractor shall provide status of deliverables, recurring reports, open actions, Government-owned work products, procedures, and knowledge-transfer materials necessary to support uninterrupted performance. The Contractor shall not disclose employee personnel records or other protected personal information as part of phase-out activities.

2.9 Contracting Officer's Representative (COR)

2.9.1 The CO shall appoint a COR in writing. The COR's authority and limitations will be specified in the COR appointment letter.

2.9.2 The CO's written appointment will specify the extent of the COR's authority. The COR is not authorized to make any commitments or changes that will affect the scope of the contract. The Contractor is responsible for ensuring that all Contractor employees are aware of the COR's responsibilities, authority, and limitations. Changes performed by the Contractor without explicit prior written authorization from the CO shall not be binding on the Government, nor shall the Government be obligated to pay any costs associated therewith. The Contractor assumes liability for all costs resulting directly or indirectly from the performance of unauthorized work by Contractor personnel.

2.10 Key Personnel

2.10.1 The Contractor shall designate a primary Site Lead and an alternate Site Lead as key personnel. The Site Lead shall have full authority to act for the Contractor on all contract matters relating to daily performance of this contract and daily administration and supervision of Contractor employees.

2.10.2 The Contractor shall notify the CO and COR in writing before substituting key personnel, when practicable. Replacement personnel shall possess qualifications equal to or greater than the individual being replaced. The CO must approve a key-personnel substitution before the replacement performs as the designated key person.

2.11 Security

Security requirements, including personnel clearance, facility access, classified information handling, safeguarding, transmission, storage, and access requirements, shall be governed by DD Form 254 and applicable security instructions.

2.12 Data Rights

The Government shall receive rights in deliverables and other data produced under this task order as specified by applicable task-order provisions and contract clauses.

2.13 Privacy and Information Protection

The Contractor shall comply with applicable privacy, records-management, cybersecurity, information-protection, and safeguarding requirements identified in the task order.

2.14 Section 508 Compliance

Electronic and information-technology deliverables shall comply with applicable accessibility requirements unless an authorized exception applies.

2.15 Contractor Manpower Reporting

The Contractor shall comply with current applicable DoW or Department of the Air Force contractor-manpower reporting requirements and use the Government-designated reporting system identified in the task order.

3.0 PERFORMANCE TASKS

3.1 Contractor Management

3.1.1 The Contractor shall designate a Site Lead responsible for coordinating Contractor performance, internal workload management, deliverable quality control, and day-to-day communication with the COR.

3.1.2 The Site Lead shall receive Government priorities, deliverable requirements, and suspense dates from the COR; assign work to Contractor personnel; manage Contractor performance; and ensure timely, quality deliverables.

3.1.3 The Government may establish priorities, required outcomes, deliverable due dates, and acceptance criteria. The Contractor retains responsibility for supervision, employee assignments, workload distribution, and methods of performance.

3.1.4 The Contractor shall maintain continuity of operations and deliverables during planned and unplanned absences without mission degradation. Cross-utilization of Contractor personnel is encouraged to the maximum extent practicable to meet service levels and deliverable timelines.

3.2 Program Analysis

3.2.1 The Contractor shall provide FHA subject matter experts to support FHA policy, planning, program analysis, project coordination, training support, and related headquarters-level activities.

3.2.2 Program Analysts shall possess demonstrated experience relevant to FHA policy, planning, combatant-command operations, joint staff procedures, interagency coordination, and FHA program execution.

3.2.3 The Contractor shall:

1. Provide FHA subject-matter support to the USCENTCOM FHA Branch, component staff, and authorized security-cooperation organizations for FHA policy and planning;
2. Research, review, analyze, draft, revise, consolidate, and coordinate FHA policy and planning products;
3. Review FHA project nominations and supporting documentation for completeness and consistency with applicable FHA regulations, legal guidance, and policy;
4. Identify issues for Government consideration and provide recommended actions;
5. Support FHA project coordination from field, component, and USCENTCOM headquarters levels;
6. Support development, implementation, revision, and promulgation of FHA project checklists for HA, HA-EP, HMA, and HCA activities;
7. Support development, revision, and delivery of FHA indoctrination training materials and program-of-instruction updates;
8. Maintain proficiency with Government-designated systems, processes, and software used to submit and coordinate FHA projects;
9. Support Government coordination with DSCA concerning development and testing of new OHASIS functionality;
10. Review and analyze FHA data entered in OHASIS for completeness, accuracy, and usefulness to Government oversight;
11. Provide recommendations to improve FHA doctrine, policy, procedures, and program administration;
12. Prepare staff products, including information papers, talking points, position papers, ready-to-send communications, briefings, handouts, and related decision-support products;
13. Support Government-led FHA project staffing actions;
14. Support meeting preparation, action-item tracking, and meeting minutes when identified as deliverables; and
15. Support revision of applicable FHA publications and Government-directed program-management materials.

3.2.4 The Contractor shall provide research, analysis, recommendations, and draft products. The Government retains final decision, approval, legal, policy, funding, and command authorities.

3.3 Financial and Budget Analysis

3.3.1 The Contractor shall provide a Financial/Budget Analyst to support FHA budget, financial-management, execution, and reporting requirements.

3.3.2 The Financial/Budget Analyst shall possess a bachelor's degree in a business-related field, a minimum of six years of directly related experience, and demonstrated experience relevant to DoW financial management, budget execution, financial analysis, and applicable Government financial-management systems.

3.3.3 The Contractor shall:

1. Prepare monthly OHDACA funding reports and funding-status reports;
2. Support development of annual OHDACA budget requests and justifications;
3. Analyze funding execution, obligations, expenditures, spend plans, and status-of-funds data;
4. Support development and review of financial documents, reports, and responses;
5. Support tracking and management of annual OHDACA and applicable HCA funding;
6. Extract financial and FHA activity data required for Government analysis and reporting;
7. Support preparation of financial analysis, recommendations, and management reports;
8. Support review of financial documentation and invoices for completeness and accuracy before Government processing;
9. Support development of responses to DSCA, USCENTCOM Comptroller, DFAS, and other authorized financial-management data calls;
10. Support tri-annual review, monthly spend-rate, obligation rate, and budget-execution activities;
11. Provide technical analysis and recommendations to support Government fiscal-law compliance determinations;
12. Support travel-document processing and analysis, as required;
13. Maintain proficiency with Government-designated financial-management systems, including DEAMS, FMS, DAI, DTS, GFEBS, or other systems identified by the Government for performance; and
14. Provide analysis and recommendations to the FHA Program Manager on status of funds, obligation rates, spend plans, and related financial-management matters.

3.3.4 The Contractor shall provide technical analysis and recommendations. The Government retains all funding certification, obligation, disbursement, approval, and fiscal-law decision authority.

3.4 Monthly Status Report

3.4.1 The Contractor shall submit a Monthly Status Report no later than the fifth business day of each month covering the prior month's performance.

At a minimum, the report shall include:

1. Summary of work performed;
2. Deliverables submitted, accepted, pending, or overdue;
3. Summary of upcoming work and known suspense dates;
4. Government-identified or Contractor-identified performance concerns;
5. Mitigation actions and status of corrective actions;
6. Any identified successes and results;
7. Any anticipated personnel changes that could affect performance;
8. Travel completed and travel planned; and
9. Status of quality-control actions.

3.5 Meetings

3.5.1 The Contractor shall attend and support recurring and ad hoc meetings related to FHA program management, project review, planning, and financial oversight within the scope of this PWS. Meeting support may include agenda input, read-ahead preparation, note-taking as required, action-item tracking, and meeting minutes when identified as deliverables.

3.5.2 The Contractor shall attend regularly scheduled or unscheduled FHA meetings to discuss ongoing and planned USCENTCOM FHA activities.

3.6 Deliverables

TABLE 2

PWS Ref.	Deliverable	Estimated Frequency	Due Date	Reviewed By
2.8.2	Phase-In Plan	Once	5 business days after award	**COR**
2.8.2	Phase-In Readiness Report	Once	5 business days before start of performance	**COR**
3.2	FHA Project Checklists	4 annually	NLT 1 December	**COR**
3.2, 3.5	Meeting Minutes	As required	5 calendar days after meeting	**COR**
3.2	FHA Project Staffing Support	Up to 10 monthly	5 business days after receipt	**COR**
3.2	Staff Products	Up to 36 annually	Suspense established by COR	**COR**
3.2	FHA Publication or Equivalent Update	Annually	Per applicable publication cycle	**COR**
3.2	FHA Training Material / Program of Instruction Update	2 annually	NLT 1 June and 1 December	**COR**
3.2	OHASIS Account-Request Support	Up to 6 monthly	5 business days after receipt	**COR**
3.2	OHASIS Dashboard Input	As required within workload estimate	3 business days after receipt	**COR**
3.3	Monthly OHDACA Funding Report	Monthly	10th workday of following month	**COR**
3.3	Funding Status Report	Monthly	10th workday of following month	**COR**
3.3	Annual Next-FY OHDACA Budget Request and Justification	Annually	NLT 30 June	**COR**
3.4	Monthly Status Report	Monthly	5th business day of month	**COR**
2.5.5	Trip Report	As required	5 business days after return from travel	**COR**
4.1	Quality Control Plan	Once; updates as required	10 business days after award	**COR/CO**

3.7 Deliverable Submission and Acceptance

3.7.1 The Contractor shall submit deliverables through the Government-designated electronic method and in the format specified by the Government. The COR will review each deliverable within five business days and provide one of the following:

1. Acceptance;
2. Consolidated comments;
3. Notice of a material deficiency; or
4. Revised suspense date.

A deliverable is acceptable when it is complete, accurate, timely, responsive to tasking, and compliant with required format and content.

3.7.2 The Contractor shall correct material deficiencies within three business days unless another suspense is established in writing by the COR.

3.7.3 Acceptance does not waive any Government rights, does not excuse latent defects, and does not modify task-order scope, price, schedule, or terms and conditions. Only the Contracting Officer may modify the task order.

3.8 Services Summary

The Services Summary lists the performance objectives which are essential to the contract requirements. If the PWS reference column states a paragraph or section, all subordinate paragraphs under that PWS reference apply. The Acceptable Quality Level (AQL) describes the minimum acceptable levels required for the listed service to be acceptable per contract period of performance. However, the Government reserves the right to inspect any service or item not listed in the matrix below, at any time.

TABLE 3

PWS Ref.	Performance Objective	Performance Standard	Acceptable Quality Level
3.2, 3.3, 3.6	Technical Deliverables	Complete, accurate, responsive to tasking, and compliant with required format	**95% accepted without material deficiency**
3.2, 3.6	Staff Products and Briefings	Factually accurate, complete, responsive to Government tasking, and submitted by suspense	**95% accepted without material deficiency**
3.2–3.6	Timeliness	Submitted by the required suspense date	**100% on time**
3.4, 3.6	Monthly Reports	Includes all required content and accurately reflects current status	**100% on time; 95% accepted without material deficiency**

3.1, 3.9	Contractor Management and Staffing	Maintain qualified staffing sufficient to meet PWS requirements	**No unapproved mission degradation**
2.8	Phase-In / Phase-Out	Transition deliverables complete and timely	**100% on time; no material unmitigated continuity risk**
2.5	Travel	Preauthorized, documented, allowable, and within funded CLIN ceiling	**100% compliant**
4.1	Quality Control Plan	Current, complete, implemented, and responsive to PWS requirements	**100% compliant**

3.9 Estimated Workload Projections and Skill Sets

3.9.1 The Government estimates this requirement effort will require three full-time-equivalent personnel to meet the requirements of this PWS: two Program Analysts and one Financial/Budget Analyst.

This estimate is provided for proposal development and price evaluation; however, the Contractor is responsible for proposing and maintaining the staffing approach sufficient to meet all PWS requirements, deliverable frequencies, and performance standards.

The Government estimates Contractor employees proposed personnel should have a minimum of senior field grade or equivalent experience in combatant command operations and staff procedures, joint doctrine, interagency coordination, and FHA policy, planning, and execution.

4.0 QUALITY CONTROL

4.1 Quality Control Plan

4.1.1. The Contractor shall establish, implement, and maintain a quality control program that is proactive and responsive to Government needs. The Contractor shall maintain a quality culture that self-identifies problems or areas for improvement. The Contractor shall strive to proactively identify problems, or potential issues, affecting performance and proactively work to resolve them. The Contractor shall report performance issues to the COR as soon as possible. Verbal reports will be followed up with written reports when directed by the COR, or the Contractor may submit a written report to identify the issue and how it was resolved to record these actions for the Government's consideration. The Contractor remains responsible to correct problems/issues that need resolution.

4.1.2. The Contractor shall submit the initial Quality Control (QCP) within 10 business days after award. Substantive revisions to the QCP shall be submitted to the CO and COR for review before implementation.

4.1.3. The Contractor shall retain quality-control records throughout the task-order performance period and make records available to the Government upon request.

4.2 Quality Assurance

4.2. The Government will evaluate Contractor performance using the Contractor's QCP, the Government QASP, this PWS, applicable task-order clauses, and documented surveillance results.

4.3. The Government retains the right to inspect any service or deliverable under this task order.

5.0 GOVERNMENT-FURNISHED PROPERTY, EQUIPMENT, AND SERVICES

5.1. The Government will provide access to appropriate Government regulations, instructions, policies, presentations, software, best practices, and lessons-learned documentation required for performance. All Government-furnished information and software shall be returned to the Government upon completion of this contract. The Government will provide access to information processing assets needed to perform the tasks under this contract. The Government will provide accounts on unclassified and classified automated information systems as deemed necessary for task completion. The Government will provide the necessary workspace, administrative equipment and support, communications equipment, computer support for the Contractor staff needed to provide the support.
