1.6. Identification of Contractor Employees. All Contractor personnel attending meetings, answering Government telephones, and working in other situations where their Contractor status is not obvious to third parties are required to identify themselves as such to avoid creating an impression in the minds of members of the public that they are Government officials. The Contractor shall ensure that all documents or reports produced by Contractor employees are suitably marked as Contractor products or that Contractor participation is appropriately disclosed. Contractor personnel will be required to obtain and wear badges in the performance of this service.

1.7. Data Rights and Information Protection. The U.S. Government shall have rights and ownership in documents/materials produced. All materials prepared for, or used in connection with, contract performance must comply with applicable classification and/or sensitive unclassified information (aka controlled unclassified information (CUI)) protection requirements. Information and material prepared for or used in connection with contract performance shall not be shared outside of the Contractor's organization without written consent of the Contracting Officer.

1.8 Quality Control. The Contractor shall have an established effective quality control program to ensure services are performed in accordance with contract requirements. The Contractor's quality control program is the means by which it ensures that work performed complies with the requirement of the contract. The Contractor shall develop and implement a quality control plan (QCP) specific to this that addresses processes and procedures implemented to ensure performance meets all requirements. Within 30 calendar days of the contract award, the Contractor shall submit its comprehensive written quality control plan (QCP) to obtain contracting officer (KO) approval. Any changes to the QCP during the contract shall be submitted to the KO, within 5 working days of the proposed change, for approval. The QCP shall contain at a minimum:

- Contract number.
- Description of processes and controls used to verify acceptable performance.
- Contractor developed metrics used to verify performance level of each contract objective.
- The metrics will be reported as a quantitative value (%, >, <, etc.) and the definition and numerical figures used to calculate the % or reportable outcome.
- The contract objectives, associated standards, metrics, and quantitative values for each metric shall be reported in the monthly status report (MSR) that clearly identifies the monthly performance level against each contract objectives.

1.9. Security Requirements.

1.9.1. Personnel Security. Contractor personnel performing work under this contract shall have a National Agency Check with Inquiries (NACI) before providing services on the contract, and shall maintain the level of security required for the life of the contract.

1.9.2. Government Equipment and Facilities Security. The Contractor shall be responsible for safeguarding all Government equipment, information and property provided for Contractor use. At the close of each work period, Government facilities, equipment, and materials under Contractor's responsibility shall be secured.

1.9.3. Key Control. Contractor employees will be issued a key for their individual office door by the Government, which shall not be duplicated.

1.9.4. Installation/Facility Access and General Protection. The Contractor and all associated Subcontractor(s) employees shall comply with applicable installation, facility and area commander installation/facility access and local security policies and procedures. The Contractor shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. The Contractor shall comply with all personal identity verification requirements as directed by DoD, HQDA and/or local policy. In addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in Contractor security matters or processes.

1.9.5. Access to systems containing PII. The Contractor shall comply with the Privacy Act and all applicable agency regulations on individual privacy, to include DoD Directive 5400.11 “Department of Defense Privacy Program” and DoD 5400.11-R, Department of Defense Privacy Program.

1.9.6. Systems Access. When requested by the Government, the Contractor shall provide access to and information regarding the systems that the Contractor operates or maintains on behalf of the Government under this contract (i.e. Rapids or similar system).

1.9.7. Data Security. The Contractor, unless otherwise authorized by the Government, shall limit access to PII to those employees and Subcontractors who require the information in order to perform their official duties under this contract. The Contractor, Contractor employees, and Subcontractors shall physically or electronically protect PII when not in use and/or under the control of an authorized individual. During the course of performance, when PII is no longer needed or required to be retained under applicable Government records retention policies, the Contractor shall coordinate with the contracting officer to either turn over the PII to the Government, or destroy it through means that will make the PII irretrievable (i.e. permanently unavailable for access by any person). The Contractor shall only use PII obtained under this contract for purposes of the contract, and shall not collect or use such information for any other purpose without the prior written approval of the contracting officer. At expiration or termination of this contract, the Contractor shall coordinate with the contracting officer to either turn over all PII managed under the contract that is in its possession to the Government or successor Contractor, or if the Government so directs, destroy the PII.

1.9.8. Data Breach Response and Notification. The Contractor shall adhere to the reporting and response requirements for PII set forth in Memorandum, Office of the Secretary of Defense, Subject: Safeguarding Against and Responding to the Breach of Personally Identifiable Information (PII), June 5, 2009, ALARCT 050/2009, DoD 5400.11-R, and any amendments. The Contractor or its Subcontractor(s) shall immediately notify the appointed Contracting Officer Representative (COR) and G2 office upon discovery that a suspected or actual breach of PII has occurred. The notification shall include, to the greatest extent possible, the identification of each individual whose PII has been or possibly has been breached. In addition, the Contractor or its Subcontractor shall provide the appointed Contracting Officer Representative (COR) and G2 office with any other available information that must be included in required breach reporting and notifications. The Contractor shall provide this information at the time of the initial notification to the Government or promptly thereafter as information becomes available. The Government will determine whether a breach of PII has occurred, and whether breach notification to affected individuals is required. If breach notification to affected individuals is required, the Government will determine if the Contractor shall make the required notification. If the Contractor is to notify the impacted population, it shall submit the notification letters to the appointed Contracting Officer Representative (COR) and G2 office for review and approval.

1.9.9. Communications Security (COMSEC). All communications with DoD organizations are subject to COMSEC review. The Contractor shall be aware that telephone communications, and

IT networks are continually subject to intercept by unfriendly intelligence organizations. DoD has authorized the military department to conduct COMSEC monitoring and recording of telephone calls originating from, or terminating at, DoD organizations. Therefore, the Contractor is advised that any time it places a call or receives a call it is subject to COMSEC procedures. The Contractor shall assume the responsibility for ensuring wide and frequent dissemination of the above information to all employees dealing with DoD information. The Contractor shall be aware of, and abide by, all Government regulations concerning the authorized use of the Government's computer network (i.e. viewing pornographic material or restricted/subversive sites on the web), including the restriction against using the network to recruit Government personnel or advertise job openings.

1.9.10. Security Training Requirements. In accordance with the PWS, all Contractor personnel shall complete Antiterrorism (AT) Level I Awareness training, Government provided Sexual Harassment/Assault Response Prevention (SHARP) training and Threat Awareness and Reporting Program (TARP) training. All Contractor employees working IA/IT functions must comply with DoD and Army training requirements in DoDD 8570.01, DoD 8570.01-M, and AR 25-2 within six (6) months of appointment to IA/IT functions.

1.9.10.2. **Army Training Certification Tracking System (ATCTS) Registration for Contractor Employees Who Require Access to Government Information Systems.** All Contractor employees with access to a Government Information System must be registered in the ATCTS (Army Training Certification Tracking System) at commencement of services, and must successfully complete the DoD Information Assurance Awareness prior to access to the information systems and then annually thereafter.

1.9.10.3. AT Level I Training. All Contractor employees, to include subcontractor employees, requiring access to Army installations, facilities, and controlled access areas shall complete AT Level I awareness training within five (5) calendar days after contract start date, or effective date of incorporation of this requirement into the contract, whichever is applicable. The Contractor shall submit certificates of completion for each affected Contractor employee and subcontractor employee, to the COR, within ten (10) calendar days after completion of training by all employees and subcontractor personnel. AT Level I awareness training is available at the following website: https://jkodirect.jten.mil.

1.9.10.4. **OPSEC Training**. Per AR 530-1 *Operations Security*, the Contractor employees must complete Level I OPSEC Awareness training. New employees must be trained within thirty (30) calendar days of their reporting for duty and annually thereafter. Training found at: http://cdsetrain.dtic.mil/opsec/index.htm.

1.9.10.5. **Access and General Protection/Security Policy and Procedures.** The Contractor and all associated subcontractor employees shall provide all information required for background checks to meet installation access requirements to be accomplished by installation Provost Marshal Office, Director of Emergency Services or Security Office. Contractor workforce must comply with all personal identity verification requirements (FAR Clause 52.204-9, Personal Identity Verification of Contractor Personnel) as directed by DoD, HQDA, and/or local policy. In

addition to the changes otherwise authorized by the changes clause of this contract, should the Force Protection Condition (FPCON) at any individual facility or installation change, the Government may require changes in Contractor security matters or processes.

1.9.10.6. For Contractors Requiring CAC. Before CAC issuance, the contractor employee requires, at a minimum, a favorably adjudicated National Agency Check with Inquiries (NACI) or an equivalent or higher investigation in accordance with Army Directive 2014-05. The contractor employee will be issued a CAC only if duties involve one of the following: (1) both physical access to a DoD facility and access, via logon, to DoD networks on-site or remotely; (2) remote access, via logon, to a DoD network using DoD-approved remote access procedures; or (3) physical access to multiple DoD facilities or multiple non-DoD federally controlled facilities on behalf of the DoD on a recurring basis for a period of 6 months or more. At the discretion of the sponsoring activity, an initial CAC may be issued based on a favorable review of the FBI fingerprint check and a successfully scheduled NACI at the Office of Personnel Management.

1.9.10.7. **Threat Awareness Reporting Program.** For all Contractors with security clearances. Per AR 381-12 Threat Awareness and Reporting Program (TARP), Contractor employees must receive annual TARP training by a CI agent or other trainer as specified in 2-4b.

1.9.10.8. **iWATCH Training.** The Contractor and all associated sub-contractors shall brief all employees on the local iWATCH program (training standards provided by the requiring activity ATO). This locally developed training will be used to inform employees of the types of behavior to watch for and instruct employees to report suspicious activity to the COR. This training shall be completed within sixty (60) calendar days of contract award and within sixty (60) calendar days of new employees commencing performance with the results reported to the COR NLT sixty (60) calendar days after contract award.
