AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT

1. CONTRACT ID CODE	PAGE OF PAGES
	1 | 10

2. AMENDMENT/MODIFICATION NO.	3. EFFECTIVE DATE	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. *(If applicable)*
001			

6. ISSUED BY	CODE	7. ADMINISTERED BY *(If other than Item 6)*	CODE
DLA Contracting Services Office Philadelphia - DCSO-P 700 Robbins Ave. Philadelphia, PA 19111	SP4709	SEE BLOCK 6	SP4709

8. NAME AND ADDRESS OF CONTRACTOR *(No., street, county, State and ZIP Code)*	(X)	9A. AMENDMENT OF SOLICITATION NO. / 9B. DATED *(SEE ITEM 11)*
	☒	SP4701-26-Q-3036 10/20/2026
	☐	10A. MODIFICATION OF CONTRACT/ORDER NO. / 10B. DATED *(SEE ITEM 13)*

CODE	FACILITY CODE

11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS

☒ The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers ☐ is extended, ☒ is not extended.

Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended, by one of the following methods: (a) By completing items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment your desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA *(If required)*

13. THIS ITEM ONLY APPLIES TO MODIFICATION OF CONTRACTS/ORDERS. IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.

CHECK ONE	
☐	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: *(Specify authority)* THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
☐	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES *(such as changes in paying office, appropriation date, etc.)* SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
☐	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
☐	D. OTHER *(Specify type of modification and authority)*

E. IMPORTANT: Contractor ☐ is not, ☒ is required to sign this document and return 1 copies to the issuing office.

14. DESCRIPTION OF AMENDMENT/MODIFICATION (*Organized by UCF section headings, including solicitation/contract subject matter where feasible.)*

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER *(Type or print)*		16A. NAME AND TITLE OF CONTRACTING OFFICER *(Type or print)*	
15B. CONTRACTOR/OFFEROR	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA	16C. DATE SIGNED
(Signature of person authorized to sign)		*(Signature of Contracting Officer)*	

RFQ SP4709-26-Q-3036
Amendment 001
Enterprise Vulnerability Management Program Support Services

Request for Quote (RFQ) SP4709-26-Q-3036 is amended as follows:

This amendment contains revisions (adds/changes/deletions) to the solicitation requirements.

The following responses to questions received are hereby incorporated into the RFQ:

Combined Questions & Answers - RFQ SP4709-26-Q-3036				
No.	**Page Number**	**RFQ Section**	**Question**	**Answer**
1	N/A	Contract General	To better tailor our proposed solution to address the Government's priorities, could the Government please share any known challenges, pain points, or areas for improvement experienced under the current contract? Understanding these factors will help offerors propose more effective and targeted solutions.	N/A
2	9 and 39	Section 2.3.4 and Section 3.5	Given the requirement under Factor 3 for a pre-award Transition Strategy, including specific transition planning expectations for non-incumbent offerors, would the Government consider allowing the Transition Strategy to be submitted as a separate attachment, excluded from the 10-page Technical Approach limit? This would provide all offerors a fair opportunity to demonstrate their transition capabilities while allowing non-incumbent offerors sufficient space to address transition-in, transition-out, knowledge transfer, and full-performance schedules without limiting their response to the remaining technical requirements.	Please keep all submissions to the stated 10-page limit

3	22	Section 2.6.2	The solicitation requires resumes, certifications, and signed Letters of Commitment for all proposed Key Personnel. Given the limited staffing requirement of approximately seven personnel, designating all positions as Key Personnel may inadvertently provide an advantage to the incumbent, who has established access to the existing workforce, while limiting competition from qualified non-incumbent offerors. Would the Government consider reducing the proposal-stage Key Personnel requirement to three (3) resumes, one for each Labor Category: (1) Task Order Project Manager, (2) Vulnerability Management Analyst (Application), and (3) Vulnerability Management Analyst (Web Applications)? This approach would promote fair competition while allowing the Government to evaluate qualifications across all three Labor Categories. All remaining proposed personnel would still be required to meet the applicable qualification, certification, and security requirements prior to commencing performance.	Yes, 3 resumes covering each labor category is acceptable. The PWS describes the Key Personnel Labor Categories, but not all hours for every category need to be "key personnel" hours. The PWS will be updated to more clearly reflect this.
4	N/A	Contract General	Please provide historical workload data, including the number of applications and web interfaces assessed, scans performed, assessment requests received, and average turnaround	Specific metrics on scans, web applications, urls, etc., are CUI. The estimated range of hours for required support was provided

			times, to support staffing and level-of-effort planning.	to illustrate the level of work required.
5	N/A	Contract General	Could the Government clarify how the scope of this requirement differs from the incumbent contract, including any added, removed, or modified tasks, workload, staffing expectations, tools, and deliverables, to help offerors develop an accurate technical approach and pricing?	The scope of this requirement is defined in the PWS and any offerors should only consider the requirements listed for their technical approach.
6	Page 20	PWS Section 2.6.2	The analyst requirements state that the required Computing Environment (CE) certificate may be completed within 45 days of the engagement date, while other provisions require applicable certifications before personnel start work and throughout the period of performance. Please confirm whether the 45-day allowance applies only to the CE certificate and identify which certifications must be current at proposal submission, award, and the employee's first day of work.	Only the CE has 45-day requirement. Any other certifications fall in the guidelines of the 8570/8140 programs (8140 not yet defined for contractors) and are not held to the 45-day requirement.

7	Page 3 & Page 19	PWS Sections 2.3.1, 2.3.2 & Section 2.6.2	The PWS requires the contractor to perform application and web vulnerability scanning as assigned or ticketed and provides estimated annual labor hours. However, the expected workload volume is not clearly quantified. Can the Government provide estimated numbers of applications, web assets or URLs, annual or weekly scans, and typical ticket/assessment volumes to support consistent firm-fixed-price proposals?	Specific metrics on scans, web applications, urls, etc., are CUI. The estimated range of hours for required support was provided to illustrate the level of work required.
8	Page 20	PWS Section 2.6.2	The analyst requirements state that the required Computing Environment (CE) certificate may be completed within 45 days of the engagement date, while other provisions may require applicable certifications to be current before personnel begin work. Please confirm whether the 45-day allowance applies only to the CE certificate and identify which certifications must be current at proposal submission, award, and the employee's first day of work.	Only the CE has the 45 day requirement. Any other certifications fall in the guidelines of the 8570/8140 programs (8140 not yet defined for contractors) and are not held to the 45 day requirement.
9	Page 1, Page 2	Section 1, Schedule of Supplies (Optional Transition Period)	The Schedule of Supplies identifies the optional transition period as November 1, 2029, through December 31, 2029, but describes it as a "1-Month" period with a quantity of one. Please confirm the intended duration of the optional transition period and clarify how offerors should price it.	Correction. It should read November 1, 2029 through November 30, 2029. 1 Month Transition Period

10	Page 2, Page 25	PWS Section 2.9 & Section 1, Schedule of Supplies	PWS Section 2.9 identifies an anticipated overall end date of March 31, 2029, whereas the Schedule of Supplies includes Option Period 2 through October 31, 2029, followed by an optional transition period through December 31, 2029. Please confirm the correct overall period of performance and the dates that offerors must use for pricing.	PWS was updated with new POP dates.
11	Pages 27–28, 49–50	**PWS Section 2.6.2**	The PWS states that the total annual level of effort is expected to be between 40,320 and 42,240 hours. However, the individual labor-category hour estimates listed for key and non-key personnel sum to a different total range. Please verify the correct total annual labor-hour estimate and confirm whether the individual labor-category estimates or the stated overall range should govern proposal preparation.	I can't find any reference in the PWS to 40,320 or 42,240 sums of hours. The section 2.6.2 hours sum appropriately.
12	Page 2	**Section 1 Schedule (CLINs 0001–0012)**	Section 1 lists the Base Period PoP as January 1, 2027, through October 31, 2027 (10 months) with a CLIN quantity of 10 units, yet each base-period task description states "Base Period: 12 Months". Please confirm whether offerors should price 10 monthly units for the base period and 12 monthly units for each option period, consistent with the stated periods of performance.	Section 1 on our end list the Base Period as 12 months - November 1, 2026 through October 31, 2027 (See Solicitation)

13	Pages 11, 25, 47	**PWS Section 2.3.2.2 & Section 2.6**	PWS Section 2.3.2.2 and Section 2.6 state that after-hours and weekend work may be required for operational needs and authorized service interruptions at no additional cost to the Government. Please clarify whether continuous on-call coverage or scheduled after-hours staffing is required, and whether the Government can provide an estimate of the expected frequency or hour baseline for after-hours activities.	No, on-call or scheduled after-hours staffing is not requirement for this contract.
14	Pages 7, 15, 25, 29	**PWS Section 2.2 & Section 2.3**	The PWS requires contractors to sustain listed cybersecurity solutions, including managing vendor upgrades, release cycles, and capability roadmaps. Please clarify whether major technology replacements or platform migrations introduced during performance will be handled within the existing firm-fixed-price scope or addressed through a contract modification when they materially change the required level of effort.	There will be no material change to the required level of effort or hours required from this contract during any migrations of tools or platforms.
15	Pages 5, 14–15	**Section 1 Schedule (CLIN TBD) & PWS Section 2.3.13**	Section 1 lists the Optional Transition Period PoP as November 1, 2029, through December 31, 2029 (a 2-month duration), but the CLIN description identifies it as a "1-Month" period with a quantity of 1 UN. Please confirm the intended duration (1 month vs. 2 months) and clarify how offerors should price the optional transition period in Attachment 2.	Correction. It should read November 1, 2029 through November 30, 2029. 1 Month Transition Period

16	18	2.6.2	Currently, all labor categories and associated hours are designated as Key Personnel. The DLA JETS vehicle has historically limited the total number of key personnel to 20% of the total estimated level of effort in order to facilitate competition and prevent giving the incumbent an unfair competitive advantage. We respectfully request DLA revise the total number of key personnel to 20% of the total level of effort. For example, Task Order Project Manager (Key Personnel), Vulnerability Management Analyst (Web Application/ 1 FTE) (Key Personnel).	The PWS describes the Key Personnel Labor Categories, but not all hours for every category need to be "key personnel" hours. The PWS will be updated to early reflect this.
17	3, 25	Section 1 - Schedule of Supplies, 2.9 Period of Performance	The Optional Transition Period in the Schedule of Supplies is identified as 1 month, but has an associated PoP of November 1, 2029 - December 31, 2029. PWS Task 4 states that Transition will be for a period of up to 30 days after the end of the contract, "only if it does not exceed the maximum task order period of performance of 60 months." Is the Optional Transition Period expected to be November 1, 2029 - November 30, 2029? Related, given the Task Order period of period of performance is up to 3 years, should the language in Task 4 reflect 36 months rather than the 60 months?	Correction. It should read November 1, 2029 through November 30, 2029. 1 Month Transition Period

18	2–3	Section 1 – Schedule of Supplies	The Government-provided pricing spreadsheet contains five task areas and a base period plus four option periods. However, Section 1 of the RFQ identifies three priced tasks, a 12-month base period, two 12-month option periods, and an optional transition period. Will the Government provide a revised pricing spreadsheet that aligns with the solicitation's CLIN structure and periods of performance, including the optional transition CLIN?	The pricing spreadsheet is a template and can be adjusted.
19	4, 24–25	PWS §§2.1, 2.6.3.1, 2.6.3.2	PWS §2.1 references support on classified and unclassified networks, while §2.6.3.1 categorizes the project as unclassified. Please confirm whether performance will require access to classified networks or information and, if so, identify the applicable personnel clearance, Facility Clearance (FCL), and facility or on-site performance requirements.	The description in 2.1 referencing support of classified networks was only part of the broad description of the DLA Cyber Security team's responsibilities, not any reference to a contract requirement. The subsequent requirements definitions all specify only support for unclassified networks.
20	19–23	PWS §§2.6.2, 2.6.3.2	Please confirm whether all proposed Vulnerability Management Analysts must possess a favorably adjudicated Tier 5/SSBI investigation at the time of proposal submission, or whether personnel with an investigation in progress or interim eligibility may be proposed, provided the required investigation is completed before performance begins.	• Must have favorably adjudicated Single Scope Background Investigation (SSBI) at time of proposal submission.

21	4–6	PWS §§2.2, 2.3.1, 2.3.2	To support accurate staffing and pricing, please provide the historical average monthly volumes of web application assessments, application security assessments, and PCI DSS assessments, along with the approximate number of applications currently within the assessment inventory.	Specific metrics on scans, web applications, urls, etc., are CUI. The estimated range of hours for required support was provided to illustrate the level of work required.
22	5	PWS §2.3.1	Please identify the number and types of DLA systems subject to PCI DSS assessment under this task order, the applicable PCI DSS version, and whether the contractor is expected to support Self-Assessment Questionnaires (SAQs), Reports on Compliance (ROCs), or both.	Specific metrics on scans, web applications, urls, etc., are CUI. The estimated range of hours for required support was provided to illustrate the level of work required. Self-assessment questionnaires will not be a requirement, and compliance reporting is part of our PCI DSS testing process.
23	Page 22	2.6.2 Task Specific Personnel Minimum Requirements	Can the government consider reducing the number of key personnel since the ratio seems to be beyond the (25%) JETS standard?	The PWS describes the Key Personnel Labor Categories, but not all hours for every category need to be "key personnel" hours. The PWS will be updated to clearly reflect this.
24	Page 35	3.1 OFFER SUBMISSION INSTRUCTIONS	Given the abbreviated timeline for this procurement, would the government consider extending the proposal submission due date by one week to allow offerors sufficient time to develop a response?	Due to time constraints, we are unable to extend.
